How To Use This Catalog

This catalog has been prepared for students as a guide to the current policies, procedures, and academic curricula of the college. Every effort has been made to print the most current and correct information. However, every student **MUST** check with his/her advisor to verify the correct requirements for graduation. The college will not be responsible for misprints or incorrect information regarding program requirements.

This catalog is set up in sections. Listed below is an outline of the catalog.

Location map is on page 4.

The academic calendar is on page 6. A student is responsible for knowing and complying with the dates listed in the academic calendar.

The college's mission statement is on page 9.

General information on the college's history, policy statement, accreditation, and EEOC information is in the first section.

Admission information. This section details all admission requirements and policies of the college by categories. This section also lists programs that have additional admission requirements. Fees and expenses are listed here also. Included are registration and tuition fees and any other miscellaneous fees that may be applied.

Student services information can be found under "How We Help You." This section details general regulations and services that are provided for students. This section also includes financial aid and veterans affairs information.

The academic policies and procedures section details information relating to the grading policies, academic retention standards, and general academic policies relating to students.

Academic programs. This section first gives some general information concerning a program of study followed by the academic programs that Jackson State offers. Graduation policy requirements are listed next, followed by each program description. Each program includes curriculum requirements. In alphabetical order, the college/university transfer majors are listed first, then the two-year professional and technical majors, and the technical certificates of credit are listed last.

When you have selected the course of study for your academic program you will find details about the individual courses listed alphabetically by course letters. (ex. ACCT, ENGL etc.) under the section entitled "What You Can Expect."

The programs and services of Jackson State's Division of Community Education are located in the last part of this section.

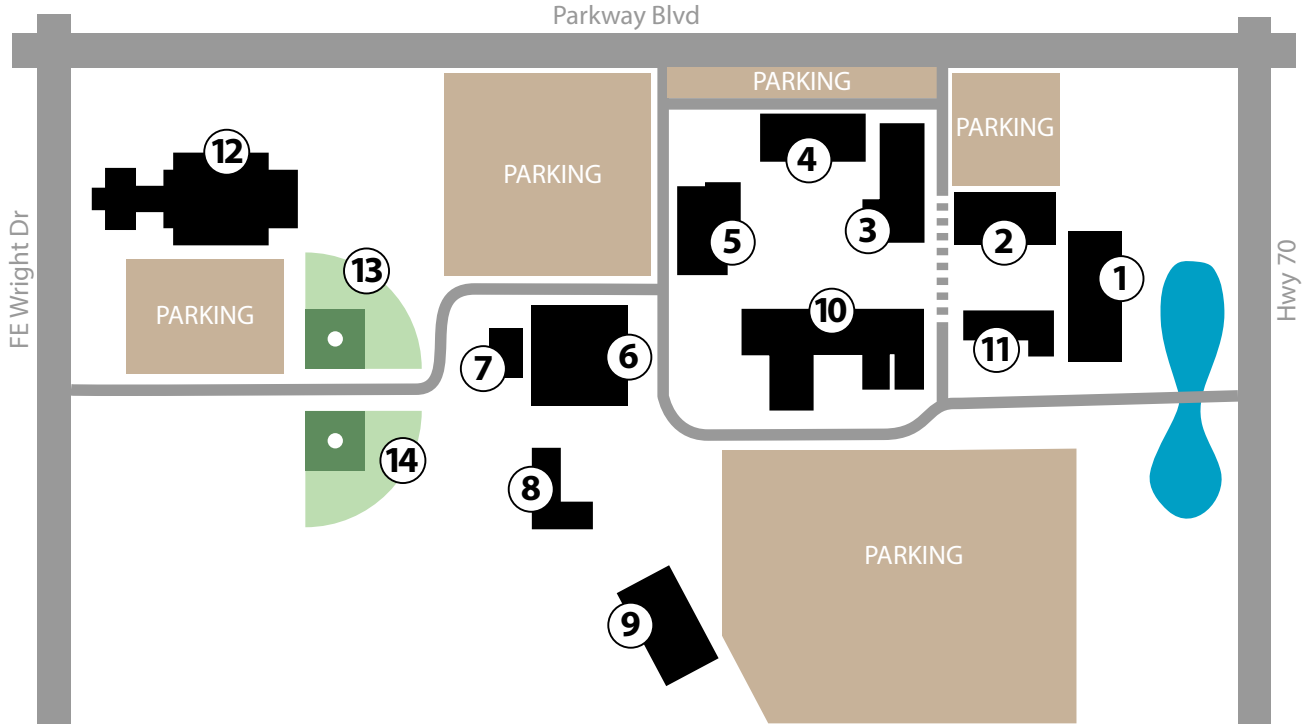

The course description section follows next in "What You Can Expect." This section lists, in alphabetical order, all courses that are offered by the college with a brief description of each course. This information also includes prerequisites or co-requisites that a course may require.

The administration, faculty, and staff section is the next to last section of the catalog. The Tennessee Board of Regents' board members are listed as well as community advisory committees.

The Student Handbook is the last section. This handbook is a valuable guide for students who attend Jackson State. It offers general information about services and expectations for the student community.

What We Look Like

Buildings And Facilities

Jackson State occupies a 97 acre main campus located in Jackson, Tennessee and maintains two college centers, in Lexington and Savannah, Tennessee. The main campus contains 80 acres of open land with wooded areas, a pond, performance area, and walkways.

The F. E. Wright Administration Building, named after the first president (1967-1976) of Jackson State and located on the Jackson campus, houses the office of the president, the office of the vice president of academic affairs, and the vice president of finance and administration. Additionally the administration building houses the college's business, human resources, institutional research and accountability, internal auditor, information specialist help desk, purchasing office, and military student center.

The Student Center is a multi-purpose facility that provides services for the college community. It houses many offices, including admissions and records, financial aid, veterans affairs, advising, student activities, the Student Government Association (SGA), campus security, counseling services, and the disability resource center. Other amenities include the bookstore and cafe. The hub of the Student Center, the Commons, offers a convenient area in which social, cultural, educational and recreational activities and events are held throughout the year. Wireless internet connectivity is available for currently enrolled student use.

The Science Building contains the departments of chemistry, physics, and biology as well as faculty offices and classrooms. Chemistry, biology, and physics laboratories, and the Frank Dodson Science Auditorium, a large multimedia lecture hall, support the extensive natural sciences and mathematics offerings at Jackson State.

The Walter L. Nelms Classroom Building is named after the second president (1976-1997) of Jackson State. This building serves as the instructional center for most of the courses in Arts and Sciences. The Math Lab is located on the first floor of this building. The print shop, institutional advancement, communications, and the office of information technology also are housed in this facility.

The Library is an information center for the college and the community. It also serves as a study area for those on campus.

The Writing Center, located within the Library, is the place for you to find help with all of your writing projects.

The Academic Assistance Center (AAC) is on the second floor of the library building. In addition to self-study and supplementary course materials, there is an open computer lab for student use.

The Frances T. Edmonson Student Life Center is located in the Student Center Building. The center is open to all students.

The Jim Moss Center for Nursing, named after the former CEO of West Tennessee Healthcare, provides over 35,000 square feet of space for classrooms, labs, conferences, student gatherings, and even a suite of rooms designed to replicate a hospital ward. The building houses state-of-the-art technology for multimedia presentations and teleconferencing, as well as patient care equipment, much of which is exactly the same as that used in area hospitals, providing students with "work-ready" skill preparation.

The Jim and Janet Ayers Center for Health Sciences provides over 40,000 square feet of space for classrooms, labs, and conferences. Large common areas are available for students to gather and study or to simply relax and enjoy the scenic views of the campus. The building provides state-of-the-art technology and facilities for all of the health science programs of the college.

The Ned R. McWherter Center for Advanced Industrial Technologies, named after a former governor of the state of Tennessee, provides facilities for Jackson State's technology programs that include technology, business, and computer information technology. The center contains computer laboratories and specialized laboratories in electronics, PLC, robotics, mechanical power, machining and metal forming. The offices of Business, Industry, and Workforce Solutions also are located in the McWherter Center.

The Gym and Music Building provides a gymnasium for physical education activity classes, a fitness center for student and staff use, classrooms, studio, and individual practice rooms for music students.

The Art Building has art studios for student art classes.

The Maintenance and Operations Building provides the workspace for various maintenance support activities including the motor pool, and central receiving for the college.

The Gibson, Lexington, and Savannah Centers are contained in academic buildings located in their respective city-county locations. These facilities each contain computer laboratories, a science laboratory, and regular classrooms. Each has a library and learning resource area, testing facilities, faculty offices and an administrative office. Each provide admission, registration, financial aid, and counseling and advising as part of their student support resources. Each center has a schedule of courses designed to meet the needs of their respective service areas.

What We Stand For

Mission

Jackson State Community College provides accessible learning opportunities that enhance the lives of individuals, strengthen the workforce, and empower our diverse communities by offering traditional and contemporary associate degrees, certificates, continuing education and enrichment, and college-readiness programs.

To fulfill the mission, JSCC offers:

- Associate degree programs and courses (Associate of Arts and Associate of Science) designed for students to complete the first two years of a bachelor's degree and to seamlessly transfer to a four-year university or college
- Associate degree and certificate programs (Associate of Applied Science and Technical Certificates) to prepare students for entry-level employment in business, industry, or healthcare.
- Lifetime learning programs and courses for students who want to continue their education, improve educational skills, or enhance personal growth.
- Workforce development programs and courses for businesses and industries to improve employee skills and promote economic development in communities served by the College.
- Academic and student support services to assist students in identification of paths for achievement of personal, academic, and career goals and to enhance the success of students in their chosen field of study.
- Fiscal and administrative services and a physical environment including integration of state-of-the-art technology in teaching and learning, educational support, and administrative services that are conducive to student learning.

Vision

JSCC will be recognized as the affordable leader in our service area for providing postsecondary education that emphasizes academic excellence, student success, and community and workforce development.

Core Values and Beliefs

INTEGRITY: We value unconditional integrity based on fairness, honesty, and the pursuit of truth.

SERVICE: We value service to the student in the areas of academic, personal, and professional development and leadership in the community through the stimulation of economic growth and quality of life.

EXCELLENCE: We strive for high quality and effectiveness in education, communication, and leadership while accepting responsibility and accountability in all our endeavors.

EDUCATION: We value higher education as the key to a better quality of life. Jackson State is the foundation. We value learning and the continuous pursuit of knowledge. To this end, we provide a learner-centered, affordable opportunity to our students and community.

WE BELIEVE IN PEOPLE: We are committed to building and maintaining quality relationships among our faculty, staff, students,

and the communities we serve. Teamwork and mutual respect are powerful forces.

WE BELIEVE IN SUCCESS: We strive to provide the tools and the expertise to educate the whole student in order that each may reach his/her fullest potential.

WE BELIEVE IN INNOVATION: We are committed to positive change while continuing to honor and safeguard our institutional history.

WE BELIEVE IN LEADERSHIP: We are committed to assuming leadership roles in our greater community as well as on our campus, while accepting the responsibilities and accountability expected of leaders. We strive to enable our students to become the leaders of tomorrow.

ACCREDITATION: Jackson State is accredited by the Southern Association of Colleges and Schools Commission on Colleges, 1866 Southern Lane, Decatur, Georgia 30033-4097; 404-679-4500 to award the Level I Associate Degree. Inquiries to the Commission should regard only accreditation status. Career programs in the Health Sciences are accredited by agencies recognized by the U.S. Department of Education.

GOVERNANCE: Jackson State Community College is a public, nonresidential institution of higher education governed by the Tennessee Board of Regents, The College System of Tennessee.

SERVICE AREA: Jackson State's physical community consists of a 14 County service area in predominantly rural West Tennessee. Through locally-developed online courses, and off campus centers in Lexington and Savannah, the College also serves students from across the state of Tennessee as well as from many other states and some foreign countries.

General Information

History: In 1963, the Tennessee General Assembly responded to recommendations made in the Pierce-Albright Report by establishing a group of state community colleges. Jackson State was selected as the first such institution in West Tennessee.

Dr. F.E. Wright was appointed the first president of Jackson State on March 15, 1967, and served the institution with distinction until his death on May 15, 1976. Dr. Walter Nelms assumed the presidency in July of 1976 and led the college toward continued progress until his retirement in June of 1997. In July of 1997, Dr. Charlie D. Roberts, Jr., became Jackson State's third president and continued the journey to bring greater opportunities to the people of West Tennessee until his retirement in February of 2004. In February 2004, Dr. Bruce Blanding began his tenure to lead Jackson State to a greater fulfillment of its vision to serve as the community's college until his retirement in 2016. In January 2017, Dr. Allana Hamilton was appointed as the fifth president of Jackson State Community College. She continued to build on the college's commitment to student success and strengthening community partnerships until her transfer to the role of Vice Chancellor for Academic Affairs at the Tennessee Board of Regents in October 2019.

In June 2020, Dr. George Pimentel was appointed the 6th president of Jackson State Community College.

Jackson State has continuously enrolled students since September 29, 1967.

Catalog Policy Statement: The course offerings and requirements of the institution are continually under examination and revision. This catalog presents the offerings and requirements in effect at the time of publication, but is no guarantee that they will not be changed or revoked. However, adequate and reasonable notice will be given to students affected by any changes. This catalog is not intended to state contractual terms and does not constitute a contract between the student and the institution.

The institution reserves the right to make changes as required in course offerings, curricula, academic policies and other rules and regulations affecting students to be effective whenever determined by the institution. These changes will govern current and formerly enrolled students. Enrollment of all students is subject to these conditions.

The College provides the opportunity for students to increase their knowledge by providing programs of instruction in the various disciplines and programs through faculty who are qualified for teaching at the college level. The acquisition and retention of knowledge by any student is, however, contingent upon the student's desire and ability to learn and his or her application of appropriate study techniques to any course or program. Thus, Jackson State must necessarily limit representation of student preparedness in any field of study to that competency demonstrated at that specific point in time at which appropriate academic measurements were taken to certify course or program completion.

Public Information:

All college news should be channeled through the Communications Office, (731) 425-2652 or pr@jsgcc.edu. Students, faculty, and administrative staff members are encouraged to use the service for promotion of campus events.

Equal Employment Opportunity and Affirmative Action

It is the intent of Jackson State to comply fully with all parts of Executive Order 11246 dated September 24, 1965, any executive order amending such order, and any other executive order superseding such order. It also is the intent of the college to comply with Title VI of the Civil Rights Act of 1964 as amended, and Title IX of the Education Amendments of 1972. It is the policy of the administration of Jackson State that all decisions regarding recruitment, hiring, promotion, and all other terms and conditions of employment will be made without discrimination on the basis of race, color, religion, creed, ethnic or national origin, sex, sexual orientation, gender identity/expression, disability, age (as applicable), status as a protected veteran, genetic information, and any other category protected by federal or state civil rights law with respect to all employment, programs and activities

sponsored by the College. The college administers affirmative action to assure that applicants are employed and treated during employment without regard to the factors listed previously. Organizational structures and monitoring systems are established and assure effective operation of the affirmative action program, achievement of its goals, and modification of the plan as appropriate to those ends.

Title VI

Title VI of the Civil Rights Act of 1964 is the federal law that protects individuals from discrimination on the basis of race, color, religion, creed, ethnic or national origin, sex, sexual orientation, gender identity/expression, disability, age (as applicable), status as a protected veteran, genetic information, and any other category protected by federal or state civil rights law under any program or activity receiving federal financial assistance. Inquiries or complaints related to Title VI should be referred to the Director of Compliance and Risk, room 125B Administration Building, (731) 424-3520, ext. 50326.

Title IX

Jackson State does not discriminate on the basis of sex, sexual orientation, or gender identity/expression in its education programs or operations, including employment therein and the admission of students thereto. Jackson State is required by Title IX of the Education Amendments of 1972, and regulations issued pursuant thereto (45 C. F. R., Part 86 and by Section 799A and 845 of the Public Health Service Act, and regulations issued pursuant thereto), not to discriminate in such manner. Inquiries concerning the application of the acts and regulations of Jackson State may be referred to the Director of Compliance and Risk, room 125B, Administration Building, (731) 424-3520, ext. 50326.

Special Facilities for Persons with Disabilities

It is the policy of Jackson State to provide facilities that are accessible to the disabled. These facilities include, but are not limited to, elevators, curb cuts, specially equipped rest rooms, special parking, public telephone service, water fountains, entrance ways, and classroom tables as needed. It also is the policy of Jackson State to eliminate any physical barriers that may exist because of special situations that involve disabled persons. To report such barriers or for further information, contact the Director of Physical Plant, (731) 425-2617.

Americans with Disabilities Act

Jackson State does not discriminate on the basis of disability in the admission and access to academic programs, services, or employment. The college has adopted an internal grievance procedure providing for prompt and equitable resolution of complaints alleging any action prohibited by the U.S. Department of Justice regulations implementing Title II of the Americans with Disabilities Act. Title II of the Act states, in part, that "no otherwise qualified disabled individual shall, solely by reason of such disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination" in programs or activities sponsored by Jackson State. Complaints should be directed to the Dean for Students (731) 424-3520 ext. 50354.

Miscellaneous and General Information

Students and prospective students may obtain information concerning the institution, instruction, educational costs, financial aid, and rules and regulations, which have not been covered by this catalog, by contacting the appropriate office or the Office of Institutional Research & Accountability, Administration Building, (731) 425-2638.

Institutional Review Board

The Jackson State Community College Institutional Review Board (IRB) monitors all research conducted on the JSCC campus in order to protect student/employee information. Anyone interested in conducting research using JSCC data or surveys of JSCC students or employees must apply with the JSCC IRB. This includes students and employees. For more information on the IRB and for ways to apply to conduct research, visit <https://www.jsc.edu/about-jackson-state/administration/institutional-research-and-accountability/institutional-review-board/> or email anelms@jsc.edu.

Reporting Fraud, Waste, or Abuse at Jackson State Community College

State law requires all public institutions of higher education to provide a means by which students, employees, or others may report suspected or known improper or dishonest acts. In addition, Jackson State Community College is committed to the responsible stewardship of our resources. Whether you are part of departmental management, a faculty or staff member, a student, or an interested citizen, we encourage you to report known or suspected dishonest acts by employees, outside contractors, or vendors.

What Should I Report?

Dishonest acts, either known or suspected, should be reported, such as:

- Theft or misappropriation of funds, supplies, property, or other institution resources
- Forgery or alteration of documents
- Unauthorized alteration or manipulation of computer files
- Improper and wasteful activity
- Falsification of reports to management or external agencies
- Pursuit of a benefit or advantage in violation of institution's conflict of interest policy
- Authorization or receipt of compensation for hours not worked

Think Before You Speak!

Before making allegations of dishonesty, be reasonably certain of any claims. Such allegations can seriously and negatively impact the accused individual's life and adversely affect the working environment of the department.

Several reporting options are available to all Jackson State Community College employees, students and others for reporting known or suspected dishonest acts.

You may report your concerns to:

- Your supervisor or department head
- Lexington-Henderson County, (731) 968-5722 sstanfill@jsc.edu
- Savannah-Hardin County,(731) 925-5722 jrhodes@jsc.edu
- JSCC Internal Audit (731) 424-3520, ext.52611
- The Tennessee Board of Regents by e-mail at ReportFraud@tbr.edu
- The Tennessee Comptroller's Hotline for Fraud, Waste and Abuse at 1-800-232-5454 or <https://apps.cot.tn.gov/ANTS/Submission/Submit>

If you are a supervisor, department head, or campus official and you receive a report of a dishonest act, contact Internal Audit at (731) 424-3520, ext.52611 for further assistance.

Investigations

When Internal Audit receives allegations of dishonesty or other irregularity by an employee, outside contractor, or vendor, they are required to conduct an investigation. Departmental management should not attempt to conduct investigations nor alert suspected employees of an impending investigation. In an investigation, objectives include verifying the facts, maintaining objectivity and confidentiality, determining responsibility, and recommending corrective actions to help ensure that similar actions do not occur in the future.

Protection under State Law

As Internal Audit investigates allegations of dishonesty, the reporting individual's confidentiality is protected under Tennessee Code Annotated Title 10, Chapter 7 (subject to court action requiring disclosure). If TBR has a separate legal obligation to investigate the complaint (e.g. complaints of illegal harassment or discrimination), TBR and its institutions cannot guarantee anonymity or complete confidentiality. Also, state law prohibits discrimination or retaliation of any kind against employees who report allegations of dishonest acts.

Reporting Responsibility

Internal Audit has reporting responsibility to the Audit Committee of the Tennessee Board of Regents through the Director of System-wide Internal Auditing. This reporting relationship enables them to independently and objectively review matters involving any level of administration at Jackson State Community College.

Preventing Fraud, Waste and Abuse

Jackson State Community College's management is responsible for establishing and implementing systems and procedures to prevent and detect fraud, waste, and abuse. The basic elements of a proper control system include: creating a culture of honesty and high ethics; evaluating risks and implementing processes, procedures and controls to prevent, deter and detect fraud, waste and abuse; and developing an appropriate oversight process. Please contact Internal Audit at (731) 424-3520, ext.52611 if you need assistance in reviewing risks, processes, procedures or controls.

Accrediting Agencies

Jackson State is accredited by the Southern Association of Colleges and Schools Commission on Colleges, 1866 Southern Lane, Decatur, Georgia 30033-4097; 404-679-4500 to award degrees at the associate level. Inquiries to the Commission should regard only accreditation status.

The Business Program maintains accreditation by the Associate Degree Commission of the Association of Collegiate Business Schools and Programs (7007 College Boulevard, Suite 420, Overland Park, Kansas 66211, (913) 339-9956.)

The EMT and Advanced EMT Program at Jackson State maintains accreditation by the Tennessee Department of Health, Division of EMS (227 French Landing, Suite 303, Heritage Place, Metro Center, Nashville, TN 37243, (615) 741-2584, 1-800-778-4505.)

The Engineering Systems Technology Program and all of its concentrations were granted accreditation by the Association of Technology, Management and Applied Engineering (ATMAE - 701 Exposition Place, Suite 206, Raleigh, North Carolina, 27615, 919-635-8335 in 2003. ATMAE recognizes the excellence offered by our experienced faculty, facility and learning centered environment.

The Medical Laboratory Technician Program at Jackson State maintains accreditation by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS- 5600 N. River Road, Suite 720, Rosemont, IL 60018, (773) 714-8880.)

The Nursing Program maintains accreditation by the Accreditation Commission for Education in Nursing (ACEN) (3390 Peachtree Road, NE, Suite 1400, Atlanta, GA 30326, (404) 975-5000) and full approval status by the Tennessee Board of Nursing.

The Occupational Therapy Assistant Program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 6116 Executive Boulevard, Suite 200, North Bethesda, MD 20852-4929. ACOTE's telephone number c/o AOTA is (301) 652.AOTA. www.acoteonline.org Graduates of the program will be eligible to sit for the national certification examination for the occupational therapy assistant administered by the National Board for Certification in Occupational Therapy (NBCOT). After successful completion of this exam, the individual will be a Certified Occupational Therapy Assistant (COTA). In addition, all states require licensure in order to practice; however, state licenses are usually based on the results of the NBCOT Certification Examination. Note that a felony conviction may affect a graduate's ability to sit for the NBCOT certification examination or attain state licensure.

The Paramedic Program is accredited by the Commission on Accreditation of Allied Health Education Programs www.caahep.org upon the recommendation of the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP). Commission on Accreditation of Allied Health Education Programs 1361 Park Street, Clearwater, FL 33756, Phone: (727) 210-2350), www.caahep.org To contact CoAEMSP: 8301 Lakeview Parkway Suite 111-312, Rowlett, TX 75088, Phone: 214-703-8445; Fax: 214-703-8992; www.coaemsp.org

The Physical Therapist Assistant Program at Jackson State is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 3030 Potomac Avenue, Suite 100, Alexandria, VA 22305-3085, 703/706-3245; email: accreditation@apta.org; website: <http://www.capteonline.org> If needing to contact program/insitution directly, please call 731-424-3520 ext. 50214 or email fingram3@jssc.edu

The Radiologic Technology Program at Jackson State maintains accreditation by the Joint Review Committee on Education in Radiologic Technology (JRCERT- 20 N. Wacker Drive, Suite 2850 , Chicago, IL 60606-3182, Phone: (312) 704-5300, email: mail@jrcert.org)

The Respiratory Care program, CoARC program number 200626, Associate of Applied Science degree, main campus holds Provisional Accreditation from the Commission on Accreditation for Respiratory Care (www.coarc.com). This status signifies that a program with an Approval of Intent has demonstrated sufficient compliance with the Standards (through submission of an acceptable Provisional Accreditation Self Study Report (PSSR) and any other documentation required by the CoARC, as well as satisfactory completion of an initial on-site visit), to be allowed to admit students. It is recognized as an accredited program by the National Board for Respiratory Care (NBRC), which provides enrolled students who complete the program with eligibility for the Respiratory Care Credentialing Examination(s). The program will remain on Provisional Accreditation until it achieves Continuing Accreditation. Commission on Accreditation for Respiratory Care, 264 Precision Blvd. Telford, TN 37690; (817) 283-2835.

What is Required

Student Responsibilities

All Jackson State students are responsible for obtaining and/or referencing online a Jackson State Catalog and Handbook and being familiar with its contents. Students are responsible for following the policies, processes, and guidelines in the catalog and handbook as well as for knowing and complying with the dates when things are due, such as payment of fees, registration, and graduation proposals. It is the student's responsibility to know and comply with the dates by which action must be initiated, such as last day to add a course, last day to drop a course, and last day to withdraw from classes. Such information is in the catalog and on the web.

All students must know the graduation requirements for their major. If a student is planning to transfer to a college or university, he/she needs to know the requirements for graduation for that school and select courses at Jackson State accordingly. The student is responsible for providing appropriate test scores and transcripts and for making and keeping appointments with advisors. The student is responsible for supplying current address and phone numbers to the Admissions and Records Office. The student also is responsible for confirming his/her intent to attend the classes for which they have pre-registered by paying fees or authorizing the application of financial aid or third-party resources toward payment of fees on or before the term's last day to pay, as published in the catalog and on the website. The student must learn to access their JSCC e-mail account and is responsible for communicating with instructors regarding progress and attendance. Everyone in the Jackson State community is expected to support safety at the college by reporting any suspicious activity or concerns, no matter how slight, to the JSCC Police Department at (731) 225-5952.

There are many support resources available to the Jackson State student and he/she is responsible for making use of these.

Admission Information

Obtain applications as well as additional admissions information:

- By calling (731) 425-2654 or 1-800-355-5722.
- By using the Jackson State web site: www.jsc.edu/admissions
- By visiting the Admissions and Records Office in the Student Center.
- By applying at the Savannah or Lexington Centers.

Admissions Requirements

Jackson State Community College is committed to serve the post-secondary educational needs of the community. The College develops specific admissions policies consistent with the TBR policy. The College provides opportunities for collegiate education to all qualified applicants without regard to race, color, gender, sexual orientation, religion, national origin, age, veteran status, or disability. In order to be admitted as a credit student, individuals must meet the requirements of admission to the category for which they are applying.

Degree Admission

Applicants seeking admission to Jackson State to enroll in credit courses for a degree must comply with the following requirements:

- Submit a completed application for admission.
- Provide official academic transcripts and test scores as applicable.

Admission of First-Time Freshmen

Graduation from high school

Except as provided for below in the section on high school equivalency diploma, applicants for degree admission as first-time freshmen must provide an official transcript showing graduation from high school. The high school transcript must be a "regular" or "honors" diploma. A special education diploma or certificate does not meet this requirement. The transcript of a graduate of a Tennessee public high school must include a notation that the student passed the required proficiency examination

High School equivalency diploma

Applicants for degree admission as first-time freshmen may present a high school equivalency diploma in lieu of a high school diploma provided that their composite scores meet the College's requirements.

Standardized examination scores

Applicants for admissions as first-time freshmen must submit valid ACT or SAT scores or be placed into the appropriate co-requisite learning support courses with the option to take the Accuplacer challenge test. Valid ACT or SAT scores are those earned within five years prior to the first day of class for the first term of enrollment.

Admission of Transfer Students

Any degree-seeking applicant who has attended another college or university shall be considered a transfer student. Transfer students who earned credits but not a degree at another college and are eligible for readmission to the last institution attended are eligible for admission to Jackson State. Those who do not meet the readmission standards of the last institution attended may be admitted on academic probation or other established condition.

Transfer students must meet the criteria outlined above for degree admission and must submit to Admissions and Records official transcripts from each school previously attended.

Readmission to Jackson State

A student who has not attended Jackson State continuously (not counting summer term) must complete a new admissions application. If the student has attended any other college(s) since leaving Jackson State, he or she must submit complete official transcript(s) from the college(s) attended in addition to the admissions application. Failure to provide official college transcripts and report all institutions attended will result in delay of financial aid processing.

Placement Testing

For placement in college level courses, applicants must meet one of these criteria:

- Applicants who do not present valid ACT, SAT, or other approved valid assessment scores, that demonstrate college readiness based upon established cut scores, or other documentation to the contrary, will be placed into the appropriate co-requisite learning support course(s) or interventions for reading, writing, and/or mathematics as defined by the academic program requirements.
- Transfer students whose previous academic records from a college or university indicate college-level English, Mathematics and Reading proficiency will be considered for regular admission. Students whose records do not include transfer credit in English, Mathematics or reading intense courses will be placed in correlating corequisite learning support and college-level courses with an opportunity to take the Accuplacer to challenge that placement.

International High School/College Transcripts

Students who have attended an international high school, college or university must provide all transcripts and other credentials written in English or accompanied by an English translation and certified as official copies. If transfer credit is requested, the academic transcripts must be evaluated by an educational credential service that is a member of the National Association of Credential Evaluation Services (NACES). Transfer credit awarded will take into consideration the credit recommendations provided by the educational credential service.

Non-Degree Admission

General requirements for all non-degree applicants

A non-degree-seeking student is one who is not working toward a degree. To be admitted as an undergraduate non-degree-seeking student, a person must hold a regular high school diploma or a high school equivalency diploma. Exceptions may be made as listed in the high school section below. Non-degree-seeking students must (1) meet entry-level standards for each course in which they enroll, (2) be able to complete assignments, and (3) be able to read and write at the required level.

Non-degree students who wish to take college-level English or math courses or to take another college-level course that is the second course in a two-course sequence (e.g., Accounting I and II) must (1) provide evidence that they have successfully completed all college-level prerequisites or (2) provide evidence of other equivalent experiences before enrolling. Non-degree students are not eligible for financial aid.

High School Students

Dual Enrollment of High School Students

Dual enrollment is the enrollment of a high school student in one or more college courses for which the student is eligible to earn both high school and college credits. The Dual Enrollment program is a cooperative effort between Jackson State and high schools in our designated service area counties and qualified home school students. Qualified high school students may accelerate their college education through dual enrollment courses; all requirements of both the high school and Jackson State must be met by students participating in the program.

Dual enrollment students are classified as non-degree seeking students who must meet entry-level standards for each course in which they enroll.

General Requirements

Residency Classification

Upon a student's admission to the College, Admissions and Records classifies each student as resident or nonresident.

In order to comply with the Tennessee Eligibility Verification of Entitlements Act, Jackson State must verify the citizenship or lawful presence of students who apply for admission and are assigned a residency category that is eligible for state benefits. State benefits include in-state tuition, lottery scholarship, academic scholarship, or any other form of tuition assistance or waiver funded with state-appropriated funds.

If the initial assessment of records indicates nonresident status, an application for in-state residency is available on the Admissions and Records website. Proof of relevant facts regarding residency must be included with the application.

Admission of International Applicants

International applicants who plan to study in the United States on an F-1 student visa must:

- Submit all required admission documentation by the deadline published on the Admissions webpage for International Students. Exceptions to the deadline may be granted by a Jackson State Student and Exchange Visitor Program Designated School Official.
- Provide proof of language proficiency:
- A minimum score on the paper, computer or internet based TOEFL (Test of English as a Foreign Language) or
- A minimum score on the IELTS (International English Language Testing System) or
- A passing score on the Michigan test or
- A transcript showing graduation from an American high school or
- A transcript from another U.S. institution showing a C grade in college English composition
- Provide all transcripts, test scores, and other credentials written in English or accompanied by an English translation and certified as official copies. Students who have attended international colleges or universities and request to be awarded transfer credit must have their academic transcripts evaluated by an educational credential service that is a member of the National Association of Credential Evaluation Services (NACES). Copies of the credit recommendations from the educational credential service must be provided, in addition to copies of English translated transcripts from colleges/universities attended. Transfer credit awarded will take into consideration the credit recommendations provided by the educational credential service.
- Provide evidence of sufficient financial resources to pay for the cost of one full year of school attendance and 12 months of living expenses in U.S. currency. The financial verification documentation must be current within six months, and must be issued by a financial institution.
- Provide documentation substantiating official status with the United States Customs and Immigration Service.
- Provide a copy of their passport, which must be valid for at least 6 months from the first day of classes.
- Submit within 30 days from the first day of classes a certificate from a licensed physician or other qualified medical authority verifying freedom from tuberculosis. Failure to submit such certification shall result in denial of admission or of continued enrollment. In the event that a student has tuberculosis or has potential tuberculosis requiring medical treatment, continued enrollment will be conditional upon the determination by a licensed physician that further enrollment is not a risk to others and upon the student's compliance with any prescribed medical treatment.

- As a condition of admission and continued enrollment, students must provide proof of enrollment in an approved health insurance policy by the first day of classes.

Current test score and financial requirements can be found on the Admissions webpage for international students.

Additional Information for Admission

Graduates of non-public high schools (including private schools, home schools, and church-related schools) must submit an official transcript showing credits earned and date of graduation.

Official transcripts for home schooled students must be an official copy from an affiliated organization as defined by state law (TN Code Annotated 49-50-801), or be accompanied by certification of registration with the superintendent of the local education agency which the students would otherwise attend. Students unable to provide a satisfactory secondary school credential may substitute acceptable high school equivalency scores.

Undocumented aliens must pay out-of-state fees.

Selective Service: All U.S. males between the ages of 18 and 26 must complete selective service statements.

Campus Sex Crimes Prevention Act: The federal Campus Sex Crimes Prevention Act and the Tennessee College and University Campus Sex Crimes Prevention Act of 2002 require that whenever a sex offender becomes employed, enrolls as a student or volunteers at an institution of higher education in the state of Tennessee, he or she must complete or update the Tennessee Bureau of Investigation (TBI) sexual offender registration, monitoring form and deliver it to TBI headquarters in Nashville. (See the Student Handbook for more information.)

Senior Citizen Credit Classes: Persons 65 years and older and disabled persons as defined in Chapter 28 of the Public Acts of 1977, may enroll in courses for credit without payment of tuition charges or registration fees. A service fee of \$70, in addition to online course fees and campus access fees, will be charged for the purposes of helping to defray the cost of keeping the records of such students. This privilege may be limited or denied by the college on an individual classroom basis according to space availability. Persons 65 years and older and disabled persons enrolling for credit must meet the requirements for regular admission.

Senior Citizen Audit Classes: Persons 60 years and older who are domiciled in Tennessee may audit courses at Jackson State without paying tuition charges, maintenance fees, student activity fees, or registration fees. This privilege may be limited or denied by the college on an individual classroom basis according to space availability. Senior citizens applying for audit will be required to complete an admissions application.

Fraudulent Academic Records

Effective July 1, 2003, the misrepresentation of academic credentials is classified as a Class A misdemeanor. This occurs when a person knowingly represents, either orally or in writing a “false statement” to obtain employment at or admission to an institution of higher education in Tennessee. Public Acts, 2004 (Chapter 825).

Academic Fresh Start

Academic Fresh Start is a plan of academic forgiveness which allows undergraduate students who have experienced academic difficulty to make a clean start upon returning to college after an extended absence.

The Academic Fresh Start allows eligible students to resume study without being penalized for his/her past unsatisfactory scholarship and signals the initiation of a new QPA/GPA to be used for determining academic standing.

Readmitted students who were formally enrolled in the institution as well as transfer students who meet institutional requirements for admission and who have been separated from all institutions of higher education for a minimum of four (4) years are eligible for the Fresh Start.

Institutional policies governing the readmission of former students and admission of transfer students must be in compliance with TBR policy 2:03:00:00 Admissions.

This policy requires that the "transfer applicant's grade point average on transferable courses must be at least equal to that which the institution requires for the readmission of its own students.

Applicants who do not meet the institution's standards may be admitted on scholastic probation or other appropriate condition. (2:03:00:00 Section 11.B.3.)

Each institution may establish an Academic Fresh Start provision which must meet the following minimum criteria:

Student Requirements

- Separation from all collegiate institutions for at least four (4) years.
- Anytime after the readmission or admission as a degree-seeking student, file a formal application to the office as defined by the institution's catalog requesting the Academic Fresh Start and describing an academic plan.

Terms of the Academic Fresh Start

- Once the student has satisfied the above requirements, the institution may grant the Academic Fresh Start. The student may be granted a Fresh Start only once.

- The student's permanent record will remain a record of all work; however, courses taken and previously failed will be excluded from the calculation of the QPA/GPA. Courses with a D grade will also be excluded from the calculation when a grade of C or better is required in the student's current major. QPA, GPA and credit hours will reflect courses for which passing grades were earned and retained.
- Retained grades will be calculated in the Fresh Start QPA/GPA.
- Courses with D or F grades must be repeated at the institution when they are required in the student's current major. All remaining courses for the current degree objectives must be completed at the institution. No transient credit will be accepted after invoking Academic Fresh Start.
- The application of retained credit toward degree requirements will be determined by the requirements currently in effect at the time the academic renewal status is conferred on the student. Specific program regulations must also be met.
- Previously satisfied Assessment and Placement Program (COMPASS) requirements will not be forfeited.
- Upon degree admission, Fresh Start applicants who did not satisfy COMPASS requirements at the time of previous enrollment and whose academic plan includes completion of a college-level English or mathematics course must meet current Academic Assessment and Placement Program (COMPASS) requirements regarding enrollment in college English and mathematics courses.
- The student's transcript will note that the Fresh Start was made and the date of the Fresh Start.
- The student will apply for the Fresh Start with the understanding that all TBR institutions will honor a Fresh Start provision granted at another TBR institution. The student should also signify understanding that non-TBR institutions may not accept the QPA as it is calculated with the Fresh Start.
- This policy is independent of financial aid regulations. Financial aid requirements at the time of application will apply. Therefore, a Fresh Start applicant should check with his/her financial aid counselor for guidance.

Additional Admission Information for Health Sciences and Nursing

Because of accreditation regulations and limited clinical space, Jackson State’s health sciences and nursing programs have limited enrollments and specific additional admission requirements for each program. Therefore, applicants must submit an application for admission to both Jackson State and the program of interest.

Application deadline dates are as follows:

Emergency Medical Tech.-Paramedic	July 1
Medical Laboratory Technician	June 1
Nursing	March 1 (fall) or September 1 (spring)
LPN to RN Career Mobility	Feb. 1 (summer)
Occupational Therapy Assistant	June 1
Physical Therapist Assistant	June 1
Radiologic Technology	June 1
Respiratory Care	June 1

If the number of qualified applicants falls below the maximum enrollment, the admission date may be extended for new applicants. Applications for admission to a program are considered for one application period only; applicants wanting to be considered for admission to the next entering class must submit a new application.

Students are admitted on the basis of their educational qualifications, including cumulative grade-point average, evidence of acceptable mathematics and science background, and test scores. Preference may be given to applicants who exceed the minimum requirements. In addition, the Health Sciences programs conduct personal interviews with qualified applicants as part of the admissions process.

Since Jackson State is a state-supported institution and enrollment in the programs is limited, state residents will be given preference in the student admission process. Students admitted to the program will be required to provide evidence that they are in good health and free from communicable diseases.

Background checks and drug screens may be required by the program clinical affiliate sites prior to beginning clinical training. Based on the results of these checks, a clinical training site may determine to not allow your presence at their facility. This could result in your inability to successfully complete the requirements of the program. Additionally, a criminal background and some other background check findings may preclude licensure or employment. More information is available from the program’s department.

New classes, with the exception of nursing, begin each fall with maximum enrollment for each program as indicated below:

- Emergency Medical Technician-Paramedic: 35 students in the first year of the program
- LPN to RN Career Mobility: 24 students in the Summer
- Medical Laboratory Technician: 18 students in the first year of the program
- Nursing: 60 students in the fall; 60 in the spring
- Physical Therapist Assistant: 24 students in the first year of the program
- Radiologic Technology: 25 students in the first year of the program
- Respiratory Care: 16 students in the first year of the program

See each Program’s description for specific general education requirements.

Learning Support Program (LSP)

Philosophy. Proper placement leads to academic success. Academic success leads to retention and graduation.

Assessment and Placement Procedures

- Learning Support (LS) Program co-requisite courses are designed to help students succeed.
- Students pay a nonrefundable/nontransferable \$20 fee in the Business Office.
- Degree-seeking students needing LS co-requisite courses must enroll in and satisfactorily complete those courses during their initial terms of enrollment.
- LS courses passed at non-TBR institutions do not automatically transfer to JSCC. Placement testing may be required.

Screening by ACT/SAT or ACCUPLACER

- Assessment decisions are based on valid ACT/SAT or Accuplacer scores.
- Valid ACT/SAT or Accuplacer scores are those earned within five years prior to the first day of a student’s entering term.
- No assessment is required of any student with a valid ACT composite score of 26 or higher.
- Entering students who have no ACT or SAT scores will have the option to take the Accuplacer exam or be placed into Learning Support courses.
- Transfer students entering without transferable, college-level English composition credit have the option to be assessed in writing or be placed into Learning Support courses.
- Transfer students entering without transferable, college-level credit from a reading-intensive general education course have the option to be assessed in reading or be placed into Learning Support courses.
- Students entering without transferable, college-level mathematics credit have the option to be assessed in mathematics or be placed into Learning Support courses.

Screening Adjustments

- Students who are not required to undergo assessment may request testing.
- Instructors may recommend testing for students who did not undergo assessment but later showed deficiencies.

Attendance. Attendance is mandatory in both the college level and co-requisite LS course. Instructors may impose grade penalties at their discretion for students' absences. Student absences may be reported to the appropriate Dean for review.

Drops and Withdrawals. Persistence in Learning Support is essential. Student goals will be delayed, and there may be financial aid consequences for withdrawing from Learning Support. Students who need to drop the LS co-requisite lab must also drop the linked college level course. Students enrolled in Learning Support may not drop these classes without the approval of the appropriate Dean. Students who are withdrawing from college, that is, from all their classes, may do so by following the appropriate withdrawal procedures.

Credit Hours. Credit hours earned in LS classes may not be used to meet any degree requirement. These credits are institutional credit only. The grades made in LS classes become part of the academic record.

Grade Assignments. Letter grades assigned to LS classes are S (Satisfactory), U (Unsatisfactory), or W (Withdraw). Grades of "U" and "W" are considered as attempts. Students may not receive a "W" without permission of the appropriate Dean. Students receiving Veterans Affairs (VA) benefits cannot receive those benefits for on-line LS classes.

Audit. Students may not audit LS classes.

Appeal. Students with Academic Suspension may appeal in writing to the Admissions and Standards Committee. Appeals, other than suspension, should be made directly to the appropriate Dean.

Financial Aid. Providing students are eligible, federal financial aid programs may pay for up to 30 semester hours of attempted LS co-requisite labs.

Confirmation (Challenge) Testing. Students who are placed into Learning Support co-requisite courses by ACT scores are encouraged to confirm placement in Learning Support by taking the Accuplacer, an un-timed, computerized test in math, writing, or reading. Accuplacer is offered throughout the registration period. Students must register online at jscc.edu/admissions/assessment and pay a nonrefundable and nontransferable fee of \$5 per test area (math, reading, and/or writing) to the Business Office. Because studying for the test can make a difference in placement, students are advised to visit <https://accuplacer.collegeboard.org> for Accuplacer sample questions and free study app. Confirmation testing is not available to students who have attempted LS courses in the past.

Tutoring. Free tutoring is available to all JSCC students.

- Tutoring in writing is available in the Writing Center (WC), located on the first floor of the Library. (731) 425.8848.

- The SMART Math Center, located in the Nelms Classroom Building, offers tutoring to students enrolled in learning support for math. The Math Lab offers tutoring in other math courses. No appointment is necessary in either lab.
- Students who need additional support in reading can find help in the Reading Lab in the Nelms Classroom Building.
- Tutoring in nearly all other academic areas is available in the Academic Assistance Center (AAC), located on the second floor of the Library. 731.425.2614. Students can schedule one-time or on-going tutoring.

Labs. Students have access to all open labs on any Jackson State campus. Open lab hours vary by semester and campus.

Honors Program

Jackson State, in its expanded mission to better serve students in the new century, continues to develop high quality, comprehensive, academically sound, and technologically enhanced programs that serve the community and West Tennessee. The Honors Program at Jackson State is designed to stimulate and challenge academically strong students. By enrolling in the Honors Program, students who have talent and motivation can simultaneously develop their intellectual potential and become members of their academic communities and societies.

Admission to the Honors Program requires either a cumulative GPA of 3.25 or higher or a score of 26 or higher on the ACT or an equivalent score on a comparable test. If you are interested in the Honors Program, please contact the Honors Program Coordinator, David Hart, at 731-424-3520 ext. 50365 or by e-mail at dhart10@jscc.edu. For an overview of the Honors Program visit our web site at <http://www.jscc.edu/academics/programs/honors/>

Tuition and Fees

According to TBR Guideline B-060, fees are to be paid during registration each semester. No student may be admitted to class without having met his/her financial obligations. All payments are to be made in cash, check or by credit card (VISA, MasterCard, Discover, or American Express) for the amount due. If a student's fees are to be paid by someone other than the student (such as Vocational Rehabilitation, private scholarship, employer, etc.) arrangements must be made at the Business Office before registration.

According to the Tennessee Board of Regents' Policy of Payment of Fees and Enrollment of Students 4:01:03:00, if a student pays his/her tuition in full or the first installment payment by a check that is later returned for insufficient funds (NSF), the student will be withdrawn from classes. When Business Services receives a returned check for any other payment, the student will be notified through one certified letter and charged a \$30 fine for the returned check. The student will be denied grade reports, transcripts and future registration privileges including schedule changes until the dishonored check is redeemed.

There is a \$30 fine charged for all returned checks. Returned checks must be cleared in Business Services with cash, cashier's check, money order or credit card (Visa, MasterCard, Discover, or American Express). All fines, as with any debt to the college, must be paid before

re-enrolling for future semesters. Students whose checks repeatedly are returned may be requested to pay all future financial obligations with cash.

The Tennessee Code Annotated, TCA 49-9-108, states that all colleges and universities of the State College and University System are authorized to issue diplomas, transcripts or grade reports only after the student involved has paid all debts or obligations owed to the college or university including, but not limited to, college bookstores, libraries, food service centers, etc. As a result, no student may re-enroll, graduate, or receive an official and/or unofficial transcript or grade report until all financial obligations (such as returned checks, library fines, traffic fines, etc.) are paid.

Payment Plan

Although all charges are due and payable in full at the beginning of each term, students in good financial standing at Jackson State Community College may request the deferment of up to 50% of their tuition and fees for the fall and/or spring semesters. The Nelnet Payment Plan is not available for summer terms. The payment plan is available for enrollment through the first week of the semester begin date for Fall and Spring only. Summer and late part of terms are not eligible.

Eligibility

All payment plan terms and conditions are subject to change without notice by action of the Tennessee Board of Regents. Refer to the website for current payment plan options. To be eligible for the Nelnet Payment Plan, each participant must have a balance of \$400 or more and be prepared to make a minimum down payment of 50% of the tuition and fees allowed for deferment. All financial aid awarded and disbursed (including loan funds) must be applied toward payment of tuition and fees before a deferment plan will be considered. Prior term charges and nondeferrable charges must be paid in addition to the 50% down payment.

Terms

The amount deferred will be payable in two monthly installments to be determined each semester by Business Services. Jackson State is not obligated to send reminder notices before the payment is due.

Participants in this plan must apply all discounts, waivers, credits and financial aid, including student loans, toward payment of registration fees before a deferment will be considered. Financial Aid and other credits received after the initial payment will be applied to the remaining balance, and future amounts due will be recomputed. No refunds can be made until all fees are paid in full.

Students will not be withdrawn from classes for failure to pay the 2nd or 3rd installments. However, Jackson State will withhold grades and transcripts until current payments are made. Also, the balance must be paid in full before the student can pre-register for future terms even if pre-registration is prior to the due date.

Service Charges & Fines

Each participant will be charged a \$25 deferment service fee each term. This fee is payable along with the 50% down payment on or before the registration fee payment deadline. Students who make payments with checks that are returned will be charged a \$30 return check service fee as well as any applicable late fees.

If a payment is not satisfied by the scheduled payment due date, Jackson State will withhold all services from the students, including grades, official and/or unofficial transcripts, and future registration until the fees have been paid in full.

All existing rules and policies pertaining to returned checks, refunds, withdrawals, dropped classes, and collection costs are applicable to the Nelnet Payment Plan.

Upon receipt of a Statement of Account/Class Schedule, students who desire to participate in the Nelnet Payment Plan should pay the minimum amount due shown on the Statement of Account. The statement will also show subsequent payment amounts and their corresponding due dates. Students may pay the full amount due or the minimum payment.

Refunds/Withdrawal from Classes

Students who drop or withdraw from classes may still have a balance due under the deferred payment plan. Fees are adjusted based on the drop or withdrawal date. The refund percentage is NOT applied to the amount of payment, but rather as a percentage of adjustment of total fees. A refund would only be issued to the student if the newly adjusted amount of fees is less than the amount that has been paid by the student.

To avoid ineligibility for the deferred payment plan in future terms, the student should continue to make payment by each due date. Refer to the Nelnet Payment Plan Page for the new payment amounts after drop or withdrawal. Remember, withdrawal from classes does not negate the student's responsibility to pay the account balance after the semester has begun.

Delinquent accounts are referred to a collection agency and credit bureau. Any account referred for collection will not be eligible for the deferred payment plan in future enrollment periods.

Registration Fees and Tuition

All fees are subject to change without notice by action of the Tennessee Board of Regents. Changes are anticipated for 2023-2024. Refer to the website for current fees and tuition.

Rates for 2022-2023 were:

Full Time Students

(12 hours)

Tuition/Fees	
Residents of TN	\$2,198
Non-Residents	\$8,606

(13 hours or more)

	Tuition/ Fees	Tuition 13 hrs or more
Residents of TN	\$2,198	+ \$37 per sem. hr.
Non-Residents	\$8,606	+ \$144 per sem. hr.

Part-time Students

(less than 12 hours)

figures are per semester hour

Tuition	
Residents of TN	\$171
Non-Residents	\$705

Per TCA 49-7-1304, a veteran or other individual eligible receiving veteran educational benefits, shall not pay out-of-state tuition/fees when:

- enrolled in any public institution of higher education in Tennessee
- utilizing such benefits at the enrolling institution; and
- living in the state of Tennessee, regardless of their formal state of residency

TN eCampus Online Degree Program

figures are per semester hour

Tuition/ Fees	
Residents of TN	\$239
Non-Residents	\$773

TN eCampus registration, tuition and course fees are in addition to Jackson State registration, tuition and course fees.

Audit Courses

Students auditing regular courses will pay the same tuition/fees as those enrolling for credit. Persons more than 60 years old refer to section on admission as a special student, page 13.

Summer Term

Registration and tuition fees for the summer term will be charged at the per-semester hour rate regardless of hours taken. Deferred payment plan not available during summer term.

Books and Supplies

Follett Higher Education provides textbooks and supplies needed by students in their educational program. Every attempt is made to provide the best available service and products at an economical price.

Since the cost of books varies from semester to semester and from one program of study to another, only the average cost can be included in publications. The average cost of books and supplies is approximately \$550 per semester.

Books and supplies may be purchased with cash or credit card (VISA, MasterCard, Discover or American Express). Checks made payable to JSCC Bookstore for the amount of purchase only will be accepted with a valid state ID or driver's license.

Students also have the option of renting their textbooks for the semester. This could save students up to 65% of their textbook costs. A phone number, email address, and debit or credit card are required at the time of rental check out. Rentals can still be paid for with cash, credit, or check but the debit or credit card remains on file until the rental textbooks are turned back in to the bookstore at the end of the semester.

A refund of the full purchase price of textbooks will be made during the first week of class, provided the books have not been damaged. Therefore, students should not mark in or write their names in the books until the first week of classes has ended. A receipt and a valid picture I.D. is required to process a refund. Cash will not be refunded for credit card charges. A credit will be issued to the credit card account. For more information, please check www.jscce.edu.

Most used books will be repurchased for up to 50 percent of the purchase price, provided they are current, resalable editions with a valid state ID, or driver's license or a current student I.D.. This buy-back period is the last week of final exams.

Store hours are located on the bookstore entrances. Buy-back dates, special supply sales, and other pertinent information can also be found at www.jscce.com. The bookstore opens additional hours during the first and last week of each semester.

Other Fees

Deferred Payment Service Fee – A nonrefundable fee of \$25 is assessed for participating in the Deferred Payment Plan per semester. (Fall and Spring only. Deferred payment is not available Summer semester.)

Late Registration – A nonrefundable fee of \$25 will be charged throughout late registration. It begins the day after the end of regular registration as identified for each semester in the Academic Calendar printed in this catalog.

International Education Fee – All students enrolled will be charge a \$10 non-refundable fee each semester. This fee supports cultural and international opportunities and student activities for all students, and to promote students' world knowledge. This fee assists in integrating cultural and international concepts across all academic disciplines in order to increase a student's ability to compete in the international environment.

Transcript – Students may get their transcripts free of charge with a limit of 10 copies at one time. A fee of \$1 each will be charged for more than 10 copies. Requests for transcripts must be submitted to the Admissions and Records Office.

Laboratory Fee – This fee will be eliminated except for those courses using off-campus facilities. The elimination does not include private music fees and does not affect Community Education fees.

Parking Decal – There is no charge for the decal. However, all students utilizing parking facilities on campus are required to display the parking decal on the outside lower corner of the driver side rear window. Students who do not display decals will be subject to a fine. Decals are available in the Student Center (jHub), Savannah Center, and Lexington Center upon completion of a parking decal application.

Program Services Fee – All students enrolled for campus courses will be charged a \$16 non-refundable fee each semester for use of campus program services at Jackson, Savannah and Lexington campuses and the Paris location.

Nursing Fees – Students enrolled in the Nursing Program are assessed testing fees each semester. Test fees are based upon the cost of the test, testing resources, or review. Testing fees are nonrefundable after the cost for testing, resources, or review has been incurred by the institution.

Nursing Specialized Academic Fee -- \$25 per credit hour

Nursing Lab Fee – \$20 per course

In addition to tuition and college fees, nursing students will incur additional expenses and fees specific to their program of study. These include: current health status verification, immunizations, practice liability insurance, laboratory and clinical practice supplies, uniforms, drug screens, background checks, and travel to and from clinical agencies. A detailed list of expected fees and expenses is available from the Nursing Program.

Health Science Fees – In addition to tuition and college fees, health science students will incur additional expenses and fees specific to their program of study. These include, but are not limited to: Current health status verification, practice liability insurance, uniforms and equipment, travel to and from clinical affiliates, and drug testing. A detailed list of expected fees and expenses for each program is available from the Health Science Division.

Health Science Specialized Fee – \$25 per credit hour

Online Course Fee – Students enrolled in JSCC online courses will be assessed a \$10 fee per credit hour.

Miscellaneous Fees

- SGA Activity Fee (non-refundable) \$4.00
(assessed to students registered for campus credit classes)
- Replacement of Lost ID Card \$10.00
- Technology Fee per credit hour \$10.00
not to exceed \$116.00

The Technology Fee is assessed to all students registering for credit courses to help pay for the cost of increased use of new technologies within the classroom.

- Service Fee not to exceed \$70.00

The Service Fee is charged to persons with disabilities or persons who are 65 years old or older. Please refer to the section on admissions regarding Chapter 28 of Public Acts 1977 (page 12). It is subject to change without notice by action of the Tennessee Board of Regents.

Testing Fees

- Accuplacer Test \$20.00
- Confirmation Accuplacer Test (per part) \$5.00
- Prior Learning Assessment (PLA) \$25.00
- All testing fees are nonrefundable and nontransferable.

*All fees subject to change without notice by action of the Tennessee Board of Regents.

Refunds

Refunds of fees will be made when students withdraw from college or change their schedule as stated in TBR Policy/Guideline 4.01.03.10.

Pursuant to T.C.A. § 49-7-2301 and 49-7-2302, students called to military or National Guard service during the semester are entitled to a 100% adjustment or credit of mandatory fees.

Tuition Refunds and Adjustments

Full refund:

- 100% of fees will be refunded for classes canceled by the school.
- 100% of fees will be refunded for drops and withdrawals prior to the first official day of classes.
- 100% of fees will be refunded in the case of death of the student during the term.
- A 100% refund will be provided to students who are compelled by the institution to withdraw when it is determined that through institutional error, they were academically ineligible for enrollment or were not properly admitted to enroll for the course(s) being dropped. An appropriate official must certify in writing that this provision is applicable in each case.
- Students who have not visited the school facility prior to enrollment will have the opportunity to withdraw without penalty within three days following either attendance at a regularly scheduled orientation or following a tour of the facilities and inspection of the equipment.
Partial refunds:
 - A refund of 75% may be allowed if a program is dropped or a student withdraws within the first 10% of the class hours.

- A refund of 50% may be allowed if a program is dropped or a student withdraws within the first 20% of the class hours.
- No refund may be permitted after 20% of the class hours have been completed.
- The fee adjustment is calculated as the difference between (1) the cost of originally enrolled hours and (2) the per credit hour cost of the courses at final enrollment after adjustments have been applied for all courses dropped. Adjustments are calculated at the full per credit hour rate less the fee adjustment credit at the applicable fee adjustment percentage (regardless of the original number of hours enrolled) Not all drops/withdrawals will result in a fee adjustments.

Refunds for Students Receiving Financial Aid

Federal and state policies govern the responsibilities of students and institutions granting financial aid. Always consult with the Financial Aid Office before you make any changes in your enrollment status, whether dropping or adding a course or withdrawing from the institution.

Change of Status

Add and Drop Courses

After officially registering, students can adjust their schedules according to the timeline set in the Academic Calendar.

Add Course

- Add through the third day of the first week of classes during fall and spring terms and through the first day of classes for first and second terms of summer sessions. Adjustments are made for the deadline for adding classes for full-term summer and short-term courses. See your advisor, registration center, admissions and records office, the JSCC website or business office for these dates.
- On-line adds are available if courses are open. Use Student Self Service at www.jsc.edu.
- After the semester starts, all students who add a class must clear the Business Office for an add to be valid.

Drop Course

After officially registering, students can adjust their schedules according to the timeline set in the Academic Calendar, as published in the college catalog and JSCC website. Students are strongly encouraged to discuss their progress with the instructor prior to dropping a course. If a student stops attending a class without officially dropping it by the last day to withdraw for the term, a grade of "FA" (failure to attend) will be recorded for each course.

The last date for students to add or drop a course without penalty is indicated in the catalog and JSCC calendar. To drop a class, go to the Jackson State website www.jsc.edu. Sign in to jWeb to access Student Self Service. Then proceed to conduct your drop. Make certain that the drop was accepted by logging out and then logging back into your account.

If you receive financial aid, veteran's assistance or vocational rehabilitation, you are encouraged to talk with the respective office to be aware of how your drop will affect your future eligibility and if you will have to pay money back.

If you need assistance with your drop, contact the Advising Center in the Student Center. If you are at the Lexington or Savannah Center, you can get assistance with your online drop at the center's administrative office.

Students cannot drop learning support, nursing and some allied health courses without special permission from the appropriate department head.

Students will receive a "W" grade for classes dropped prior to the deadline indicated by the academic calendar. After the last day to drop, students are not permitted to drop a class unless approval is given. Beyond the deadline to drop/withdraw, students must appeal to the Office of the Vice President of Academic Affairs, demonstrating unusual circumstances or hardships, to request a late withdraw from all classes.

Please note: *Continue attending classes if at all possible until permission is granted. Submitting a request does not signify permission will be granted.*

Withdrawal from the College

To withdraw from the college, a student must officially withdraw from all classes.

In case of serious illness, serious injury, death, or failure to comply with school policy regarding the repeat of a grade of "B" or higher, the college may administratively withdraw a student. In such cases, the "W" grade will be recorded.

Change to Audit

Students may change their enrollment status in a course from credit to audit at any time until the last day students may add a course. After that date you may, with the permission of the faculty member teaching the course, change from credit to audit status until the last day to drop a course or withdraw from the college. Change of status after this date also must be approved by the Vice President of Academic Affairs.

Students who elect to audit a course are present only for the purpose of observing the course. Neither faculty members nor Jackson State academic support services will have any obligation to provide instruction to or evaluation of the student.

You may not audit learning support classes. Please note that if you are receiving financial aid, whether a grant or scholarship, or veteran benefits, changing status from credit to audit may affect your eligibility or repayment. See the Financial Aid Office for implications.

Follow these procedures to change from credit to audit status:

1. Obtain a Change of Credit to Audit form from the Jackson State Admissions and Records Office website.
2. Obtain approval signature from the instructor of the class for which enrollment status is changed.

3. Return the course status change form to the Admissions and Records Office no later than 4:30 p.m. on the posted last day to withdraw from the college.

Cancellation of Classes

The College reserves the right to cancel classes which do not meet established criteria, including:

- Availability of qualified instructors.
- Appropriate facilities.
- Sufficient enrollment.

In case any class is cancelled, the College will drop and/or withdraw the students.

Grading System

The following grading system is used at Jackson State:

A	Outstanding
B	Above Average
C	Average
D	Passing but below average
F	Failing
FA	Failing for Attendance
I	Incomplete
N	Audit, no grade or credit
S	Satisfactory
U	Unsatisfactory
W	Withdraw

Incomplete “I” Grade

The grade of “I” will be awarded only in exceptional cases when illness, accident, or unavoidable circumstances prevent the student from taking the final exam or completing the course requirements. An “I” grade will appear on the student’s transcript.

A student must complete the necessary course requirements within six weeks of the end of the term in which the “I” grade was received; otherwise, the “I” grade will be changed to an “F” grade. When the “I” grade is changed to an “F” grade, it will become part of the student’s permanent record. Some programs and courses require completion of prerequisite courses prior to enrollment. An “I” grade will not satisfy the prerequisites to such requirements.

Withdrawal “W” Grade

The grade of “W” is assigned for a student who officially drops a course or withdraws from the college prior to or on the last day to drop or withdraw. The last day to drop a course or withdraw from the college is listed each semester in the academic calendar. The “W” grade is non-punitive and will appear on the student’s transcript.

Learning Support Grades

Letter grades assigned to LS classes are “S” (Satisfactory), “U” (Unsatisfactory), or “W” (Withdraw). Grades of “U” and “W” are considered as attempts. Students may not receive a “W” without permission of the appropriate Dean. Students receiving Veterans Affairs (VA) benefits cannot receive those benefits for on-line LS classes. Grades for LS classes are used in determining financial aid eligibility, probation, and suspension but not academic honors or credit hours required for graduation.

Persistence in Learning Support is essential. Student goals will be delayed and there may be financial aid consequences for withdrawing from Learning Support. Students who need to drop the LS co-requisite lab must also drop the linked college level course. Students enrolled in Learning Support may not drop these classes without the approval of the appropriate Dean. Students who are withdrawing from college, that is, all their classes, may do so by following the appropriate withdrawal procedures.

Grade Appeal Procedure

This procedure provides Jackson State students with a process for appealing a course grade that the student believes to be incorrect. In each step, the student must meet two criteria:

Timeliness: Each step must be addressed to the appropriate person in the required order, and within the listed time limit. Failure to be proper and punctual in following the procedure will result in automatic denial, and the appeal process will go no further. Correspondence to the student will be sent with "return receipt required." Correspondence from the student will immediately be stamped "date received."

Burden of Proof: Having met all requirements of timeliness, the student must provide substantial proof the grade was based upon *prejudice, discrimination, arbitrary and/or capricious action, or other such reasons not related to academic performance*. In steps two through four, this burden of proof is indicated as a description. The description must include an explanation of how the grade was based on prejudice, discrimination, arbitrary and/or capricious action or other such reasons and evidence supporting the appeal.

Step One: Contacting the Instructor

Time: By the Friday of the first full week of classes of the semester/session after the one when the grade was assigned.

Task: Student meets with the instructor to try to resolve the issue.

a) If the instructor is unavailable, the student will meet with the academic dean of the division who will schedule a meeting with the instructor.

b) If the instructor is no longer a Jackson State employee or will remain unavailable past the timeframe of Step One, the student will be advised to move directly to Step Two or Three as appropriate.

c) If the dean was the instructor for the course or steps aside for any reason, the student must immediately go to Step Three within this timeframe.

If a satisfactory outcome has not been achieved, the student may proceed to Step Two or Three as appropriate.

Step Two: Contacting the Program Director (when applicable)

Time: By the Friday of the third full week of classes.

Task: Student meets with the program director. The student must present a written description of the complaint.

Deadline for response: By the Friday of the fourth full week of classes, the program director will consult with the instructor and will submit in writing to the student (copied to the instructor and dean) either a denial or approval of the appeal. If approved, the program director will send a grade change form to the dean. A recommendation of grade change by the dean will be considered as final. The program director will then forward all documentation to the Records Office for inclusion in the student's permanent file.

If a satisfactory outcome has not been achieved, the student may proceed to Step Three.

Step Three: Contacting the Dean

Time: By the Friday of the sixth full week of classes.

Task: Student meets with the dean and presents a written description of the complaint.

Deadline for response: By the Friday of the seventh full week of classes, the dean will consult with the instructor and program director (when applicable) and will submit in writing to the student (copied to the instructor, program director, and the Vice President of Academic Affairs) either a denial or approval of the appeal. If approved, the dean will send a grade change form to the vice president. A recommendation of grade change by the dean will be considered as final. The dean will then forward all documentation to the Records Office for inclusion in the student's permanent file.

If a satisfactory outcome has not been achieved, the student may proceed to Step Four.

Step Four: Contacting the Office of the VPAA and Appealing to the Committee

Time: By the Friday of the ninth full week of classes.

Task: Student must send a written description of the complaint to the Vice President of Academic Affairs, requesting an appeal before the Grade Appeal Committee.

By the Friday of the eleventh week of classes, the vice president and committee chair will meet to determine whether the case merits a hearing. If so, a meeting of the committee will be called. This seven-member committee consists of the chair (appointed by the Vice President of Academic Affairs), three faculty members (selected by the Faculty Council Chair), two students (selected by the VP of Student Services), and one faculty member from the division in which the course was taken (selected by the Faculty Council Chair). The committee serves as a review board and recommends in writing (copied to the instructor, program director, and dean) to the Vice President for Academic Affairs that the grade remains or be changed, or that other appropriate action

be taken. No member can have a conflict of interest in regard to any individual grade appeal.

By the Friday of the thirteenth full week of classes, the student will be sent a letter from the Vice President of Academic Affairs (copied to the instructor, program director, dean, and chair of the appeals committee). It will state either that the appeal is denied or that the grade will be changed. This decision will be final. Any grade change will be made in writing by the vice president to the records office, and written justification will be sent to the chair of the grade appeal committee.

Additional notes relative to the grade appeal process: Faculty should retain all course-related materials normally in their possession that might be relevant to a grade appeal for a minimum of six months following the course (see "Grading").

For each step in the process, a "date received" should appear on the student's statement of complaint.

Grade Point System

The following grade point system is to be used in determining averages:

For each credit hour of A	4 grade points
For each credit hour of B.....	3 grade points
For each credit hour of C.....	2 grade points
For each credit hour of D	1 grade point
For each credit hour of F	0 grade points

The grade point average is determined by dividing the total number of grade points earned by the total number of credit hours which the student attempted, except for credit hours in courses from which the student withdraws in good standing or for courses in which the student receives grades such as pass/fail and which are not considered when determining the GPA. In computing the grade point average of a student who has repeated one or more courses, the college will count only the last grade received in the repeated course or courses and count hours attempted only once, provided that the number of repeats in any single course does not exceed two (three attempts). In the event that a student repeats a course more than twice, the grade and credit hours attempted in the third and subsequent attempts shall be used in determining the grade point average. The credit hours earned by repeating a course will be counted only one time in the cumulative total of hours earned.

Grades and Student Transcript

Grades are not mailed out each semester. You may view or print a student copy on the web or submit a written request to the Admissions and Records Office. If you owe a student account balance which prevents release of grades, you will not be able to access your grades or request a transcript. In this case you will need to contact the Business Office to clear your account.

A JSCC student transcript will include term and cumulative GPA calculations. The transcript will include the following:

- A GPA comprised only of hours taken in courses numbered college level courses 1000 and above ("college only" GPA) and
- A GPA comprised of hours taken in college level courses 1000 and above and hours taken in learning support courses ("combined" GPA).

The following uses are based on each calculation:

- The "Total Institution" GPA will be used in calculating the required GPA for graduation.
- The "Total Institution" GPA will be used in determining graduation honors.
- The "Total Institution" GPA will be used in determining term honors.
- The "Overall Combined" GPA will be used in determining suspension and probation.
- The "Overall Combined" GPA will be used in determining financial aid eligibility.
- The "Overall Combined" GPA will be used in determining athletic eligibility.

Grades for Transfer

Students need to be aware that some colleges and universities accept as transfer courses only those courses in which a student has earned a grade of "C" or above.

Full-Time Student Credit Load

- Minimum Credit Load for Full-time Status..... 12 hours
- Recommended Credit Load.....15 hours
- Maximum Credit Load (without permission*) 20 hours
- Maximum Credit Load (with permission) 22 hours

*Any student desiring a credit load of more than 20 hours, including summer semester, must secure permission from the Academic Affairs Office before registering. A student should have a 3.00 cumulative GPA to request more than 20 hours of work. The GPA along with other criteria will be considered in determining overload approval.

Part-Time Student Credit Load

Any student with a credit load of 1-11 hours will be considered a part-time student.

Academic Classification

For administrative purposes, a student will be classified as a freshman until he/she completes 28 semester hours of credit. After such time, the student will be classified as a sophomore. Those not accepted as degree students will be classified as special students.

Academic and Retention Standing

A minimum quality point average required to achieve the associate degree is 2.0.

- A student who fails during any term to attain a cumulative GPA of at least 2.0 for the credit hours attempted will be placed on academic probation for the subsequent term.
- At the end of the next term of enrollment, a student on academic probation who has failed to attain a 2.0 GPA for that term will be suspended for one term. The summer term is not to be counted as the term of suspension but if a student is suspended after the spring term, their required term to sit out would be fall.

Good Academic Standing

This status indicates that a student has met the required retention standards of the college for his/her semester of study and is making satisfactory academic progress.

Academic Probation

This status indicates that a student did not meet the retention standards of the college and is no longer in good academic standing. Students are strongly encouraged to immediately seek the assistance of their advisor to develop a plan of study and support activities which will include one or more of the following guidelines:

- Taking a course load of twelve (12) semester hours or less
- Registering for one or more courses for which the student received a "D" or an "F" grade
- Establish regular appointments with their advisor.

Students who meet the retention standards of the college while on academic probation shall regain good academic standing.

Students who fail to meet the retention standards of the college while on academic probation shall be placed on academic suspension for the subsequent semester (excluding summer term). The summer term cannot be used for this purpose when suspension occurs upon completion of the spring semester.

Academic Suspension

This status indicates that a student did not meet the required retention standards of the college while on academic probation. The student shall be placed on academic suspension and required to stay out of college the following semester (excluding summer term). The summer term cannot be used for this purpose when suspension occurs upon completion of the spring semester.

A student who has been on suspension for one semester or more excluding summer shall be readmitted to the college on academic probation, and shall be subject to the special advisory guidelines and retention standard requirements of probation.

If the academic calendar is such that a student registers before the official suspension lists are communicated to all concerned, the student's current registration will be canceled and all paid fees will be refunded.

Appeal of Academic Suspension

A student may appeal his/her suspension for failure to meet college retention standards to the Admissions and Standards Committee of the college. If the appeal is approved, the student may be allowed to enroll again before the complete suspension period has ended. The procedure of appeal includes:

- The suspended student must appeal the suspension in writing to the Director of Admissions and Records in the Student Center Building. Student appeal forms must explain severe extenuating circumstances that contributed to their recent academic performance. Documentation of the extenuating circumstances should be attached to the Academic Suspension Appeal form. A compelling argument for how recent performance would not be repeated if an appeal were granted must also be included.
- If the appeal is denied by the Admissions and Standards Committee, the student can appeal to the Vice President of Student Services.

Repeat a Course

A student may be permitted to repeat a course in which his/her final grade was "C" or lower when such a repeat is necessary to increase mastery in a course for successful performance in a subsequent course or for the purpose of increasing his/her quality point average. A student may be permitted to repeat a course in which a grade of "B" or higher was earned only with the approval of the Vice President of Academic Affairs. (Failure of a student to comply with this policy will result in automatic withdrawal.)

Only the last grade received in the repeated course or courses will be used in computing the student's quality point average, provided that the number of repeats in any single course does not exceed two (three total attempts). In the event that a student repeats a course more than twice, the grade and credit hours attempted in the third and subsequent attempts shall be used in determining the quality point average. The credit hours earned by repeating a course will be counted only one time in the cumulative total hours earned.

Academic Honesty

Academic honesty is central to the educational process. Acts of academic dishonesty are serious offenses at Jackson State and can result in suspension from the college. Therefore, no students shall:

- Claim or submit the academic work of another as one's own.
- Procure, provide, accept or use any materials containing questions or answers to any examination or assignment without proper authorization.
- Complete or attempt to complete any assignment or examination for another individual without proper authorization.
- Allow any examination or assignment to be completed for oneself, in part or in total, by another without proper authorization.

- Alter, tamper with, appropriate, destroy or otherwise interfere with the research, resources, or other academic work of another person.
- Alter, tamper with, appropriate, destroy or otherwise interfere with the use of institutional property, including but not limited to classroom fixtures, laboratory and/or computer equipment and supplies, and instructional materials.
- Fabricate or falsify data or results.
- Commit plagiarism if you submit as your own work:
 - Part or all of an assignment copied or paraphrased from another person's manuscript, notes or talk (lecture).
 - Part or all of an assignment copied or paraphrased from anything published.
- Act as an accomplice in plagiarism if you:
 - Allow your work, in outline, draft or finished form, to be copied and submitted as the work of another.
 - Prepare an assignment for another student which he/she submits as his/her own work.
 - Keep or contribute to a file of papers or presentations which anyone other than the author adopts and submits as his/her own work.

Class Attendance and Absences

Regular class attendance is a reliable predictor of student learning and retention. Students are expected to attend all sessions of classes in which they enroll. It is the responsibility of each student to know the attendance policy of each teacher in whose class he/she is enrolled. Each teacher formulates an attendance policy and provides it in writing to students of each class. Faculty should work with students who are absent from classes due to travel caused by college-sponsored activities. The policy statement contains an explanation of grade penalties that result from failure to comply with the attendance policy. Faculty monitor attendance and assign an "FA" grade with a student's last date of attendance, if they stop coming to class without officially dropping.

Inclement Weather

In the case of inclement weather, Jackson State will examine weather and road conditions and will make a decision regarding the cancellation or delay of classes. Every effort will be made to make decisions by 5:30 a.m. for day classes and 3:30 p.m. for evening classes. However, the College reserves the right to monitor changing weather conditions and make cancellation decisions later than stated if needed. The primary source for distribution of closing information will be channels controlled by Jackson State including the JSCC homepage, JSCC e-mail, jWeb announcements, text messaging system and the voicemail at Jackson State's main number 731-424-3520 or 1-800-355-5722. These channels will always display the most accurate information and should be the first source that a student consults for closing information.

Additionally, the information will be reported to WBBJ-TV, WNWS 101.5 radio, Thomas Media radio stations including WHHM Star

107.7, WWYN 106.9, WZDQ 102.3 and WFKX 96, and Clear Channel radio stations including Froggy 104, Rock 92.3, 105.3 and Newsradio 1390. Students are encouraged to double check any information reported in the media with one of the Jackson State channels listed above.

Jackson State will attempt to offer classes on a regular schedule or alternate schedule unless weather conditions are extremely severe area-wide and necessitate closure. When in doubt, students are urged to use their own judgment regarding attendance. Students will be responsible for any academic work missed due to absences caused by severe weather conditions. For students who are enrolled in on-line classes, any assignments and/or quizzes will be due as scheduled, unless the instructor indicates otherwise. All exams will be postponed until campus classes are in session. Any student unable to access the internet must contact their instructor by phone or call the appropriate Academic Dean.

NOTE: Decisions regarding the cancellation of classes and activities at Jackson State are made independent of other schools' decisions.

For more inclement weather information go to:
<http://www.jssc.edu/academics/calendars-schedules/inclement-weather-schedule.html>

Awards and Honors

Awards and honors have been established for the recognition of outstanding achievement in several areas of college life.

Honor Roll is reserved for students who are enrolled for twelve (12) or more hours of college-level work (Learning Support excluded) and who complete a semester's work with a quality point average between 3.00 and 3.49.

Dean's List is reserved for students who are enrolled for twelve (12) or more hours of college-level work and who complete a semester's work with a quality point average between 3.50 and 4.00.

Academic graduation awards will be noted on the student's diploma as follows:

3.80-4.00 Summa Cum Laude

3.50-3.79 Magna Cum Laude

3.25-3.49 Cum Laude

Faculty Award will be given to the graduating student who, in the opinion of the college faculty, has contributed most to the advancement and betterment of Jackson State. An appropriately-inscribed plaque will be awarded to the student.

President's Award will be given to the graduating student(s) who has/have maintained the highest grade point average. An appropriately-inscribed plaque will be awarded to the recipient(s).

Prior Learning Assessment

Jackson State Community College awards credit for Prior Learning Assessment options which save students from having to take courses in subjects that they already understand. This means that students can progress more quickly towards getting a degree and not have to pay full tuition for these courses.

No more than a total of 75 percent of semester hour credit can be granted by Jackson State through any combination of external sources. Credit granted for service in the Armed Forces (including physical education credit and credit for courses offered through the American Council on Education or other service schools), advanced placement credit (the Advanced Placement Program and College-Level Examination Program of the College Entrance Examination Board, credit by examination, or previous training or work experience qualifying for degree credit) can be used towards graduation requirements.

Should a student be granted the maximum total of 75 percent of semester hour credit through external sources, he/she must still complete all specific degree or certificate requirements as given in an outlined Program of Study. In order to receive a credential from Jackson State, students must meet the residency requirement, which is earning at least 25 percent of their hours at Jackson State.

Please refer to the JSCC PLA website at www.jssc.edu/pla for current processes and options.

How We Help You

Financial Aid

For students who need financial assistance to attend college, the Office of Financial Aid Services offers the following programs and services. For more information email fao@jscc.edu or call (731) 425-2605. Applications may be requested for all programs on the JSCC web page at www.jscc.edu.

Institutional Aid Programs

Academic Service Scholarships: The State of Tennessee permits Jackson State to award a limited number of scholarships each year. The scholarship covers tuition and fees (up to 12 hours) for four academic semesters. Students on academic scholarship are required to work 75 hours each semester. Entering freshmen and returning sophomores should contact the Financial Aid Services Office for more information. Applications must be submitted no later than March 15.

Access and Diversity Scholarships: These scholarships were created to provide financial support for students who are members of targeted underrepresented groups at Jackson State Community College and have documented unmet financial need. The college applies to the Tennessee Board of Regents each year for continued funding, which then is administered by the college's Diversity Committee.

Criteria for scholarship consideration:

- Qualify as an African-American student, or be age 25 or older, or be a non-native English speaker, or be in a major which is non-traditional for their gender--for example, women in engineering or men in nursing.
- Have a high school diploma or equivalent
- Be fully admitted to JSCC
- Be degree-seeking
- Be enrolled for at least six hours per semester, and
- Initially have a cumulative grade point average of 2.0 or better and maintain a minimum 2.0 term and cumulative grade point average for renewal.

Application deadlines are:

For Fall term:August 1

For Spring term:December 1

For Summer term:May 1

Institutional Work Program: College student employment may be available to students who do not qualify for the federal work program. Students should check with the Financial Aid Services Office for employment applications.

Jackson State Community College Foundation Scholarships: The Jackson State Community College Foundation was organized as the F. E. Wright Memorial Foundation in 1977 as a tribute to the late Dr. Francis Everett Wright, the first president of Jackson State. When the name of the Foundation was changed in the spring of 2000, the Foundation Board of Trustees elected to reorganize the general scholarship fund as an endowed fund and name it after Dr. Wright.

Scholarships from this fund are intended to increase access to Jackson State.

Other scholarships are made possible by contributions from businesses, civic organizations, clubs and individuals in the college service area. Scholarships may be awarded based on financial need and/or academic excellence.

General criteria for Foundation scholarships:

- Scholarship applications are available online or from the Financial Aid Office.
- Applications must be submitted by March 15 unless otherwise indicated.
- Applicants must be a high-school graduate or hold a G.E.D.
- Applicants must apply for admission prior to consideration for scholarships.
- Applicants must be enrolled as a regular student in a degree or certificate program.
- Applicants must enroll as a full-time student unless otherwise indicated.

Note: The Financial Aid Services Office reserves the right on behalf of the Jackson State Foundation to review, change or cancel an award because of changes in financial status or lack of required satisfactory progress. All Foundation scholarship offers and awards are tentative and are contingent upon actual funding each year. Unless noted otherwise, institutional and Foundation awards do not cover out-of-state tuition or additional charges for TN eCampus classes.

Jackson State Foundation Scholarships

Agriculture Scholarship Financial Aid.

- Agriculture major
- Maintain 2.5 GPA; 3.0 GPA in Agriculture classes

Marian Jury Bateman Scholarship Nursing Program

- Enrolled in nursing program
- Resident of Henderson County
- Demonstrate integrity, honor, courage, and committed to excellence
- No previous college degree of bachelor level or higher

Mary Jo Boehms Scholarship Financial Aid

- Enrolled full time student taking 12 or more credit hours
- GPA of 3.0 or higher
- Enrolled in any program or major
- May be up to \$400 per semester
- May cover the cost of books and/or other fees not related to tuition

Brandenburg Endowed Scholarship..... Radiologic Technology Dept.

- \$250 per semester
- Second year Radiologic Technology major
- Resident of Henry County
- Assigned to Henry County Medical Center for clinical education

Stephanie Hurt Britton
Memorial Nursing Scholarship.....Nursing Program

- Second-year nursing student who demonstrates sensitivity and compassion in the care of patients.

Jerry and Carol Cole
Scholarship..... Financial Aid

- Be second year student
- Must have QPA or 3.0 or higher
- Must have a desire to obtain advanced degree
- Must be recommended by Natural & Physical Science Department instructor(s)

Computer Services Scholarship Information Technology

- \$250 award
- Submit written statement
- Committee stipulates course/books
- Application is on web at <http://www.jsc.edu/about-jackson-state/administration/information-technology/oit-scholarship.html>

Credit Professionals
International Scholarship Financial Aid Office

- \$250 per semester
- Reside within West Tennessee, exclusive of Shelby and adjoining counties
- Preference given to non-traditional student
- Enroll as a full-time business major
- Renewal for second semester requires 2.5 GPA

Hazel Culver Memorial Scholarship..... Financial Aid Office

- Cover tuition and fees (up to 12 hours)
- Current high school senior
- Enrolled full time in a college/university transfer program
- Awarded by a selection committee
- Maintain a 3.0 grade point average
- Renewable based on availability of funds

Durward Denley Scholarship..... Financial Aid Office

- \$150 award
- Computer major
- Incoming freshman
- High school graduate or GED
- GPA of 2.5 or better
- Letter of recommendation
- Maintain GPA of 2.5
- Maintain full-time status

Julie Kay DeVersa Nursing Scholarship.....Nursing Program

- Completion of at least the first semester of nursing courses
- Single, unmarried, adult learner, who is working while in school
- Demonstrates courage, integrity, and perseverance in the face of adversity

- Compassionate, caring, and committed to excellence both in theory and clinical practice

- Leads and encourages classmates

Virginia Fiorvanti
Scholarship Fund..... Director of Volunteer Services, JMCGRH

- \$1,000 award
- Two-semester award
- Enrolled in an allied health or nursing program
- Awarded to a second year student
- Maintain a GPA of 2.75 or better

Jerry Hardison II
Memorial Scholarship..... Communication Dept

- Second-year communication major (faculty recommendation)

Haywood Co. Scholarship..... Financial Aid Office

- \$500 per semester award
- Haywood County high school graduate
- ACT score of 19 or above
- Enroll in an Industrial Technology Program
- Submit letters of recommendation
- Maintain a GPA of 2.25
- Maintain full-time status
- Eligible for four consecutive semesters based on availability of funds

Henry Co. Medical Center
Scholarship Radiologic Technology Dept.

- Be a sophomore student
- Demonstrate outstanding clinical performance
- Have a GPA of 3.0 or above
- Must be recommended by clinical instructor
- Financial need not met by other financial aid
- Must be assigned to Henry County Medical Center

Independent Radiology Associates Radiologic Technology Dept.

- Be a sophomore student
- Demonstrate outstanding clinical performance
- Have a GPA of 3.0 or above
- Must be recommended by clinical instructor
- Financial need not met by other financial aid
- Must be assigned to WTH Dyersburg Hospital

Innovation Scholarship Esther Gray-Lemus

- Demonstrate excellence in vocal ability and performance
- Must maintain a GPA of 2.0
- Must be active in Innovation
- Must be available for on and off campus performances
- Must be a positive representative for JSCC

Libby Bevis Jerrolds ScholarshipSavannah Center

- Reside within Hardin County
- Be a high school graduate or hold a G.E.D.
- Enroll as a part-time or full-time student
- Have a demonstrated need for financial assistance
- \$250 and up per semester

Dr. Kent Jones Scholarship Financial Aid

- Must also qualify for the JSCC Access and Diversity Scholarship as a non-traditional student
- For fall and spring semesters
- May be up to \$200 each semester
- May cover the cost of books and/or fees not related to tuition
- Student must remain in good standing with JSCC to have the scholarship awarded for both Fall and Spring semesters and must remain qualified for the JSCC Access and Diversity Scholarship.

Jane and Jonas Kisber Scholarship Financial Aid

- Scholarship awards will be for fall and spring semesters
- Student must be currently enrolled full time
- Consideration will be given first to students in nursing and education programs
- \$500 per student, per semester
- Tuition, fess, and/or books not covered by other financial aid
- GPA of 2.5

Lexington/Henderson County Project Success Scholarships Financial Aid Office

Scholarship for High School Graduates

- Have been a resident of Henderson County for the three most recent years
- Completed the Free Application for Federal Student Aid (FAFSA)
- Completed high school with a regular diploma from Lexington High School or Lexington Christian Academy, graduated from an approved Tennessee Home School program or passed the GED
- Enroll at JSCC in Jackson/Lexington the Fall semester following high school graduation or GED and maintain continuous full-time enrollment requirement
- Exhaust all other federal, state and local grant or scholarship aid before being considered
- Reapply each academic year by completing the FAFSA

Dislocated Workers Scholarship

- Have been a resident of Henderson County for the three most recent years
- Enroll for a minimum of 12 hours for dislocated workers
- Must be unemployed due to plant closings, economic layoffs, etc. for dislocated workers
- Must be a high school graduate or GED
- Must be degree seeking
- Must maintain a 2.0 GPA and be in good standing with the college
- Completed the FAFSA and any other financial aid available
- Exhausted all other federal, state, and local grant or scholarship aid before being considered
- Reapply each academic year by completing the FAFSA

Non-Traditional Scholarship

- Been a resident of Henderson County for the three most recent years
- Enroll for six or more hours for employed non-traditional students
- Must be 25 years of age or older
- Must be a high school graduate or GED
- Must be degree or certificate seeking
- Must maintain a 2.0 GPA and remain in good standing with the college
- Completed the FAFSA and any other financial aid available
- Exhausted all other federal, state, and local grant or scholarship aid before being considered
- Reapply each academic year by completing the FAFSA

Linda Mays Memorial ScholarshipJSCC Business Office

- Must be full- or part-time employee, or student worker of JSCC

Manufacturing Industrial Group Scholarship Financial Aid

- \$1,000 per semester
- Be of a minority race, with first preference to African-Americans
- Reside within Henderson County, with first preference to residents of Lexington (if there are no applicants from Henderson County, applicants who reside in Madison County may be considered.)
- Enroll in an industrial technology program
- Demonstrate need for financial assistance
- Maintain a 2.0 grade point average
- Renewable based on availability of funds

Math and Science ScholarshipMath and Science Dept.

- Be a resident within the JSCC service area
- Have a demonstrated financial need
- Second year student majoring in math or science

Hubert C. Mercer Scholarship Financial Aid

- Enrolled as a full-time or part-time student and in good academic standing;
- Have a demonstrated need for financial assistance
- The award may cover up to the \$250 per semester for tuition, fees, and/or books.

Brooks Metts Scholarship and Jesse Jones Scholarship Radiologic Technology Dept.

- Be a second-year student
- Demonstrate outstanding clinical performance
- Have a GPA of 3.0 or above
- Must be recommended by clinical instructor
- Financial need not met by other financial aid

Dr. A.L. Middleton, Jr. Medical Lab Technician ScholarshipMLT Dept.

- \$1,000 award (\$500 per fall and spring semesters)
- Awarded to one first-year and one second-year MLT student per year.
- Recipient must be assigned to Jackson- Madison County General Hospital for clinical rotations.

- Awarded by a Selection Committee based on academics and financial need.
- Maintain a 2.5 cumulative GPA to continue from semester to semester.

Non-Traditional Student Scholarship..... Financial Aid Office

- \$500 per semester
- Must be 25 years of age or older
- Must enroll for 6 or more hours
- Demonstrate need for financial assistance
- Preference given to non-traditional student
- Renewal for second semester requires 2.5 GPA

Physical Therapist Assistant
Scholarship PTA Dept.

RAD Tech Scholarships..... Radiologic Technology Dept.

Harold Stephenson Memorial
Scholarship Nursing/Allied Health Departments

- \$250 per semester for books for approved classes
- Nursing or allied health program major
- Be employed as a care-giver in a recognized institution

Tennessee Juvenile Court Services
Scholarship Financial Aid Office

- Recipient must reside in TN
- Enroll as a full-time student with major in Criminal Justice/Social Science
- Have a demonstrated financial need
- Must have a GPA of 2.5
- Must be a high school graduate
- \$500 per semester

Billy Wesson Scholarship..... Billy Wesson

- Covers full tuition and fees for two semesters
- Enroll as a full-time student taking Learning Support courses
- Demonstrate need for financial assistance
- Recipients may apply for second year contingent upon availability of funds

Federal and State Aid Programs

The Federal Pell Grant Program

This program is sponsored by the federal government and provides grants to full- and part-time students. Complete the Free Application for Federal Student Aid (FAFSA) at www.fafsa.gov to apply. The priority deadline is March 15.

The Federal Supplemental Educational Opportunity Grant

Federal grant money, which is reserved for students who meet the priority deadline and show exceptional financial need as determined by the FAFSA. Funding for this program is limited.

The Federal Work-Study Program

Student employment is available to students with demonstrated financial need as indicated on the FAFSA. Examples of on-campus jobs could include working in the Financial Aid office, the Business office, or the Library. Examples of off-campus community service jobs could include working at the Boys and Girls Club as a mentor, or working as a reading tutor in a local elementary school. Available jobs and instructions for applying can be found at www.jsc.edu/financial-aid/types-of-aid/employment.html

Tennessee Education Lottery Scholarship Program

There are seven scholarships within the Tennessee Education Lottery Scholarship Program. They are administered by the Tennessee Student Assistance Corporation (TSAC) and are funded by the Tennessee Lottery Education Act. Jackson State does not determine eligibility for or award the lottery scholarships. For more information, contact TSAC at 1-800-342-1663 or www.tn.gov/collegepays.

Tennessee Promise Scholarship Program

The Tennessee Promise Scholarship Program is administered by the Tennessee Student Assistance Corporation (TSAC) with assistance from local partnering organizations. It is funded by the Tennessee Lottery Education fund. The scholarship is a last-dollar scholarship, meaning the scholarship will cover eligible tuition and fees not covered by the Federal Pell Grant, a Tennessee Education Lottery Scholarship or the Tennessee Student Assistance Award. Jackson State does not determine eligibility for this award. For more information, contact TSAC at 1-800-342-1663 or at www.tn.gov/collegepays.

The Tennessee Student Assistance Award

The Tennessee Student Assistance Award Program (TSAA) was established to provide non-repayable financial assistance to financially-needy undergraduate students who are residents of Tennessee. Applicants must be enrolled or accepted for enrollment, at least half time, at a public or an eligible non-public postsecondary institution in Tennessee. The TSAA is a state-funded grant program and includes funds from the Tennessee Education Lottery.

To be eligible, the applicant must:

- Complete a Free Application for Federal Student Aid (FAFSA), and
- Have a valid Expected Family Contribution (EFC) as determined by the Tennessee Student Assistance Corporation. This generally means you must be a recipient of the Federal Pell Grant in order to be considered for TSAA, and
- Be a Tennessee resident, if a dependent student, parents must also be a Tennessee resident, and
- Be enrolled at least half time at an eligible Tennessee postsecondary institution, and
- Maintain institutional satisfactory academic progress according to the standards and practices of the institution, and
- Not be in default on a loan or owe a refund on any grant previously received at any institution, and
- Have not received a baccalaureate degree.

To receive priority consideration, students are strongly encouraged to submit a Free Application for Federal Student Aid (FAFSA) as soon as possible after October 1 each year.

Tennessee Reconnect Grant

Eligibility requirements:

- Tennessee resident for one (1) year prior to date of application
- Complete the FAFSA by the deadline established by the Tennessee Student Assistance Corporation (TSAC) on the <https://www.tn.gov/collegepays> website.
- Be enrolled in a federal Title IV eligible curriculum of courses leading to a certificate or associate degree
- Not have previously earned an associate degree or baccalaureate degree
- Enroll in and attend at least six (6) hours at an eligible institution
- Maintain a minimum 2.0 cumulative GPA at the end of the academic year as determined by the institution.
- Participate in a college success program, as determined by the Tennessee Higher Education Commission.

Award Facts: Award amount varies based on amount of remaining tuition and mandatory fees after all other gift aid has been applied. Scholarship is terminated after the student has attained an associate degree or certificate in an eligible program of study OR the student has attempted the total number of semester hours necessary for completion of an eligible program of study as determined under Title IV satisfactory progress standards, inclusive of any postsecondary hours transferred to the eligible program of study which were earned prior to enrollment at the postsecondary institution as a TN Reconnect student OR five (5) years have passed since the date of initial enrollment as a TN Reconnect grant student.

How to Apply: Submit the Tennessee Reconnect Grant application at www.tnreconnect.gov. Submit the Free Application for Federal Student Aid (FAFSA) at www.fafsa.gov

How to Apply for Federal/State Assistance

All federal financial aid programs require that the college evaluate the student's financial need. This is based on the ability of the parent (and/or student) to contribute toward educational expenses. Students should apply online by completing the Free Application for Federal Student Aid (FAFSA) provided by the U.S. Department of Education using Jackson State's Federal School Code 004937.

The website is www.fafsa.ed.gov.

Financial aid can be awarded only after the following requirements are met:

- The student must qualify for regular admission to the college, working toward a degree or certificate in an eligible program.
- The student must meet all other federal student eligibility requirements as specified at www.studentaid.gov

Deadlines to Apply For Federal/State Assistance

Preferred deadline in applying for fall semester aid is March 15.

After that, aid will be awarded as long as funds are available. A new federal application for financial aid is required each year. The renewal application may be submitted any time after October 1st. Application results must reach our office by priority deadline for applicants to be considered for funding beyond the Federal Pell Grant.

To allow sufficient time for processing for fall semester payment, all requested support documents should be received by Jackson State by *July 1*. Submission by *November 1* for spring term and *April 1* for summer term is generally necessary for processing. Transfer students should contact the Jackson State Financial Aid Services Office eight to ten weeks before registering. Jackson State cannot honor any financial aid award letter from another institution.

Practices Governing Student Financial Assistance

The Financial Aid Services Office reserves the right, on behalf of Jackson State to review, change or cancel an award at any time because of changes in a student's financial status, lack of satisfactory academic progress or the discovery of errors, clerical or other. Other reasons for adjustment include, but are not limited to: changes in enrollment hours, repeated courses, cancelled classes, additional aid received from other sources, non-attendance, enrollment in ineligible certificate programs or ineligible coursework; enrollment in courses that are not required for the current program of study, and enrollment in special session classes or programs that differ from the regular academic calendar. Any commitment of federal funds to a student is tentative and contingent upon subsequent congressional and state appropriations and actual receipt of the funds at Jackson State.

Students who receive financial assistance from Jackson State are to notify the Financial Aid Office of any other scholarships or loans extended to them from sources outside the college.

Neither Jackson State nor any other institution may pay a student federal funds simultaneously for the same period of enrollment without prior approval from both schools. Students who receive unauthorized payments are required to repay the Department of Education.

When all eligibility requirements have been met, financial aid is awarded. A letter is issued to you notifying you of the award. At that time, you become responsible for all financial aid applied to your tuition and fees or moneys issued to you.

If you register early: You must confirm your registration and intent to attend classes using your jWeb account by the last day to pay fees or confirm registration as published in the school catalog. If you do not have sufficient aid to cover all tuition and fees, you must contact the Business Office to pay the remaining balance or set up a deferred payment plan. You will be dropped from classes if payment or confirmation is not received by this deadline. If you do not plan to attend classes for which you are registered, you must drop all classes by this date and contact the Financial Aid Office so that your financial aid can be cancelled.

If you register during regular or late registration: Contact the Financial Aid Office the same day you register to have your financial aid credited to your account and applied toward paying tuition and fees.

Note: *If you registered for class and do not plan to attend:*

You must drop all classes for which you are registered by the “last date to pay fees” and you must also contact the Financial Aid Office.

Failure to do so will require you to repay all financial aid for which you qualified, including the tuition and fees, even though you do not attend classes.

Winter Term and Maymester: Contact the Financial Aid Office prior to registration for mini-terms such as these.

Eligibility for federal funds will be based on the number of hours for which a student is enrolled on the college census date. The census date is when official enrollment is recorded for the semester. No adjustments will be made for Federal Pell Grants for classes added after census. Students who establish eligibility after this point in time will be paid for the actual number of hours for which the student is enrolled at the time the student is awarded. Students cannot be paid federal funds for non-credit courses or for courses that are not required for their program of study. The courses taken must be applicable to the student's current program of study for financial aid to be applied.

Recipients should consult the Catalog and Student Handbook concerning the impact of withdrawal from college, cancelled classes or changes to his/her class schedule on federal funds. Students are to report any changes in enrollment status to the Financial Aid Office.

Class attendance is monitored. Non-attendance may require you to repay part or all of the federal aid. Additionally, online courses may require proof from your instructor that you have attempted course work. Each instructor will monitor class attendance and report students who do not attend class. The Financial Aid Services Office will determine if repayment is required.

Financial need will be evaluated on an annual basis, and appropriate increases or decreases in the amount of the assistance offered will be made.

Details concerning the administration of federal, state and institutional funding are provided in the Financial Aid Handbook available in the Financial Aid Services Office. More information about financial aid may be obtained by writing to the Financial Aid Services Office.

Any information in this catalog concerning financial aid at Jackson State may be subject to change or corrected as necessary without prior notice.

Policies for the Return of Federal Funds

A student who officially withdraws, drops out of school, stops attending all classes, or otherwise fails to complete the period of enrollment for which he/she was granted federal financial aid, may be liable to repay federal funds. (Calculation of a federal repayment may differ from the state refund policy.) The amount the student must repay is determined by the official withdrawal date or the last date the student attended classes.

- If you officially withdraw before the first day of class, all federal funds awarded to you will be canceled and you will not need to make any repayment.
- If you register for class but do not attend, all federal funds applied to pay tuition or fees or paid to you is considered an overpayment. You must repay the overpayment in full.
- Changes in your enrollment status may also require you to repay federal funds.
- If a class is canceled or you did not begin attending a course(s), Jackson State will notify you of the amount of federal aid, if any, you must repay.

If a student owes a repayment of federal funds, he/she is not eligible for further federal or state aid at Jackson State or any other institution until the repayment is made. Jackson State is obligated to report any overpayment to the U.S. Department of Education.

Students may ask for examples of the return of unearned federal aid calculation from the Financial Aid Office.

Satisfactory Academic Progress Standards

Federal and state regulations require that students meet certain academic standards to be eligible for financial aid. The basic Satisfactory Academic Progress standards are:

- 1) Maintain a 2.0 cumulative grade point average for all JSCC courses;
- 2) Successfully complete at least 66.67% of attempted credit hours;
- 3) Must be seeking a first associate degree.

Grades are evaluated to determine Satisfactory Academic Progress at the end of each term. There is a process for appealing to the financial aid committee if requirements are not met. The deadline to appeal is seven (7) days prior to the start of the term being appealed. The following provides more information on each one of these standards:

GPA: Cumulative Grade Point Requirement

Students must maintain a 2.0 cumulative GPA for all JSCC credit hours attempted. This GPA includes both undergraduate level and Learning Support level courses. This GPA will not include grades for transfer courses from another institution. Students not maintaining the required 2.0 GPA will be placed in a financial aid warning status. This means the student is one semester away from losing their financial aid. The student remains eligible for financial aid during the warning semester. If the 2.0 cumulative GPA is not met after the warning semester, the student will be on Financial Aid Suspension.

Pace of Completion: Measurable Progress Requirement

Students are expected to maintain progress toward the completion of their degree. Therefore, students must have an overall completion rate of 66.67% of all hours attempted, including transfer hours. Attempted hours include repeated courses and transfer credit hours from other institutions. This does not include Learning Support courses from other institutions. The Pace of Completion is calculated by dividing the cumulative number of hours earned (completed) by the cumulative number of hours attempted. Grades other than earned A,B, C, or D will not count as completed courses for the student. Repeated and

previously passed courses can cause a student's Pace of Completion to decrease. Students who do not meet this standard will be placed in a financial aid warning status, meaning the student is one semester away from losing their financial aid. The student remains eligible for financial aid during the warning semester. If the Pace of Completion is not met after the warning semester, the student will be on Financial Aid Suspension.

Warning Status:

Students who do not meet the GPA or Pace of Completion standards will be placed on financial aid warning status and may continue to receive financial aid for one semester without an appeal. This applies to transfer and readmitted students. A student who meets the standards at the end of the warning semester will return to good standing. A student who fails to meet the standards at the end of the warning semester will be on Financial Aid Suspension.

Financial Aid Suspension / Unsatisfactory Academic Progress

Students who do not meet the GPA or Pace of Completion standards for two consecutive terms are determined to not be making Satisfactory Academic Progress. Failure to make Satisfactory Academic Progress results in the loss of eligibility to receive federal aid, which includes the work-study program and state funds from the TSAA and HOPE Lottery scholarship programs. Once a student becomes ineligible for aid due to Unsatisfactory Academic Progress, they are not eligible to receive financial aid until the standards have been met again. Students may attend classes and pay for them from their own resources until satisfactory progress has been re-established.

Loss of financial aid eligibility may be appealed in writing to the Student Aid & Awards Committee. The appeal process is outlined below.

Maximum Time Limit: Reasonable Length of Time Requirement

Pace of Completion is important because financial aid does not last forever. A reasonable length of time for completion of a degree is defined as "no longer than 150% of the length of the program". For example, a student enrolled in a degree program that requires 60 credit hours must complete all requirements by the time they have attempted 90 hours (60 hours x 150% = 90 hours). Students will not be considered to have reached the 150% hour maximum until after the semester in which they reach or exceed the attempted hours allowed. However, students will be immediately suspended from all federal aid upon the determination that it is not possible to meet graduation requirements within the 150% limit. All transfer credit hours count toward the attempted hours, including withdrawals. Learning Support hours are excluded from this limit. Once the required credit hours to earn a degree have been completed, students are no longer eligible to receive aid.

Learning Support Limit

Students can receive aid for up to 30 attempted credit hours of Learning Support (remedial or developmental) coursework. Examples include Math Lab or Reading Lab. Learning Support courses transferred into JSCC will be included in the 30 total hours of eligibility. This 30-credit hour limit cannot be appealed.

Incomplete Grades

In cases where a student is assigned a grade of "I", the student will be evaluated accordingly. These grades do not impact GPA. These grades also do not count as completed or earned hours. If the grade is subsequently changed, the student's SAP status may be re-evaluated.

Repeated Courses

All credits from repeated courses will be counted toward maximum hours. Students may repeat a previously passed course once and be eligible for payment on the repeat. Students may repeat a failed course until it is passed and be eligible for payment. Repeated courses may impact a student's Pace of Completion.

Transfer / Readmitted Students

Satisfactory Academic Progress is determined according to the policy in effect for the current semester. All academic transcripts must be received and evaluated by JSCC before determining satisfactory academic progress for financial aid. All transfer credit hours posted by the college will be counted as attempted hours for calculating pace of completion. Transfer/readmitted students who have attained an associate degree or higher, or reached the 150% maximum time limit, will be ineligible for financial aid.

Dual Enrollment Credit Hours

Students entering JSCC with dual enrollment credit hours immediately after receiving their high school diploma or equivalent will be coded as good standing for financial aid purposes. After completing the first term at JSCC those dual enrollment credit hours will be included in the appropriate categories of Satisfactory Academic Progress.

Academic Fresh Start

Students granted an Academic Fresh Start remain accountable for all academic work on their record for financial aid purposes. The appeal process is available if necessary for aid. All attempted hours will still be considered when evaluating Maximum Time Limit.

Appeal Process

Any loss of eligibility for financial aid because of this policy may be appealed in writing to the Student Aid & Awards Committee. In some cases, a student's failure to follow one or more of these requirements is due to events beyond the student's control. If unusual or extreme circumstances can be documented for a specific term(s) or relevant timeframe, the student may be able to submit an appeal to regain eligibility for financial aid. Examples of situations that may be considered beyond a student's control include, but are not limited to: the death of a relative; injury or illness of the student or a family member; family difficulties resulting from divorce, strained relationships, finances, work, or balancing family responsibilities.

Appeal Process

Students must include the following:

- A signed and dated appeal letter explaining the circumstances that led to the student failing to make Satisfactory Academic Progress
- Appropriate support documents related to the event or circumstances
- A statement detailing the circumstances that have changed that will

now allow the student to make Satisfactory Academic Progress during future terms

- A completed Satisfactory Academic Progress Appeal Form
- An academic plan signed by the student and the advisor

Academic Plans

The academic plan is a semester-by-semester list of all courses required for graduation in the student's current program of study. The student works with their academic advisor to create the academic plan. The college may void an approved academic plan if the student changes majors, deviates from the plan, or does not enroll for the initial term for which the appeal is approved.

Financial Aid Probation

The status of financial aid probation will be assigned to a student with financial aid eligibility reinstated. Conditions may be imposed for a student's continued eligibility to receive aid. The student may receive aid for one semester, after which the student must be making satisfactory progress, or multiple semesters under an approved academic plan.

Appeal Deadlines

Appeals and supporting documentation should be submitted at least seven (7) days before the start of the term for which the student is appealing. Appeals submitted after the deadline or without the required documentation may result in an automatic denial or may be held until the next term for committee review. Students without an appeal decision at the beginning of the term are responsible for the payment of their tuition and fees. No class schedule will be held due to a pending appeal decision.

Notification

It is the student's responsibility to stay informed of the satisfactory academic progress standards and to monitor their own progress. Students may check their status anytime by logging into their jWeb account. The Financial Aid Office will notify, by letter or email to the student's JSCC email address, any student that does not meet minimum satisfactory academic progress requirements and the results of any appeal. The student is responsible for keeping the Records Office informed of their correct mailing and e-mail address.

Terminating eligibility to receive financial assistance does not affect the right to enroll as a student at Jackson State. Students may enroll and pay with their own resources as long as they are not academically suspended. Appeals submitted for financial aid are separate from academic suspension. If a student has been academically suspended, they must contact the Admissions and Records office.

Veterans Affairs Benefits

The Veterans Affairs Coordinator assists students eligible to receive VA benefits through the following Chapters: Chapter 1606 (National Guard), Chapter 30 (Montgomery GI Bill®), Chapter 31 (Vocational Rehabilitation), Chapter 35 (Survivors' and Dependents' Assistance Program), and Chapter 33 (Post 9/11 GI Bill®). The Veterans Affairs Office also assists eligible service members using Department of Defense Tuition Assistance.

The enrollment process for students receiving VA benefits is separate from the college admission process, and applicants must be fully admitted to JSCC before certification to the Veterans Administration can be submitted. The Veterans Affairs Office is located in the Student Center, Room 147.

Students receiving any VA or other military benefits are responsible for paying all tuition and fees not covered by those benefits and/or not paid directly to the college by the VA. Please see the "Tuition and Fees" section for further information.

According to Public Law 115-407 section 103, any covered individual will be able to attend or participate in the course of education during the period beginning on the date on which the individual provides to Jackson State Community College a certificate of eligibility for entitlement to educational assistance under Chapter 31 or 33 (a "Certificate of Eligibility" can also include a "Statement of Benefits" obtained from the Department of Veterans Affairs' (VA) website – eBenefits, or a VAF 28-1905 form for Chapter 31 authorization purposes) of this title and ending on the earlier of the following dates: (i) The date on which payment for such course of education is made to the institution. (ii) The date that is 90 days after the date on which the educational institution certifies for tuition and fees following receipt from the student such certificate of eligibility.

Individuals entitled to educational assistance under Chapter 31 Vocational Rehabilitation and Employment, or Chapter 33, Post 9/11 GI Bill® benefits, will not face any penalty, including assessment of late fees or denial of access to classes or institutional facilities, or be required to borrow funds, because of their inability to meet their financial obligations to the college due to delayed disbursement of funding from the VA for chapters 31 or 33.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government website at <http://www.benefits.va.gov/gibill>

To obtain additional information about any of the above referenced Chapters, contact the JSCC Veterans Affairs Office, at (731) 425-2618, online at www.jscce.edu or www.vets.gov

Students receiving VA benefits should be aware of the following VA regulations while attending Jackson State:

- You must be a degree-seeking student or working toward certification in an approved program
- Last date(s) of attendance reported by instructors must be reported to the VA. Failing to attend class throughout the semester can result in a reduction of your benefits and/or create a debt to the VA due to overpayment effective the last date of attendance
- Any change of major must be reported to the VA Office
- All prior military credit must be submitted to the Admissions and Records Office and evaluated within two semesters of initial enrollment

Courses not eligible for VA Benefits:

- Any course audited
- Any course challenged

- Any course not required for the degree or program being pursued
- Any course in which a non-punitive grade such as an “I” (incomplete), “W” (withdrawal), or “FA” (failure for attendance) has been assigned
- Repeat of any course in which a grade of “D” or above has been earned, unless it is required for the degree
- Any Learning Support course taught online

Deferment of Tuition/Fees: Service members, veterans, and dependents of veterans who are eligible beneficiaries of U.S. Department of Veterans Affairs education benefits, or other governmentally funded educational assistance subject to the conditions and guidelines set forth in Tennessee Code Annotated 49-7-104 as amended, may elect, upon formal application to defer payment of required tuition and fees until the final day of the term for which the deferment has been requested. Applications for the deferment must be made no later than fourteen days (14) after the beginning of the term and the amount of the deferment shall not exceed the total monetary benefits to be received for the term. Students who have been granted deferments are expected to make timely payments on their outstanding tuition and fees balance once education benefits are being delivered, and eligibility for such deferments shall terminate if the student fails to abide by any applicable rule or regulation, or to act in good faith in making timely payments. This notice is published pursuant to Public Chapter 279, Acts of 2003, effective July 1, 2003. Continually enrolled recipients of benefits are not eligible to receive a deferment.

Out-of-State Residency Exception: According to TN Code § 49-7-1304 (2019), a veteran or other individual eligible to receive educational benefits administered by the United State Department of Veterans Affairs, shall not be required to pay out-of-state tuition or any out-of-state fee when the veteran or other individual is:

- enrolled in any public institution of higher education in Tennessee;
- utilizing such benefits at the enrolling institution; and
- living in the state of Tennessee, regardless of their formal state of residency.

Satisfactory Progress: Veterans who are placed on academic suspension by the college and are not allowed to re-enroll for the ensuing semester will be reported promptly to the VA by the JSCC Veterans Affairs Office. This notification is done so that benefit payments will be terminated as the law requires.

Military Leave of Absence Process

When a United States Military service member or reservist, who is enrolled in Jackson State Community College (JSCC), is called to active duty, they may request a Military Leave of Absence (MLOA) from the college. This MLOA will allow them to return to their degree program and make up missed coursework, including the awarding of an “incomplete” grade at the end of the term, if needed. If the service member must withdraw from the semester due to their required military duties, they will be allowed to return to their program of study at the next available term without penalty, if they are in good academic standing. Service members can contact the Veterans Affairs Office for assistance with this process.

In order to be granted a MLOA:

- The service member must submit a written request to the office of the Vice President for Academic Affairs (VPAA) no less than 10 business days before they are to depart for duty, or as soon as possible. This request shall include their name, student I.D. (J number), program in which they are enrolled and to which they plan to return, their date of expected return to class, and how best to communicate with them about their request. It is to be signed by the service member and dated.
- A copy of their official military orders is to be provided with the written request for a MLOA.
- The VPAA, or their designee, shall confer with the appropriate program director and dean to determine the best method of supporting the service member’s academic status during their absence and upon their return. This determination should be made within five business days of receipt of the MLOA.
- Notice of this determination shall be provided to the student in writing and via their JSCC student email. It shall be copied to their program director, dean, and the college’s Veterans Affairs coordinator.
- If the student’s military duties are extended beyond their anticipated date of return to JSCC, they are to notify their program director and the office of the VPAA in writing, along with an official statement from the military of the extended assignment. The student shall include in their statement their request for action to be taken, such as a request for a late withdrawal from the term, and/or a revised estimate of when they will return to their program.
- The VPAA shall confer with the program director and dean to determine how the service member can best be served academically in relation to their current and future semesters. This should involve consultation with representatives in the Veterans Affairs Office, Financial Aid Office, Admissions and Records Office, and Business Services.
- Notice of this determination and action taken shall be provided to the student in writing and via their JSCC student email. It shall be copied to the program director, dean, Veterans Affairs Office, and, as needed, Financial Aid Office, Admissions and Records Office, and Business Services.
- Record of the request and related determinations shall be maintained in the office of the VPAA.

Important Contact information:

- 1-877-823-2378 or www.gibill.va.gov to verify monthly attendance (Chapters 1606, 1607, 30, and 33).
- 1-888-442-4551 VA toll free number

Student Services

Academic Assistance Center (AAC)

The AAC is on the second floor of the library. It offers a free tutoring program, which follows the CRLA (College Reading and Learning Association) guidelines, and offers both adjunct and peer tutors. It also offers free online tutoring through NefTutor. The AAC has a computer lab available free to all Jackson State Community College students; the staff provides computer assistance. The Center is staffed by support personnel and student workers dedicated to assisting students in their academic pursuits.

The Academic Assistance Center staff administers exams for Jackson State's online classes, for various specialized tests for the campus, such as Certification testing through PearsonVue and Certipoint, and for the TN eCampus Online Degree Program. They also proctor make-up tests for students in on-ground classes. For those seeking admission to Jackson State, the TBR placement test (Accuplacer) is administered during registration periods to determine appropriate placement of students in Learning Support (LS) co-requisite labs or college-level classes. The AAC also provides a Confirmation Test for students who were placed in Learning Support co-requisite classes by Accuplacer scores. A schedule of testing dates, registration procedures and suggested study material is available on the JSCC web site or from the AAC at 731-425-2614.

Students who require special testing conditions may work with their instructor(s) to make arrangements for accommodations in the AAC. In order to receive an accommodation, students first must contact the Disability Resource Center, located in Room 147 of the Student Center, to verify their disability and have their accommodation approved.

Advising Coaches

Advising Coaches oversee relational and holistic advising for all new students through the completion of 24 credits. Students then transition to a Faculty Advisor. Exceptions are made for some programs to transition students to Faculty Advisors at college readiness.

Computer Facilities

Jackson State provides many state-of-the-art computer facilities allowing students access to the latest technology. General-purpose open computer labs are maintained in the Academic Assistance Center on the second floor of the library and in many classrooms.

The library and specific-purpose computer facilities are available for instructional and research purposes. Users of college computer facilities are to act in a responsible, ethical and legal manner. Specific procedures and rules are available for each area and available for all students and authorized users. Purposeful or knowing misuse of any of these facilities will be subject to disciplinary action by the college.

Counseling Office

The college offers current students free, confidential mental health counseling by a licensed provider during the fall and spring semesters. To make an appointment, please call the counselor's office at (731) 424-3520, ext. 50260; email scounselor@jscc.edu; or come by the

Counseling Office in the Student Center. Walk-ins are welcome when the counselor is available.

Disability Resource Center

The Disability Resource Center (DRC), located in Room 147 of the Student Center, is available to assist students and prospective students with documented disabilities. The Dean for Students can facilitate in-class accommodations and campus access.

Information regarding these services also appears in each course syllabus, the JSCC website, and is shared at each New Student Orientation program. No accommodation is given prior to the point of student disclosure, verification and accommodation notice provided to the instructor within a reasonable time frame. Accommodations are not retroactive. Students who receive or received accommodations in high school IEP/504 plans might not receive the same accommodations at JSCC. Under federal law, requirements to provide accommodations are different for higher education.

The procedure to receive accommodations:

- Student fills out the DRC intake and confidentiality agreements found on the DRC website.
- The student provides medical and/or psychological information, preferably no more than five years old, from a licensed healthcare provider whose scope of practice qualifies her/him to diagnose and treat the disability. The documentation should clearly state the diagnosed disability, date of diagnosis, evaluation methods, and function impairments associated with the disability.
- The student meets with the Dean for Students or their designee to review the documentation and discuss the student's needs and history. Decisions about appropriate accommodations are made on an individual basis considering functional limitations caused by the disability as they relate to requirements in individual courses and/or programs.
- Upon determination that accommodations are warranted, the Dean or their designee gives the student an "Accommodation Agreement Form" designating needed accommodations for each class in which the student seeks support.
- The student meets with the instructor(s) to discuss the manner in which the accommodations will be provided. For more complex requests, or in case of disagreement, the Dean or their designee will meet with the student and instructor to determine what is reasonable in each class. This process should be completed with sufficient notice for the instructor to arrange accommodations in a timely manner. The student is not required to disclose their specific disability to the instructor.
- The student may appeal decisions made during this process by following the grievance procedure in the Jackson State Catalog/Student Handbook.
- The college has a right to seek additional medical/psychological evaluations paid for by the college, but must provide disputed accommodations until such information is obtained.
- The student attends class and utilizes the authorized accommodation(s) as needed.

- The student notifies the Dean or their designee prior to the beginning of each ensuing semester to request "Accommodation Agreement Forms" for upcoming classes.

Identification Cards

You, as a student, are required to obtain and carry at all times a valid Jackson State identification card (ID). An ID card is to be obtained or, if you are a returning student, validated at the main campus or at off-campus centers upon payment of your fees EACH SEMESTER. The ID card features your name, signature, color photo, and other information necessary for proper use. You will be issued an ID after presenting one form of government-issued photo identification (e.g., driver's license) and your paid fee receipt. The ID card is used to:

- Identify you as a current Jackson State student.
- Allow you to check out materials from the library.
- Allow you to obtain your federal financial aid checks.
- Allow you to purchase or sell books.
- Allow you to process forms in the Admissions and Records Office.
- Allow you to gain admission to certain events sponsored by the college or student organizations.
- Allow you to obtain discounts from area businesses.
- Allow you to use the resources in the Academic Assistance Center.

New student ID cards are made in the Student Assistance Center in the Student Center Building or at the Lexington or Savannah centers. ID cards can be validated in any of those locations or in the Business Office. A \$10 fee will be charged to replace all lost or inaccessible cards. The \$10 replacement fee must be paid in the Business Office and a receipt shown before a new ID card is produced. Any college official has the right to reclaim a student ID card for misuse or when deemed necessary, such as in cases of student conduct code violations. Failure to do so may result in disciplinary action.

Library

The JSCC Library serves as an information center for the college and community. The Library's resources include a large number of electronic, print and audio-visual resources which support the Jackson State Community College academic programs, as well as the research needs of students and faculty, both on and off campus. Instruction in library use is emphasized in a program of information literacy that is part of many college courses.

The JSCC Library also serves as a study area for the campus with special areas for individuals and groups. Jackson State students, staff and faculty can access many resources from their homes through the Library's web page at jscc.edu/library

With its Interlibrary Loan services, the JSCC Library can provide many resources that are not available on site. In addition, the Library's membership in the West Tennessee Academic Library Consortium allows students, staff and faculty to utilize the resources of college and university libraries throughout the area.

Lost and Found

Found items should be turned in to one of the following offices:

- Administration Building - Business Services
- Nelms Classroom Building - Dean of Communication/Humanities
- Gymnasium - Athletic Director
- Library - Circulation Desk
- Science Building - Dean of Math and Science (located in Nelms)
- Student Center Building - jHub Student Assistance Center
- McWherter Center - Dean of Business and Industry
- Lexington & Savannah Centers - Administrative Office

Each individual location will forward items to the Library after holding them for one day with the exception of monetary funds. Monetary funds are to be brought to the Business Services Office. The Library will hold all items for sixty days. After that time, the Library will forward unclaimed items to Physical Plant. After sixty days, any unclaimed monetary funds will be deposited into the JSCC Foundation Student Relief Fund.

Placement and Career Services

Placement and Career Services offers Jackson State students and alumni a variety of resources to aid them in career planning, employment searches, and the development of skills such as resume writing and interviewing. For more information about Placement and Career Services, visit the Career Resource Center page on the JSCC website.

Employment Search

The office is a referral source to assist JSCC students and alumni with off-campus job searches. The staff cannot guarantee students or alumni employment, as all hiring decisions are made by individual employers. The emphasis is providing individuals with direction and the necessary tools for their job search. The staff maintains contact with area employers and provides information about off-campus job opportunities through the "Job Listings" page on the JSCC Placement and Career Services website and JSCC student e-mail.

Printing

Each semester, students are credited \$45 in their print account which provides for 450 printing pages. Once students exceed that amount (or their print job pages exceeds the amount), the print job will cancel, and a pop-up window will direct the student to Business Services to add additional funds to their print account.

Records Services

Records of each student's grades are kept on permanent file in the Admissions and Records Office in the Student Center.

- All transcript requests must be made via letter or fax to the Admissions and Records Office. Requests through jWeb and National Clearinghouse (NSC) are also accepted. Telephone requests will not be accepted.

- Official transcripts printed and released to the student will be noted as "Issued to Student." Other colleges and agencies may not accept this as official.
- An official transcript will be sent to another school or a business.
- Upon completion of a course or courses, Jackson State Community College students in dual or joint enrollment programs may receive or have issued by the college a transcript indicating their completed coursework and the corresponding grade(s) they were awarded. Credit for such coursework will be applied to their degree program upon their admittance to the college as a degree-seeking student.
- Unofficial copies may be given to students and/or their academic advisors.
- There is no charge for transcript copies unless more than 10 are requested at one time. The National Clearinghouse (NSC) may charge a fee for their services, if utilized.
- No transcripts will be released for or to a student who has any financial debts with the school or who has not completed all admission requirements.

Change of Degree, Major or Concentration

To change your degree, major, or concentration, you can access an electronic request form in your Student Self Service-Student Records account or obtain a form from the Admissions and Records Office in the Student Center Building, jHub, the Lexington or Savannah Centers, or see your advisor.

A major change may require you to meet additional admissions requirements that may not have been initially required, such as providing additional official transcripts, taking a placement test, and completing different general education and major or concentration courses (example--changing from Non-degree seeking to a degree path).

Be sure to review your program requirements in Degree Work (located in jWeb). Students receiving Federal financial aid, such as Pell Grant or SEOG Grant, must be registered for courses within their program of study. Please note that if you are receiving financial aid and change to a non-degree seeking status, you will lose your financial aid.

Advising Center

The Advising Center provides guidance to new and continuing students attending Jackson State by assisting with the planning of class schedules. In addition, staff and peer Advising Assistants help students identify available academic resources and student support services on campus.

During the first semester at Jackson State, each student will be assigned an advisor to assist with setting educational and career goals, solving academic problems, and accessing campus and community resources. The Registration Center helps students connect with their advisor in an effort to ensure student success.

The Registration Center is located in the Student Center. For more information, call 731-425-9560.

Student Activities and Student Government

See page 237.

Student Assistance Center (jHub)

The Student Assistance Center (jHub), located in the Student Center Building, is the one-stop source for answers to questions regarding the college. The jHub offers a variety of services and support to Jackson State students and their families. Prospective and current students can find a wealth of information on subjects such as college admission, financial aid, registration, records, veterans affairs, counseling and career services, student job placement, and disability services. Students may also obtain their student I.D. and parking decal.

Student Insurance

Jackson State students may enroll in insurance plans provided through the Tennessee Board of Regents Student Health Insurance Exchange online health insurance marketplace. Details are available from the Dean for Students' office in the Student Center, and on students' jWeb under the "one-stop" tab, and "student information block."

Student Center

A Student Lounge with comfortable furniture is located in the Student Center Building. The lounge is available for students to gather, socialize and relax between classes. In addition, the cafe and vending machines are available, as well as computers and wireless internet connectivity for currently enrolled students.

Comfortable conversation areas also are located in the main lobby of the McWherter Building. A break room with tables, chairs, vending machines, and a microwave for student use also is available on the first floor of the building.

A student lounge with private study rooms is available in the Nelms Classroom Building.

Writing Center

The Jackson State Writing Center, located on the first floor of the Library, offers students the opportunity to work on their writing, one-on-one, with a trained Writing Consultant. The Writing Consultants are hired from across the curriculum and can assist students at all stages of the writing process, regardless of subject!

The Writing Center specializes in many areas, including, brainstorming, outlining, drafting, citations, revising, styles (i.e. MLA, APA, Chicago, Turabian, etc.), resumes, and college/job applications.

The Writing Center offers "in-person appointments" and opportunities to work with consultants online from the comfort of home through our "online appointments." Online paper submission is available at <https://jwebdata2.jsc.edu/writing-center/> To sign up, stop by the Center, call us at (731) 425-8848, or make an appointment online at tutortrac.jsc.edu.

What We Offer

General Education

The purpose for general education is to provide students with a common set of learning experiences that will increase their potential to function effectively in society. These experiences are broad enough and include enough options to allow students to prepare for the future in accordance with individual abilities, needs and interests.

General education focuses on a broad understanding of the past and present and on general principles for living in a period of rapid and continual change rather than isolated bits of knowledge or training which may soon become obsolete.

Jackson State believes that education should help students prepare for lifelong learning and responsible citizenship in a rapidly changing global community. Economic, political, social and personal issues as well as demands of a career require the individual to:

- Develop an appreciation of beauty as it appears in nature, in literature, in music, and in other art forms.
- Acquire an understanding of some of the basic concepts of science, the place of science in human culture, and the use of a scientific attitude and method of problem solving.
- Read, write, listen, and speak effectively and utilize computers and other technological resources for personal and professional development.
- Use the language of mathematics as an indispensable tool in the expanding areas of science, technology, world-wide business, and finance.
- Have knowledge of cultural diversities in order to promote the exchange of ideas and information in all areas of the college curriculum.
- Acquire the knowledge and skills necessary to maintain physical and mental well-being throughout one's life.
- Understand the nature and function of social organizations and institutions.
- Think critically and make reasoned choices by acquiring, analyzing, synthesizing, and evaluating knowledge.

Jackson State offers the courses listed below to fulfill the general education requirements at Jackson State. If transferring to a TBR institution, see page 45 for information on fulfilling general education requirements system-wide. If transferring to a non-TBR institution, check with that institution and your advisor to see which courses you should take at Jackson State to fulfill their general education requirements.

Communication - 9 credit hours

ENGL 1010	English Composition I
ENGL 1020	English Composition II
COMM 2025	Fundamentals of Communication

Humanities and Fine Arts - 9 credit hours

One course must be a Literature course.

Programs of Study

Tennessee Transfer Pathways

Associate of Arts Degree

Associate of Science Degree

Associate of Science in Teaching Degree

Because the objectives of students vary, educational opportunities at Jackson State are diversified and flexible.

Jackson State offers the Associate of Science degree and the Associate of Arts degree with a pathway to be selected from several choices as well as the Associate of Science in Teaching degree. This program is designed for the student who plans on transferring to a four-year college or university.

When a transfer student has satisfactorily completed a Jackson State associate degree designed for transfer to a university in the State University and Community College System of Tennessee, with a

pathway which is the same as the degree major to be pursued at the university, current policy of the Tennessee Board of Regents requires that the university shall grant credit toward completion of the baccalaureate degree for all courses completed for the associate degree, subject to requirements for junior and senior level courses and residence at the university, provided that credit need not be granted for any courses which would not be acceptable by the university for its native students.

When a transfer student is not awarded an associate degree designed for transfer purposes, each university will accept those freshman and sophomore courses completed which have been determined to be equivalent courses offered by the university. Each university will determine which courses are creditable toward completion of relevant requirements for their degree programs, to the same extent that the courses would be creditable toward completion of the degree programs by the university's native students with the same degree major.

Jackson State offers the Associate of Arts and/or Associate of Science degree in the following transfer pathways:

Transfer Pathways.....	Page
Accounting	48
Agriculture-Agricultural Business	50
Agriculture-Animal Science.....	52
Agriculture-Plant and Soil Science	54

Second Degree

A student may earn a second degree at Jackson State by fulfilling the following:

- Complete a minimum of twenty-four additional hours in a second major for a second degree in the same area (AA, AS, or AAS).
- Comply with the graduation requirements for the initial degree.
- General education requirements will apply to the major in the second degree, unless there is a specific general education requirement unique to the second major.
- Student may need to take a major exit exam for the second degree earned.

The student will be governed by the provisions of the catalog in effect at the time he or she re-enters Jackson State for work toward the second degree.

Professional and Technical Programs

Associate of Applied Science Degree

Jackson State offers the Associate of Applied Science degree in several areas. Technical certificates also are offered. A wide variety of professional and technical programs in business, technology, and the health professions is available. Each professional and technical program is designed to meet the needs of those preparing for employment and those employed who need to retain or upgrade their skills.

Jackson State offers the Associate of Applied Science degree in the following areas:

Professional and Technical AAS Areas.....	Page
Administrative Professional Technology Concentration.....	116
Business Management Concentration.....	118

 EMT Paramedic Certificate158
 Healthcare Technician Certificate159
 Medical Coding Certificate160
 Patient Care Technician Certificate161

Planning a Program of Study

The choice of a program of study rests with each student. This includes the choice of an academic program, location of classes, and method of delivery. Advisors at Jackson State are available to assist students in the selection of a course of study and specific courses as well as a location and method of study.

Choosing an Academic Program

Advisors

Advising Coaches oversee relational and holistic advising for all new students through the completion of 24 credits. Students then transition to a Faculty Advisor within their major area. Exceptions are made for some programs to transition students to Faculty Advisors at college readiness.

Faculty advisors will assist students in choosing proper courses, interpreting course requirements, and selecting a well-balanced program. Students should feel free to call on their advisors any time they feel they need help. Students can view their advisor's contact information on jWeb.

Advising Center

The Advising Center provides assistance for students to register for courses each semester. New students have the opportunity to attend one of the conveniently scheduled orientation sessions before their first semester. New Student orientation sessions help students learn about their degree program, financial aid, student activities and other aspects of student success. Students are then advised and can register for courses with the assistance of an academic advisor based on their ACT or Accuplacer testing scores.

During each New Student orientation session, emphasis is placed on helping students start their educational career on the right path to

success. Once a student has declared a major, the student will be assigned an advisor. Advisors are knowledgeable of academic programs and services that Jackson State provides and are trained to help students complete the registration process.

Choosing a Location of Classes

You have a choice of attending classes at several locations. The main campus, located at 2046 North Parkway in Jackson, Tennessee offers the full schedule of classes as well as student and business services. See the map on page 4 and description of buildings on page 5.

The college also has two centers:

- The Lexington-Henderson County Center of Higher Education located at 932 East Church Street, 731-968-5722,
- The Savannah-Hardin County Center of Higher Education located at 601 South Pickwick Road, 731-925-5722.

You may earn an Associate of Science Degree with a General Studies emphasis at any of the centers. Or, you may fulfill the general education requirements for most majors at any of the centers. Many of the required courses for several majors also are offered at the centers. Continuing Education non-credit classes are conducted on an as-needed basis. Student and business services are available at these centers as well.

Choosing a Method of Study

You may select from a variety of instructional delivery methods at Jackson State. The traditional classes are held at scheduled times and places. Students come together with an instructor who provides face-to-face content delivery, class discussions and activities. Courses delivered through eLearn require good time-management skills and self-discipline. The amount and difficulty of work is as rigorous as traditional classes. FLEX classes are offered utilizing video conferencing platforms for classes that meet at scheduled times.

The student is encouraged to select their method of study after careful consideration and after discussion with their advisor as to which method best suits their need, their study habits, and their abilities.

Traditional Classes

Traditional classes are offered at the main campus at Jackson, the Lexington-Henderson County Center and the Savannah-Hardin County Center. Jackson State also offers classes in communities, businesses and industries in our 14-county service area on an as-requested basis.

Classes are offered Monday through Thursday during the day or evening hours and during the day on Friday or Saturday. The typical three-credit hour day class meets three times weekly for 50-minute sessions or two times weekly for 75-minute sessions. The typical three-credit hour night class meets one night a week for one 170-minute session and a Saturday class meets for one 170-minute session. Classes meet for a term of approximately 15 weeks. Classes carrying

a greater credit hour load meet for additional minutes each week and classes carrying a lesser credit hour load meet for fewer minutes each week.

You will meet each class session with your instructor and other class members. The instructor will conduct your class sessions and the instructor will control the pace of the course. The instructor will be available to answer questions and to lead you through the course content.

For those students wishing to complete their courses quicker, Jackson State also offers Fast Track classes. These classes meet one night a week for seven 270-minute sessions. Two seven week sessions are offered in the Fall and Spring semesters.

Note: Classes are offered during the summer term as either a 3-week session, 5-week session or as a 10-week session. The 5-week session classes allow students to take two sequence courses during the summer term. Each three-credit hour five-week class meets seven hours and 20 minutes per week in either four or five sessions. Night classes during each summer session typically meet 9 hours per week in three sessions.

Distance Education

It is the aim of Jackson State's Distance Education Department to deliver quality, college-level instruction in the distance education environment. Distance education is defined as instruction that takes place outside the traditional classroom. This means of instruction allows for the greatest degree of flexibility in scheduling for the student but demands that the student be responsible and self-motivated for keeping deadlines and completing assignments on schedule. Distance Education offers classes through the following delivery methods: Online Web-Based, Hybrid Web-Enhanced, and Distance Learning Web-casting. Jackson State also offers online recordings of some traditional classroom lectures. All course work taken by distance education is accredited and accepted by Jackson State to meet degree requirements and is transferable to other institutions. Students register for Distance Education classes at the same time as traditional classes.

eLearn (Online Web-Based) Classes

In this method of instructional delivery, the student will receive class lectures, assignments, and class activities using the Internet. Instructors have developed classes similar in content to traditional classes offered except the classes have included the power of the Internet in their activities. Typical classes include an interactive web page, a student study guide, and a textbook. These classes are not self-paced and adhere to a strict course schedule. Instructors can be reached by telephone, e-mail within eLearn, and office visits if the student needs assistance in the class. Office visits may be conducted face-to-face or online. Jackson State also provides more information on online classes at <https://www.jssc.edu/academics/distance-education/online-courses.html>. Additional online guides and tutorials are available at http://libguides.jssc.edu/distancelearning/getting_started. To successfully complete one of the "online" classes, the student must have access to a computer with internet capability (preferably DSL or broadband) at his/her home or at one of the Jackson State Centers.

FLEX (Video Conference) Classes

Classes labeled FLEX will be taught at scheduled times through live-streaming using videoconferencing software (such as Zoom®) provided by the college. Classes will meet online at scheduled days and times. Students will submit assignments and will have access to class materials through D2L (eLearn). FLEX classes are designed for those students who prefer a more traditional face-to-face classroom experience. Students will be able to talk with their professors, participate in class discussions, and enjoy group activities

Hybrid (Online Web-Enhanced) Classes

In this method of instructional delivery, instructors have developed classes that blend the classroom and online experience together. Typical classes include an interactive web page, a student study guide, and a textbook. These classes are not self-paced and adhere to a strict course schedule. Instructors can be reached by telephone, e-mail, and office visits if the student needs assistance in the class.

Distance Learning (Web-Casting) Classes

In this method of instructional delivery, the student will attend class with other students at a remote location from the instructor. The student will attend classes, receive lectures and participate in class activities just as those students attending at the instructor's "home" location. Currently, Jackson State Community College webcasts from one of our campuses: the JSCC main campus, the Lexington-Henderson County Center, or the Savannah-Hardin County Center, to many area high schools. As the student would in any other live class, he/she will attend classes at the times specified in the class schedule. The equipment allows for two-way video and audio communication so that students will be able to see and hear the instructor, and the instructor will be able to see and hear the student. Students who take distance learning classes may be required to bring headphones or earbuds to class.

Jackson State Community College does not charge fees to students associated with the verification of student identity. However, students may request to take an exam at a site approved by JSCC and may incur charges for verification of student identity and proctoring at the site.

For more information concerning the Distance Education classes, contact the Distance Education Office by phone, or Web-Request.

TN eCampus Online Degree Programs

The TN eCampus Online Degree Programs aims to increase access to higher education for adult Tennesseans by maximizing the joint, effective use of technology to deliver quality, college-level instructions. The program includes associate's degrees and technical certification. The Associate of Arts Degree or Associate of Science Degree (A.A. or A.S.) are designed for transfer to a university, and the Associate of Applied Science Degree (A.A.S.) and Technical Certificate are for students directly entering the workforce.

The classes are delivered using web-based technology, thus allowing the student maximum flexibility in "going to class." Students are able to receive instruction, assignments, and evaluations at a location of their choosing at a time that is convenient for them. A computer with access to the Internet is necessary for all programs. Instructors are just a few keystrokes or a telephone call away. Technical support is available 24 hours a day, seven days a week by a toll-free number. The classes are offered by and taught utilizing faculty from all Tennessee Board of Regents institutions.

When you choose Jackson State as your home institution, you receive the same services and support as traditional students and your degree will be awarded by Jackson State. Classes taken toward the TN eCampus Online Degrees and Certificate can be mixed with classes taken at Jackson State, the Centers, or through Jackson State's Distance Education Department.

All TN eCampus Online Degree credits are transferable to any Tennessee Board of Regents four-year institution. Credits meet all accreditation requirements and are transferable to area colleges and universities.

The registration for TN eCampus Online Degree classes begins after your admission to Jackson State. You register for these classes via the Registration Center at Jackson State.

TN eCampus Online Degree classes are considered separately from on-campus classes and fees for these classes are charged per hour at the current part time, per hour Jackson State maintenance fee rate or out-of-state fee, as applicable—plus an online class fee. Students will pay the TN eCampus fee even if they have achieved full-time status. (Because the TN eCampus Online Course Fee is considered a "special course fee," TBR, UT and other state employees who are entitled to a fee waiver are still required to pay this fee.) See Fees and Expenses for more information.

For more information concerning the TN eCampus Online Degree Program contact: Jackson State's TN eCampus Contact at:

Phone: 731-425-2623 • 1-800-355-5722 Ext. 52623

Fax: 731-425-9562

Fax: 731-425-2653 email: wshull@jsc.edu

Statewide information on the TN eCampus Online Degree Program can be found on the web at www.tnecampus.org

Transfer Programs

Associate of Arts Degree

Associate of Science Degree

Associate of Science in Teaching Degree

The Tennessee Transfer Pathways (TTPs) consist of pathways in several academic and pre-professional areas designed for students desiring to transfer to a four-year college or university to work toward a baccalaureate degree. If you plan to transfer to a college or university outside of the Tennessee Board of Regents or University of Tennessee system, please check with the institution to which you plan to transfer to make sure that you are fulfilling their requirements. Also, be aware that some colleges and universities accept as transfer courses only those courses in which a student has earned a grade of “C” or above.

Upon the successful completion of graduation requirements and courses specified by major, a student will receive an Associate of Arts Degree, an Associate of Science Degree, or an Associate of Science in Teaching degree. The Associate of Arts Degree requires two semesters of a foreign language. Only one A.A., A.S., or A.S.T. degree is awarded in the TTP program although more than one major may be completed.

A student may earn a second major/concentration by fulfilling the following:

- Comply with the graduation requirements for the initial major/concentration.
- General education requirements will apply to the second major/concentration, unless there is a specific general education requirement unique to the second major/concentration.
- May need to take a major exit exam for the second major/concentration earned.

A student who has completed the requirements for one degree may receive a second degree if the second degree is a different type from the first. (i.e., A student who has received an Associate of Science degree may receive as a second degree an Associate of Arts degree, an Associate of Science in Teaching degree or Associate of Applied Science degree.) Students completing a second degree must complete the curriculum prescribed for the second degree, provided the work completed includes at least 24 semester hours in residence over and above the total number of hours completed for the first degree. The student will be governed by the provisions of the Catalog in effect at the time he/she re-enters the College for work toward the second degree.

Tennessee Board of Regents

Common General Education Core Curriculum

Effective Fall Semester 2004, each institution in the State University and Community College System of Tennessee (The Tennessee Board of Regents System) share a common lower-division general education core curriculum of forty-one (41) semester hours for baccalaureate degrees and the Associate of Arts and the Associate of Science degrees. Lower-division means freshman and sophomore courses.

The courses comprising the general education curriculum are contained within the following subject categories:

Baccalaureate Degrees and Associate of Arts and Associate of Science Degrees *

Communication 9 hours **

Humanities and/or Fine Arts..... 9 hours

(At least one course must be in literature.)

Social and Behavioral Sciences 6 hours

History6 hours ***

Natural Sciences..... 8 hours

Mathematics 3 hours

Total 41 hours

** Foreign language courses are an additional requirement for the Associate of Arts (A.A.) and Bachelor of Arts (B.A.) degrees. The B.A. degree requires proficiency in a foreign language equivalent to completion of two years of college-level work. The A.A. degree requires proficiency in a foreign language equivalent to completion of one year of college-level work.*

*** Six hours of English Composition and three hours in English oral presentational communication are required.*

**** Students who plan to transfer to Tennessee Board of Regents (TBR) universities should take six hours of United States History (three hours of Tennessee History may substitute). Students who plan to transfer to a non-TBR institution should check requirements at the college or university they will be transferring to and take the appropriate courses.*

Although the courses designated by Tennessee Board of Regents (TBR) institutions to fulfill the requirements of the general education subject categories vary, transfer of the courses is assured through the following means:

- Upon completion of an A.A., A.S., or A.S.T. degree, the requirements of the lower-division general education core will be complete and accepted by a TBR university in the transfer process.
- If an A.A., A.S., or A.S.T. is not obtained, transfer of general education courses will be based upon fulfillment of complete subject categories. (Example: If all eight hours in the category of Natural Sciences are complete, then this “block” of the general education core is complete.) When a subject category is incomplete, course-by-course evaluation will be conducted. The provision of block fulfillment pertains also to students who transfer among TBR universities.
- Institutional or departmental requirements of the grade of “C” will be honored. Even if credit is granted for a course, any specific requirements for the grade of “C” by the receiving institution will be enforced.
- In certain majors, specific courses must be taken also in general education. It is important that students and advisors be aware of any major requirements that must be fulfilled under lower-division general education.

Courses designated to fulfill general education by Jackson State are on page 40 of this catalog. A complete listing of the courses fulfilling general education requirements for all system institutions is available on the TBR web site <https://www.tbr.edu/> under Transfer and Articulation Information.

Jackson State Requirements

Residence Requirement

Twenty-five percent of the overall semester hours of credit needed for graduation must be from Jackson State. For example, a degree program that is 60 credit hours, 15 of those credit hours must be earned at Jackson State.

Educational Requirements

- If the TBR placement scores indicate that you need additional preparation courses for college, you must fulfill those requirements before beginning college-level work in courses with learning support requirements.
- Total semester credit hours: Minimum of 60.
- Cumulative quality point average: Minimum of 2.00.
- Only grades of “D” and above will be accepted to satisfy program requirements.

Course Requirements

General Education

See page 40 for statement of purpose and courses that fulfill the general education requirements at Jackson State. The courses listed there will transfer to all TBR institutions if you complete the subject category. If you transfer before obtaining an A.A., A.S., or A.S.T. degree from Jackson State and a subject category is not complete, a course-by-course evaluation will be conducted by the institution to which you transfer. Please note that even if credit is granted for a course, any specific requirements for the grade of “C” by the receiving institution will be enforced.

See the information listed under General Education on the page describing your major for the courses that will fulfill the general education requirements for your particular major at Jackson State.

If transferring to a non-TBR institution, check with that institution and your advisor to see which courses you should take at Jackson State to fulfill their general education requirements as well as those of Jackson State.

Communication: 9 credit hours

- English Composition - 6 hours
- Oral Presentation - 3 hours

Humanities and Fine Arts: 9 credit hours

- English Literature - 3 hours
- Two other courses selected from the category (page 32) - 6 hours

Social and Behavioral Sciences: 6 credit hours

History: 6 credit hours

Natural Science: 8 credit hours

Mathematics: 3-4 credit hours

Majors/Pathways

Each transfer major includes required courses of study which must be completed and are dependent upon the major selected by the student. See each major’s description for specific course requirements.

Elective Courses

Courses to be included as electives should be chosen toward a specific transfer program to a specific four-year college or university.

Foreign Language

Required for Associate of Arts degree: Six semester credit hours of courses, or satisfied by successful completion of a proficiency examination.

Graduation Proposal Requirements

A student must complete requirements for the degree sought and file a graduation proposal in the Admissions and Records Office. Students ordinarily are allowed to graduate under the requirements of the catalog under which they entered, provided graduation is within seven years of entrance date. Students should meet with their advisor to ensure that all requirements for graduation have been met.

Exit Testing Requirement

All students are required to take one or more exit exams prior to graduation. These exams are designed to measure achievement in general education and, if applicable, in the major for the purpose of evaluating the effectiveness of the institution or the program as required by public policy. All students must take the General Education Exit Exam (Proficiency Profile). Students who are graduating in certain AAS programs are required to take a Career Exit Exam in addition to the General Education Exit Exam. In order to comply fully with this provision, students must authorize the release of their scores to the institution. Individual student scores will be treated as confidential.

Graduation Instructions

- Complete the Graduation Proposal Form
 - Review DegreeWorks audit for your program of study
 - If needed, meet with your academic advisor who can assist you with completing a substitution request form, (signed by your advisor and the appropriate dean)
 - Schedule the career exit exam (if applicable)
 - Lexington and Savannah Center students may complete their graduation proposal at their respective location
- Proficiency Profile Testing
 - Go to one of the Proficiency Profile testing locations and complete the exam.
 - Sign up for the exam under the "Student One-Stop" tab in your jWeb account.

- If students have any questions about graduation, they can email graduation@jsc.edu.
- All graduation proposals must be completed and submitted to the Admissions and Records Office. Deadlines for submission of graduation proposals will be posted on the [JSCC homepage](#).

jbrown84@jscc.edu

Program and Career Description

The art major is a two-year program for students planning to earn a B.A. in this field of study. Designed to parallel the first two years of art schools across the country, our program gives students the opportunity to work closely with experienced faculty and provides ample access to the campus art studios. A wide variety of careers, from architect to zoological illustrator, are available with an art degree. Employment opportunities are available in offices, design studios, museums, education, and industry as well as in private studios. Art therapists and college art instructors must have at least a master's degree. Below is the pathway for an AA in Art to lead to a BA in Studio Art or Art History. If you are pursuing a BFA, please consult with an Art advisor to discuss your options.

Career and Salary Information

The following is a list of some of the career choices that may be obtained upon completion of a bachelor degree, or higher, in this discipline. Please visit the following website <http://www.onetonline.org> or speak to an advisor for additional career opportunities, salary information and education requirements. Salaries are not guaranteed

Career	Beginning Salary with Bachelor Degree	Experienced Salary Median
Chemical Technician	\$32,350	\$48,290
Chemist	\$36,950	\$69,350

The Associate of Science

Civil Engineering

Contact Information
 Dr. Wesley O. Smith III
 731-424-3520
wsmith16@jssc.edu

Program and Career Description

The Civil Engineering transfer pathway is designed to provide students with an exceptional depth of background knowledge in mathematics and science allowing them to pursue further education and a career as a civil engineer. Students complete courses in other needed areas as well, such as communications and computer science. Additional elective courses are also available. Emphasis is placed on application of knowledge and problem solving in practical situations. The Associate of Science degree in Civil Engineering allows students to complete the first two years of study with the advantages inherent in a community college while preparing to transfer into a four year engineering program. Students work closely with science and math faculty with access to science labs and computer facilities. Completion of the Associate's Degree supplies the student with strong academic skills and an understanding of science, mathematics, and fundamental engineering principles appropriate to pursue a bachelor's degree.

Program Requirements

for the Associate of Science: Civil Engineering

(The Associate of Science: Civil Engineering requires 69 college level credits. Some courses have prerequisites and co-requisites.)

Communication Requirement

ENGL 1010 English Composition I
 ENGL 1020 English Composition II
 COMM 2025 Fundamentals of Communication

Choose THREE Humanities Courses

(One course must be a literature course)

ART 2000 Art History Survey I
 ART 2020 Art History Survey II
 ART 1035 Introduction to Art
 COMM 1851 Introduction to Film
 ENGL 2055 African-American Literature
 ENGL 2110 Early American Literature
 ENGL 2120 Modern American Literature
 ENGL 2210 Early British Literature
 ENGL 2220 Modern British Literature
 ENGL 2310 Early World Literature
 ENGL 2320 Modern World Literature
 HUM 1010 Early Humanities
 HUM 1020 Modern Humanities

Program and Career Description

Some careers in the Computer Science field require a bachelor's degree. Computer programmers may work in a variety of settings including offices and manufacturing firms. The Associate of Science in Computer Science is designed for students wanting to complete the first two years of the bachelor's degree in a community college setting. Students will gain critical thinking and analytical skills needed to succeed at a university. Because class sizes are small, students work closely with experienced faculty and have access to state-of-the-art computer labs.

Program Requirements

for the Associate of Science: Computer Science

(The Associate of Science: Computer Science requires 63-64 college level credits. Some courses have prerequisites and co-requisites.)

The Associate of Arts English

Contact Information

Dr. Anna Esquivel

731-424-3520

aesquivel@jsc.edu

Program and Career Description

A degree in English from JSCC prepares the graduate to enter occupations which require strong communication, critical-thinking, and problem-solving skills, and provides a superb background for those pursuing a liberal arts degree at a four year institution. Students completing a bachelor's degree in English have a variety of career opportunities available including careers in secondary education, public relations, technical and science writing, and in the legal profession. Students completing a master's degree or higher may teach English courses in colleges or universities or enter fields such as journalism and public policy, among many others.

jcherry@jsgcc.edu

Program and Career Description

The General Studies Major is the most flexible degree program Jackson State offers. If you aren't sure what you want to major in, if we don't offer the specific degree you want, or if you need an associate degree to further advance your career, this is the degree for you. Working with an advisor, you will be able to customize your studies in addition to taking the General Education Courses needed for transferring to a four-year school.

Program and Career Description

The History pathway prepares students for jobs in high school teaching, museums, state and national parks, writing, film, law, politics, and research. Students completing at least a Master's degree in history are eligible for positions in higher education and can achieve higher salaries. The study of history produces an educated citizenry capable of understanding and dealing with today's increasingly complex global interaction and economy.

The Associate of Science Information Systems

Contact Information
Stacey Dunevant
731-424-3520
sdunevant@jssc.edu

Program and Career Description

Some careers in the Information Systems field require a bachelor's degree. Computer programmers may work in a variety of settings including offices and manufacturing firms. The Associate of Science in Information Systems is designed for students wanting to complete the first two years of the bachelor's degree in a community college setting. Students will gain critical thinking and analytical skills needed to succeed at a university. Because class sizes are small, students work closely with experienced faculty and have access to state-of-the-art computer labs.

Program Requirements for the Associate of Science: Information Systems

(The Associate of Science: Information Systems 60-61 college level credits. Some courses have prerequisites and co-requisites.)

Program and Career Description

The Associate of Arts/Science in Mass Communication is designed for students wanting to complete the first two years of the bachelor's degree in a community college setting. Our students have the opportunity to work closely with communication faculty. Careers in the field of communication typically require a bachelor's degree or higher. Students who wish to pursue a career in electronic or print journalism; the television or film industry; public relations or advertising; or theatre should consider this degree.

Program and Career Description

Majoring in mathematics may lead to a variety of exciting and unique careers. Most careers in mathematics require a bachelor's degree or higher. A mathematics degree can lead to a career in actuarial science, business and management, computer programming and analysis, education, operations research, statistics, and engineering. Students successfully completing the AS in Mathematics at Jackson State will have strong analytical abilities that will provide the necessary academic skills appropriate to pursue a bachelor's degree in a mathematics related program.

Career and Salary Information

The following is a list of some of the career choices that may be obtained upon completion of a bachelor degree, or higher, in this discipline. Please visit the following website <http://www.onetonline.org> or speak to an advisor for additional career opportunities, salary information and education requirements. Salaries are not guaranteed

Career	Beginning Salary with Bachelor Degree	Experienced Salary Median
Mathematician	\$58,100	\$105,030
Statistician	\$48,000	\$65,630

The Associate of Science

Mechanical Engineering

Contact Information
 Dr. Wesley O. Smith III
 731-424-3520
wsmith16@jssc.edu

Program and Career Description

The Mechanical Engineering transfer pathway is designed to provide students with an exceptional depth of background knowledge in mathematics and science allowing them to pursue further education and a career as a mechanical engineer. Students complete courses in other needed areas as well, such as communications and computer science. Additional elective courses are also available. Emphasis is placed on application of knowledge and problem solving in practical situations. The Associate of Science degree in Mechanical Engineering allows students to complete the first two years of study with the advantages inherent in a community college while preparing to transfer into a four year engineering program. Students work closely with science and math faculty with access to science labs and computer facilities. Completion of the Associate's Degree supplies the student with strong academic skills and an understanding of science, mathematics, and fundamental engineering principles appropriate to pursue a bachelor's degree.

Program Requirements for the Associate of Science: Mechanical Engineering

(The Associate of Science: Mechanical Engineering requires 66 + 3 college level credits. Some courses have prerequisites and co-requisites.)

Communication Requirement

ENGL 1010 English Composition I
 ENGL 1020 English Composition II
 COMM 2025 Fundamentals of Communication

Choose THREE Humanities Courses

(One course must be a literature course)

ART 2000 Art History Survey I
 ART 2020 Art History Survey II
 ART 1035 Introduction to Art
 COMM 1851 Introduction to Film
 ENGL 2055 African-American Literature
 ENGL 2110 Early American Literature
 ENGL 2120 Modern American Literature
 ENGL 2210 Early British Literature
 ENGL 2220 Modern British Literature
 ENGL 2310 Early World Literature
 ENGL 2320 Modern World Literature
 HUM 1010 Early Humanities
 HUM 1020 Modern Humanities
 MUS 1030 Introduction to Music
 PHIL 1030 Introduction to Philosophy
 PHIL 1040 Introduction to Ethics
 THEA 1030 Introduction to Theatre

Choose TWO Social and Behavioral Science Courses

ECON 2100 Principles of Macroeconomics
 ECON 2200 Principles of Microeconomics
 GEOG 2010 World Regional Geography
 PHED 2050 Health and Wellness
 POLS 1030 American Government
 POLS 2025 State and Local Government
 PSYC 1030 General Psychology
 SOCI 1010 Introduction to Sociology
 SOCI 1040 Social Problems
 WGST 2010 Introduction to Women's and Gender Studies

Choose TWO History Courses

HIST 2310 Early World History
 HIST 2320 Modern World History
 HIST 2010 Early United States History
 HIST 2020 Modern United States History
 HIST 2650 African American History

Natural Science Requirement

PHYS 2110 Calculus-Based Physics I
 PHYS 2120 Calculus-Based Physics II

Mathematics Requirement

MATH 1910 Calculus I

Area of Emphasis Requirements

MATH 1920 Calculus II
 MATH 2110 Calculus III
 MATH 2010 Introduction to Linear Algebra
 MATH 2120 Differential Equations
 CHEM 1110 General Chemistry I
 ENGR 2110 Statics
 ENGR 2120 Dynamics
 COL 1030 College to Career Navigation

Students are strongly encouraged to complete a course in Mechanics of Materials, also known as Strength of Materials, before transferring to a university. Courses in engineering technology do not fulfill any of the requirements for the Area of Emphasis in Mechanical Engineering. Although it is possible to complete the B.S. Degree in Mechanical Engineering in four semesters after earning the associate's degree, students typically need five or six semesters to complete requirements.

Mechanical Engineering Sample Schedule

First Year, Fall Semester

Rubric	Course	Hrs
ENGL 1010	English Composition I	3

The Associate of Arts/Science Political Science

Contact Information
Bill Fry
731-424-3520
bfry@jsgcc.edu

Program and Career Description

Political science careers typically require a bachelor's degree. A variety of career opportunities are available in international diplomacy, politics, city management, political research, or education at that level. The Associate of Arts/Science Political Science is designed for students wanting to complete the first two years of the bachelor's degree in a community college setting. Political science graduates may work in government, law, politics, media or other fields. Because this is a broad major, it's crucial that you define your goals early and gain practical experience as part of your education. Students majoring in political science will learn about the U.S. Constitution, the branches of government, and political theory as well as modern political dynamics.

Program Requirements for the Associate of Arts/Science: Political Science

(The Associate of Arts/Science: Political Science requires 60 college level credits. Some courses have prerequisites and co-requisites.)

Program and Career Description

The Associate of Science in Pre-Health Professions is designed for students wanting to complete the first two years of the bachelor's degree in a community college setting. Our students have the opportunity to work closely with science faculty, have ample access to science labs, and should be well prepared to continue their education at a university. Students seeking careers in dentistry, medicine, optometry, physical therapy, occupational therapy, pharmacy, and veterinary medicine should choose this pathway.

Program Requirements for the Associate of Science: Pre-Health Professions

Career and Salary Information

The following is a list of some of the career choices that may be obtained upon completion of a bachelor degree, or higher, in this discipline. Please visit the following website <http://www.onetonline.org> or speak to an advisor for additional career opportunities, salary information and education requirements. Salaries are not guaranteed

Career	Beginning Salary with Professional Degree	Experienced Salary Median
Medical Doctor (M.D.) family practice	\$174,040	\$208,000
Veterinarian (D.V.M.)	\$53,890	\$89,230
Dentist	\$112,740	\$208,000

The Associate of Science

Pre-Occupational Therapy

Contact Information

Ben Jeter

731-424-3520

bjeter@jscc.edu

Program and Career Description

The Associate of Science degree in Pre-Occupational Therapy is designed for students seeking to become Occupational Therapists. Approximately three years of college prerequisite classes are required to gain admission to an occupational therapy program. Completing two years of college at Jackson State will prepare students to transfer to a suitable four year institution where the remaining required courses would be offered. Students at Jackson State work closely with science faculty and have access to science labs and computer facilities. Students also acquire the fundamental academic skills needed to pursue a higher degree.

Program Requirements

for the Associate of Science: Pre-Occupational Therapy

(The Associate of Science: Pre-Occupational Therapy requires 60 + 3 college level credits. Some courses have prerequisites and co-requisites.)

Communication Requirement

ENGL 1010 English Composition I
 ENGL 1020 English Composition II
 COMM 2025 Fundamentals of Communication

Choose THREE Humanities Courses

(One course must be a literature course)

ART 2000 Art History Survey I
 ART 2020 Art History Survey II
 ART 1035 Introduction to Art
 COMM 1851 Introduction to Film
 ENGL 2055 African-American Literature

The Associate of Science in Teaching Teaching

Contact Information
Nancy Hickey
731-424-3520
nhickey@jsc.edu

Program and Career Description

The Associate of Science in Teaching is a two-year degree program designed for students planning on earning a baccalaureate degree from a four-year institution in preparation for a teaching career in elementary education. Students desiring to teach in secondary education should choose an emphasis in the particular discipline in which they hope to teach. For example: If you plan to teach high school history, you will want to pursue an associate degree with a history major.

Program Requirements for the Associate of Science in Teaching

(The Associate of Science in Teaching requires 60 +3 college level credits. Some courses have prerequisites and co-requisites.)

Career and Salary Information

The following is a list of some of the career choices that may be obtained upon completion of a bachelor degree, or higher, in this discipline. Please visit the following website <http://www.onetonline.org> or speak to an advisor for additional career opportunities, salary information and education requirements. Salaries are not guaranteed

Career	Beginning Salary Median in TN with Bachelor Degree	Experienced Salary
Elementary School Teacher	\$39,480	\$70,000
Middle School Teacher	\$41,000	\$70,000

Academic Certificates

An academic certificate recognizes completion of general education courses.

Requirements

Admission Requirements

Students who wish to take courses on a limited basis for credit but who are not pursuing a degree at Jackson State may be admitted under Special Admission. [See page 13 for details.](#)

Students may enroll in Academic Certificate programs while concurrently enrolled as a degree-seeking student in academic degree programs.

Residence Requirement

Twenty-five percent of the overall semester hours of credit needed for completion must be from Jackson State.

A student may apply credit earned in an academic certificate to A.A., A.S. or A.A.S. degree requirements.

Educational Requirements

A 2.00 GPA is required for graduation.

Course Requirements

Upon successful completion of courses listed for the certificate, a student will receive an Academic Certificate.

Graduation Proposal Requirements

A student must complete requirements for the certificate sought and file a graduation proposal in the Admissions and Records Office. Students ordinarily are allowed to graduate under the requirements of the catalog under which they entered, provided graduation is within seven years of entrance date. Students should meet with their advisor to ensure that all requirements for graduation have been met.

Associate of Applied Science Degree

Jackson State offers the Associate of Applied Science degree in several majors with many concentrations/emphases. These professional and technical programs are designed for the student who does not intend to transfer to a four-year college or university to work toward a baccalaureate degree.

Upon the successful completion of graduation requirements and courses specified by major, a student will receive an Associate of Applied Science Degree.

Only one A.A.S. degree is awarded in the Professional and Technical programs although more than one major may be completed.

A student may earn a second major/concentration by fulfilling the following:

- Comply with the graduation requirements for the initial major/concentration.
- General education requirements will apply to the second major/concentration, unless there is a specific general education requirement unique to the second major/concentration.
- May need to take a major exit exam for the second major/concentration earned.

A student who has completed the requirements for one degree may receive a second degree if the second degree is a different type from the first. (i.e., A student who has received an Associate of Applied Science degree may receive as a second degree an Associate of Arts or Associate of Science degree.)

Students completing a second degree must complete the curriculum prescribed for the second degree, provided the work completed includes at least 24 semester hours in residence over and above the total number of hours completed for the first degree. The student will be governed by the provisions of the Catalog in effect at the time he/she re-enters the College for work toward the second degree.

Jackson State Requirements

Residence Requirements

Twenty-five percent of the overall semester hours of credit needed for graduation must be from Jackson State. Fifteen of the last twenty-four semester hours of credit should be from Jackson State.

A student may apply credit earned in a technical certificate to the Associate of Applied Science degree requirements, but 15 of the final 24 semester hours of the A.A.S. degree (exclusive of Learning Support requirements) must be completed after the change to the A.A.S. degree program.

Educational Requirements

- If the TBR placement scores indicate that you need additional preparation courses for college, you must fulfill those requirements before beginning college-level work in courses with basic or developmental requirements.
- Cumulative quality point average: Minimum of 2.00.
- Total semester credit hours: Minimum of 60. Additional hours may be required. The student should reference a specific major for the exact number of required hours.
- Only grades of “D” and above will be accepted to satisfy program requirements.

Course Requirements

- General Education: See page 40 for statement of purpose and courses that fulfill general education requirements at Jackson State. See the information listed under General Education on the page describing your major for the courses that will fulfill the general education requirements for your major at Jackson State.
- Majors: Each Professional and Technical Major includes required courses of study which must be completed and are dependent upon the major selected by the student. See each major’s description for specific course requirements.
- Elective Courses: Elective courses should be selected from those courses indicated for a major or major concentration and should be chosen toward a specific career goal.

Graduation Proposal Requirements

A student must complete requirements for the degree sought and file a graduation proposal in the Admissions and Records Office. Students ordinarily are allowed to graduate under the requirements of the catalog under which they entered, provided graduation is within seven years of entrance date. Students should meet with their advisor to ensure that all requirements for graduation have been met.

Exit Testing Requirement

All students are required to take one or more exit exams prior to graduation. These exams are designed to measure achievement in general education and, if applicable, in the major for the purpose of evaluating the effectiveness of the institution or the program as required by public policy. All students must take the General Education Exit Exam (Proficiency Profile). Students who are graduating in certain AAS programs are required to take a Career Exit Exam in addition to the General Education Exit Exam. In order to comply fully with this provision, students must authorize the release of their scores to the institution. Individual student scores will be treated as confidential.

Graduation Instructions

- Complete the Graduation Proposal Form
 - Review DegreeWorks audit for your program of study
 - If needed, meet with your academic advisor who can assist you with completing a substitution request form, (signed by your advisor and the appropriate dean)
 - Schedule the career exit exam (if applicable)
 - Lexington and Savannah Center students may complete their graduation proposal at their respective location
- Proficiency Profile Testing
 - Go to one of the Proficiency Profile testing locations and complete the exam.
 - Sign up for the exam under the "Student One-Stop" tab in your jWeb account.
- If students have any questions about graduation, they can email graduation@jscc.edu.
- All graduation proposals must be completed and submitted to the Admissions and Records Office. Deadlines for submission of graduation proposals will be posted on the [JSCC homepage](#).

cyoung13@jacc.edu

Program and Career Description

Students completing the Administrative Professional Technology Concentration will be prepared for a career as an office manager or an administrative or executive assistant. Students enrolled in the program will have the opportunity to work closely with experienced faculty to learn both office administration and management skills.

Certification

Upon completion of this program students will have the foundational skills and knowledge that will help lead to the following certifications:

- Microsoft Office Specialist Certifications for Word, Excel, Access, and PowerPoint.
- Certified Administrative Professional (CAP). The CAP is recommended by the International Association of Administrative Professionals. Exam offered by Pearson.

Additional Information

The Associate of Applied Science in Business is accredited by the Accreditation Council for Business Schools and Programs.

Projected Income

Career	Beginning Salary with Associate Degree in TN	Experienced Salary Median in TN

The Associate of Applied Science Business Management Concentration

Contact Information
Dr. Christy Young
731-424-3520
cyoung13@jsc.edu

Program and Career Description

Entry-level supervisory careers in retail, service, and manufacturing require a minimum of an associates degree. Supervisors or managers may work in industry, stores, restaurants, hotels, or become an entrepreneur. The Associate of Applied Science in Business is designed for students who want to start an entry-level supervisory career and who do not plan to attend a university. Students successfully completing this program will have the knowledge of and skills in accounting, computers, marketing, communication, management, supervision, and economics.

The Management concentration is available in an evening option for students wishing to complete their degree in an accelerated method. Please call 731-425-2632 for more information about the evening program.

Additional Information

The Associate of Applied Science in Business is accredited by the Accreditation Council for Business Schools and Programs.

Projected Income

The Associate of Applied Science Computer Information Technology Networking Concentration

Contact Information
Lisa Matlock
731-424-3520
lmatlock@jssc.edu

Program and Career Description

Students completing the Networking Concentration will be prepared for employment in the computer technical support field and network administration information technology field. The students will learn how to diagnose and repair computer hardware and software problems. In addition, those who complete the program will be able to design, implement and administer computer networks. Students will also develop strong critical thinking skills and will learn by doing within a hands-on lab environment along with real world internship experiences.

Certification

Additionally, upon completion of this program students will have the foundational skills and knowledge that will help lead to the following certifications:

- CompTIA A+ Exam
- CompTIA Network+ Exam
- CompTIA Security+ Exam
- CCNA

Students successfully completing all of the above certification exams will be awarded the Microsoft Certified System Administration Certification. Best of all, Jackson State is a testing center for all certification exams listed above and Jackson State students will receive as much as a 60% discount on the cost of testing.

Projected Income

Career	Experienced Salary Range
Computer Network Support Specialist	\$57,990+

The Associate of Applied Science Emergency Medical Services Paramedic

Contact Information
Kenneth Oxford
731-424-3520
koxford@jsc.edu

Program and Career Description

The Paramedic Degree is designed to prepare competent professionals for a career in the field of Emergency Medical Services (EMS). Therefore, the entire curriculum, including the general education courses, was carefully selected in an effort to yield the most benefit to students preparing for service in the field of emergency medicine. The attainment of an Associate of Applied Science in Paramedic will open job opportunity doors for the entry level paramedics who want to work toward career advancement over time and for veteran paramedics who need the degree to advance in the field. For example, advancement to the level of instructor in the State of Tennessee requires EMS Instructor Coordinators of any level to have a paramedic license and, at minimum, an associate's degree before teaching any courses within the TBR system.

Admission Requirements

The EMS Paramedic program has specific admission requirements:

- Be admitted to the college. <http://www.jsc.edu/requirements.html>
- Apply to the program
- Be currently licensed as an Advanced Emergency Medical Technician in the State of Tennessee. Students must submit a copy of a current Tennessee AEMT or Paramedic license to the Paramedic Program.
- Applicant will be required to take an entrance exam.
- Applicant will be required to participate in an oral interview.
- A copy of the CPR healthcare provider level certificate must be submitted that includes one-person, two-person, infant and child CPR.
- Complete a physical exam, along with all required immunizations and/or titers.
- Meet other admission requirements as stipulated in the Rules of the Tennessee Department of Health, Bureau of Health Licensure and Regulation, Office of Emergency Medical Services.

Additional Information

The Associate of Applied Science Emergency Medical Services Paramedic program is accredited by the:

Commission on Accreditation of Allied Health Education Programs www.caahep.org upon the recommendation of the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP). Commission on Accreditation of Allied Health Education Programs 1361 Park Street, Clearwater, FL 33756, Phone: (727) 210-2350, www.caahep.org To contact CoAEMSP: 8301 Lakeview Parkway Suite 111-312, Rowlett, TX 75088, Phone: 214-703-8445; Fax: 214-703-8992; www.coaemsp.org

Projected Income

Career	Experienced Salary Range
Emergency Medical Technician-Paramedic	\$42,163+

The Associate of Applied Science

Engineering Systems Technology

Multi Skilled Maintenance Technician Concentration

Contact Information
Ben Lawrence or Roger James
731-424-3520

blawrence3@jssc.edu or rjames@jssc.edu

Program and Career Description

This concentration prepares graduates for technical positions in the expanding field of electronics, instrumentation systems, robotics, mechatronics, and electrical equipment. The primary objective is to provide a broad foundation of theoretical and practical knowledge in the areas of electrical and electronic circuits, electrical machinery, programmable logic controllers, robotics, and hydraulics/pneumatics equipment. The curriculum is broad-based but focuses on the integration of each area as used in systemic applications. Alternate program delivery methods are available including student learning cohorts and evening.

Additional Information

The Associate of Applied Science in Engineering Systems Technology is accredited by the Association of Technology, Management and Applied Engineering.

If you are a Tennessee College of Applied Technology-Jackson graduate, check with an Engineering Systems Technology advisor for additional credit options.

Projected Income

Career	Beginning Salary with Associate Degree in TN	Experienced Salary Median in TN
Electrical and Electronic Engineering Technologists and Technicians	\$35,330	\$56,460
Robotics Technician	\$40,950	\$54,360

The Associate of Applied Science Medical Laboratory Technician

Contact Information
Pete O'Brien
731-424-3520
pobrien@jsc.edu

Program and Career Description

The Medical Laboratory Technician (MLT) is an essential member of the modern healthcare team and they work in close cooperation with physicians to establish diagnoses and monitor the effectiveness of treatment through direct examination of patients and analyses of specimens. MLT's work in all areas of the lab including chemistry, hematology, microbiology, medicine, immunology, and genetics, or they may specialize and develop expertise such as virology or molecular genetics. MLT's may work in a hospital, outpatient clinic, or in a reference laboratory. Medical Laboratory Technician is #18 on the Best Job List according to the Jobs Related Almanac. A Career Ladder Program has been established to provide additional advancement opportunities. The MLT curriculum is an integrated program in which basic concepts, technical procedures, and laboratory exercises are presented at the college prior to assignment to clinical education at one of the clinical affiliates for practical experience. Students successfully completing the program are eligible for the certification examinations offered by the American Society for Clinical Pathology (ASCP), the National Credentialing Agency (NCA), and for licensure in Tennessee.

Admission Requirements

The Medical Laboratory Technician program has specific admission requirements:

- Obtain regular admission status to the college.
- Complete four (4) hours of observation at a hospital prior to applying to the MLT program.
- Complete all required learning support competencies prior to the June 1 program application date.
- Score a minimum ACT composite of 19 or acceptable Accuplacer placement score, or complete at least 10 semester hours of college-level credit with a minimum GPA of 2.5.
- Applicants 21 years of age or older with no previously recorded ACT score are not required to take the ACT or equivalent tests but must complete college academic credits as described above in order to be properly evaluated.
- This curriculum must include college-level mathematics and/or science courses such as biology or chemistry that require laboratory sessions and must have been completed within the past five years.
- Submit a completed MLT application by June 1.

Accreditation Information

The Associate of Applied Science Medical Laboratory Technician program is accredited by the:

National Accrediting Agency for Clinical Laboratory Sciences
5600 N. River Rd., Suite 720
Rosemont, IL 60018
(773) 714-8880

Projected Income

Career	Experienced Salary Range
Medical Laboratory Technician	\$36,210+

*Salaries are not guaranteed. Data provided by Jobs4TN

Total Credits		9

The Associate of Applied Science Nursing Program

The Nursing Program prepares a graduate to meet the educational requirements for the National Council Licensure Exam for Registered Nursing (NCLEX-RN) and to begin nursing practice in structured health-care settings such as hospitals, clinics, and extended-care facilities. Nursing is a dynamic, applied discipline in which caring for the biological, psychological, sociocultural, spiritual, and developmental needs of others is paramount. As a generalist, the graduate employs assessment, clinical decision making, caring interventions, communication, teaching and learning, collaboration, management of care, and professional behaviors consistent with contemporary practice.

This program utilizes continuous quality improvement methods and strives to meet the needs of its constituent groups. Expert faculty remain current in the field by practicing clinically as “real nurses.” Course experiences continually evolve to reflect the rapid changes in health care. Students practice in varied clinical environments to develop a broad knowledge and skill base.

Graduates of the Jackson State program excel in competency measures such as success on the initial attempt of the licensure exam (NCLEX-RN), job placement and job performance. Graduate and employer satisfaction is measured annually. The Program is fully approved by the Tennessee Board of Nursing and accredited by the Accreditation Commission for Education in Nursing (3390 Peachtree Road NE, Suite 1400, Atlanta, GA 30326. Phone 404-975-5000).

You must be formally admitted into the Program before you can begin taking any nursing course. A minimum of sixty-five credits are required for the degree, the curriculum includes arts, science and nursing courses. All nursing courses include application principles to prepare graduates for an ever-changing health care system. Nursing laboratory and clinical experiences provide opportunities for “hands on” practice, skill development, and competency demonstration. Each hour of nursing theory generates one credit hour, and three hours of nursing lab or clinical generates one credit hour.

Articulation with baccalaureate (BSN) programs offer opportunities for continued professional development.

Accreditation and professional certification standards, limited clinical and classroom space, faculty availability, and a concern for appropriate student progress influence the selective admissions process to all Tennessee Board of Regents nursing programs. Students must meet the admission criteria, be reviewed and accepted for admission, and make satisfactory progress to be continued in the nursing program. In the employment of these criteria in the review of applicants, Jackson State is aware of the institutional goal of maintaining appropriate student diversity in its acceptance pool.

Admission Requirements to Nursing program

Admissions to the program are selective and competitive. To be considered for admission, applicants must fulfill the following requirements:

- Obtain regular full college admission and good academic standing status.
- Complete all learning support competency requirements in reading, writing, and math.
- Submit a completed Nursing Program application by March 1st for fall, February 1st for summer admission, and September 1st for spring admission. Summer admission is limited to the LPN-RN Career Mobility Track.
- Fulfill the following academic requirements:
 - College cumulative GPA of 2.5 on a 4.0 scale.
 - Complete all required pre-requisite courses with a grade of "C" or above.
 - Submit official transcripts of high school and college work to the Admissions Office by the application deadline.
 - Submit national ACT exam scores. Minimum subscale scores of Writing--18, Reading--19, and Math--19, OR acceptable placement test scores, OR completion of all learning support competencies.
 - Report if any license in any health care field has been disciplined, suspended, revoked, or denied, and report any felony convictions.

It is the applicant's responsibility to ensure all application materials are submitted by the application deadline date. Applications are available online at www.jsec.edu/nursing. Applicants who meet the deadline will be notified in writing of their admission status. If the number of qualified applicants falls below the maximum enrollment, applications of those students who will be fulfilling the above-stated requirements prior to entering the nursing program will be considered.

Application for admission is considered for one application period only. Applicants who wish to be considered for admission into the next entering class must submit a new application. Information regarding the ACT is available at www.act.org.

All applicants are evaluated on the basis of their scores on the ACT and their cumulative GPA. Cumulative GPA includes all undergraduate coursework and may differ from that listed on the JSCC transcript. Selection for admission is based on an evaluation point system, which reflects the applicant's ACT scores and cumulative GPA at the time of application. Additional points may be earned by additional assessments, specific college-level coursework, and/or service-area residency. Qualified applicants are ranked according to the point system and those with the highest summed scores are selected to fill the class. Up to 20 candidates are placed on an alternate list. Details of the evaluation point system are available from the Nursing Office. Because Jackson State is a state-supported institution and enrollment in the Nursing Program is limited, state residents will be given preference in the admission process.

Licensed Practical Nurse (LPN) to Registered Nurse Career Mobility:

LPNs who possess an unencumbered current Tennessee or multi-state practical nurse license, meet the academic admissions requirements, complete twenty (20) hours of general education coursework and are selected for admission are eligible for the LPN to RN Career Mobility. LPNs pursuing this option must apply by February 1st for summer admission. The following prerequisite coursework must be completed with a grade of C or above by the application deadline to be eligible for the LPN to RN Career Mobility:

- Anatomy and Physiology I and II (BIOL 2010 and 2020) ... 8 credits
- English Composition I (ENGL 1010) 3 credits
- General Psychology (PSYC 1030) 3 credits
- Life Span Psychology (PSYC 2130) 3 credits
- Introduction to Human Pathophysiology (HSC 190) 3 credits

** Anatomy and Physiology II (BIOL 2020) and Introduction to Human Pathophysiology (HSC 190) must have been completed less than five years from the date of program enrollment.*

Transfer Applicants:

- Must meet the Program admission requirements and be selected for Program admission.
- Must submit a written request for transfer and a letter of recommendation from the director of the previous nursing program verifying the student is in good standing and eligible to return, or continue enrollment in nursing courses.
- Must submit all transcripts and nursing course descriptions from the previous school of nursing.
- Should understand that courses from other accredited programs will be evaluated for transfer on an individual basis and nursing coursework must be completed within 150% of the defined program length..

Readmission Applicants:

- Must submit readmission request forms and clinical placement documentation by specified deadlines and must meet Program admission, enrollment, and continuation requirements.
- May attempt a nursing course twice, must be able to complete nursing coursework within 150% of the defined program length, and should understand readmission is not guaranteed.
- May be required to submit evidence of remediation, counseling, or other activities in an effort to enhance academic success.
- Must be recommended by consensus of the faculty if dismissed from the Program due to unsatisfactory clinical performance or academic misconduct.
- Should understand that Program requirements may change and if re-admitted the student must meet the requirements in effect at the time of their re-admission.

Policies Related to Enrollment and Continuation:

- Grades of "C" or above are required to enroll and progress. If two grades of "D" or below are earned in clinical courses the student will be dismissed from the Program. Program applicants who have earned two nursing clinical course grades of "D" or "F" during two or more terms in another collegiate-level nursing program are ineligible for admission or enrollment unless Academic Fresh Start status has been granted by JSCC.

- Academic requirements of the program include achievement of performance competencies in real-world clinical settings caring for hospitalized patients at affiliate partner facilities. Program affiliate partners have established several requirements before permitting students to participate in clinical experiences at their site. A clinical affiliate partner may determine not to allow your presence at their facility, which could result in an inability to successfully complete the requirements of this program. Clinical affiliate partners may also change or add requirements during a student's program enrollment. Individuals should know that clinical placement, as well as whether to admit an individual to a facility, are those of clinical partners and not the college. Students must be age 18 or older to participate in clinical and incur all costs related to clinical requirements. Transportation to and from clinical agencies is the responsibility of the student and travel outside of the Jackson area and/or on weekends or evenings may be required. Clinical affiliate partners require students adhere to their facility protocols and procedures, which may include additional immunizations, health screening/monitoring, and masking to prevent transmission of infection.
- Students are required to comply with program-specific enrollment and clinical placement requirements, including satisfactory completion of prerequisite courses, orientations and clinical trainings, health verification and immunizations documentation, drug screening and criminal background checks, AHA CPR certification, and obtaining textbooks, uniforms and specific supplies prior to enrolling in nursing courses. Students must attain specific academic and performance standards to progress in the Program and achieve a satisfactory score on a comprehensive exam to complete the Program. Details of these standards and requirements are available from the Nursing Office and are published in the Nursing Student Handbook, on reserve in the College library.
- Background checks and drug screens may be required by the program clinical affiliate sites prior to beginning clinical training. Based on the results of these checks, a clinical training site may determine to not allow your presence at their facility. This could result in your inability to successfully complete the requirements of this program. Clinical Agency placement requirements must be met. Additionally, a criminal background and some other background check findings may preclude licensure or employment in nursing. More information is available from the Nursing Program.

Legal Limitations for Licensure

A graduate of a state-approved school of nursing who has been convicted of a violation of the law other than a minor traffic violation may be denied licensure. Criminal convictions that would make a graduate ineligible for Registered Nurse licensure in the State of Tennessee are listed in the Program admission application. A graduate's eligibility for licensure is determined on an individual basis by the Tennessee Board of Nursing.

Professional Licensure Disclosure

Jackson State Community College is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCoC). As a member institution of the Tennessee Board of Regents, the college is regulated by the Tennessee Higher Education Commission. Students who complete the program of study requirements will meet curricular requirements to apply for nurse licensure in Tennessee. Requirements for other states may vary. If you currently live in a state other than Tennessee or you intend to use the education completed at Jackson State Community College to seek professional licensure in another state, be aware there may be additional requirements for obtaining licensure. Contact the Board of Nursing in the state where you intend to seek licensure regarding requirements in that state.

The Associate of Applied Science Occupational Therapy Assistant

Contact Information
Shelbi Lansdell
731-424-3520
slansdell@jssc.edu

Program and Career Description

Occupational therapy assistants (OTAs) enjoy a satisfying, challenging and rewarding career in helping patients of all ages develop, recover, and improve the skills needed for daily living and working. Upon Completion of the Associate of Applied Science Occupational Therapy Assistant Major, the OTA will work in partnership with and under the direct supervision of a licensed occupational therapist in a variety of settings. This program includes academic and fieldwork training over a two-year course of study.

Applications for the OTA program are accepted in the spring semester for the program beginning the next fall. Students accepted to the OTA program will be required to provide a copy of a criminal background check prior to starting their Level I Fieldwork in the fall of the first year of acceptance into the program. JSCC does not use the background check as criteria for admission to the program. Background checks are required by some clinical sites as a condition of participation. Students are required to participate in a variety of clinical experiences to successfully complete the program. If a student has questions regarding the criminal background check, please call 731-425-2612.

All students are required to provide documentation of health insurance, immunizations, student liability insurance (purchased through a Tennessee Board of Regents group policy), and proof of CPR certification if accepted into the program.

Admission Requirements

The OTA program has specific admission requirements. To be considered for admission you must:

- Obtain regular admission status to the college.
- Submit all official high school/college transcripts to the Admissions Office.
- Possess a high school and/or college overall GPA of 2.5 or higher.
- Submit official ACT results if you have not earned credit in college level courses (Have the following minimum subsection scores on the ACT: Writing – 18, Reading – 19, Mathematics – 19, OR acceptable placement test scores, OR have successfully completed all previously determined learning support competencies.
- Students accepted into the OTA program must complete Anatomy and Physiology I with a grade of “C” or better no later than the summer before the student expects to begin the program.
- BIOL 2010 -Anatomy and Physiology I must have been completed within the five years before a student expects to begin the program.
- Students are encouraged to complete all General Education courses prior to beginning the Occupational Therapy Assistant program.
- 8 observation hours required in an occupational therapy department
- Proof of CPR Certification if accepted into the program prior to orientation.

Accreditation Information

The Occupational Therapy Assistant Program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 6116 Executive Boulevard, Suite 200, North Bethesda, MD 20852-4929. ACOTE's telephone number c/o AOTA is (301) 652.AOTA. www.acoteonline.org Graduates of the program will be eligible to sit for the national certification examination for the occupational therapy assistant administered by the National Board for Certification in Occupational Therapy (NBCOT). After successful completion of this exam, the individual will be a Certified Occupational Therapy Assistant (COTA). In addition, all states require licensure in order to practice; however, state licenses are usually based on the results of the NBCOT Certification Examination. Note that a felony conviction may affect a graduate's ability to sit for the NBCOT certification examination or attain state licensure.

The Associate of Applied Science Physical Therapist Assistant

Contact Information
Dr. Felicia Ingram, PT, DPT
731-424-3520
fingram3@jssc.edu

Program and Career Description

Physical therapist assistants (PTAs) provide physical therapy services under the direction and supervision of a licensed physical therapist. PTAs help people of all ages who have medical problems, or other health-related conditions that limit their ability to move and perform functional activities in their daily lives. PTAs work in a variety of settings including hospitals, private practices, outpatient clinics, home health, nursing homes, schools, sports facilities, and more. The PTA program combines general education courses, physical therapy courses, and clinical education experiences in area healthcare facilities. The PTA educational curriculum is a 5 semester on-ground program of study (beginning in the fall of each year) that prepares graduates for taking the National Physical Therapy Examination for Physical Therapist Assistants and entering the field of physical therapy with the required knowledge, skills, and behaviors for a PTA. Licensure is required in most states to work as a PTA.

Admission Requirements

The PTA Program has specific admission requirements. To be considered for admission you must:

- Obtain regular admission status to the college.
- Complete all required learning support competencies (if applicable) prior to applying to the program.
- Possess a high school and/or college overall GPA of 2.5.
- Additional natural science coursework is preferred but not required.
- Submit all official high school/college transcripts to the Admissions Office and submit copies to the PTA program by the application deadline.
- Submit official ACT results to the PTA program by application deadline.
- Complete and submit proof of 24 hours of observation (volunteer) in physical therapy departments. Documentation of hours must be submitted with application. You can use previous or current P.T. Technician experience for 12 hours of this experience. (See program requirements)
- Submit a completed PTA program application by June 1 of the desired year of entry. <http://healthsciences.jssc.edu>

Preference will be given to applicants who exceed minimum criteria. Details of the applicant evaluation system are available by contacting the Health Sciences Office at (731) 425-2612. In the process of evaluating applicants, personal interviews will be scheduled for those who best meet and/or exceed the minimum requirements. The number of applicants interviewed will not exceed three times the number of available program positions. Applicants who meet the application deadline will be notified in writing of their acceptance status by July 1. Students admitted to the program will be required to comply with other program-specific retention requirements. Details of these requirements are available from the Health Sciences Office.

Additional Information

The Associate of Applied Science Physical Therapist Assistant Major at Jackson State Community College is accredited by the:

Commission on Accreditation in Physical Therapy Education (CAPTE)
3030 Potomac Avenue, Suite 100.
Alexandria, VA 22305-3085
phone: 703-706-3245 email: accreditation@apta.org

The Associate of Applied Science Radiologic Technology

Contact Information
 Kimberly R. Benson
 731-424-3520
kbenson3@jsgcc.edu

Program and Career Description

Radiologic technologists (also known as radiographers or x-ray technologists) work with patients and x-ray equipment to produce medical images of the body, as prescribed by physicians, to assist in diagnosis of disease or injury. Radiographers provide high quality patient care and are responsible for limiting radiation exposure to patients, selves and others. Radiography requires independent judgment and excellent problem solving skills in adapting medical imaging procedures to the needs of each individual patient. The Radiologic Technology Program combines science, general education, and professional courses conducted on the college campus with extensive clinical education performed at area hospitals. Radiologic Technology students learn with state of the art imaging technology and practice their skills in structured, competency-based clinical education. Graduates of the Radiologic Technology Program are eligible to become Registered Technologists in Radiography - R.T.(R) - by passing the national certification examination in radiography offered by the American Registry of Radiologic Technologists (ARRT).

Admission Requirements

The RADT Program has specific admissions requirements. The process is competitive in nature and a unique point system is used to evaluate applicants. To be considered for admission you must:

- Obtain regular admission status to the college including submission of OFFICIAL high school and college transcripts as required.
- Qualify for college level courses based on ACT or Accuplacer scores if a recent high school graduate.
- Have completed at least 11 semester hours of college level credit with a minimum overall GPA of 2.5 if a current or past college student. Beneficial for the 11 hours of credit to include coursework in mathematics and science courses with laboratory sessions (specifically Human Anatomy and Physiology). To earn points for math and science classes, they must be completed within 5 years of application date.
- Complete any required college learning support competencies (if applicable) prior to application deadline.
- Submit RADT program application by June 1; all applicants include an essay and COPIES of high school transcripts and ACT/ Accuplacer scores OR copies of transcripts from all colleges/universities attended.

Suggestions for Admissions:

- Participate in minimal, observation hours in one of our approved, clinical locations (see program faculty for additional details).
- Attend a RADT program information session.

The Associate of Applied Science Respiratory Care

Contact Information
Christie Ward
731-424-3520
cward12@jsgcc.edu

Program and Career Description

Respiratory Therapists are the health care specialists who work under the direction of a physician and assist in the diagnosis, treatment, and management of patients with pulmonary disorders. Respiratory Therapists work with people of all ages from newborns to geriatric patients. RTs work in hospitals, long-term care facilities, home care, and physicians' offices. The Respiratory Care program combines general education courses, respiratory care courses, and clinical experience courses. Respiratory care students will learn using the most advanced technology and hands-on patient care in one of the area healthcare facilities. The educational curriculum is a 5 semester on-ground program of study that prepares graduates to take the national Therapist Multiple-Choice Examination (TMC) administered by the National Board for Respiratory Care. Graduates also are eligible for state licensure as required by the Tennessee Board of Respiratory Care. There is great opportunity for individuals qualified in this health care profession due to the high incidence of breathing disorders. Program Goal: "To prepare graduates with demonstrated competence in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains of respiratory care practice as performed by registered respiratory therapists (RRTs)."

Admission Requirements

The Respiratory Care program has specific admission requirements. Entrance into the program is competitive. All applicants must complete the following requirements by the application deadline to be considered for entrance into the program:

- Obtain regular college admission for degree-seeking status.
- Complete all required learning support competencies, if applicable, before applying to the program by the application deadline (June 1).
- Possess a high school and/or college overall GPA of 2.5 or higher on a 4.0 scale. Learning support courses are not included in the calculation of the GPA.
- Submit official ACT results if college courses have not been completed OR complete at least eleven (11) semester hours of college level credit with a minimum overall GPA of 2.5 on a 4.0 scale, and a grade of "C" or better in any science courses or college level math course attempted. This curriculum should include college level math and science courses such as anatomy and physiology I and II and microbiology.
- Additional points toward admission will be given for students who have completed COL 1030, College to Career Navigation, and HSC 111, Medical Terminology
- College credit for Human Anatomy and Physiology I & II must be within the past five years to count toward the Respiratory Care degree or the courses must be repeated.
- Submit a completed Respiratory Care Program application by June 1 of the desired year of entry.
- Attend an interview, as scheduled by the program faculty, once all application requirements have been completed.

Accreditation Information

The Respiratory Care Program, CoARC program number 200626, Associate of Applied Science degree, main campus holds Provisional Accreditation for Respiratory Care (www.coarc.com). Commission on Accreditation for Respiratory Care, 264 Precision Blvd. Telford, TN 37690; (817) 283-2835

This status signifies that a program with an Approval of Intent has demonstrated sufficient compliance with the Standards (through submission of an acceptable Provisional Accreditation Self Study Report (PSSR) and any other documentation required by the CoARC, as well as satisfactory completion of an initial on-site visit), to be allowed to admit students. It is recognized as an accredited program by the National Board for Respiratory Care (NBRC), which provides enrolled students who complete the program with eligibility for the Respiratory Care Credentialing Examination(s). The program will remain on Provisional Accreditation until it achieves Continuing Accreditation.

Technical Certificates of Credit

Requirements

Admission Requirements

Students who wish to take courses on a limited basis for credit but who are not pursuing a degree at Jackson State may be admitted under Special Admission. See page 14 for details.

Students may enroll in Technical Certificate of Credit programs while concurrently enrolled as a degree-seeking student in academic degree programs.

Residence Requirement

Twenty-five percent of the overall semester hours of credit needed for completion must be from Jackson State.

A student may apply credit earned in an academic certificate to A.A., A.S. or A.A.S. degree requirements.

If a student enrolled in a Technical Certificate program wishes to change to A.A.S. degree-seeking status, additional admission and graduation requirements must be satisfied (pages 11-13.)

Educational Requirements

A 2.00 GPA is required for graduation.

Course Requirements

Upon successful completion of courses listed for the certificate, a student will receive a Technical Certificate of Credit.

Graduation Proposal Requirements

A student must complete requirements for the certificate sought and file a graduation proposal in the Admissions and Records Office. Students ordinarily are allowed to graduate under the requirements of the catalog under which they entered, provided graduation is within seven years of entrance date. Students should meet with their advisor to ensure that all requirements for graduation have been met.

Jackson State offers the Technical Certificate of Credit in the following areas:

Technical Certificate Areas	Page

Technical Certificate of Credit Emergency Medical Technician

Contact Information
Kenneth Oxford
731-424-3520
koxford@jsgcc.edu

Program and Career Description

The EMT renders life support to patients at the scene of their injuries or illnesses and prepares these patients for transport to the hospital. The EMT Program is delivered through a combination of classroom instruction (didactic and psychomotor) and clinical experience. Upon successful completion of the course, students are eligible to sit for the National Registry's written and practical examinations. Upon successful completions of examinations and other licensure requirements, the student will be eligible for the State of Tennessee EMT license.

Students enrolling in the EMT program must meet the following criteria:

- Be admitted to the college
- Apply to the program
- Complete a physical exam, along with all required immunizations and/or titers

Students successfully completing the requirements listed below with a minimum of 2.0 cumulative quality point average may earn the EMT Technical Certificate. Upon successful completion of the program, the National Registry of EMT exam will be made available. This exam is required to progress to the Advanced EMT level or higher.

Note: Some courses have prerequisites and co-requisites.

Rubric	Course	Hrs
EMSB 1601	EMT Medical Emergencies and EMS Operations	6
EMSB 1602	EMT Trauma and Medical Emergencies	6
EMSB 1101	EMT Medical Skills Lab	1
EMSB 1102	EMT Trauma and Medical Skills Lab	1
EMSB 1111	EMT Clinical	1
EMSB 1112	EMT Field Internship	1
Total Credits		16

Accreditation Information

The EMT Program is authorized by the Division of Emergency Medical Services of the Tennessee Department of Health.

Projected Income

Career	Experienced Salary Range
Emergency Medical Technician	\$42,163+

Salaries are not guaranteed. Data provided by Jobs4TN
<https://www.jobs4tn.gov/>

Technical Certificate of Credit

Advanced Emergency Medical Technician

Contact Information
 Kenneth Oxford
 731-424-3520
koxford@jsc.edu

Program and Career Description

The Advanced Emergency Medical Technician Program includes basic and limited advanced skills focused on the acute management and transportation of critical and emergent patients. Studies include pharmacological interventions, airway management, and intravenous therapy. This program follows the guidelines set by the National Scope of Practice Model and is designed to prepare individuals for licensure as an Advanced Emergency Medical Technician by the Tennessee Department of Health, Division of Health Licensure and Regulation, Office of Emergency Medical Services. Upon successful completion, students are eligible to sit for the National Registry written and practical examinations.

Students enrolling in the EMT program must meet the following criteria:

- Be admitted to the college
- Be currently licensed as an Emergency Medical Technician in the State of Tennessee or have successfully completed an EMT education program within 120 days of beginning the Advanced EMT education program and have successfully completed a Tennessee EMS Board approved EMT competency written and practical examination.
- A copy of the CPR healthcare provider level certificate must be submitted that includes one-person, two-person, infant and child CPR.
- Apply to the program.
- Complete a physical exam, along with all required immunizations and/or titers

Accreditation Information

The EMT Program is authorized by the Division of Emergency Medical Services of the Tennessee Department of Health.

Workforce Solutions

Workforce Solutions provides non-credit educational and training opportunities. Our team includes our faculty members from academic divisions and qualified professionals with backgrounds in business, manufacturing, and education.

We collaborate with our regional partners to offer training, seminars, workshops, and certification programs that are tailored to the specific needs of individuals, businesses and both current and prospective employees.

We stress the importance of effective instruction methods, quality training content, and flexible scheduling to produce the results our clients need.

Jackson State has years of experience working with both small and large businesses to explore the current state of the workforce, and to plan in advance for the short- and long-term training needs. We can assist in your pre-employment assessment, gap analysis, workforce training, process improvement, and more.

Training can be provided using any of the Jackson State Community College facilities, at the requestor's facility, or another location convenient to the workplace. For more information call (731) 425-8826.

Workforce Solutions at Jackson State Community College provides non-credit education in our 14-county service area. The office is located on the first floor of the McWherter Building and is open from 8:00 a.m. to 4:30 p.m. Monday through Friday. The Division can be contacted by phone at (731) 425-8826 or visit our website jssc.edu/workforce.

Programs offered through Workforce Solutions enable growth in professional, vocational, and personal enrichment areas. Participants may earn Continuing Education Units (CEUs) in classes for non-credit.

Continuing Education Units (CEUs)

Many of the non-credit activities offer nationally-recognized Continuing Education Units (CEUs) to document participation and the quality of the learning experience. Each CEU represents 10 contact hours of participation in an organized continuing education experience, provided by qualified instructors leading to identifiable goals. A certificate is provided to each participant who successfully completes the course.

Jackson State Community College maintains a record of all CEUs earned and can provide transcripts for participants upon request. CEUs cannot be applied to college degree programs, but are frequently required by professionals seeking to retain certification through their particular professional organization. They also are available as a demonstration to employers of an individual's skills and commitment to remain current in his or her field.

Online Classes

Workforce Solutions also offers a wide array of non-credit online classes. These online classes also offer opportunities in professional development, personal enrichment, certification, and many also offer CEUs.

Employee Workplace Skills Training

The goal of workforce solutions is to ensure delivery of demand-driven, responsive training and development to employers. The mission is accomplished through partnerships and collaboration with the local and state workforce investment and economic development agencies.

Services provided to business and industry include:

- Customized training
- Advanced manufacturing and technology skills training
- Industry-specific pre-employment training and assistance
- Leadership development/management/supervision programs
- Online non-credit training through various platforms
- Health and safety training
- Career Readiness Certification
- Mobile training units (PLC and Electrical Controls)

Center of Emphasis

The Center of Emphasis supports all workforce solutions initiatives at Jackson State Community College through credit and/or non-credit programs. The Center functions as a liaison between business/industry and Jackson State Community College to best serve our community. The center further supports workforce development through research, surveys, advisory boards, and networking throughout the 14-county service area. For more information, call (731) 425-8826.

Tennessee Small Business Development Center

Jackson State Community College provides business counseling, management training and business resource information for small business owners and potential owners in an 8-county service area through the Small Business Development Center (SBDC). The mission of the center is to promote growth, expansion, innovation, increased productivity, and management improvement, thereby strengthening the small business community of Tennessee and contributing to the economic growth of the state. For further information, call (731) 424-5389, online at www.tsbdc.org or stop by our office, located in the Jackson Chamber at 197 Auditorium Street, Jackson, Tennessee.

Certified Administrative Professional Program

The CAP Examination consists of three major areas:

- Office Systems and Technology
- Office Administration
- Management

The student will be eligible for 15 hours of college credit if he or she is enrolled in a program of study leading to a degree based upon the following criteria: successful completion of the CAP Examination and completion of six semester hours of credit after passing the examination.

The student will receive college credit for the following courses provided a record of the CAP Examination scores is produced and a written request is made to the Dean of Business and CIT for conversion to college credit.

- BUSN 1305 Introduction. to Business 3 hours
- BUSN 1302 Keyboarding with Word Processing..... 3 hours
- ADMN 1309 Records Management..... 3 hours
- ADMN 1308 Office Procedures..... 3 hours
- ADMN 2395 APT Internship..... 3 hours

Total 15 hours

A full-time college student may take the CAP Examination prior to meeting experience requirements of the CAP Program; however, all educational and satisfactory secretarial experience must be attained before CAP Certification is granted.

For further information the student should contact the Business and CIT Division at (731) 425-2632.

What You Can Expect

Course Descriptions

Course offerings are listed according to subject. The courses are identified by course number, course title, and credit hours. Courses beginning with 1 are freshman level courses, and those beginning with 2 are sophomore level courses.

Prior to the beginning of each semester, an official schedule of classes which indicates specific courses to be offered during the upcoming semester is posted on the www.jscc.edu web site and made available to all students. Some courses described below may not be offered on a regular basis. The college reserves the right to alter or eliminate courses of any department.

Accounting

ACCT 1010 Principles of Accounting I 3 cr.
3 Lec. hrs. /week
 Pre-Req: ACT MATH 19, ACT READ 19, ACT ENGL 18
 Co-Req: None

A survey and orientation of basic terminology and principles of accounting. Emphasis is given to procedures involved in data accumulation, preparation of financial statements, communication, and use of financial information.

ACCT 1020 Principles of Accounting II 3 cr.
3 Lec. hrs. /week
 Pre-Req: ACCT 1010
 Co-Req: None

A continuation of Accounting 1010 with emphasis on corporate entity accounting, cost accounting, and accounting analysis for managerial decision making.

ACC 105 Fundamentals of Accounting 3 cr.
3 Lec. hrs. /week
 Pre-Req: ACT MATH 19
 Co-Req: None

A course designed to give students a basic understanding of accounting terminology and procedures. Areas of emphasis include the use of debits and credits in recording transactions, the completion of the accounting cycle and payroll accounting. This course allows the student to strengthen his/her background before attempting Principles of Accounting. This course is not designed to transfer.

Administrative Professional Technology

ADMN 1308 Office Procedures ** 3 cr.
3 Lec. hrs. /week
 Pre-Req: None
 Co-Req: None

The student will learn job functions that are common to most offices including scheduling appointments, processing incoming/outgoing communications and using telecommunications systems/services to accomplish tasks and follow procedures. The course is designed to teach problem solving and creative thinking from the perspective of an administrative office manager while maintaining the principles of human relations, ethics and legal perspectives.

ADMN 1309 Records Management** 3 cr.
3 Lec. hrs. /week
 Pre-Req: None
 Co-Req: None

Provides an opportunity to demonstrate management decisions involved in planning, organizing, and controlling the records of an organization. Topics include using ARMA rules for alphabetic, geographic, subject, chronologic, and numeric filing; simulating filing procedures and techniques; and exploring computer filing methods and micrographics

ADMN 1311 Word Processing ** 3 cr.
3 Lec. hrs. /week
 Pre-Req: None
 Co-Req: None

An application-oriented course that includes designing and editing a variety of business documents, with emphasis on decision making and problem solving based on document design principles and mail standards.

ADMN 1322 Presentation Applications ** 3 cr.
3 Lec. hrs. /week
 Pre-Req: None
 Co-Req: None

A course designed to prepare, edit and format a presentation. Students will gain experience in adding animation, using WordArt, and creating organizational charts for use in presentations.

ADMN 2303/HIMT 2301 CPT Coding ** 3 cr.
3 Lec. hrs. /week
 Pre-Req: HSC 111
 Co-Req: None

CPT Coding provides an introduction to the Current Procedural Terminology (CPT) and HCPCS Level II coding systems. Topics include CPT coding format and conventions, applying coding guidelines to ensure accurate code assignment, complexities of assigning evaluation and management codes and the format and usage of coding and modifiers.

ADMN 2304 Intro. to Electronic Health Records ** 3 cr.
3 Lec. hrs. /week
 Pre-Req: None
 Co-Req: None

Introduction to Electronic Health Records (EHR) presents the history of the EHR and the standards surrounding the EHR. The course provides the student with in-depth and practical training on a widely used EHR software program.

ADMN 2305 Intro. to Desktop Publishing** 3 cr.
3 Lec. hrs. /week
 Pre-Req: None
 Co-Req: None

Introduction to Desktop Publishing acquaints the student with the desktop publishing capabilities of a word processing program. Students are given the opportunity to develop competence in creating, designing, and formatting business documents.

ADMN 2395 APT Internship ** 3 cr.
3 Lec. hrs. /week
 Pre-Req: None
 Co-Req: Enrolled in final JSCC semester.

This internship course requires students to apply critical thinking, problem-solving, and communications skills to a real or simulated business environment.

See also Health Information Management Courses

**** This Course is not designed for transfer to a 4-year college or university.**

Agriculture

AGR 141 Fundamentals of Horticulture 3 cr.
.....2 Lec. hrs./2 Lab hrs./week

Pre-Req: None
Co-Req: None

Horticulture industry and its contribution to world economy; theoretical and practical aspects of plant growth and development; principles and techniques of plant propagation; pruning and control of growth. Application and use of plant growth regulators in horticulture. Production, storage, processing and marketing of horticultural plants and products.

AGR 242 Introduction to Pesticides..... 3 cr.
.....3 Lec. hrs./week

Pre-Req: None
Co-Req: None

Manufacture, regulation, marketing, and use of pesticides. Structure, mode of action, toxicity, degradation, safety, and environmental impact of pesticides commonly used. Biological, chemical, and non-chemical approaches and their effectiveness in controlling pests. This course serves as preparation for materials covered on the Pesticide Applicators certification exam.

AGR 250 Introduction to Agricultural Sales..... 3 cr.
.....3 Lec. hrs./week

Pre-Req: ACT MATH 19, READ 19, ENGL 18
Co-Req: None

Principles of selling food, agricultural, and other industrial/institutional products in wholesale and retail outlets. Topics include developing business-to-business selling techniques, farmers market, technical product distribution, wholesale and retail financing. Cooperative advertising, group selling, specification selling, personal selling and technical business plans.

AGRI 1010 Introduction to Agricultural Business 3 cr.
.....3 Lec. hrs./week

Pre-Req: None
Co-Req: None

Agricultural economics and other social sciences as they relate to agricultural business. Concepts are illustrated in terms of selected current social and economic issues in the industry of production agriculture, agricultural business, and computer applications.

AGRI 1020 Introduction to Animal Science 3 cr.
.....3 Lec. hrs./week

Pre-Req: None
Co-Req: None

Fundamental principles of animal agriculture; biological and scientific aspects of development, inheritance, and feeding; animal products and scope of the animal industry.

AGRI 1030 Introduction to Plant Science 3 cr.
.....3 Lec. hrs./week

Pre-Req: ACT READ 19, ACT ENGL 18
Co-Req: None

Economic importance of plants and their relationship to agriculture and society; plant structure, physiology, and heredity; factors of the environment in relation to growth, adaptation, and management of plants; utilization of plant products.

AGRI 1040 Introduction to Agricultural Engineering 4cr.
.....3 Lec. hrs./2 Lab hrs./week

Pre-Req: ACT MATH 19, READ 19, ENGL 18
Co-Req: None

Survey of basic engineering principles and terms. Engineering applications in agriculture including topics in soil and water engineering, power and machinery and farm structure building materials and design.

AGRI 1050 Introduction to Soil Science..... 4 cr.
.....3 Lec. hrs./2 Lab hrs./week

Pre-Req: CHEM 1110
Co-Req: None

Stresses the nature and properties of soils, including physical, chemical, and biological processes in soils and their influences on plant growth. Land judging and soil testing are included.

Allied Health Sciences

AHSC 1200 Certified Nursing Assistant** 3 cr.
.....3 Lec. hrs./week

Pre-Req: None
Co-Req: None

Nursing assistants work in a variety of settings, ranging from within the home, to an office or a clinic, or to an extended care of acute care hospital setting. This course, which is designed to run concurrently with the lab section, will allow students to gain the knowledge needed to be successful in those environments. The focus in the classroom portion will focus on job duties, safety and legal requirements, basic nursing skills, providing comfort to patients, and specialized care procedures.

AHSC 1210 Certified Nursing Assistant Lab** 3 cr.
.....3 Lec. hrs./week

Pre-Req: None
Co-Req: None

Nursing assistants work in a variety of settings, ranging from within the home, to an office or a clinic, or to an extended care of acute care hospital setting. This course, which is designed to run concurrently with the classroom section, will allow students to learn skills to provide care to various types of patients. Skills include assessing patients, documenting vital signs, giving baths, feeding and dressing residents, and assisting patients in many life activities.

AHSC 1310 EKG/Soft Skills** 3 cr.
.....3 Lec. hrs./week

Pre-Req: ACT READ 19, ACT ENGL 18
Co-Req: None

ECG Technicians perform electrocardiograms and are one of the first people to assist patients experiencing cardiac symptoms. ECG Technicians are a critical member of the patient care team found in physician offices, emergency rooms, and hospital based cardiology clinics across the country. The ECG Technician Certificate includes theory and hands-on instruction during the seven-week program. Individuals interested in starting a career in the medical field, prospective patient care technicians, current nurses, or those looking to develop skills may benefit from this program. This is comprehensive 40-hour course including labs. This certificate program will assist students in preparing for the National Health Career Association Certified ECG Technician (CET) exam.

*** This Course is not designed for transfer to a 4-year college or university.*

AHSC 1320 Clinical Medical Assistant I**.....3 cr.
3 Lec. hrs./week
 Pre-Req: PLBT 1301, AHSC 1310
 Co-Req: None

This program prepares students for the duties of a Clinical Medical Assistant (CMA) in the clinical setting. Students will begin their course of study in the front office of the medical practice, then moving into the clinical portion of the course. In CMA I, students will learn about the scope of practice of the Clinical Medical Assisting profession and how to be successful as a student. Many times, CMAs perform routine office tasks to keep the medical offices running efficiently, so they will study professionalism, therapeutic communication, appropriate patient interaction, legal considerations, HIPAA, and bioethics. They learn basic administrative functions in a medical practice including units on medical terminology, electronic medical record and coding. Moving to the clinical side, students first learn infection control and medical asepsis. Regarding patient care, students begin by learning the patient interview. Also covered will be taking and recording vital signs, the components of a physical examination and patient education. In previous courses, students have mastered collecting laboratory specimens and performing successful EKGs. They will review and practice both these skills during the course.

This certificate program will assist students in preparing for the National Health Career Association Certified Clinical Medical Assistant (CCMA) exam.

AHSC 1330 Clinical Medical Assistant II**3 cr.
3 Lec. hrs./week
 Pre-Req: AHSC 1320
 Co-Req: None

This program prepares students for the duties of a Clinical Medical Assistant's (CMA) role in the clinical setting. In CMA II, the skills are patient-directed since a CMA's duties include various tasks as taking patients' medical histories, explaining treatment procedures, preparing patients for a variety of medical procedures, and assisting the physician with routine office procedures. At the direction of the physician, a CMA can instruct patients about medication and special diets, prepare and administer injections using dosage calculation, authorize drug refills and call prescriptions to a pharmacy. CMAs also draw blood, perform ECGs, prepare patients for X-rays, remove sutures and change dressings using sterile techniques. When the prescribed CMA skills in this class are mastered, a simulation lab is set up in which each student is given a scenario and interacts with a patient (another student) as if the student is already a credentialed CCMA. The instructor and other students watch and give feedback.

This certificate program will assist students in preparing for the National Health Career Association Certified Clinical Medical Assistant (CCMA) exam.

AHSC 1340 Clinical Medical Assistant Clinical**3 cr.
3 Lec. hrs./week
 Pre-Req: AHSC 1330
 Co-Req: None

This course is a supervised clinical practice of Clinical Medical Assistant procedures and skills that were learned in previous courses. Students will be under the direct supervision of a nurse or medical assistant in an off-campus setting. Clinical competency in specified skills will be evaluated and documented.

ALHS 1010 Introduction to Health Sciences**3 cr.
3 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

This course presents an overview of the healthcare field, including healthcare professions, medical terminology, basic anatomy and physiology, medical documentation, and healthcare legal requirements.

ALHS 2311 Management & Leadership for AHS Supervisors** ..3 cr.
3 Lec. hrs./week
 Pre-Req: ACT MATH 19, READ 19, ENGL 18
 Co-Req: None

This course is designed to introduce the student to management functions and leadership principles and their application in health care organizations. Student projects will develop the student's ability to apply the principles of organizational theory, management theory, management style and behavioral aspects of management across a variety of health care settings. Many allied health practitioners will assume the role of a manager during the course of their career. This course is designed to provide theory and application focusing on the development of leadership and management strategies and skills to prepare these practitioners to assume professional responsibilities in management and administration.

ALHS 2312 Contemporary Issues in Healthcare**3 cr.
3 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

This is an issues oriented course that examines the healthcare delivery system in the United States. The course examines the entire continuum of care and uses the construct of a fully integrated system as a means to evaluate the current system, identify the key issues confronting health care today, examine the causes and propose reasonable solutions to a current set of problems. The student will develop an understanding of the unique interplay of the new and changing health care, technology, work force, research, financing, regulation, and personal and professional behaviors, values and assumptions that underlie the current health care system.

ALHS 2314 Medical Law and Ethics**3 cr.
3 Lec. hrs./week
 Pre-Req: ACT MATH 19, READ 19, ENGL 18
 Co-Req: None

This course provides an introduction to legal and ethical issues that impact health care professionals. Laws and regulations related to the health care industry such as HIPPA, Patient Bill of Rights, and standard of care are addressed. In addition, ethical and moral issues that health care professionals may encounter are presented. The student will develop an understanding of the unique interplay of the new and changing health care, technology, work force, research, financing, regulation, and personal and professional behaviors, values and assumptions that underlie the current health care system.

Art

ART 131 Painting I.....3 cr.
3 Lec. hrs./week
 Pre-Req: ARTP 1110 or permission of instructor
 Co-Req: None

An introduction to oil and/or acrylic paint. Exploration of stretching, surface preparation, manipulation of paint and processes involved in the creation of a painting.

ART 132 Painting II.....3 cr.
3 Lec. hrs./week
 Pre-Req: ART 131 or permission of instructor
 Co-Req: None

A broader exploration of the painting experience using various techniques, ideas, and approaches with the aim of developing an individual, artistic voice. Classroom discussions of art issues will be included.

** This Course is not designed for transfer to a 4-year college or university.

ART 151 Color 3 cr.
3 Lec. hrs./week

Pre-Req: ARTP 1110 or permission of instructor
 Co-Req: None

An in-depth study of the theories, properties and uses of color through art problems exploring a wide variety of color media.

ART 251 Special Topics in Graphic Design 2 cr.
2 Lec. hrs./week

Pre-Req: ART 241 or permission of instructor
 Co-Req: None

This is an advanced course which requires intensive study and practice of a selected graphics design topic. A portfolio and presentation are required.

ART 1035 Introduction to Art..... 3 cr.
3 Lec. hrs./week

Pre-Req: None
 Co-Req: None

Understanding the visual arts and their roles in western and non-western traditions through an examination of their media, formal structure, and cultural context. Significant visual achievements, from ancient times to the contemporary period, will be examined and discussed.

ART 1045 Drawing I 3 cr.
3 Lec. hrs./week

Pre-Req: None
 Co-Req: None

An introduction to basic drawing techniques which stresses line, value, shape, texture, perspective and composition. Emphasis is placed on black and white media.

ART 1050 Drawing II 3 cr.
3 Lec. hrs./week

Pre-Req: ART 1045 or permission of instructor
 Co-Req: None

An intermediate drawing course in which students will further explore media and techniques learned in Drawing I. Emphasis is placed on experimentation and imagination in concepts and composition.

ART 1340 Foundations Studio I..... 3 cr.
3 Lec. hrs./week

Pre-Req: None
 Co-Req: None

An exploration of the elements and principles of design. The course introduces a variety of 2-D media through a problem-solving approach

ART 1350 Foundations Studio II..... 3 cr.
3 Lec. hrs./week

Pre-Req: None
 Co-Req: None

An exploration of three-dimensional design principles through problems focusing on space, structure and surface. Students will investigate a variety of media including wire, cardboard, paper, found objects, and others.

ART 2000 Art History Survey I..... 3 cr.
3 Lec. hrs./week

Pre-Req: None
 Co-Req: None

A survey of the visual arts in world cultures from pre-history to the Renaissance.

ART 2020 Art History Survey II..... 3 cr.
3 Lec. hrs./week

Pre-Req: None
 Co-Req: None

A survey of the visual arts in world cultures from the Renaissance through the present.

Biology

BIOL 2299 Special Problems in Biology..... 1-3 cr.
TBA hrs. /week

Pre-Req: ACT MATH 19, ACT READ 19, ACT ENGL 18 and one semester of Biology or permission of instructor.
 Co-Req: None

Special topic courses in an area of biology with emphasis on application of biological principles. Written project outline and reports are required. Credit hours dependent on the scope and extent of course.

BIOL 1110 General Biology I..... 4 cr.
3 Lec. hrs./3 Lab hrs. /week

Pre-Req: ACT MATH 19, ACT READ 19, ACT ENGL 18
 Co-Req: None

An introductory study of the physical and chemical basis of life, cell structure, function, energy sources, genetic information, natural selection, organism diversity, and ecology.

BIOL 1120 General Biology II..... 4 cr.
3 Lec. hrs./3 Lab hrs. /week

Pre-Req: BIOL 1110
 Co-Req: None

A continuation of BIOL 1110 with emphasis on the monera, protista, fungi, plant, and animal kingdoms emphasizing structure, function, development and reproduction.

BIOL 1510 Environmental Science I..... 4 cr.
3 Lec. hrs./3 Lab hrs./week

Pre-Req: ACT MATH 19, ACT ENGL 18, ACT READ 19
 Co-Req: None

This course explores the foundations of environmental science, focusing on ecological principles; community, population and landscape ecology; explores ecosystem interactions in water, soil and forests, and the influences of humans on these processes. This course focuses on the use of real world problems and case studies to study environmental issues.

BIOL 1520 Environmental Science II..... 4 cr.
3 Lec. hrs./3 Lab hrs./week

Pre-Req: ACT MATH 19, ACT ENGL 18, ACT READ 19
 Co-Req: None

This course uses the foundations learned in Environmental Science I to explore how to resolve environmental issues and create a sustainable society. Topics to be discussed include alternative energy, waste management, evaluating the health of ecosystems, and conservation of biodiversity. The course will take an in-depth look at the ethics and economics of environmental policy and decision making.

BIOL 2010 Human Anatomy and Physiology I..... 4 cr.
3 Lec. hrs./3 Lab hrs. /week

Pre-Req: ACT MATH 19, ACT READ 19, ACT ENGL 18
 Co-Req: None

An introductory course primarily designed for students in nursing and allied health programs; but, also applicable to students in biology, nutrition and physical education programs. Topics include scientific methodology, limits of scientific inquiry, fundamental biological chemistry, cellular structure and function, tissues and the integumentary, skeletal, muscular and nervous systems.

*** This Course is not designed for transfer to a 4-year college or university.*

BIOL 2020 Human Anatomy and Physiology II..... 4 cr.
3 Lec. hrs./3 Lab hrs. /week
 Pre-Req: BIOL 2010
 Co-Req: None

A continuation of BIOL 2010 with emphasis on endocrine, cardiovascular (including hemodynamics), lymphatic, respiratory, digestive, urinary (including water and electrolyte balance), and reproductive systems, growth and development, and genetics.

BIOL 2230 Microbiology 4 cr.
3 Lec. hrs./3 Lab hrs. /week
 Pre-Req: BIOL 1110 or BIOL 2010
 Co-Req: None

An introduction to basic principles and applications of microbiology. The course emphasizes laboratory experience in the classification and identification of fungi, algae, and protozoans. Special emphasis will be placed on the culturing, isolation, staining, and identification of bacteria. Viruses will also be considered.

Business

BUSN 1010 Transportation Management **..... 3 cr.
3 Lec. hrs. /week
 Pre-Req: None
 Co-Req: None

This course examines the field of transportation including the various modes, estimating costs, regulation and deregulation of transportation, international and intermodal trends. Related content includes provider relations, contract and common carrier services, and the transportation challenges related to growing international trade.

BUSN 1300 Personal Finance **..... 3 cr.
3 Lec. hrs. /week
 Pre-Req: None
 Co-Req: None

This course helps students to define and reach personal financial goals. Topics may include: planning, budgeting, taxes, credit, housing, insurance, investing, and retirement planning.

BUSN 1302 Keyboarding/Word Processing **..... 3 cr.
3 Lec. hrs. /week
 Pre-Req: None
 Co-Req: None

Introductory course for students who plan to use keyboarding skills for text input, emphasizing the basic keyboard, personal and business letters, memorandums, and reports. Note: This course will not be accepted as part of the CIS degree.

BUSN 1305 Introduction to Business ** 3 cr.
3 Lec. hrs. /week
 Pre-Req: None
 Co-Req: None

This course provides an introduction to the business environment. Topics may include business ownership and organization, management, marketing, business ethics, accounting, economics, finance, and business careers.

BUSN 1310 Business Communications ** 3 cr.
3 Lec. hrs. /week
 Pre-Req: ACT READ 19 and ACT ENGL 18
 Co-Req: None

This course is a study of the principles, practices, and mechanics of various types of effective written and oral business communications.

BUSN 1320 Business Calculations ** 3 cr.
3 Lec. hrs. /week
 Pre-Req: None
 Co-Req: None

This course is a study of the application of mathematics to solve problems related to routine business operations. Topics may include insurance, taxes, consumer credit, retail applications, investments, and introductory statistics.

BUSN 1330 Entrepreneurship ** 3 cr.
3 Lec. hrs. /week
 Pre-Req: BUSN 1305
 Co-Req: None

This course explores the strategies necessary to start and operate a business. Topics may include development of a business plan and strategies in marketing, management, finance, accounting, customer service, and operations.

BUSN 1340 Small Business Management ** 3 cr.
3 Lec. hrs. /week
 Pre-Req: None
 Co-Req: None

This course is a study of the techniques of organizing and operating a small business, which may include development of the business plan, finance options, management of human resources, the firm's assets and risk, global opportunities, and exit strategies.

BUSN 1350 Sales and Service ** 3 cr.
3 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

This course is an introduction to the fundamentals of customer service and selling. Topics may include developing and conveying a positive attitude, identifying buying motives and customer needs, developing and delivering a sales presentation, customer approaches, sales strategies, and cultivating repeat business through service.

BUSN 1370 Spreadsheet Applications ** 3 cr.
3 Lec. hrs. /week
 Pre-Req: INFS 1010
 Co-Req: None

This course develops skills with spreadsheet software. Use and design of spreadsheets for practical business applications and business problem-solving will be an integral part of this course.

BUSN 1380 Supervisory Management **..... 3 cr.
3 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

This course provides for the development of supervisory ability and judgment through a presentation of the principles and techniques of effective supervision. Topics may include functions of a supervisor, communication, motivation, training, and the changing workplace.

BUSN 2319 Supply Chain Management ** 3 cr.
3 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

The objective of this course is for each student to know the elements of Supply Chain Management, including, but not limited to the following areas: supply chain management and logistics strategy, supply chain management and logistics in a competitive context, customer service, functional excellence, supply chain techniques to achieve excellence, and future supply chain trends and issues.

** This Course is not designed for transfer to a 4-year college or university.

BUSN 2330 Principles of Management ** 3 cr.
..... 3 Lec. hrs. /week

Pre-Req: BUSN 1305
Co-Req: None

This course is a study of management through analysis of the functions of planning, organizing, leading, and controlling.

BUSN 2340 Human Resource Management ** 3 cr.
..... 3 Lec. hrs./week

Pre-Req: BUSN 1305
Co-Req: None

This course is a study of principles of human resource management, which may include equal employment law and the recruitment, selection, and development of the human resources.

BUSN 2370 Legal Environment of Business 3 cr.
..... 3 Lec. hrs. /week

Pre-Req: ACT READ 19 and ACT ENGL 18
Co-Req: None

This is a study of the principles of the American legal system as they relate to the conduct of business in our society.

BUSN 2380 Principles of Marketing ** 3 cr.
..... 3 Lec. hrs./week

Pre-Req: ACT ENGL 18, ACT READ 19
Co-Req: None

This course is a study of basic marketing principles and practices, including the selection of target markets and the development of the marketing mix (product, price, promotion, and place of distribution).

BUSN 2382 Purchasing & Supply Chain Management ** 3 cr.
..... 3 Lec. hrs./week

Pre-Req: None
Co-Req: None

This introductory course addresses modern practices and techniques of the purchasing function. Included in the coverage of purchasing are organization, quality, supplier selection, price determination, inventory and disposal, foreign purchasing, acquisition of capital assets and strategy.

BUSN 2390 Business Presentations ** 3 cr.
..... 3 Lec. hrs. /week

Pre-Req: INFS 1010, COMM 2025
Co-Req: Enrolled in final JSCC semester

This course emphasizes formal presentation skills for use in a business environment.

BUSN 2395 Business Applications ** 3 cr.
..... 3 Lec. hrs./week

Pre-Req: Administrative Approval Required
Co-Req: Recommended to be taken in final semester of degree

This capstone requires students to apply critical thinking, problem-solving, and communication skills to a real or simulated business environment.

BUS 214 Seminar ** 1-3 cr.
..... TBA hrs. /week

Pre-Req: None
Co-Req: None

A course designed to provide business and industry with seminars, workshops and special course offerings.

Chemistry

CHEM 2299 Special Problems in Chemistry..... 1-3 cr.
..... TBA hrs. /week

Pre-Req: ACT MATH 19 and ACT READ 19
Co-Req: None

Individually supervised project in an area of interest in chemistry. Written project report will be required. Arrangement with the chemistry faculty is required prior to registering for this course.

CHEM 1110 General Chemistry I..... 4 cr.
..... 3 Lec. hrs./3 Lab hrs. /week

Pre-Req: ACT MATH 19 and ACT READ 19
Co-Req: None

A comprehensive study of chemical principles designed for students pursuing a career in chemistry or other scientific areas. Emphasis is on atomic and molecular structure, chemical bonding, chemical reactions, stoichiometric relationships, inorganic nomenclature, periodic properties of elements, states of matter, properties of solutions, electronic configurations, electromagnetic spectrum and thermochemistry.

CHEM 1120 General Chemistry II..... 4 cr.
..... 3 Lec. hrs./3 Lab hrs. /week

Pre-Req: CHEM 1110
Co-Req: None

Continuations of CHEM 1110. Topics covered include: solid and liquid states of matter, solutions, principles of kinetics, chemical equilibrium, K_{sp} , acids and bases, pH, pOH, oxidation-reduction reactions, electrochemistry, nuclear chemistry, thermodynamics and organic.

CHEM 2010 Organic Chemistry I 4 cr.
..... 3 Lec. hrs./3 Lab hrs. /week

Pre-Req: CHEM 1120
Co-Req: None

A study of the nomenclature, properties, preparation and reactions of organic compounds. Emphasis is on aliphatic and aromatic compounds. Elimination and substitution mechanisms are discussed.

CHEM 2020 Organic Chemistry II..... 4 cr.
..... 3 Lec. hrs./3 Lab hrs. /week

Pre-Req: CHEM 2010
Co-Req: None

A continuation of CHEM 2010. Spectroscopy, aldehydes, ketones, carboxylic acids and their derivatives, amines, and phenols are considered.

College

COL 1000 Concepts of Critical Thinking ** 3 cr.
..... 3 Lec. hrs. /week

Pre-Req: None
Co-Req: None

This course will be a three-hour credit opportunity available to students who have gained significant critical thinking skills as demonstrated by NCRC exam credits. Students who obtain Silver level or higher will be granted credit. This course is not designed for transfer to a four-year institution.

** This Course is not designed for transfer to a 4-year college or university.

COL 1010 College Success ** 3 cr.
 3 Lec. hrs. /week
 Pre-Req: Fewer than 30 earned hours or academic suspension
 Co-Req: None

An introduction to college with focus on resources and procedures, interacting with instructors, instructor expectations, critical thinking, goal setting and commitment, learning styles, development of support groups, value of education and philosophy of learning, identification of student interests and needs, technology, research, and study skills critical to success in college, including time management, concentration, memory, note taking from both lecture and textbook, exam preparation and test taking. Open to all first-time freshmen students with fewer than 30 earned hours; recommended for all students on academic probation; may be required of all students seeking readmission on academic suspension.

COL 1030 College to Career Navigation 3 cr.
 3 Lec. hrs. /week
 Pre-Req: ACT READ 19
 Co-Req: None

The purpose of the course is to help students navigate college with their career and life goals in mind. The course is designed to develop a student's understanding of personal aptitudes, interests, and values and to provide effective strategies for the challenges students may face in making successful college and career decisions. The work of the course involves self-assessment exercises, teamwork, case studies and information on careers related to specific academic focus areas. The aim of the work is to provide the basis for an informed choice of an academic focus area and related career and life decisions.

Communication

COM 210 Voice and Diction 3 cr.
 3 Lec. hrs. /week
 Pre-Req: ACT READ 19
 Co-Req: None

Students will study and practice correct articulation and pronunciation, with individual attention to developing an awareness and control of the voice, and a consciousness of speech habits.

COM 214 Oral Interpretation 3 cr.
 3 Lec. hrs./week
 Pre-Req: ACT READ 19
 Co-Req: None

Students will study principles and techniques applicable to the interpretation of prose, poetry, and dramatic literature, with particular attention to analysis and performance.

COM 232 Practicum 1 cr.
 TBA Lab hrs. /week
 Pre-Req: Permission of instructor
 Co-Req: None

Students will gain experience in an appropriate professional work environment.

COM 251 Special Topics in Communication 3 cr.
 3 Lec. hrs./week
 Pre-Req: ACT READ 19, ACT ENGL 18
 Co-Req: None

A course designed to allow students to learn about specialized topics in communication.

COM 2012 Communication for Healthcare Professionals 3 cr.
 3 Lec. hrs./week
 Pre-Req: ENGL 1010
 Co-Req: None

Students will study communication as an interdependent, meaning making process that impacts healthcare encounters. Specific focus will be placed on the historical, social, cultural, and organizational forces that influence both healthcare providers and patients.

COMM 1010 Introduction to Mass Communication 3 cr.
 3 Lec. hrs. /week
 Pre-Req: ACT READ 19, ACT ENGL 18
 Co-Req: None

This course introduces students to various fields of mass communication. Regulation, theory and analysis of mass communication as a social and cultural force will be emphasized.

COMM 1020 Media Writing 3 cr.
 3 Lec. hrs. /week
 Pre-Req: ENGL 1010
 Co-Req: None

Students will be introduced to various types of writing for print and electronic media. Topics include evaluating the news, gathering basic information, organizing and correctly writing a variety of news stories, and practicing the rights and responsibilities of the public communicator.

COMM 1030 Introduction to Electronic Media 3 cr.
 3 Lec. hrs./TBA Lab hrs. /week
 Pre-Req: ENGL 1010
 Co-Req: COMM 1020 suggested

This course provides a survey of the history, development, organization and operation of broadcast and electronic media. Basic principles and the roles electronic media play in society also are considered. Students must spend significant time outside of scheduled class meetings.

COMM 1851 Introduction to Film 3 cr.
 3 Lec. hrs. /week
 Pre-Req: ACT READ 19, ACT ENGL 18
 Co-Req: None

Students will study the history, forms and functions of film and will develop skills for critically analyzing the mutual social, cultural and historical influences of films and their contexts.

COMM 2025 Fundamentals of Communication 3 cr.
 3 Lec. hrs./week
 Pre-Req: ACT READ 19, ACT ENGL 18
 Co-Req: None

Introduction to the principles and practices of communication in public, mediated, interpersonal and group contexts, including researching, organizing, writing and presenting informative and persuasive messages.

COMM 2090 Interpersonal Communication 3 cr.
 3 Lec. hrs./week
 Pre-Req: ACT READ 19
 Co-Req: None

Interpersonal Communication provides students both knowledge and practice of the principles that govern interpersonal [usually one on one] communication behavior as they apply to professional, social and personal contexts.

** This Course is not designed for transfer to a 4-year college or university.

Computer Information Technology

CITC 1300 Beginning HTML & CSS ** 3 cr.
.....3 Lec. hrs. /week

Pre-Req: None
Co-Req: None

A beginning course in HTML that provides instruction in creating Web pages. Students learn to write HTML code. Topics include using HTML tags, CSS formatting, and appropriate scripting languages.

CITC 1301 Intro. to Programming and Logic..... 3 cr.
.....3 Lec. hrs. /week

Pre-Req: None
Co-Req: None

This course is an introduction to the logic necessary for application programming. Topics include logic analysis, techniques of structured design, process flow, and object oriented concepts. A programming language will be used to teach data types, variables, control structures, methods and arrays.

CITC 1302 Introduction to Networking ** 3 cr.
.....3 Lec. hrs. /week

Pre-Req: None
Co-Req: None

A broad-based course that provides an overview of computer networking. Topics will include network models, protocols and services, media and topologies, devices and tools, network management, and network security. This course may align with the outcomes of industry certification.

CITC 1303 Database Concepts ** 3 cr.
.....3 Lec. hrs. /week

Pre-Req: None
Co-Req: None

An introduction to the concepts and syntax of relational database management systems. Topics include data modeling, database design concepts, tables and queries and other database objects using the tools provided in a relational DBMS.

CITC 1308 Computer Literacy and Apps ** 3 cr.
.....3 Lec. hrs. /week

Pre-Req: None
Co-Req: None

An introduction to microcomputers and application software used in academic and work settings. Topics include file management, word processing, spreadsheets, presentation software, graphic applications, the use of email, hardware and operating systems. The course provides hands-on experience.

CITC 1310 Programming I** 3 cr.
.....3 Lec. hrs. /week

Pre-Req: None
Co-Req: None

This course introduces the basic concepts of programming, problem solving, programming logic, and design techniques using an object-oriented language. The topics covered include the language syntax, functions, return types, and objects found in a current object-oriented programming language

CITC 1311 Programming II ** 3 cr.
.....3 Lec. hrs. /week

Pre-Req: CITC 1310
Co-Req: None

A continuation of CITC 1310 Programming I. This course introduces the student to object oriented programming. Topics include class creation, methods, events, inheritance, objects and error handling.

CITC 1321 CompTIA A+ Core I ** 3 cr.
.....3 Lec. hrs. /week

Pre-Req: None
Co-Req: None

An introduction to the basics of computer hardware. Topics include identification and installation of internal components, disk configuration, ports, cables, peripherals and networking concepts and connections. This course covers mobile devices, networking technology, hardware, virtualization, cloud computing, and network troubleshooting.

CITC 1322 CompTIA A+ Core II** 3 cr.
.....3 Lec. hrs. /week

Pre-Req: CITC 1321
Co-Req: None

An introduction to the basics of installing and configuring operating systems, expanded security, software troubleshooting, and operational procedures. This course covers common operating systems, troubleshooting methodology, managing files, disk drivers, and security concepts.

CITC 1323 CCNA I ** 3 cr.
.....3 Lec. hrs. /week

Pre-Req: CITC 1302
Co-Req: None

CCNA I, Introduction to Networks, is the first course in the 3-course CCNA series and introduces architectures, models, protocols, and networking elements—functions needed to support the operations and priorities of Fortune 500 companies to small innovative retailers. You'll have a working knowledge of IP addressing schemes, foundational network security, and be able to perform basic configurations for routers and switches

CITC 1324 CCNA II ** 3 cr.
.....3 Lec. hrs. /week

Pre-Req: CITC 1323
Co-Req: None

CCNA II, Switching, Routing, and Wireless Essentials, is the second course in the 3-course CCNA series and focuses on switching technologies and router operations that support small-to-medium business networks, including wireless local area networks (WLAN) and security concepts. You'll perform basic network configuration and troubleshooting, identify and mitigate LAN security threats, and configure and secure a basic WLAN.

CITC 1332 UNIX/Linux Operating System ** 3 cr.
.....3 Lec. hrs. /week

Pre-Req: CITC 1302 and 1321
Co-Req: None

This course provides a thorough overview of the UNIX and LINUX operating systems. Emphasis is placed on the user interface, terminology and command structure within the multi-task/multiuser environment. Electronic mail and communications standards are covered along with standard UNIX/LINUX utilities needed to support the automated office.

CITC 1351 Principles of Information Assurance ** 3 cr.
.....3 Lec. hrs. /week

Pre-Req: CITC 1302 and 1321
Co-Req: None

A beginning course in information assurance which examines the fundamentals of information assurance. The course will introduce topics such as the need for security, risk management, security technology, cryptography, and physical security. Also covered are legal/ethical issues and security policies.

*** This Course is not designed for transfer to a 4-year college or university.*

CITC 1367 Intro to Cloud Computing **..... 3 cr.
..... 3 Lec. hrs. /week

Pre-Req: None
Co-Req: None

This course is an introduction into the cloud computing model of servers, networks, applications, and other elements related to data centers and how this data is utilized and made available to IT professionals and end users via the internet. Students will be prepared to take an industry recognized cloud certification exam.

CITC 2199 Internship ** 3 cr.
..... 3 Lec. hrs. /week

Pre-Req: None
Co-Req: Enrolled in final JSCC semester

A supervised work program designed to provide students with a variety of practical on-the-job experiences. This will allow students to apply their knowledge to real world situations and to build relationships between companies prior to graduation. This course should be taken in the last semester of enrollment prior to graduation.

CITC 2320 Windows Server Admin.**..... 3 cr.
..... 3 Lec. hrs. /week

Pre-Req: CITC 1302 or CITC 1323
Co-Req: None

Through commonly used Windows network operating systems, students will learn to install, configure, administer, maintain, and troubleshoot networked computer system servers.

CITC 2321 CCNA III ** 3 cr.
..... 3 Lec. hrs. /week

Pre-Req: CITC 1324
Co-Req: None

CCNA III, Enterprise Networking, Security, and Automation, the third course in the 3-course CCNA series, describes the architectures and considerations related to designing, securing, operating, and troubleshooting enterprise networks. It covers wide area network (WAN) technologies and quality of service (QoS) mechanisms used for secure remote access along with the introduction of software-defined networking, virtualization, and automation concepts that support the digitalization of networks.

CITC 2326 Network Security ** 3 cr.
..... 3 Lec. hrs. /week

Pre-Req: CITC 1323 or 1302
Co-Req: None

This course is designed to give students a fundamental understanding of computer and network security. It will introduce students to a wide variety of concepts related to network security. This course will cover the objectives for the current CompTIA Security+ Certification.

CITC 2333 Professional Workplace Skills ** 3 cr.
..... 3 Lec. hrs. /week

Pre-Req: None
Co-Req: None

Introduces the student to the universal success skills requisite for career success. Topics include verbal communication, written communication, problem solving and decision making, teamwork and team building, and professionalism.

CITC 2344 Database SQL Programming ** 3 cr.
..... 3 Lec. hrs. /week

Pre-Req: CITC 1303
Co-Req: None

A comprehensive study of SQL using an industry established relational database management system such as Microsoft SQL Server or Oracle RDBMS. Topics will include database design, creation and management, advanced queries, stored procedures and functions, triggers, user defined functions, security awareness in an optimistic and pessimistic contingency DML data control, and performance tuning issues.

CITC 2347 Web Database Apps & Dev.** 3 cr.
..... 3 Lec. hrs. /week

Pre-Req: None
Co-Req: None

This course develops the skills necessary for applications programmers and database developers to create interactive Web sites. Topics include object-oriented application development, relational table creation and maintenance, data cleansing and validation, data manipulation, data storage and retrieval, Web forms, embedded SQL, optimization, and security.

CITC 2351 Cisco Network Security ** 3 cr.
..... 3 Lec. hrs. /week

Pre-Req: CITC 1324
Co-Req: None

Today's organizations are challenged with rapidly responding to emerging network security threats. Security personnel configure and monitor various network security threat mitigation measures, such as device hardening, intrusion prevention systems, and firewalls, to protect data assets and network systems from attack. The purpose of this course is to provide skills and knowledge in the field of network security. Students in this course are exposed to the foundational knowledge required to respond to network security threats through various threat mitigation measures.

CITC 2352 Digital Forensics ** 3 cr.
..... 3 Lec. hrs. /week

Pre-Req: CITC 1302 or 1323
Co-Req: None

This course is designed to give students a basic understanding of computer forensics and investigations. This course will introduce students to computing investigations by preparing them to acquire, examine and summarize digital evidence.

CITC 2354 Advanced Digital Forensics ** 3 cr.
..... 3 Lec. hrs. /week

Pre-Req: CITC 2352
Co-Req: None

This course will guide students through the process of conducting a high-tech digital forensics investigation. It will include acquiring and analyzing digital evidence and reporting its findings. Advanced techniques in password recovery, registry analysis and evidence filtering will be mastered for those who successfully complete this course.

** This Course is not designed for transfer to a 4-year college or university.

CITC 2358 CCNA CyberOps Associate ** 3 cr.
 3 Lec. hrs. /week
 Pre-Req: CITC 1324
 Co-Req: None

The CCNA CyberOps Associate course aligns to the Cisco Certified CyberOps Associate certification and covers how to monitor, detect, and respond to cybersecurity threats as outlined in the National Institute of Standards and Technology (NIST) Cybersecurity Framework. You will learn security concepts, security monitoring, host-based analysis, network intrusion analysis, and security policies procedures. This course also aligns with the National Initiative for Cybersecurity Education (NICE) Cybersecurity Workforce Framework to support consistent communication language for cybersecurity education, training, and workforce development.

CITC 2376 Mobile App Development ** 3 cr.
 3 Lec. hrs. /week
 Pre-Req: CITC 1301 or 1310
 Co-Req: None

A study of mobile computing devices with emphasis on development of mobile applications. Topics include mobile computing hardware and technologies, mobile development environment, application components, user interface design principles and APIs.

CITC 2381 Cloud Computing I ** 3 cr.
 3 Lec. hrs. /week
 Pre-Req: CITC 1367
 Co-Req: None

This course is an exploration of cloud computing, cloud computing services, applications, and use cases. An in-depth examination of information in the areas of cloud computing best practices and how cloud computing helps users develop a global infrastructure to support use cases at scale while also developing and inventing innovative technologies will be presented.

CITC 2382 Cloud Computing II** 3 cr.
 3 Lec. hrs. /week
 Pre-Req: CITC 2381
 Co-Req: None

This course is a continuation of Cloud Computing I course. It continues in the exploration of cloud computing, cloud computing services, applications, and use cases. An in-depth examination of information in the areas of cloud computing best practices and how cloud computing helps users develop a global infrastructure to support use cases at scale while also developing and inventing innovative technologies will be presented. Students will be prepared to take an industry recognized cloud certification exam.

CITC 2391 Special Topics in CITC** 3 cr.
 3 Lec. hrs. /week
 Pre-Req: None
 Co-Req: None

Special topics relating to various aspects of computer information technology. The course may be repeated for credit with departmental permission

See also Information Systems Courses.

Computer Science

CISP 1010 Computer Science I 4 cr.
 4 Lec. hrs. /week
 Pre-Req: ACT READ 19, ACT MATH 19
 Co-Req: None

Programming in C++ will be the focus of this course. The concepts covered in class will begin with introductory concepts and conclude with advanced topics in C++. Programming concepts addressed will include data types, abstraction, classes, objects, file processing, functions, decision statements, iteration, arrays, inheritance, and pointers.

CISP 1020 Computer Science II 4 cr.
 4 Lec. hrs. /week
 Pre-Req: CISP 1010
 Co-Req: None

This course is a continuation of CISP 1010. It examines topics of programming in a high-level language, including programming concepts good style, algorithms, documentation, and elementary data structures.

CISP 2410 Assembly and Computer Organization 3-4 cr.
 3-4 Lec. hrs. /week
 Pre-Req: CISP 1010
 Co-Req: None

This course is a study of computer organization and assembly language. Topics include number systems, Boolean algebra, combinational and sequential circuits, processor functional units and control, pipelining, memory and caching, stored program computing, memory management, computer system organization, assembly language programming.

Criminal Justice

CRMJ 1010/SOCI 1011 Introduction to Criminal Justice 3 cr.
 3 Lec. hrs. /week
 Pre-Req: None
 Co-Req: None

The course objective is for a student to examine policing, corrections, and the American court system, amongst other topics. The student gains an understanding of the complexity of the criminal justice processes, its lack of central coordination and, most significantly, how justice is administered in American society.

CRMJ 1020 Introduction to Legal Process 3 cr.
 3 Lec. hrs. /week
 Pre-Req: None
 Co-Req: None

This course reviews basic laws governing the maintenance of a democratic society and how criminal and constitutional laws meet the challenge of American society

CRMJ 1301 Correctional Counseling** 3 cr.
 3 Lec. hrs. /week
 Pre-Req: ACT READ 19, ENGL 18
 Co-Req: None

This course introduces students to the role of the correctional counselor. It defines the goals and methods, as well as the theories associated with institutional counseling. It also exposes students to the different issues associated with different offender typologies.

** This Course is not designed for transfer to a 4-year college or university.

CRMJ 1322 Police Administration and Organization 3 cr.**
 3 Lec. hrs. /week

Pre-Req: None
 Co-Req: None

A study of the principles of personnel management functions and organization of the police agency. Topics include policy procedures, evaluation of the research, planning, and development processes, and operational duties and commands.

CRMJ 1325 Issues and Ethics in Criminal Justice 3 cr.**
 3 Lec. hrs. /week

Pre-Req: None
 Co-Req: None

This course is a review and in-depth examination of current issues, trends, and ethical considerations concerning the criminal justice process with emphasis on problems impacting local criminal justice agencies and personnel.

CRMJ 1330 Criminal Evidence and Procedures 3 cr.**
 3 Lec. hrs. /week

Pre-Req: None
 Co-Req: None

This course will be an introduction to the American Criminal Justice System with an emphasis on handling evidence and suspects, the US Constitution, individual rights, criminal court procedures, the Exclusionary Rule, probable cause, arrest procedures, search warrants, stop and frisks, admissions, interrogations and confessions, and the legal requirements to be followed in processing criminal evidence and defendants.

CRMJ 1340 Criminal Investigation 3 cr.**
 3 Lec. hrs. /week

Pre-Req: CRMJ 1010
 Co-Req: None

This course is an examination of the methods of interviews, interrogation, admissions, confessions, written statements, criminal case report writing, and evidence evaluation used in criminal investigations.

CRMJ 1341 Physical Defensive Tactics 4 cr.**
 4 Lec. hrs. /week

Pre-Req: None
 Co-Req: None

An introduction to basic police defensive tactics system through physical practice of uncomplicated movements and control of distance. Basic defensive tactics include hand and foot strikes, pressure points, control tactics, impact weapons, handcuffing techniques and use-of-force plans to include various policies on deadly force. Studies mental conditioning for survival and use-of-force continuum.

CRMJ 1350 Criminal Justice Career Planning 3 cr.**
 3 Lec. hrs. /week

Pre-Req: None
 Co-Req: None

This course is designed to acquaint students with careers in criminal justice, and develop marketable skills to prepare them for the overall process of securing employment. Learn about needed knowledge, skills and abilities for criminal justice occupations, and enhance their communication and problem solving skills. Students will complete job searches, employment applications, and interview practitioners in the field. Students will be exposed to requirements for completing a background investigation, and be required to complete pre-employment forms. Students will develop a career portfolio and be required to complete mock employment interviews.

CRMJ 1355 Understanding Terrorism 3 cr.**
 3 Lec. hrs. /week

Pre-Req: None
 Co-Req: None

This course will introduce students to the study of terrorism, and will provide a basic knowledge of the history and politics of terrorism as well as explore contemporary terrorism events. The course will review major theories and organizations in the field of domestic and international terrorism.

CRMJ 1360 Intro. to Crime Scene Investigation 3 cr.**
 3 Lec. hrs. /week

Pre-Req: None
 Co-Req: None

This course is designed to train and prepare participants to become skilled in the recognition, discovery, processing, preservation, collection, and transmission of physical evidence found at the scene of the crime. The course includes photography, sketching, fingerprinting, marking, chain of custody, collection methods, sources of physical evidence, and transmission to the laboratory.

CRMJ 1381 Interview/Interrogation Techniques 3 cr.**
 3 Lec. hrs. /week

Pre-Req: None
 Co-Req: None

A study of the techniques utilized in interviewing victims, witnesses, and subjects of interrogations. Topics include preparation and strategy, legal aspects, interpretation of verbal and physical behavior, causes of denial, interviewing, establishing credibility, reducing resistance, obtaining the admission, and the use of video equipment.

CRMJ 1390 Traffic Accident Investigation 3 cr.**
 3 Lec. hrs. /week

Pre-Req: None
 Co-Req: None

A study of traffic collisions using scientific methods of vehicle speed calculation, timed distance speed, report writing, and diagramming. Explores the legal, statistical, and professional aspects of this interesting field. Includes dynamic vehicle experiments and practical exercises in gathering facts for traffic investigators.

CRMJ 1391 Patrol and Traffic Procedures 3 cr.**
 3 Lec. hrs. /week

Pre-Req: None
 Co-Req: None

This course is intended to teach the basic foundations for development of an individual into an effective law enforcement officer. At the conclusion of this course of instruction, the student will have demonstrated proficiency in the basic aspects of patrol work. These include Field Contacts, Crash Investigations, Traffic Stops, Mental Preparation for Armed Confrontation, DUI Detection, Crimes in Progress, Crime Scene Protection, and various training and dynamic simulations related to the content.

CRMJ 1395 Tactical Talks 3 cr.**
 3 Lec. hrs. /week

Pre-Req: None
 Co-Req: None

An interpersonal communications course for police officers. Provides officers the necessary tools to diffuse verbal confrontations as well as persuade contacts to obey legal and lawful orders. Topics include the goals, objectives, and visions of law enforcement and field interviewing techniques and neurolinguistics.

** This Course is not designed for transfer to a 4-year college or university.

CRMJ 1398 Basic Emergency Procedures 3 cr.**
 3 Lec. hrs. /week

Pre-Req: None
 Co-Req: None

This course was developed to teach the basics of managing critical incidents in the community of a law enforcement and non-law enforcement nature. The topics in the course include Domestic Terrorism, Hazardous materials, American Heart Saver Plus, Basic First Aid, Crisis Intervention, Stress Management, Domestic Violence, and Hostage Negotiations.

CRMJ 2010 Introduction to Law Enforcement..... 3 cr.
 3 Lec. hrs. /week

Pre-Req: None
 Co-Req: None

An overview of the American Police, including the philosophy and historical evolution behind the police force. Emphasis is on policing procedures; crime prevention and control; functions of law enforcement; problems and needs facing the police; and contemporary issues.

CRMJ 2020 Introduction to Corrections..... 3 cr.
 3 Lec. hrs. /week

Pre-Req: None
 Co-Req: None

An overview of corrections, including the philosophy and historical evolution behind the development of corrections. Emphasis is on corrections procedures, current prison conditions and operations, problems and needs facing corrections, and related contemporary issues.

CRMJ 2305 Intro. to Cyber Security for Crim. Justice 3 cr.**
 3 Lec. hrs. /week

Pre-Req: None
 Co-Req: None

Provides an overview of criminal acts that can be committed with the use of a computer and the internet, how computer-related crimes are committed and how computer-related crimes are investigated. This course will also explore the prosecution of computer-related crimes.

CRMJ 2311 Juvenile Justice 3 cr.**
 3 Lec. hrs. /week

Pre-Req: None
 Co-Req: None

This course is an overview of the extent, causes, nature, and control of juvenile delinquency from a sociological perspective. Various theories of delinquency causation, the role of social institutions, the major components of the juvenile justice system and traditional juvenile corrections will be presented.

CRMJ 2340 Investigative Reporting 3 cr.**
 3 Lec. hrs. /week

Pre-Req: ENGL 1010
 Co-Req: None

This course focuses on preparing analytical investigative reports and explores techniques of organizing, structuring, and investigating the report to comply with proper guidelines.

CRMJ 2363 Basic Law Enforcement Proc. & Tech. ** 3 cr.
 3 Lec. hrs. /week

Pre-Req: None
 Co-Req: None

This course is an introduction to common practices and procedures that are utilized by law enforcement professionals during the course of their career.

CRMJ 2367 Mental Health Aspects of Criminal Behavior ... 3 cr.**
 3 Lec. hrs. /week

Pre-Req: PSYC 1030
 Co-Req: None

This course is a study of deviant behavior with emphasis on dealing with the mentally disturbed, sexual deviance, and drug addiction. It examines the roles of the psychologist in criminal justice cases.

CRMJ 2390 Probation and Parole 3 cr.**
 3 Lec. hrs. /week

Pre-Req: None
 Co-Req: None

A study of the supervision of offenders in the community, including history, philosophy, legal foundations, strategies, professional roles and contemporary models, programs, and services.

CRMJ 2396 Criminal Justice Internship 3 cr.**
 3 Lec. hrs. /week

Pre-Req: Permission of Criminal Justice Program Director
 Co-Req: None

Directed internship designed to offer students the opportunity to pursue work experience with a criminal justice agency; to develop practical work related skills and integrate classroom knowledge and theories. The goal of this course is to provide students with an intensive field experience in a functional criminal justice agency. The selection of the placement agency determined by student's background, academic status, and interest. Students enrolled in 3 credit hours must complete a total of 135 contact hours.

Early Childhood Education

ECED 2186 Special Topics 1 cr.**
 1 Lec. hrs. /week

Pre-Req: None
 Co-Req: None

The study of programs, trends, and issues in the field of Early Childhood Education.

ECED 2286 Special Topics 2 cr.**
 2 Lec. hrs. /week

Pre-Req: None
 Co-Req: None

The study of programs, trends, and issues in the field of Early Childhood Education.

ECED 2310 Safe, Healthy Learning Environments 3 cr.**
 3 Lec. hrs. /week

Pre-Req: None
 Co-Req: None

Safe, Healthy Learning Environments is a study of the basic principles and practices of safety, health, and nutrition as they relate to the early childhood setting, home, and community for children ages birth through eight. Also included is a study of the principles of creating appropriate learning environments for young children. Field experience is required.

ECED 2315 Early Childhood Curriculum 3 cr.**
 3 Lec. hrs. /week

Pre-Req: None
 Co-Req: None

Early Childhood Curriculum is a study of developmentally appropriate practices and the teacher's role in supporting development of children ages birth through eight. Also included is an emphasis on curriculum planning including goals, environment, and roles of teachers and of families, materials, and settings. Field experience is required.

** This Course is not designed for transfer to a 4-year college or university.

ECED 2335 Initial Practicum** 3 cr.
 2 Lec. hrs./3 Lab hrs./week
 Pre-Req: None
 Co-Req: None

Initial Practicum is a supervised practicum which includes a minimum of 30 clock hours in instruction and 45 clock hours in a clinical site approved by the Department (accredited agency, 3-Star, or Department-approved site). These hours may be completed in the student’s employment site with Department approval. The course includes a study of the physical and human qualities that combine to create an environment that is safe and healthy and that promotes optimum learning for young children ages birth through eight.

ECED 2340 Family Dynamics and Community Involvement** 3 cr.
 3 Lec. hrs. /week
 Pre-Req: None
 Co-Req: None

Family Dynamics and Community Involvement is a study of the role of the family and community in the physical, cognitive, social, and emotional growth of the child ages birth through eight. Topics include the benefits of, and strategies for, developing positive reciprocal relationships with families in an early childhood setting. Field experience is required.

ECED 2385 Math and Science in Early Childhood** 3 cr.
 3 Lec. hrs. /week
 Pre-Req: None
 Co-Req: None

Math and Science in Early Childhood is a course covering the standards, principles, and practices in teaching mathematics and science to young children ages birth through eight. The course emphasizes developing an integrated math and science curriculum that includes appropriate content, processes, environment and materials, and child-centered choices. Field experience is required.

ECED 2386 Special Topics** 3 cr.
 3 Lec. hrs. /week
 Pre-Req: None
 Co-Req: None

The study of programs, trends, and issues in the field of Early Childhood Education.

Economics

ECON 2100 Principles of Macroeconomics..... 3 cr.
 3 Lec. hrs. /week
 Pre-Req: ACT READ 19, ACT ENGL 18, ACT MATH 19
 Co-Req: None

A course providing for an investigation of macroeconomic principles and policies. Following an introductory overview of the U.S. market economy, emphasis is placed upon analysis of the national income accounts; the principles of modern employment theory; the principles of money and banking; and the fiscal, monetary, and supply side policies that evolve from the application of these concepts.

ECON 2200 Principles of Microeconomics 3 cr.
 3 Lec. hrs. /week
 Pre-Req: ACT READ 19, ACT ENGL 18, ACT MATH 19
 Co-Req: None

A course providing for an investigation of microeconomic principles and policies. Emphasis is placed upon analysis of the forces of supply and demand, theories of consumer behavior, production costs, application of marginal analysis and equilibrium theory to price and output decisions of the firm in competitive and noncompetitive markets, resource allocation and principles of international trade and finance.

Education

EDU 201 Foundations of Education 3 cr.
 3Lec. hrs. /week
 Pre-Req: None
 Co-Req: None

In this course attention will be given to the historical, philosophical, and sociological foundations underlying the development of American educational institutions. The role of the schools, the aims of education, and the role of state, local, and federal agencies will be emphasized. Some field experience will be required. Students must be 18 years or older of age to obtain and pass a background check.

EDU 1120 Introduction to Teaching 3 cr.
 3Lec. hrs. /week
 Pre-Req: ACT ENGL 18, ACT READ 19
 Co-Req: None

In this course attention will be given to the historical, philosophical, and sociological foundations underlying the American educational institution. The role of schools and the role of local, state, and federal agencies will be emphasized. Experience will be gained in the development and use of instructional applications in technology including computers, ipads, and educational software. Field experience is required in a classroom setting.

EDU 2100 Introduction to Special Education..... 3 cr.
 3 Lec. hrs. /week
 Pre-Req: ACT ENGL 18, ACT READ 19
 Co-Req: None

This course is designed to introduce teachers to the historical, legal, and pedagogical aspects of teaching individuals with special needs and gifted. This course covers children beginning pre-school age until early adulthood. The student will be introduced to Individual Education Plans (IEP) and diagnostics assessments. Field experience is required. Students must be at least 18 years of age to obtain and pass a required background check.

EDU 2230 Human Growth and Development 3 cr.
 3Lec. hrs. /week
 Pre-Req: ACT ENGL 18, ACT READ 19
 Co-Req: None

A study of quantitative and qualitative ways people change through infancy to adolescence. Theory, research, and application of human development and learning processes will be studied. A special emphasis will be placed on the theories of Erikson, Piaget, and Kohlberg. Three interviews are required with a child, adolescent, and an adult. There is a 10-hour service learning activity required.

Emergency Medical Technology

EMSB 1101 EMT Medical Skills Lab ** 1 cr.
 2 Lab. hrs./week
 Pre-Req: ACT READ 19, ACT ENGL 14+, Admission to EMT Program
 Co-Req: EMSB 1601 and EMSB 1111

EMT Medical Skills Lab is a laboratory based course utilizing scenarios to emphasize EMS operations, communications, documentation, medical/legal/ethical considerations, airway management, respiratory emergencies, cardiovascular emergencies, acute diabetic emergencies, abdominal and gastrointestinal emergencies, urologic emergencies, anaphylactic reactions, behavioral emergencies, assisting with medication administration, and successful assessment of patients with a variety of medical concerns. This course includes application of principles and processes discussed in EMT Medical Emergencies.

** This Course is not designed for transfer to a 4-year college or university.

EMSB 1102 EMT Trauma and Medical Skills Lab ** 1 cr.
 2 Lab. hrs./week

Pre-Req: EMSB 1101
 Co-Req: EMSB 1602 and 1112

EMT Trauma and Medical Skills Lab is a laboratory based course utilizing scenarios to emphasize obstetrics and gynecology, neonatal care, pediatric emergencies, geriatric emergencies, environmental emergencies, patients with special challenges, trauma and shock.

EMSB 1111 EMT Clinical ** 1 cr.
 48-96 hrs./sem.

Pre-Req: ACT READ 19, ACT ENGL 14+, Admission to EMT Program
 Co-Req: EMSB 1601 and EMSB 1101

EMT Clinical is the one of two clinical courses designed to allow the student to meet all psychomotor and affective outcomes for the clinical requirements of an EMT program and build upon the concepts and knowledge learned in EMT Medical Emergencies and EMS Operations.

EMSB 1112 EMT Field Internship ** 1 cr.
 48-96 hrs./sem.

Pre-Req: EMSB 1601, 1101, 1111
 Co-Req: EMSB 1602 and 1102

EMT Field Internship is the one of two clinical courses designed to allow the student to meet all psychomotor and affective outcomes for the clinical requirements of an EMT program and build upon the concepts and knowledge learned during prior and/or concurrent courses.

EMSB 1601 EMT Medical Emergencies and EMS Operations ** 6 cr.
 6 Lec. hrs./week

Pre-Req: ACT READ 19, ACT ENGL 14+, Admission to EMT Program
 Co-Req: EMSB 1101 and EMSB 1111

EMT Medical Emergencies and EMS Operations is the one of two lecture courses designed to provide the student with the knowledge of an entry-level Emergency Medical Technician (EMT). This course includes the following topics: Emergency Medical Responder-National Educational Standards competencies, roles and responsibilities of the EMT, workforce safety, wellness, public health, communications, documentation, EMS operations, medical/legal/ethical considerations, fundamental anatomy and physiology, life span development, fundamental pathophysiology, patient assessment, airway management, respiratory emergencies, cardiovascular emergencies, acute diabetic emergencies, abdominal and gastrointestinal emergencies, urologic emergencies, anaphylactic reactions, and behavioral emergencies.

EMSB 1602 EMT Trauma and Medical Emergencies ** 6 cr.
 6 Lec. hrs./week

Pre-Req: EMSB 1601
 Co-Req: EMSB 1102 and 1112

EMT Trauma and Medical Emergencies is the one of two lecture courses designed to provide the student with the knowledge of an entry-level Emergency Medical Technician (EMT). This course includes the following topics: obstetrics and gynecology, neonatal care, pediatric emergencies, geriatric emergencies, environmental emergencies, patients with special challenges, trauma and shock. Trauma and shock will include the following topics: bleeding, soft tissue injuries, head & spine injuries, face & neck injuries, chest injuries, abdominal & genitourinary injuries, and orthopedic injuries.

Emergency Medical Technology Advanced

EMSA 1111 Advanced EMT Clinical ** 1 cr.
 48-96 Clin. hrs./sem.

Pre-Req: ACT READ 19, ACT ENGL 14+, Admission to AEMT Program
 Co-Req: EMSA 1501 and EMSA 1201

The Advanced EMT Clinical is one of two courses designed to allow the student to meet all psychomotor and affective objectives for the clinical requirements of an Advanced Emergency Medical Technician program and build upon the concepts and knowledge gained during prior and/or concurrent courses.

EMSA 1112 Advanced EMT Field Internship ** 1 cr.
 48-96 Clin. hrs./sem.

Pre-Req: ACT READ 19, ACT ENGL 14+, Admission to AEMT Program
 Co-Req: EMSA 1111, 1502 and 1202

The Advanced EMT Field Internship is the one of two courses designed to allow the student to meet all psychomotor and affective objectives for the clinical requirements of an Advanced Emergency Medical Technician program and build upon the concepts and knowledge gained during prior and/or concurrent courses.

EMSA 1201 Advanced EMT Medical Skills Lab ** 2 cr.
 60 Lab hrs./sem.

Pre-Req: ACT READ 19, ACT ENGL 14+, Admission to AEMT Program
 Co-Req: EMSA 1501 and EMSA 1111

The Advanced EMT Medical Skills Lab is the one of two laboratory based courses intended to focus the student on developing skills related to theory presented in didactic classes taken as co-requisites for this course. This laboratory experience will utilize scenarios to emphasize airway maintenance, medication administration, and successfully assessing patients with a variety of medical concerns.

EMSA 1202 Advanced EMT Trauma and Medical Skills Lab ** 2 cr.
 60 Lab hrs./sem.

Pre-Req: EMSA 1201
 Co-Req: EMSA 1502 and 1112

The Advanced EMT Trauma and Medical Skills Lab is one of two laboratory based courses intended to focus the student on developing skills related to theory presented in didactic classes taken as co-requisites for this course. This laboratory experience will utilize scenarios to emphasize airway maintenance, medication administration, and successfully assessing patients with a variety of medical concerns.

*** This Course is not designed for transfer to a 4-year college or university.*

EMSA 1501 Advanced EMT Medical Emergencies ** 5 cr.
 75 Lec. hrs./sem.

Pre-Req: ACT READ 19, ACT ENGL 14+, Admission to AEMT Program
 Co-Req: EMSA 1201 and EMSA 1111

The Advanced EMT Medical Emergencies is the one of two lecture courses which includes basic and limited advanced skills focused on the acute management and transportation of critical and emergent patients. This course includes the following topics: Emergency Medical Responder and Emergency Medical Technician- National Educational Standards competencies, roles and responsibilities of the AEMT, workforce safety, wellness, public health, communications, documentation, medical/legal/ethical considerations, anatomy and physiology, life span development, pathophysiology, patient assessment, critical thinking, airway management, respiratory emergencies, cardiovascular emergencies, acute diabetic emergencies, abdominal and gastrointestinal emergencies, urologic emergencies, anaphylactic reactions, and behavioral emergencies.

EMSA 1502 Advanced EMT Trauma and Medical Emergencies ** 5 cr.
 75 Lec. hrs./sem.

Pre-Req: EMSA 1501
 Co-Req: EMSA 1202 and 1112

The Advanced EMT Trauma and Medical Emergencies is one of two lecture courses which includes basic and limited advanced skills focused on the acute management and transportation of critical and emergent patients. This course includes the following topics: obstetrics and gynecology, neonatal care, pediatric emergencies, geriatric emergencies, environmental emergencies, patients with special challenges, EMS operations, trauma and shock. Trauma and shock will include the following topics: bleeding, soft tissue injuries, head & spine injuries, face & neck injuries, chest injuries, abdominal & genitourinary injuries, and orthopedic injuries.

Emergency Medical Services Paramedic

EMSP 1401 Paramedic Skills Lab ** 4 cr.
 120. hrs./sem.

Pre-Req: Admission to Paramedic program, ACT READ 19
 Co-Req: EMSP 1801 and 1311

Skills Lab I is a laboratory based course utilizing scenarios to emphasize airway management, medication administration, and successful assessment of patients with a variety of medical concerns and an introduction to cardiology. This course includes application of principles and processes discussed in Fundamentals I.

EMSP 1801 Fundamentals of Paramedic I ** 8 cr.
 8 Lec. hrs./week

Pre-Req: Admission to Paramedic program, ACT READ 19
 Co-Req: EMSP 1401 and 1311

Fundamentals of Paramedic I is the first of two lecture courses to include the following topics: paramedic roles, responsibilities, workforce safety, wellness, public health, communications, documentation, EMS operations, medical/legal considerations, anatomy and physiology, life span development, general pathophysiology, general pharmacology, patient assessment, critical thinking, airway management, respiratory emergencies and introduction to cardiology.

EMSP 1311 Paramedic Clinical I ** 3 cr.
 144-288 Clin. hrs./sem.

Pre-Req: Admission to Paramedic program, ACT READ 19
 Co-Req: EMSP 1401 and 1801

Paramedic Clinical I is the first of three clinical courses designed to allow the student to meet all psychomotor and affective objectives for the clinical requirements of a paramedic program and build upon the concepts and knowledge gained during the first semester.

EMSP 2303 Paramedic Practicum ** 3 cr.
 90. hrs./sem.

Pre-Req: EMSP 1401 and 2402
 Co-Req: EMSP 2403 and 2513

Paramedic Practicum is a combination of laboratory and scenarios based course intended to assist students on developing skills related to the theories presented in their previous courses. This course will allow for preparation for psychomotor licensure testing and preparation as a competent entry level Paramedic.

EMSP 2402 Paramedic Skills Lab II ** 4 cr.
 120. hrs./sem.

Pre-Req: EMSP 1801, 1401, and 1311
 Co-Req: EMSP 2802 and 2412

Paramedic Skills Lab II is a laboratory based course intended to utilize scenarios to emphasize respiratory/cardiac emergencies (on-going from EMSP 1401), pulmonology, neurology, endocrinology, gastroenterology, urology and nephrology, hematology, gynecology, obstetrics, neonatology, pediatrics, trauma, continuing cardiology, and successful assessment of patients with a variety of medical conditions. This course includes application of principles and processes discussed in Fundamentals I.

EMSP 2403 Paramedic Capstone ** 4 cr.
 120. hrs./sem.

Pre-Req: EMSP 1801 and 2802
 Co-Req: EMSP 2303 and 2513

Paramedic Capstone serves as a mechanism to insure that the student meets academic requirements to test for National Registry and licensure. This course will include all necessary steps needed to complete the program including exit exams, preparation for National Registry practical and written exams, exit interviews, patient care review by the Medical Director, and any other administrative requirements that the program may deem necessary.

EMSP 2412 Paramedic Clinical II ** 4 cr.
 192-384 Clin. hrs./sem.

Pre-Req: EMSP 1801, 1401, and 1311
 Co-Req: EMSP 2802 and 2402

Paramedic Clinical II is the second of three clinical experiences designed to allow the student to meet all psychomotor and affective objectives for the clinical requirements of a paramedic program and to build upon the concepts and knowledge gained during prior and/or concurrent courses.

*** This Course is not designed for transfer to a 4-year college or university.*

EMSP 2513 Paramedic Field Internship ** 5 cr.
 150. hrs./sem.

Pre-Req: EMSP 1311 and 2412
 Co-Req: EMSP 2303 and 2403

Paramedic Field Internship provides evidence that the student is capable of acting as a team leader in managing the emergency care and treatment of an injured or ill patient at the paramedic level. The student will demonstrate competency in this role. While all skill sets should have been achieved prior to initiating the internship, patient types and pathologies may be used from this experience to complete the minimum graduation academic requirements as set forth in CoAEMSP accreditation documents and the Tennessee Office of EMS.

EMSP 2802 Fundamentals of Paramedic II ** 8 cr.
 8 Lec. hrs/week

Pre-Req: EMSP 1801, 1401, and 1311
 Co-Req: EMSP 2402 and 2412

Fundamentals of Paramedic II is the second of two lecture courses to include the following topics: respiratory & cardiology (on-going from EMSP 1801), pulmonology, neurology, endocrinology, gastroenterology, urology and nephrology, hematology, gynecology, obstetrics, neonatology, pediatrics, geriatric emergencies, psychological emergencies and trauma/shock.

Engineering

ENGR 1000 Introduction to Engineering 1 cr.
 3 Lec. hrs./week

Pre-Req: None
 Co-Req: None

An introduction to engineering and the engineering profession. The lecture topics include engineering problem solving methods, introduction to design, professionalism, research skills, and technical communication.

ENGR 2110 Statics 3 cr.
 3 Lec. hrs./week

Pre-Req: PHYS 2110 or
 Co-Req: PHYS 2110 with permission of instructor

Analysis of two- and three-dimensional force systems, centroids, inertia, equilibrium, machines and frames, beam shear and moments.

ENGR 2120 Dynamics 3 cr.
 3 Lec. hrs./week

Pre-Req: ENGR 2110
 Co-Req: None

Particle kinematics, relative motion, kinetics, applications of Newton's Laws, work-energy principle, impulse-momentum, vibrations.

ENGR 2130 Circuits I 4 cr.
 3 Lec. hrs./ 3 Lab hrs./week

Pre-Req: MATH 1920
 Co-Req: MATH 2010

An introduction to electric circuit quantities and components, systemic applications of Ohm's and Kirchoff's laws, superposition, Thevenin and Norton theorems, operational amplifiers, RL and RC transients and computer circuit simulation.

Engineering Systems Technology

EETC 1311 Electrical Circuits I ** 3 cr.
 3 Lec. hrs. /week

Pre-Req: ACT MATH 19
 Co-Req: None

An introductory course in DC and AC circuits

EETC 1321 Electronics I ** 3 cr.
 TBA Lec. hrs./ TBA Lab hrs. /week

Pre-Req: EETC 1311
 Co-Req: None

An introductory course in solid state devices.

EETC 2331 PLC I ** 3 cr.
 TBA Lec. hrs./ TBA Lab hrs. /week

Pre-Req: EETC 1311
 Co-Req: None

An introductory course in programmable logic controllers.

EETC 2332 PLC II ** 3 cr.
 TBA Lec. hrs./ TBA Lab hrs. /week

Pre-Req: EETC 2331
 Co-Req: None

This course covers advanced topics in PLC programming.

EETC 2333 Industrial Electronic Controls** 3 cr.
 TBA Lec. hrs./ TBA Lab hrs. /week

Pre-Req: EETC 1311
 Co-Req: None

Advanced study of control circuits and electronic devices used in operating machines and processes in industry.

EETC 2350 Robotics ** 3 cr.
 3 Lec. hrs./ week

Pre-Req: EETC 2331
 Co-Req: None

This course is a study of robotic technology integration into an automated manufacturing system.

EETC 2361 Instrumentation Technology ** 3 cr.
 3 Lec. hrs./week

Pre-Req: EETC 1311
 Co-Req: None

This course covers various components, circuits, instruments, and control techniques used by industry in automated process control systems

ENST 1300 Technical Calculations ** 3 cr.
 3 Lec. hrs./week

Pre-Req: Engineering Systems Technology major
 Co-Req: None

An application based course covering the basic technical calculations needed to solve problems that are typical to those encountered in industry on a daily basis

ENST 1310 Computers in Engineering ** 3 cr.
 3 Lec. hrs./week

Pre-Req: None
 Co-Req: None

Introduction to computers for engineering technology students to prepare students to the computer as a tool for subsequent courses in engineering technology.

** This Course is not designed for transfer to a 4-year college or university.

ENST 1311 Computer Aided Design I ** 3 cr.
 3 Lec. hrs./week
 Pre-Req: None
 Co-Req: None
 This course is designed to develop the fundamental visualization and graphic communication skills used within a technical environment through manual and computer means.

ENST 1350 Safety ** 3 cr.
 3 Lec. hrs./week
 Pre-Req: None
 Co-Req: None
 This course focuses on industrial safety, including personal safety and equipment, hazard recognition and safeguards.

ENST 1360 Mechanical Power Transmission** 3 cr.
 3 Lec. hrs. /week
 Pre-Req: None
 Co-Req: None
 This course covers the application and maintenance of gear trains, belt and chain drives, shaft coupling and clutches, and bearing drives in an industrial setting.

ENST 1370 Manufacturing Processes ** 3 cr.
 3 Lec. hrs./week
 Pre-Req: None
 Co-Req: None
 This course focuses on manufacturing processes and provides an overview of the production cycle from planning to shipping.

ENST 2350 Lean Manufacturing Systems ** 3 cr.
 3 Lec. hrs./week
 Pre-Req: None
 Co-Req: None
 A study of the Lean Production System method of waste reduction and systems management.

ENST 2361 Fluid Power Systems ** 3 cr.
 TBA Lec. hrs./ TBA Lab hrs. /week
 Pre-Req: None
 Co-Req: None
 This course covers the fundamentals of industrial hydraulic and pneumatics systems.

ENST 2390 Capstone ** 3 cr.
 TBA Lec. hrs./ TBA Lab hrs. /week
 Pre-Req: EETC 2231 or permission of IT faculty member
 Co-Req: None
 This course provides a platform for students to apply required skills and knowledge to complete a multi-faceted project relative to the field of study.

ENST 2391 Internship ** 3 cr.
 TBA hrs./wee
 Pre-Req: None
 Co-Req: None
 A supervised work program designed to provide students with a variety of practical on-the-job experiences within the industrial field (compensated or uncompensated). This will allow students to apply their knowledge to real world situations and to build relationships with companies prior to graduation.

English

ENGL 0010 Writing Studio for ENGL 1010 ** 3 cr.
 3 hr./week
 Pre-Req: Placement by testing
 Co-Req: ENGL 1010
 Co-requisite course for students with English ACT scores of 17 and below enrolling in ENGL 1010. This course provides additional instruction, workshops, conferencing, and/or other activities designed to enhance the student's experience in ENGL 1010. This course does not meet English requirements for graduation or elective credits for graduation.

ENGL 1010 English Composition I 3 cr.
 3 Lec. hrs./week
 Pre-Req: ACT READ 19, ACT ENGL 18 (ACT ENGL below 18 must also enroll in ENGL 0010)
 Co-Req: None
 A course designed to emphasize the development of writing skills applied to different purposes with emphasis on logic, organization, levels of usage, information gathering, and audience awareness. Familiarity with basic essay form and outlining techniques is assumed.

ENGL 1020 English Composition II 3 cr.
 3 Lec. hrs./week
 Pre-Req: ENGL 1010 with grade of "C" or higher, ACT READ 19
 Co-Req: None
 A course designed to focus on expository writing using both research and documentation procedures and the ideas found in literature.

ENGL 2055 African-American Literature 3 cr.
 3 Lec. hrs./week
 Pre-Req: ENGL 1010, ACT READ 19
 Co-Req: None
 A survey of African-American Literature, emphasizing an exploration of African-American literary identity through an examination of literary trends, themes, and historical and political contexts.

ENGL 2130 Topics in American Literature 3 cr.
 3 Lec. hrs./week
 Pre-Req: ENGL 1010 (ENGL 1020 recommended)
 Co-Req: None
 Topics in American Literature is a study of representative works of American prose, poetry, drama and non-fiction from the Colonial period through the present day. Specific course material will vary based on instructor expertise and student interest.

ENGL 2230 Topics in World Literature 3 cr.
 3 Lec. hrs./week
 Pre-Req: ENGL 1010 (ENGL 1020 recommended)
 Co-Req: None
 Topics in World Literature examines the diversity of world literature through the study of representative authors and works from various cultures ancient to modern. Specific course material will vary based on instructor expertise and student interest.

ENGL 2235 Topics in British Literature 3 cr.
 3 Lec. hrs./week
 Pre-Req: ENGL 1010 (ENGL 1020 recommended)
 Co-Req: None
 Topics in British Literature is a study of representative works of British prose, poetry, drama and non-fiction from the Anglo-Saxon period through the present day. Specific course material will vary based on instructor expertise and student interest.

** This Course is not designed for transfer to a 4-year college or university.

ENGL 2250 Topics in English 1-3 cr.
 1-3 Lec. hrs./week
 Pre-Req: ENGL 1010 and ENGL 1020 or permission of the instructor.
 Co-Req: None

A course designed to explore specific literary, writing, or language interests. The focus of the course will be either theme, genre, or media. Typical topics: literature of ethnic groups, literature by women, modern drama, Shakespeare on film, or the American novel on film. May be taken more than one time for credit.

ENGL 2260 Technical Writing 3 cr.
 3 Lec. hrs./week
 Pre-Req: ENGL 1010 or permission of the instructor.
 Co-Req: None

A course designed to prepare students for the writing they will do in their careers. By preparing students' writing skills and developing their insights regarding readers' needs, reactions, and reading circumstances in the business and industrial workplace, this course aims to help students become confident, flexible, and effective communicators on the job.

ENGL 2110 Early American Literature 3 cr.
 3 Lec. hrs./week
 Pre-Req: ENGL 1010; recommended: ENGL 1020, ACT READ 19
 Co-Req: None

A survey of American Literature from pre-colonial times to the American Civil War, emphasizing an exploration of American literary identity through an examination of literary trends, themes, and historical and political contexts. Literature courses may be taken in any order.

ENGL 2120 Modern American Literature..... 3 cr.
 3 Lec. hrs./week
 Pre-Req: ENGL 1010; recommended: ENGL 1020, ACT READ 19
 Co-Req: None

A survey of American Literature from the American Civil War to today, emphasizing an exploration of American literary identity through an examination of literary trends, themes, and historical and political contexts. Literature courses may be taken in any order.

ENGL 2210 Early British Literature 3 cr.
 3 Lec. hrs./week
 Pre-Req: ENGL 1010; recommended: ENGL 1020, ACT READ 19
 Co-Req: None

A survey of British Literature from the early Medieval period to the Renaissance and the 18th-Century Neoclassical period, emphasizing the changing literary trends and themes these works represent as well as their historical and political context and relating them to relevant contemporary issues. Literature courses may be taken in any order.

ENGL 2220 Modern British Literature..... 3 cr.
 3 Lec. hrs./week
 Pre-Req: ENGL 1010; recommended: ENGL 1020, ACT READ 19
 Co-Req: None

A survey of British Literature from the Romantic, Victorian, early 20th Century, and Modern periods, emphasizing those ideas and events of the 19th and 20th Centuries which have shaped this literature and which still influence our contemporary experience. Literature courses may be taken in any order.

ENGL 2310 Early World Literature 3 cr.
 3 Lec. hrs./week
 Pre-Req: ENGL 1010; recommended: ENGL 1020, ACT READ 19
 Co-Req: None

A survey of selected world literature from ancient times to the early seventeenth century, reflecting the changes within civilizations, exploring the struggle with universal problems, and analyzing the influence of the past upon the present. Literature courses may be taken in any order.

ENGL 2320 Modern World Literature..... 3 cr.
 3 Lec. hrs./week
 Pre-Req: ENGL 1010; recommended: ENGL 1020, ACT READ 19
 Co-Req: None

A survey of world literature from the late seventeenth century to the late twentieth century, emphasizing changes in public standards of taste and morality, exploring the pursuit of individual liberties, and analyzing societal values that influence contemporary cultures and issues. Literature courses may be taken in any order.

English as a Second Language

ESOL 0131 Literacy I..... 3 cr.
 3 Lec. hrs./week
 Pre-Req: Permission of instructor
 Co-Req: None

This class is designed for non-native speakers of English. It includes practice in writing, reading, listening, and speaking. It is not intended for transfer and it is not accepted toward any degree program.

Fire Science

FIRE 1310 Principles of Emergency Services **..... 3 cr.
 3 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

This course provides a general synopsis to the three public safety professions in the United States; the fire service, emergency medical services (EMS), and law enforcement. Students will be given an overview of career opportunities, culture and history of emergency services, basic analysis of fire loss, crime, and epidemiology, the organization and function of public and private emergency service provision, state and local government relationships with public safety agencies, as well as laws and regulations affecting public safety. A specific module will be presented towards the end of the course specific to the United States Fire Administration - National Fire Academy - Fire and Emergency Services Higher Education course requirement in the areas of fire service nomenclature, specific fire protection functions, basic fire chemistry and physics, introduction to fire protection systems, basic introduction to fire strategy and tactics, and life safety initiatives.

FIRE 1315 Rescue Awareness** 3 cr.
 3 Lec. hrs./week
 Pre-Req: ACT READ 19, ENGL 18, MATH 19
 Co-Req: None

Basic methods of recognition and identification of a hazardous situation where a rescuer might be overwhelmed by the magnitude of the problem. Utilizing all known resources in the perspective area, and focusing in on personal safety and patient safety.

** This Course is not designed for transfer to a 4-year college or university.

FIRE 1320 Principles of Fire and Emergency Services Safety and Survival ** 3 cr.
3 Lec. hrs./week

Pre-Req: None
 Co-Req: None

This course introduces the basic principles and history related to the national firefighter life safety initiatives, focusing on the need for cultural and behavior change throughout the emergency services.

FIRE 1325 Fire Investigation I ** 3 cr.
3 Lec. hrs./week

Pre-Req: FIRE 2320, 2330, 1310
 Co-Req: None

This course is intended to provide the student with the fundamentals and technical knowledge needed for proper fire scene interpretations, including recognizing and conducting origin and cause, preservation of evidence and documentation, scene security, motives of the fire setter and types of fire causes.

FIRE 1330 Fire Prevention ** 3 cr.
3 Lec. hrs./week

Pre-Req: None
 Co-Req: None

Course provides fundamental knowledge relating to the field of fire prevention. Topics include: history and philosophy of fire prevention; organization and operation of a fire prevention bureau; use and application of codes and standards; plans review; fire inspections; fire and safety education; and fire investigation.

FIRE 2310 Fire Protection Systems ** 3 cr.
3 Lec. hrs./week

Pre-Req: None
 Co-Req: None

A focus on the design and operation of fire detection and alarm construction, heat and smoke control systems, special protections and sprinkler systems, water supply for fire protections and portable fire extinguishers.

FIRE 2320 Building Construction for Fire Protection ** 3 cr.
3 Lec. hrs./week

Pre-Req: None
 Co-Req: None

Intro to fire problems relating to building construction; analysis of building construction, materials, and constructional design methods; focus on needs and requirements of institutional, mercantile, and industrial structures before, during, and after construction periods.

FIRE 2325 Fire Protection Hydraulics and Water Supply** ... 3 cr.
3 Lec. hrs./week

Pre-Req: ACT READ 19, ENGL 18, MATH 19
 Co-Req: None

This course provides a foundation of theoretical knowledge in order to understand the principles of the use of water in fire protection and to apply hydraulic principles to analyze and to solve water supply problems.

FIRE 2330 Fire Behavior and Combustion ** 3 cr.
3 Lec. hrs./week

Pre-Req: None
 Co-Req: None

A focus on the theories and fundamentals of how and why fires start, spread and how they are controlled. Fire and the physical world, properties of fuels, chemical chain reactions, extinguishment agents and their effects.

FIRE 2335 Strategy and Tactics** 3 cr.
3 Lec. hrs./week

Pre-Req: FIRE 1310
 Co-Req: None

This course provides the principles of fire ground control through utilization of personnel, equipment, and extinguishing agents.

FIRE 2340 Leadership Development** 3 cr.
3 Lec. hrs./week

Pre-Req: ACT READ 19, ENGL 18, MATH 19
 Co-Req: None

This Course presents the company officer with the basic leadership skills and behaviors needed to perform effectively in the fire service environment. The course includes problem-solving skills and behaviors, identify and assess the needs of the company officer's subordinates and decision making skills for the company officer.

FIRE 2350 Principles of Fire & Emerg. Services Admin.** 3 cr.
3 Lec. hrs./week

Pre-Req: FIRE 1310
 Co-Req: None

The course introduces the student to the organization and management of a fire and emergency services department and the relationship of government agencies to the fire service. Emphasis is placed on fire and emergency services, ethics, and leadership from the perspective of the company officer.

FIRE 2355 Hazardous Material I** 3 cr.
3 Lec. hrs./week

Pre-Req: ACT READ 19, ENGL 18, MATH 19
 Co-Req: None

Basic methods of recognition and identification of hazardous materials based on the chemical and physical properties of hazardous materials and the basic safety procedures when utilizing specific types of protective equipment. Discussion includes the basic tactical concerns relating to scene management of a hazardous material incident.

FIRE 2355 Hazardous Material I** 3 cr.
3 Lec. hrs./week

Pre-Req: ACT READ 19, ENGL 18, MATH 19
 Co-Req: None

Basic methods of recognition and identification of hazardous materials based on the chemical and physical properties of hazardous materials and the basic safety procedures when utilizing specific types of protective equipment. Discussion includes the basic tactical concerns relating to scene management of a hazardous material incident.

FIRE 2360 Occupational Safety & Health for Emerg. Services** .3 cr.
3 Lec. hrs./week

Pre-Req: ACT READ 19, ENGL 18, MATH 19
 Co-Req: None

This course introduces the basic concepts of occupational health and safety as it relates to emergency service organizations. Topics include risk and hazard evaluation and control procedures for emergency service organizations.

** This Course is not designed for transfer to a 4-year college or university.

FIRE 2370 Public Fire and Life Safety Education** 3 cr.
.....3 Lec. hrs./week

Pre-Req: ACT READ 19, ENGL 18, MATH 19

Co-Req: None

This course is designed to provide the public and/or fire service educator with the knowledge and skills needed to successfully perform as a fire and life safety educator as addressed in NFPA 1035. The topics include fire behavior, community assessment, injury prevention and juvenile fire-setting. The student will also develop presentation skills and learn how to formulate public education programs. An overview of the educator, manager, and administrator role will be presented.

FIRE 2375 Hazardous Materials Chemistry** 3 cr.
.....3 Lec. hrs./week

Pre-Req: ACT READ 19, ENGL 18, MATH 19

Co-Req: None

This course provides basic chemistry relating to the categories of hazardous materials including recognition, identification, reactivity, and health hazards encountered by emergency services.

FIRE 2380 Legal Aspects of Emergency Services** 3 cr.
.....3 Lec. hrs./week

Pre-Req: ACT READ 19, ENGL 18, MATH 19

Co-Req: None

This course will address the federal, state, and local laws that regulate emergency services. It will also include a review of national standards, regulations, and consensus standards that emergency services are measured against.

FIRE 2385 Fire Investigation II** 3 cr.
.....3 Lec. hrs./week

Pre-Req: ACT READ 19, ENGL 18, MATH 19

Co-Req: None

This course is intended to provide the student with advanced technical knowledge on the rule of law, fire scene analysis, fire behavior, evidence collection and preservation, scene documentation, case preparation and courtroom testimony.

French

FREN 1010 Beginning French I..... 3 cr.
.....3 Lec. hrs./week

Pre-Req: ACT READ 19 and ACT ENGL 18

Co-Req: None

A study of pronunciation, phonetics, and basic grammar through the past tense. Emphasis on basic conversational sentences and listening comprehension. Some discussion of French civilization and customs.

FREN 1020 Beginning French II..... 3 cr.
.....3 Lec. hrs./week

Pre-Req: FREN 1010 or two years of high school French.

Co-Req: None

The completion of basic grammar and verb tenses through the subjunctive. Continuation of reading and conversation. Some discussions of French civilization and customs.

Geography

GEOG 2010 World Regional Geography 3 cr.
.....3 Lec. hrs./week

Pre-Req: ACT READ 19 and ACT ENGL 18

Co-Req: None

A survey of the economic, cultural, and physical traits that are characteristic of developing nations and developed nations. The course is focused on the geographic problems and aspects of the development of “Third World” nations in Latin America, Africa, Asia, and Oceania; also the course focuses upon the global position of developed nations (Russia, Western Europe, Great Britain, North America, Japan, and Australia) and the geographical landscape of those regions.

Geology

GEOL 1040 Physical Geology 4 cr.
.....3 Lec. hrs./2.5 Lab hrs./week

Pre-Req: ACT READ 19, ACT MATH 19

Co-Req: None

This course is an introduction to the study of the Earth. Physical processes that continuously change the Earth’s surface and interior are studied to understand the origins of rocks, volcanoes, earthquakes, continents, oceans, and the atmosphere. Course includes three hours of lecture and 2.5 hours of laboratory each week.

GEOL 1045 Environmental Geology 4 cr.
.....3 Lec. hrs./2.5 Lab hrs./week

Pre-Req: GEOL 1040

Co-Req: None

The application of physical geology principles to environmental problems, including geologic hazards, environmental pollution, and land/resource use/production. Topics include: volcanic, earthquake, flood, coastal, and landslide hazards; surface and groundwater pollution; economic resources issues and broader issues such as climate change.

Graphics Design Technology

GDT 100 Photography and Digital Imaging Techniques ** 3 cr.
.....3 Lec. hrs./week

Pre-Req: None

Co-Req: None

This course provides an introduction to the basic operation of conventional SLR and digital cameras, lighting techniques, transfer of digital files from camera to computer, scanning of transparencies to digital files, and manipulation and printing of digital files.

Health Information Management

HIM 201 Introduction to Health Information Management ** 3 cr.
.....3 Lec. hrs./week

Pre-Req: None

Co-Req: None

This course introduces students to the principles of Health Information Management through the understanding of Health Information Technology. Topics covered are based on the core competencies defined by AHIMA, as well as HIPPA regulations and JACHO recommendations that provide connectivity and applications that make up Health Information Systems of today.

*** This Course is not designed for transfer to a 4-year college or university.*

HIMT 1303 Basic ICD Coding I ** 3 cr.
3 Lec. hrs./week
 Pre-Req: ACT ENGL 18, ACT READ 19, ACT MATH 19
 Co-Req: None

This course presents the application of basic coding rules, principles, guidelines, and conventions utilizing various coding systems.

HIMT 1304 Disease Processes ** 3 cr.
3 Lec. hrs./week
 Pre-Req: HIMT 1303
 Co-Req: None

This course is an introduction to disease processes in the human body with emphasis on the etiology, signs, symptoms, diagnostic aids and findings, and treatment, including medications.

HIMT 1306 Medical Insurance Billing ** 3 cr.
3 Lec. hrs./week
 Pre-Req: ACT READ 19, ACT ENGL 18, ACT MATH 19
 Co-Req: None

This course is designed to teach students legal issues affecting insurance claims and medical records, how to complete insurance claim forms and the basics of health insurance, electronic data interchange, tracing delinquent claims and insurance problem solving, collections strategies, health care payers including managed care systems, private insurance, Medicare, state programs, workers' comp, Tricare and CHAMPVA, and disability.

HIMT 2301/ADMN 2303 CPT Coding ** 3 cr.
3 Lec. hrs./week
 Pre-Req: HIMT 2302
 Co-Req: None

CPT Coding provides an introduction to the Current Procedural Terminology (CPT) and HCPCS Level II coding systems. Topics include CPT coding format and conventions, applying coding guidelines to ensure accurate code assignment, complexities of assigning evaluation and management codes and the format and usage of coding and modifiers.

HIMT 2302 Basic ICD Coding II ** 3 cr.
3 Lec. hrs./week
 Pre-Req: HIMT 1303
 Co-Req: None

This course is a continuation of the application of basic coding rules, principles, guidelines, and conventions utilizing various coding systems.

See also Administrative Professional Technology, Business and Health Science courses.

Health Science

HSC 100 Basic Life Support for the Health Care Provider ** 1 cr.
6 Lec. hrs./ 9 Lab hrs./sem.

Pre-Req: None
 Co-Req: None

This course prepares the health care worker to administer basic life support to the adult, child and infant. The course is based upon the guidelines set forth by the American Heart Association. Content areas include basic airway control, cardiopulmonary resuscitation, and use of airway adjuncts. The course consists of lecture, demonstration and practical labs.

HSC 101 Introduction to the Health Professions ** 3 cr.
3 Lec. hrs./week
 Pre-Req: ACT ENGL 18, ACT READ 19
 Co-Req: None

A broad overview of the health sciences, including the educational requirements, as well as career advancement opportunities. Designed to help the student make realistic career plans by introducing them to various health care professions and allowing them to closely evaluate their areas of interest.

HSC 111 Medical Terminology ** 3 cr.
3 Lec. hrs./week
 Pre-Req: ACT READ 19
 Co-Req: None

An introduction to the constituents of medical and scientific vocabulary building and recognition through study and analysis of common technical prefixes, combining forms, and suffixes which will enable students to interpret and understand complex medical terms.

HSC 112 First Responder ** 4 cr.
39 Lec. hrs./ 21 Lab hrs./ 12 Clin. hrs./sem.
 Pre-Req: High School graduate (academic) or GED equivalency, eighteen years of age, and HSC 100
 Co-Req: None

This Emergency Services course is designed for firefighters, law enforcement, industrial safety personnel, and individuals seeking fundamental knowledge and skills in the treatment of injury and illness. Topics to be included are: The EMS system, First Responder roles and responsibilities, airway management, patient assessment, medical emergencies, trauma emergencies, emergency childbirth, and documentation. Practical labs will be conducted. Clinical observation is required. Upon successful completion of this course, the participant will be eligible to take the state of Tennessee First Responder Certification examination.

HSC 150 Health Sciences Seminar ** 1-3 cr.
TBA hrs./sem.
 Pre-Req: None
 Co-Req: None

A course designed to offer seminars, workshops, and other training specific to the interests of nursing and allied health students.

HSC 160 Laboratory Supervision and Management ** 3 cr.
3 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

This course is designed to present a review of the knowledge and skills needed to be an effective laboratory supervisor. Topics to be included are: motivation, delegation, time management, stress management, communication, employee selection and evaluation, budgeting, workload recording, etc.

HSC 190 Intro. to Human Pathophysiology ** 3 cr.
3 Lec. hrs./week
 Pre-Req: BIOL 2010
 Co-Req: BIOL 2020

A course designed for the student to gain understanding of physiologic processes and changes that occur as a result of disease or injury and how the human body attempts to compensate for changes brought about by disease or injury. Note: This course is offered as an elective via TNECampus.

** This Course is not designed for transfer to a 4-year college or university.

HSC 200 Critical Incident Stress Briefing/Death & Dying** 3 cr.
45 Lec. hrs./sem.

Pre-Req: None
 Co-Req: None

This course is designed to prepare emergency workers for dealing with stress, post traumatic stress brought on by critical incidents, and the impact of death and dying. Symptomology and management techniques will be taught.

See also Health Information Management courses.

History

HIST 2010 Early United States History..... 3 cr.
3 Lec. hrs./week

Pre-Req: ACT READ 19 and ACT ENGL 18
 Co-Req: None

A study of America’s European background, colonial development, and the American Revolution will be conducted. Also, the rise of sectional controversies, the Civil War, and Reconstruction will be treated in a topical manner.

HIST 2020 Modern United States History 3 cr.
3 Lec. hrs./week

Pre-Req: ACT READ 19 and ACT ENGL 18
 Co-Req: None

A study of the Industrial Revolution, new political movements, and the emergence of the United States as a world power will be conducted. World War I, the Great Depression, World War II, and historical events of the 1950s through the present will be included.

HIST 2030 Tennessee History 3 cr.
3 Lec. hrs./week

Pre-Req: ACT READ 19 and ACT ENGL 18
 Co-Req: None

A study of the prehistory period of Tennessee, including a general survey of the various Indian groups. Emphasis will be placed on the early European explorations in the transmontane country. Early attempts by Tennesseans to establish independent governments will be examined. The Jacksonian period from 1815 through 1848 will be a central theme, and a study of the national and state events of the 1850s that led to the Civil War will be included. In addition, a detailed examination of the Civil War, Reconstruction, the 1870 State Constitution, WWI, Progressivism, the New Deal, WWII, the Cold War, and modern Tennessee will be conducted.

HIST 2310 Early World History..... 3 cr.
3 Lec. hrs./week

Pre-Req: ACT READ 19 and ACT ENGL 18
 Co-Req: None

A study of world civilizations from ancient times to 1500. Areas to be examined include the Near East, Far East, Europe, Africa, and the Americas. Emphasis will be placed upon significant social, economic, military, and political developments in each region.

HIST 2320 Modern World History 3 cr.
3 Lec. hrs./week

Pre-Req: ACT READ 19 and ACT ENGL 18
 Co-Req: None

A study of world civilizations from 1500 to the present. Areas to be examined include Europe, the Americas, the Far East, and Africa. Emphasis will be placed upon significant social, economic, military, and political developments in each region. The increasing interaction and interdependence of world cultures will be a major theme.

HIST 2650 African-American History 3 cr.
3 Lec. hrs./week

Pre-Req: ACT READ 19 and ACT ENGL 18
 Co-Req: None

Covers the history and culture of African Americans in light of their experiences from slavery through the recent past; aspects of African American life and attitudes of dominant society within which African Americans lived; ways African American men and women shaped and nurtured their own lives, culture, and history in the United States.

Home Economics

HEC 231 Principles of Nutrition 3 cr.
3 Lec. hrs./week

Pre-Req: ACT READ 19 and ACT ENGL 18 and ACT MATH 19
 Co-Req: None

An introduction to macro and micro nutrients and their role in human nutrition, health and illness. Nutrient sources, digestion, absorption, storage, metabolism, deficiency and toxicity states are emphasized. Energy balance, caloric requirements, weight, physical activity, developmental and life cycle needs are studied. Consumer concerns regarding food and water safety and supply are also explored.

Honors

HON 200 Honors Seminar..... 1 cr.
1 Lec. hrs./week

Pre-Req: Permission of the Honors Director
 Co-Req: None

Description: An interdisciplinary course designed to focus on a crucial current issue which can be addressed from a variety of academic disciplines. (Offered as needed in the fall and spring.)

Humanities

HUM 1010 Early Humanities..... 3 cr.
3 Lec. hrs./week

Pre-Req: None
 Co-Req: None

This introductory course will relate to the human experience as expressed through music, art, theater, architecture, literature, and other disciplines from ancient civilizations to the Renaissance. The multimedia humanities survey blends sights, sounds, and pivotal ideas that will teach students the cultural history as well as the elements of the various art forms.

HUM 1020 Modern Humanities 3 cr.
3 Lec. hrs./week

Pre-Req: None
 Co-Req: None

This introductory course will relate to the human experience as expressed through music, art, theater, architecture, literature, film, and other disciplines from the Renaissance to the present. The multimedia humanities survey blends sights, sounds, and pivotal ideas that will teach students the cultural history as well as the elements of the various art forms. (Early Humanities is not a prerequisite for this class.)

*** This Course is not designed for transfer to a 4-year college or university.*

Information Systems

INFS 1010 Computer Applications 3 cr.
3 Lec. hrs./week

Pre-Req: None
 Co-Req: None

A course designed to enable students to achieve advanced levels of proficiency using integrated software applications. Emphasis will be placed on developing critical thinking and electronic communication skills using the advanced features of document processing, spreadsheet, database, and presentation graphics applications. Furthermore, the student will learn how to integrate external information from sources such as the Internet or other applications, into documents or presentations. These competencies will be gained by using project-based assignments. The course is best suited for the individual who already possesses a basic understanding of computer file management, operating systems and productivity software applications.

International Education

GLOB 1000 International Education..... 1 cr.
TBA hrs./week

Pre-Req: None
 Co-Req: None

This course is designed to supplement travel study programs by providing personal and academic frameworks for travel and a means of processing student experiences upon return. Each course will correspond with the features of a specific international itinerary based on the students' chosen program. This class will help students prepare for in-country site visits, interaction with locals, and discussions with overseas academics and colleagues. Participants will return to campus poised to incorporate an international dimension into education, research, civic life, and learning.

GLOB 1010 Global and Cultural Studies..... 1 cr.
TBA hrs./week

Pre-Req: None
 Co-Req: None

This course offers an interdisciplinary exploration of global and cultural issues. It is designed to help students challenge their understanding of how everyday experiences, social and political relations, beliefs, and values differ between cultures. Students will explore historical and contemporary global issues through a multi-disciplinary lens that allows students to engage in thinking critically about our interconnected world.

Library

LIB 1001 Introduction to Genealogy 3 cr.
3 Lec. hrs./week

Pre-Req: None
 Co-Req: None

This course provides an introduction to genealogical research with emphasis on Tennessee. Students will learn to use the U.S. Census, court documents and immigration records, as well as other research tools.

LIB 1040 Introduction to Library Research..... 1 cr.
1 Lec. hrs./week

Pre-Req: None
 Co-Req: None

This course introduces the student to the creation of information sources which relate to information distribution and research strategies. This course will be beneficial for all students regardless of their educational plans. It is based upon the Association of College & Research Libraries' (ACRL) Framework for Information Literacy for Higher Education and Jackson State Community College Library's Information Literacy Guidelines.

Management

MGT 214 Seminar ** 1-3 cr.
 1-3 Lec. hrs./week

Pre-Req: None
 Co-Req: None

A course designed to provide business and industry with seminars, workshops and special course offerings.

Manufacturing Technology

MET 105 Geometric Dimensioning & Tolerancing ** 3 cr.
3 Lec. hrs./week

Pre-Req: None
 Co-Req: None

This course introduces the principles of Geometric Dimensioning and Tolerancing of engineering drawing as applied to mechanical design, drafting, mechanical inspection, machining, and molding processing.

MET 155 Manufacturing Seminar ** 1-5 cr.
 1-5 Lec. hrs./ TBA Lab hrs./week

Pre-Req: None
 Co-Req: None

A course designed to offer seminars, workshops and other training specific to the interests of Industrial Technology students. Courses can be specialized to meet Industry needs.

Marketing

MKT 214 Seminar ** 1-3 cr.
 1-3 Lec. hrs./week

Pre-Req: None
 Co-Req: None

A course designed to provide business and industry with seminars, workshops and special course offerings.

Mathematics

MATH 0010/0030/0530 Math Lab ** 3 cr.
3 Lec. hrs./week

Pre-Req: placement by testing
 Co-Req: MATH 1010 (for 0010), MATH 1030 (for 0030), or MATH 1530 (for 0530)

Completion satisfies Tennessee Board of Regents learning support competencies. A co-requisite math lab for students with math ACT scores below 19 who enroll in MATH 1010, MATH 1030, or MATH 1530.

** This Course is not designed for transfer to a 4-year college or university.

MATH 0130 Lab for Technical Math **..... 3 cr.
.....3 Lec. hrs./week

Pre-Req: placement by testing
Co-Req: ENST 1300

A co-requisite math lab for students with math ACT scores below 19 who enroll in ENST 1300 Technical Calculations. Completion satisfies TBR learning support competencies.

MATH 1010 Math for General Studies..... 3 cr.
.....3 Lec. hrs./week

Pre-Req: ACT MATH 19
Co-Req: None

This course is designed for students who are seeking an A.S. or A.A. University Parallel degree in a major that does not include programs of science, mathematics, engineering, or computer science. It will satisfy the mathematics requirement for other A.S. and A.A. University parallel majors. Topics include sets, logic, geometry, finance, probability, statistics, and applications.

MATH 1030 Essentials of Mathematics ** 3 cr.
.....3 Lec. hrs./week

Pre-Req: ACT MATH 19
Co-Req: None

An intermediate algebra course with topics including algebra, mathematical models, problem solving, functions, linear functions, systems of linear equations, inequalities, systems of linear inequalities, polynomials, polynomial functions, polynomial factoring, rational expressions, rational functions, rational equations, radicals, radical functions, rational exponents, radical equations, complex numbers, quadratic equations, and quadratic functions.

MATH 1410 Number Concepts for Teachers 3 cr.
.....3 Lec. hrs./week

Pre-Req: ACT MATH 19
Co-Req: None

A conceptual and problem solving approach to sets, numeration systems, algorithms for addition, subtraction, multiplication, and division in the real number system, elementary number theory, relations and functions.

MATH 1420 Geometry Concepts for Teachers..... 3 cr.
.....3 Lec. hrs./week

Pre-Req: ACT MATH 19
Co-Req: None 3 cr. hrs.

A conceptual and problem solving approach to combinatorics, discrete probability, descriptive statistics, informal solid and plane geometry, transformations, measurement, and coordinate geometry.

MATH 1530 Introductory Statistics..... 3 cr.
.....3 Lec. hrs./week

Pre-Req: ACT MATH 19
Co-Req: None

Topics include basic statistical concepts, elementary probability theory, normal distributions and applications, statistical inference, regression lines, and correlation. Computer applications will be investigated throughout the course.

MATH 1630 Finite Mathematics 3 cr.
.....3 Lec. hrs./week

Pre-Req: ACT MATH 19
Co-Req: None

Introduction to linear functions, mathematics of finance (interest, annuities, amortization), linear programming, matrix algebra, and probability with applications in each of these areas.

MATH 1710 Precalculus Algebra..... 3 cr.
.....3 Lec. hrs./week

Pre-Req: MATH 1030 or MATH ACT 21
Co-Req: None

Topics include graphs and graphing utilities, basics of functions and their graphs, linear functions and slope, transformations of functions, combinations of functions, composite functions, inverse functions, distance and midpoint formulas, circles, modeling with functions, complex numbers, quadratic functions, polynomial functions and their graphs, dividing polynomials, remainder and factor theorems, zeros of polynomial functions, rational functions and their graphs, polynomial and rational inequalities, modeling using variation, exponential functions, logarithmic functions, properties of logarithms, exponential and logarithmic equations, exponential growth and decay, modeling data, systems of linear equations in two variables, systems of linear equations in three variables, systems of nonlinear equations in two variables, systems of inequalities, and linear programming.

MATH 1720 Precalculus Trigonometry 3 cr.
.....3 Lec. hrs./week

Pre-Req: MATH 1030 or MATH ACT 21
Co-Req: None

Topics include angles and radian measure, trigonometric functions and the unit circle, right triangle trigonometry, trigonometric functions of any angle, graphs of sine and cosine functions, graphs of other trigonometric functions, inverse trigonometric functions, applications of trigonometric functions, verifying trigonometric identities, sum and difference formulas, double-angle and power-reducing and half-angle formulas, product-to-sum and sum-to-product formulas, trigonometric equations, the law of sines, the law of cosines, polar coordinates, graphs of polar equations, complex numbers in polar form, DeMoivre's theorem, vectors, and the dot product.

MATH 1730 Precalculus..... 4 cr.
.....4 Lec. hrs./week

Pre-Req: MATH 1030 or MATH ACT 21
Co-Req: None

Topics include graphs and graphing utilities, basics of functions and their graphs, linear functions and slope, transformations of functions, combinations of functions, composite functions, inverse functions, distance and midpoint formulas, circles, modeling with functions, complex numbers, quadratic functions, polynomial functions and their graphs, dividing polynomials, remainder and factor theorems, zeros of polynomial functions, rational functions and their graphs, polynomial and rational inequalities, modeling using variation, exponential functions, logarithmic functions, properties of logarithms, exponential and logarithmic equations, exponential growth and decay, modeling data, systems of linear equations in two variables, systems of linear equations in three variables, systems of nonlinear equations in two variables, systems of inequalities, linear programming, angles and radian measure, trigonometric functions and the unit circle, right triangle trigonometry, trigonometric functions of any angle, graphs of sine and cosine functions, graphs of other trigonometric functions, inverse trigonometric functions, applications of trigonometric functions, verifying trigonometric identities, sum and difference formulas, double-angle and power-reducing and half-angle formulas, product-to-sum and sum-to-product formulas, trigonometric equations, the law of sines, the law of cosines, polar coordinates, graphs of polar equations, complex numbers in polar form, DeMoivre's theorem, vectors, and the dot product.

** This Course is not designed for transfer to a 4-year college or university.

MATH 1830 Applied Calculus..... 3 cr.
3 Lec. hrs./week
 Pre-Req: MATH 1710 or MATH ACT 23
 Co-Req: None

Topics include limits; continuity, rates of change; differentiation of algebraic, exponential, and logarithmic functions; applications of the derivative, antiderivative, integrals, and methods of integration.

MATH 1910 Calculus I..... 4 cr.
4 Lec. hrs./week
 Pre-Req: MATH 1710 and MATH 1720 or MATH ACT 23
 Co-Req: None

Topics include functions and models, limits, derivatives, differentiation rules, applications of differentiation, antiderivatives, integrals, area, applications.

MATH 1920 Calculus II 4 cr.
4 Lec. hrs./week
 Pre-Req: MATH 1910
 Co-Req: None

A continuation of Calculus I. Topics include applications of integration, techniques of integration, arc length, surface area, liquid force, differential equations, infinite sequences and series.

MATH 2010 Introduction to Linear Algebra 3 cr.
3 Lec. hrs./week
 Pre-Req: MATH 1910
 Co-Req: None

Topics include vectors, matrices, systems of linear equations, determinants, inverses of matrices, vector spaces, linear transformations, eigenvalues, and eigenvectors.

MATH 2110 Calculus III..... 4 cr.
4 Lec. hrs./week
 Pre-Req: MATH 1920
 Co-Req: None

A continuation of Calculus II. Topics include parametric equations, polar coordinates, conic sections, vectors, vector functions, partial derivatives, multiple integration, line integrals.

MATH 2120 Differential Equations..... 3 cr.
3 Lec. hrs./week
 Pre-Req: MATH 1920
 Co-Req: None

Topics include first-order equations and applications, theory of linear equations, basic second-order equations and applications, Laplace transforms, and series solutions.

Medical Laboratory Technician

Students enrolling in any MLAB courses (except MLAB 1301) must be formally admitted to the MLT Program or have special permission of the Program Director.

MLAB 1301 Introduction to Medical Laboratory Technology 3 cr.
 3 Lec. hr./week
 Pre-Req: ACT MATH 19, ACT ENGL 18, ACT READ 19
 Co-Req: None

An introduction to the clinical laboratory sciences which includes care and use of equipment, laboratory safety, basic laboratory math, medical terminology, principles of phlebotomy, quality control, preparation of chemical solutions and an orientation to the major testing areas in the medical laboratory.

MLAB 1510 Clinical Practicum I..... 5 cr.
16 Lab hrs./week
 Pre-Req: None
 Co-Req: None

Includes laboratory performances by students during progressive rotations through the affiliated clinical laboratory sites in the departments of Hematology, Coagulation, Urinalysis, Immunohematology, Serology, Microbiology, Clinical Chemistry and Phlebotomy.

MLAB 1520 Clinical Practicum II..... 5cr.
16 Lab hrs./week
 Pre-Req: None
 Co-Req: None

Includes laboratory performances by students during progressive rotations through the affiliated clinical laboratory sites in the departments of Hematology, Coagulation, Urinalysis, Immunohematology, Serology, Microbiology, Clinical Chemistry and Phlebotomy.

MLAB 2150 Special Topics/Med. Lab. Tech..... 1 cr.
 2 Lec hrs./week
 Pre-Req: None
 Co-Req: None

Course focusing on specific issues and/or topics of interest in Medical Laboratory Technology. Permission of the instructor is required to register for this course.

MLAB 2201 Clinical Immunology..... 2 cr.
2 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

Basic principles of the immune system structure and function in health and disease. Topic include principles of a natural and acquired immunity, hypersensitivity, autoimmunity, immunodeficiency, transplant and tumor immunology, immunological techniques and flow cytometry.

MLAB 2202 Urinalysis and Body Fluids..... 2 cr.
1.5 Lec. hrs./ 2.5 Lab hr./week
 Pre-Req: None
 Co-Req: None

This course examines the urinary system as related to the routine urinalysis. The component parts of the urinalysis, to include the physical, chemical and microscopic examination, are performed. The course also includes the examination of common types of body fluid.

MLAB 2250 Special Topics/Med. Lab. Tech..... 2cr.
2 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

Course focusing on specific issues and/or topics of interest in Medical Laboratory Technology. Permission of the instructor is required to register for this course. Emphasis on phlebotomy lab operations.

*** This Course is not designed for transfer to a 4-year college or university.*

MLAB 2270 Seminar II 2 cr.
2 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

The student will be given the opportunity to develop a broader application of the clinical laboratory scientist's role as a health professional in a variety of learning experiences, including seminars, lectures, practices quizzes, and discussions in the seven knowledge areas (hematology, blood bank, clinical chemistry, microbiology, laboratory operations, immunology, and urinalysis/body fluids). It is also a seminar course designed to give students experience in researching and presenting case studies with emphasis on correlation of laboratory results. Included in this course are review and practice examinations as well as a comprehensive battery of examinations encompassing seven knowledge areas to prepare students for certification examinations.

MLAB 2301 Immunoematology/ Blood Bank 3 cr.
2 Lec. hrs./ 2 Lab hrs./week
 Pre-Req: None
 Co-Req: None

The theory and practice of blood group antigens and antibodies, donor selection, and component therapy. Topics include: ABO grouping, Rh typing, cross matching, antibody screening and identification, quality control, donor screening, component preparation, hemolytic disease of the fetus and newborn, autoimmune hemolytic anemias, and adverse effects of transfusion.

MLAB 2401 Clinical Chemistry..... 4 cr.
3 Lec. hrs./ 1.5 Lab hrs./week
 Pre-Req: None
 Co-Req: None

An overview of clinical chemistry theory, principles, procedures, and correlations. Tests for glucose, urea, creatinine, uric acid, proteins, bilirubin, enzymes and electrolytes are included. Colorimetric and photometric techniques used in examining normal and abnormal clinical specimens are introduced along with special procedures such as immunoassays and electrophoresis.

MLAB 2402 Hematology & Hemostasis..... 3 cr.
3 Lec. hrs./ 2 Lab hrs./week
 Pre-Req: None
 Co-Req: None

This course integrates the theory of hematology with application through assessment of laboratory test results. Laboratory test results are correlated with disease. Areas of study include formation of blood, composition of blood, morphology of blood cells and changes observed in blood cells in response to disease. An overview of coagulation theory is provided.

MLAB 2403 Clinical Microbiology..... 4 cr.
3 Lec. hrs./ 3 Lab hrs./week
 Pre-Req: None
 Co-Req: None

This course examines the study of microorganisms of medical importance as it relates to man and disease. The course includes discussions of proper collection, handling and examination of specimens, staining and culture techniques, identification methods, drug sensitivity testing, and quality control procedures.

MLAB 2510 Clinical Practicum III..... 5 cr.
16 Lab hrs./week
 Pre-Req: None
 Co-Req: None

Includes laboratory performances by students during progressive rotations through the affiliated clinical laboratory sites in the departments of Hematology, Coagulation, Urinalysis, Immunoematology, Serology, Microbiology, Clinical Chemistry and Phlebotomy.

MLAB 2520 Clinical Practicum IV 5cr.
16 Lab hrs./week
 Pre-Req: None
 Co-Req: None

Includes laboratory performances by students during progressive rotations through the affiliated clinical laboratory sites in the departments of Hematology, Coagulation, Urinalysis, Immunoematology, Serology, Microbiology, Clinical Chemistry and Phlebotomy.

Music

MUS 1027 Class Piano I..... 1 cr.
1 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

This course provides class lessons for beginning piano students. Instruction includes elementary technical exercises for developing keyboard facility and music reading. Playing positions, fingering, note identification, and reading beginning level rhythms are covered.

MUS 1030 Introduction to Music 3 cr.
3 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

An in-depth approach to the study of music and its relationship to other art forms, historical and cultural events, and everyday life in the past and present day. Leading composers, styles, and significant compositions from the Middle Ages to the present are studied in order to encourage a more effective understanding of music and its role in cultural history.

MUS 1050, 1051, 1052, 2050, 2051, 2052 Innovation..... 1 cr.
3 Lec. hrs./week
 Pre-Req: Selection by audition process after prior semester's finals;
 Permission of instructor
 Co-Req: None

This is an auditioned vocal ensemble with an emphasis in performing various styles of literature from early Renaissance to contemporary songs. Students will study fundamentals of vocal production and musical notation. They will learn basic performance and choreography techniques. Innovation is a JSCC performance choir with an intensive schedule of performances both on campus and in the service area.

MUS 1057 Music Theory I..... 3 cr.
3 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

This course provides a study on music notation and harmony including major and minor scales, key signatures, triads, intervals, and rhythm. Students will learn to write four-part music, including primary chords in first inversion and cadences. This is a university-parallel course for students majoring in music.

MUS 1058 Ear Training I..... 1 cr.
1 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

This course provides the student knowledge to sing and play notated music (both pitch and rhythm) as well as to notate music that the student hears (aural dictation). Melodies using the major and minor scale and intervals from the tonic and dominant triad will be studied. This is a university parallel course for students who plan to major in music.

*** This Course is not designed for transfer to a 4-year college or university.*

MUS 1207 Applied Voice I..... 2 cr.
2 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

This course covers basic vocal technique to enhance the singing voice. Students will learn exercises, both physical and vocal, to create a strong vocal foundation. Students will be assigned a personal music portfolio of songs to learn and perform each semester. Singers will strengthen musicianship and stage performance skills to build confidence when signing and speaking in a group setting

Nursing

Students enrolling in any NUR courses must be formally admitted to the Nursing Program.

NUR 110 Foundations of Nursing I 9 cr.
6.5 Lec. hrs./ 7.5 Lab/Clin. hrs./week
 Pre-Req: Program enrollment requirements and BIOL 2010, BIOL 2020, ENGL 1010, HSC 190
 Co-Req: PSYC 2130

This course introduces program concepts foundational to care of clients experiencing health problems. Emphasis is placed upon understanding pathophysiological processes, adaptation, and theories of Maslow and Erikson. Laboratory and clinical learning experiences provide opportunity to apply theory into practice. Students learn and practice assessment, clinical decision making, caring interventions, communication, teaching and learning, collaboration, management of care and professional behaviors.

NUR 120 Foundations of Nursing II 10 cr.
 7.5 Lec. hrs./ 7.5 Lab/Clin. hrs./week
 Pre-Req: NUR 110 and PSYC 2130
 Co-Req: PSYC 1030

This course focuses upon application of foundational concepts to care for clients across the lifespan, including pharmacotherapy, childbearing and childhood. Normal conditions are emphasized and deviations from the norm explored. Laboratory and clinical learning experiences provide opportunity to apply theory into practice. Students continue to practice assessment, clinical decision making, caring interventions, communication, teaching and learning, collaboration, management of care and professional behaviors.

NUR 130 Nursing Transitions I 2 cr.
 1.25 Lec. hrs./ 2.25 lab/clinical hrs./week
 Pre-Req: Program enrollment requirements
 Co-Req: None

This course is designed to facilitate student transition into the second level of the program by developing and validating first-level nursing competencies. Content is drawn from NUR 110 and NUR 120. Professional nursing, role transitions and scope of practice issues are introduced. Laboratory and clinical learning experiences provide opportunity to apply theory into practice. Students learn and practice assessment, clinical decision making, caring interventions, communication, teaching and learning, collaboration, management of care and professional behaviors.

NUR 140 Nursing Transitions II 9 cr.
7 Lec. hrs./ 6 Lab/ Clin. hrs./week
 Pre-Req: NUR 130
 Co-Req: None

This course is designed to facilitate student transition into the second level of the program by developing and validating first-level nursing competencies. Content is drawn from NUR 110 and NUR 120 to provide a conceptual, theoretical and application background congruent with the first year of the program. Pathophysiology and pharmacotherapy are emphasized as is care during childbearing and childhood. Professional nursing, role transitions, and scope of practice issues are further explored. Laboratory and clinical learning experiences provide opportunity to apply theory into practice. Students continue to practice assessment, clinical decision making, caring interventions, communication, teaching and learning, collaboration, management of care and professional behaviors. Successful completion validates competency in first level nursing courses.

NUR 150 Independent Study in Nursing..... 1-6 cr.
 1-6 Lec. hrs./week
 Pre-Req: Admission to NUR program
 Co-Req: None

This course is designed to meet individual learning needs. Faculty supervision and guidance is provided to accomplish the selected learning objectives.

NUR 199 Special Topics in Nursing 1-3 cr.
 1-3 Lec. hrs./week
 Pre-Req: ACT READ 19, ENGL 18 or admission to NUR program
 Co-Req: None

Exploration of topics of special interest for nursing students and/or those interested in pursuing a nursing career.

NUR 214 Adult Health Nursing I..... 9 cr.
6 Lec. hrs./ 9 Lab/Clin. hrs./week
 Pre-Req: NUR 118 and NUR 120 or NUR 140 and PSYC 1030
 Co-Req: ENGL 1020 or COMM 2025

This course focuses upon nursing care of adult clients experiencing medical, surgical and mental health problems. Laboratory and clinical experiences provide opportunity to apply theory into practice and expand clinical decision making and communication skill. Students continue to practice and develop competence in assessment, clinical decision making, caring interventions, communication, teaching and learning, collaboration, management of care and professional behaviors.

NUR 220 Adult Health Nursing II..... 10 cr.
6 Lec. hrs./ 12 Lab/ Clin. hrs./week
 Pre-Req: NUR 214 and ENGL 1020 or COMM 2025
 Co-Req: Humanities and Fine Arts course

This course focuses upon nursing care of adult clients and groups experiencing medical, surgical and multisystem health problems. Emphasis is placed upon management of care for groups. Laboratory and clinical experiences provide opportunity to apply theory into practice and expand clinical decision making and care management skill. Students continue to practice and refine competence in assessment, clinical decision making, caring interventions, communication, teaching and learning, collaboration, management of care and professional behaviors.

NUR 280 NCLEX Preparatory..... 1 cr.
5 Lec. hr./1.5 Lab hrs./week
 Pre-Req: NUR 220
 Co-Req: None

This course is designed to enhance student success on the National Council Licensure Examination for Registered Nursing.

*** This Course is not designed for transfer to a 4-year college or university.*

NUR 299 Current Topics in Nursing 1-3 cr.
 1-3 Lec. hrs./week/3-9 Lab/Clin. hrs./week
 Pre-Req: Admission to NUR Program or permission of Program Dir.
 Co-Req: None

Topics of special interest to nursing students and practitioners.

Occupational Therapy Assistant

Students enrolling in any OTAP courses must be formally admitted to the Occupational Therapy Assistant Program.

OTAP 1140 Foundations of Research in Occupational Therapy **
 1 cr.
 2 Lec. hr./week
 Pre-Req: BIOL 2010 and admission to OTA program
 Co-Req: None

This course introduces concepts essential for evidence-based practice in occupational therapy. The process of locating, reviewing, and understanding professional literature will be examined. Principles related to research design and statistical methods will be introduced.

OTAP 1310 Occupational Human Development ** 3 cr.
 2 Lec./3 Lab hrs./week
 Pre-Req: BIOL 2010
 Co-Req: None

A study of performance and growth in areas of occupation (social participation, ADL, IADL, education, work, play, and leisure) in normal development from conception to death. Topics include developmental milestones in performance skills through the life span with an emphasis on typical developmental changes.

OTAP 1210 Foundations of Occupational Therapy ** 2 cr.
 2 Lec. hrs./week
 Pre-Req: BIOL 2010
 Co-Req: None

This course introduces the basic tenets of the occupational therapy profession. Topics include history, philosophy, the OT Practice Framework, the OT process, ethics, role delineation, standards of practice, professional organizations, and evidence-based practice.

OTAP 1220 OT Doc with Level 1 A ** 2 cr.
 1 Lec./ 1 Clin. hr./week
 Pre-Req: BIOL 2010
 Co-Req: ENGL 1010

Course introduces concepts and strategies for OT documentation and includes a Level I Fieldwork experience. Fieldwork experience includes opportunities for documentation practice, directed client observation, and participation in delivery of OT services as appropriate for assigned setting.

OTAP 1240 OT Doc with Level 1 B ** 2 cr.
 1 Lec./ 1 Clin. hr./week
 Pre-Req: BIOL 2010, PSYC 1030, OTAP 1310, 1120, 1140, 1150
 Co-Req: ENGL 1010

Course provides an experiential Level I Fieldwork focused on psychosocial aspects of health and wellness with emphasis on clinical observation and documentation. Includes participation in delivery of OT services as appropriate for assigned setting. A variety of documentation formats, including but not limited to the electronic medical record, are discussed.

OTAP 1320 Exploring Occupation ** 3 cr.
 2 Lec./3 Lab hrs./week
 Pre-Req: BIOL 2010
 Co-Req: None

This course provides in-depth study of occupations and begins to introduce students to how therapeutic occupations are used in OT practice. Topics include occupational and activity analysis, grading, exploration of therapeutic media, selection, adaptation and sequencing of purposeful/meaningful activities.

OTAP 1340 Human Movement for Occupation ** 3 cr.
 2 Lec./3 Lab hrs./week
 Pre-Req: BIOL 2010, PSYC 1030, OTAP 1310, 1120, 1140, 1150
 Co-Req: None

This course provides a foundation for the understanding of the kinetics of human motion of the musculoskeletal system and its impact on occupational performance. Topics include, but are not limited to: procedures for range of motion, muscle testing, biomechanical principles, posture/positioning, and body mechanics.

OTAP 1350 Group Process and Dynamics ** 3 cr.
 2 Lec./3 Lab hrs./week
 Pre-Req: BIOL 2010, PSYC 1030, OTAP 1310
 Co-Req: None

A study of client-practitioner interactions. Topics include professional behaviors, therapeutic use of self, and group process and dynamics.

OTAP 1360 Challenges to Mental Health ** 3 cr.
 2 Lec./3 Lab hrs./week
 Pre-Req: BIOL 2010, PSYC 1030, OTAP 1310
 Co-Req: None

A study of individuals who are limited in their ability to engage in life activities due to challenges to their mental health. Topics include major DSM 5 diagnoses with emphasis on symptoms, behaviors, cultural influences, and medical and social supports related to those diagnoses, OT evaluations and treatment planning for the mental health population are practiced.

OTAP 1370 Challenges to Physical Health ** 3 cr.
 2 Lec./3 Lab hrs./week
 Pre-Req: BIOL 2010, PSYC 1030, OTAP 1310, 1120, 1140, 1150
 Co-Req: None

This course examines individuals who are limited in their ability to engage in daily life activities and occupations due to challenges to their physical health. The major medical, orthopedic, and neurological diagnoses will be studied with emphasis on symptoms, physical conditions, and medical and social supports and the impact on occupational engagement related to those diagnoses. OT evaluations and planning of interventions for the physical health population are reviewed, discussed, and practiced.

OTAP 1380 A T and Environments ** 3 cr.
 1 Lec./4 Lab hrs./week
 Pre-Req: BIOL 2010, PSYC 1030, OTAP 1310, 1120, 1140, 1150
 Co-Req: None

A study of adapting, altering or designing environments that support participation and facilitate engagement in social, family and community activities. All levels of assistive technology will be reviewed and discussed. Topics include but are not limited to home modifications, driving evaluations, communication devices and community mobility. Students will evaluate participation limitations and facilitators for individuals and communities.

** This Course is not designed for transfer to a 4-year college or university.

OTAP 2110 Level 1 C ** 1 cr.
 1 Lec./ 1 Clin. hr./week
 Pre-Req: BIOL 2010, PSYC 1030, OTAP 1310, 1120, 1140, 1150, 1210, 1220, 1230, 1240, 1250, 1260
 Co-Req: None

Opportunity for the OTA student to apply academic knowledge of occupational therapy to practice through a Level I Fieldwork experience.

OTAP 2210 OT Intervention and Treat/Pediatric ** 2 cr.
 1 Lec./3Lab hrs./week
 Pre-Req: BIOL 2010, PSYC 1030, OTAP 1310, 1120, 1140, 1150, 1210, 1230, 1240, 1250, 1260
 Co-Req: None

This course will address limitations and obstacles to occupational engagement (self-care, play, school) for persons from birth to age 22. Common diagnoses, evaluation methods, and treatment environments will be presented. Treatment for areas of occupation (ADL, IADL, education, work, play, leisure, and social participation), considering performance skills, performance patterns, client factors and context will be reviewed. Students will be required to develop applications for enabling function and well-being.

OTAP 2220 Practice Management ** 2 cr.
 2 Lec.hrs./week
 Pre-Req: OTAP 1310, 1120,1140, 1150, 1210, 1220, 1230, 1240, 1250, 1260
 Co-Req: None

This course addresses issues related to the delivery of occupational therapy services. Topics include, but are not limited to: professionalism and ethical practice, administration and management, regulatory requirements for practice and patient care, current trends and issues, program planning, marketing, advocacy, quality improvement, reimbursement, and transition from student to practitioner.

OTAP 2310 OT Inter. and Treat/Mental Health ** 3 cr.
 2 Lec./3 Lab hrs./week
 Pre-Req: BIOL 2010, PSYC 1030, OTAP 1310, 1210, 1220
 Co-Req: None

This course will address mental health limitations and obstacles to occupational engagement for individuals and populations. Common diagnoses and treatment environments will be presented. Treatment for areas of occupation (ADL, IADL, education, work, play, leisure, and social participation), activity demands, client factors and context will be reviewed. Students will be required to develop applications for enabling function and physical well- being.

OTAP 2330 OT Inter. and Treat/Adult ** 3 cr.
 2 Lec./3 Lab hrs./week
 Pre-Req: BIOL 2010, PSYC 1030, OTAP 1310, 1120, 1140, 1150, 1210, 1220, 1230, 1240, 1250, 1260
 Co-Req: None

A study of physical and mental health limitations and obstacles to occupational engagement for individuals and populations. Topics include common diagnoses and treatment environments, treatment for areas of occupation (ADL, IADL, rest and sleep, education, work, play, leisure, and social participation), considering performance skills, performance patterns, client factors and context will be reviewed. Students will be required to develop applications for enabling function and physical well-being.

OTAP 2340 OT Inter. and Treat/Geriatric ** 3 cr.
 2 Lec./3 Lab hrs./week
 Pre-Req: BIOL 2010, PSYC 1030, OTAP 1310, 1120, 1140, 1150, 1210, 1220, 1230, 1240, 1250, 1260
 Co-Req: None

A study of physical and mental health limitations and obstacles to occupational engagement for individuals and populations. Topics include common diagnoses and treatment environments, treatment for areas of occupation (ADL, IADL, rest and sleep, education, work, play, leisure, and social participation), considering performance skills, performance patterns, client factors and context will be reviewed. Students will be required to develop applications for enabling function and physical well-being.

OTAP 2610 Level II A ** 6 cr.
 8 weeks/sem.
 Pre-Req: Program director approval
 Co-Req: None

First of two eight-week fieldwork experiences (ACOTE requirement) designed to provide the OTA student the opportunity to work in an OT setting, under the supervision of an OTR or COTA. Students will participate in the supervised delivery of occupational therapy services in a variety of settings, utilizing skills, concepts, techniques, and strategies learned through academic preparation. Opportunities will be provided for the students to synthesize, develop, and apply academic knowledge and entry level practice skills within the fieldwork setting.

OTAP 2620 Level II B ** 6 cr.
 8 weeks/sem.
 Pre-Req: Program director approval
 Co-Req: None

Second of two eight-week fieldwork experiences (ACOTE requirement) designed to provide the OTA student the opportunity to work in an OT setting, under the supervision of an OTR or COTA. Students will participate in the supervised delivery of occupational therapy services in a variety of settings, utilizing skills, concepts, techniques, and strategies learned through academic preparation. Opportunities will be provided for the students to synthesize, develop, and apply academic knowledge and entry level practice skills within the fieldwork setting.

Orientation

ORN 100 Orientation to College 1 cr.
 1 Lec. hr./week
 Pre-Req: None
 Co-Req: None

A course designed to assist the student in making a successful adjustment to college life. Among the topics covered are college services, library usage, career goals, study skills, advising and registration, and value clarification. Open only to students with fewer than 30 earned hours.

Philosophy

PHIL 1030 Introduction to Philosophy 3 cr.
 3 Lec. hrs./week
 Pre-Req: ACT READ 19
 Co-Req: ACT ENGL 14

A general introduction to philosophical inquiry and the major branches of philosophy, including ethics, epistemology, ontology/metaphysics, aesthetics and political and social philosophy. The course is designed to aid students in developing critical thinking skills and in understanding and assessing important ideas about, and approaches to, fundamental questions about life, self and others.

*** This Course is not designed for transfer to a 4-year college or university.*

PHIL 1040 Introduction to Ethics..... 3 cr.
3 Lec. hrs./week
 Pre-Req: ACT READ 19
 Co-Req: ACT ENGL 14

An introduction to values in the modern world, including a critical overview of ethical theories that have shaped the history of thought about values. The course incorporates ethical issues, narratives taken from film and literature, and case studies from a variety of fields, including business ethics, the environment, medical ethics, information technology and science and/or ethics in the media.

Phlebotomy

PLBT 1300 Phlebotomy ** 3cr.
3 Lec. hrs./week
 Pre-Req: ACT READ 19, ACT ENGL 18, ACT MATH 19
 Co-Req: None

This course introduces students to basic concepts in phlebotomy. Topics addressed include selection and use of phlebotomy equipment, patient identification, site selection and preparation. The proper procedure for performing venipuncture and skin puncture will be taught in a simulated environment. The student will practice proper phlebotomy technique on model training arms.

PLBT 1301 Phlebotomy Clinical I 3cr.**
3 Lec. hrs./week
 Pre-Req: PLBT 1300
 Co-Req: None

This course expands on concepts taught in PLBT 1300. In this course, the student will perform blood collection procedures on classmates and patients to include venipuncture and skin puncture procedures. The blood collection procedures will be performed in a highly-structured environment with instructor supervision and will be performed using proper technique and with careful attention to standard precautions

Physical Education

PHED 2010 First Aid & Safety 3 cr.
3 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

A course emphasizing the study, practice, and application of the standard and accepted principles of first aid and safety. Certification in Cardiopulmonary Resuscitation is awarded to those who qualify.

PHED 2020 Personal Health 3 cr.
3 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

A course stressing the values of desirable health practices as related to the functions of body use and care. Emphasis is placed on communicable diseases, family living, and individual responsibilities.

PHED 2030 Community Health 3 cr.
3 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

A course stressing the values of desirable health practices as related to the health of the family and the community.

PHED 2040 Introduction to Physical Education..... 3 cr.
3 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

Historical and philosophical survey of physical education and its place in the general framework of education, and a study of the basic principles underlying the modern physical education program.

PHED 2050 Health and Wellness 3 cr.
3 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

Health and Wellness promotes individual responsibility for well being, local and natural health concerns, personal health risk factors, lifestyle behaviors, cultural and societal influences and preventive health measures.

PHED 2060 Individual and Team Sports 3 cr.
3 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

Course emphasizing the study, practice, and application of individual and team sports and activities.

Activity Courses

These courses are designed (1) to teach recreational leisure-time activities, (2) to provide health-giving physical exercises, and (3) to provide a basis for carry over of healthful physical activity into later life.

PHED 1020 Self Defense I ** 1 cr.
 2 Lab hrs./week
 Pre-Req: None
 Co-Req: None

This course will introduce students to self defense skills. Emphasis will be placed on the physical and mental skills necessary to protect oneself in certain attack situations. Stand-up and ground defense will be explored.

PHED 1080 Physical Fitness - Weight Training I ** 1 cr.
 2 Lab hrs./week
 Pre-Req: None
 Co-Req: None

An activity class of instruction and participation in exercises utilizing calisthenics and weights. The value of exercise and the importance of safety will be stressed.

PHED 1120 Self Defense II ** 1 cr.
 2 Lab hrs./week
 Pre-Req: None
 Co-Req: None

This course will introduce students to self defense. Emphasis will be placed on the physical and mental skills necessary to protect oneself in certain attack situations. Stand-up, ground, and weapons defense will be explored.

PHED 1180 Physical Fitness - Weight Training II ** 1 cr.
 2 Lab hrs./week
 Pre-Req: PHED 1080
 Co-Req: None

An activity class consisting primarily of calisthenics and weight training designed to impact knowledge, develop skills, and create a positive attitude towards a lifetime of movement activity.

** This Course is not designed for transfer to a 4-year college or university.

PHED 1280 Walking/Fitness ** 1 cr.
 2 Lab hrs./week
 Pre-Req: None
 Co-Req: None

A course designed for students wanting to begin and maintain physical fitness through the aerobic exercise of walking.

PHED 1380 Wellness/Fitness ** 1 cr.
 2 Lab hrs./week
 Pre-Req: None
 Co-Req: None

A course designed to introduce theories and practical experiences in the principles of wellness. Emphasis on physical fitness, fitness assessment, stress management, weight control and proper diet. Physical activity required.

Physical Science

PSCI 1010 Principles of Physical Science 4 cr.
 3 Lec. hrs./ 3 Lab hrs./week
 Pre-Req: ACT READ 19, ACT MATH 19
 Co-Req: None

Designed for the non-science major to fulfill general education requirements in the laboratory-based physical sciences. This course includes (1) investigation of scientific methodology, common measurement systems, symbols and equations, problem solving approaches and the nature of science; (2) a study of the fundamental concepts of Newtonian mechanics and (2) an introduction to basic inorganic and organic chemistry. Course intends to establish a base from which the non-science student can view nature more perceptively. Emphasis is placed on helping students to conceptualize scientific information.

PSCI 1020 Principles of Earth/Space..... 4 cr.
 3 Lec. hrs./ 3 Lab hrs./week
 Pre-Req: ACT READ 19, ACT MATH 19
 Co-Req: None

Designed for the non-science major to fulfill general education requirements in the laboratory-based physical sciences. This course includes a study of two fundamental components of the physical sciences: (1) Astronomy: theories regarding formation of the universe, galaxies and stars will be discussed leading to an understanding of how stars are arranged in space and the nature of the Milky Way galaxy, our solar system, and planet earth and (2) Earth Science: rocks, minerals, earth's internal properties, building and shaping of the earth's surface, geologic time, the atmosphere, oceans, and weather. This course intends to establish a base from which the non-science student can view nature more perceptively. Emphasis is placed on helping students to conceptualize scientific information.

Physical Therapist Assistant

Admission to the PTA program is required prior to taking PTAT courses.

PTAT 2200 Introduction to Physical Therapy ** 2 cr.
 2 Lec. hr./week
 Pre-Req: See above
 Co-Req: PTAT 2460, 2410

This course introduces the physical therapist assistant student to the history of the physical therapy profession and the PTA, contemporary physical therapy practice and the role of the PTA in relationship to the physical therapist and other health care providers, and the American Physical Therapy Association. Medical terminology and documentation techniques are also introduced in relation to physical therapy practice.

PTAT 2280 Seminar for the PTA **..... 2 cr.
 2 Lec. hrs./week
 Pre-Req: PTAT 2200, 2410, 2460, 2370, 2440, 2510, 2492, 2520, 2530
 Co-Req: PTAT 2493, 2494

This course provides the PTA student with opportunities to bridge previous course work to a variety of unique clinical perspectives within the practice of physical therapy. This course provides continued opportunities to apply prior learning to the transition from student to successful member of the healthcare team.

PTAT 2410 Kinesiology for the PTA ** 4 cr.
 3 Lec. hrs./ 4 Lab hrs./week
 Pre-Req: Admission to the PTA program
 Co-Req: PSCI 1010, PTAT 2200, PTAT 2260, BIOL 2010

This course integrates basic and advanced functions of the nervous and musculoskeletal system with emphasis on normal joint structure, muscle attachments, actions and innervations, palpation skills and manual muscle testing. The physical therapist assistant student will apply these concepts to the understanding of normal human motion in relation to physical therapy practice.

PTAT 2440 Biophysical Agents for PTA ** 4 cr.
 3 Lec. hrs./ 4 Lab hrs./week
 Pre-Req: PTAT 2200, 2410, 2460
 Co-Req: PTAT 2510, 2370

This course includes all current theory and practice of biophysical agents for the physical therapist assistant student. Emphasis will be placed on safe and effective application, physiological effects, intervention parameters and expected outcomes.

PTAT 2460 Patient Care Skills for the PTA ** 4 cr.
 3 Lec. hrs./ 4 Lab hrs./week
 Pre-Req: Admission to the PTA program
 Co-Req: PTAT 2200, 2410

This course includes all of the fundamental patient care skills, selected data collection and physical therapy interventions for the physical therapist assistant student.

PTAT 2370 Professional Development for the PTA ** 3 cr.
 3 Lec. hrs./week
 Pre-Req: PTAT 2200, 2410, 2460
 Co-Req: PTAT 2440, 2510

This course prepares the PTA student for skills needed to be successful in the broader domain of the health care workforce, with a focus on those attributes and behaviors that apply to the PTA within the clinical environment.

PTAT 2492 Integrated Clinical Education** 4 cr.
 200 Clin. hrs./sem.
 Pre-Req: PTAT 2200, 2410, 2460, 2440, 2510
 Co-Req: None

Integrated clinical education experiences consist of the student's supervised clinical practice of previously learned PTA duties and functions in a physical therapy practice setting under the direction of a licensed physical therapist or physical therapist assistant. Students are required to achieve the program's clinical performance expectations by the end of the clinical education experience.

** This Course is not designed for transfer to a 4-year college or university.

PTAT 2493 Terminal Clinical Education I ** 4 cr.
 200 Clin. hrs./sem.

Pre-Req: PTAT 2200,2410, 2460, 2370, 2440, 2510, 2492, 2520, 2530
 Co-Req: PTAT 2280, 2494

Terminal clinical education experiences consist of the student’s supervised clinical practice of previously learned PTA duties and functions in a physical therapy practice setting under the direction of a licensed physical therapist or physical therapist assistant. Students are required to achieve the program’s specific clinical performance expectations by the end of the clinical education experience.

PTAT 2494 Terminal Clinical Education II ** 4 cr.
 200 Clin. hrs./sem.

Pre-Req: PTAT 2200,2410, 2460, 2370, 2440, 2510, 2492, 2520, 2530
 Co-Req: PTAT 2280, 2493

Terminal clinical education experiences consist of the student’s supervised clinical practice of previously learned PTA duties and functions in a physical therapy practice setting under the direction of a licensed physical therapist or physical therapist assistant. Students are required to achieve the program’s specific clinical performance expectations by the end of the clinical education experience.

PTAT 2510 Musculoskeletal Conditions and Treatment ** 5 cr.
 3 Lec. hrs./ 4 Lab hrs./week

Pre-Req: PTAT 2200, 2410, 2460
 Co-Req: PTAT 2440, 2370, BIOL 2020

This course introduces the PTA student to common musculoskeletal pathologies, contemporary rehabilitation concepts, and accepted therapeutic interventions for these conditions. Emphasis will be placed on safe and effective application of specific orthopedic treatment interventions and data collection.

PTAT 2520 Neuromuscular Conditions and Treatment ** 5 cr.
 3 Lec. hrs./ 4 Lab hrs./week

Pre-Req: PTAT 2200, 2410, 2460, 2370, 2440, 2510, 2492
 Co-Req: PTAT 2530

This course introduces the PTA student to common neuromuscular pathologies, contemporary rehabilitation concepts, and accepted therapeutic interventions for these conditions. Emphasis will be placed on safe and effective application of specific neuromuscular treatment interventions and data collection.

PTAT 2530 Medical and Surgical Conditions and Treatment for the PTA 5 cr.**
 3 Lec. hrs./ 4 Lab hrs./week

Pre-Req: PTAT 2200, 2410, 2370, 2440, 2510, 2492
 Co-Req: PTAT 2520

This course introduces the PTA student to common medical and surgical pathologies of various body systems, contemporary rehabilitation concepts, and accepted therapeutic interventions for these conditions. Emphasis will be placed on safe and effective application of related treatment interventions and data collection.

Physics

PHYS 2010 Non-Calculus Based Physics I 4 cr.
 3 Lec. hrs./ 3 Lab hrs./week

Pre-Req: ACT READ 19, ACT MATH 21 or MATH 1030 or ENST 1300
 Co-Req: None

The first course of a two-semester sequence designed for general education, pre-pharmacy, pre-med, and certain other pre-professional and technology majors. The course includes a study of the fundamental laws of mechanics, heat, and sound.

PHYS 2020 Non-Calculus Based Physics II 4 cr.
 3 Lec. hrs./ 3 Lab hrs./week

Pre-Req: PHYS 2010
 Co-Req: None

A study of the fundamental laws of electricity, magnetism, optics, and an introduction to atomic and nuclear physics.

PHYS 2110 Calculus Based Physics I 4 cr.
 3 Lec. hrs./ 3 Lab hrs./week

Pre-Req: ACT READ 19, MATH 1910
 Co-Req: MATH 1910 with permission of the instructor

The study of the fundamental laws of mechanics, heat, and sound. Calculus is incorporated throughout this course.

PHYS 2120 Calculus Based Physics II 4 cr.
 3 Lec. hrs./ 3 Lab hrs./week

Pre-Req: ACT READ 19, PHYS 2110
 Co-Req: None

The study of the fundamental laws of electricity, magnetism, optics, and an introduction to atomic and nuclear physics. Calculus is incorporated throughout this course.

Political Science

POLS 1030 American Government 3 cr.
 3 Lec. hrs./week

Pre-Req: ACT READ 19
 Co-Req: None

An examination of the Constitution, federalism, separation of powers, political parties, interest groups, the media, and political theory.

POLS 2025 State and Local Government 3 cr.
 3 Lec. hrs./week

Pre-Req: ACT READ 19
 Co-Req: None

An examination of the executive, legislative, judicial, and bureaucratic systems at the national, state, and local levels.

Psychology

PSYC 1030 General Psychology 3 cr.
 3 Lec. hrs./week

Pre-Req: ACT READ 19, ACT ENGL 18
 Co-Req: None

General Psychology is an introductory survey course which explores the scientific study of human behavior. Topics include: the history of psychology, research methodology, psychobiology, learning, memory, intelligence, motivation, emotion, personality, psychopathology, and psychotherapy.

PSYC 2110 Psychology of Adjustment 3 cr.
 3 Lec. hrs./week

Pre-Req: ACT READ 19, ACT ENGL 18
 Co-Req: None

Psychology of Adjustment is a course designed to explore psychological health, adaptation, and the application of psychological principles to the challenges of living. Topics include: stress and coping, relationships, interpersonal communication, wellness, self-identity, work, technology and social media, human behavior and the environment, and positive psychology.

*** This Course is not designed for transfer to a 4-year college or university.*

PSYC 2120 Social Psychology 3 cr.
3 Lec. hrs./week
 Pre-Req: ACT READ 19, ACT ENGL 18
 Co-Req: None

A study of the methods and findings in social psychology with an emphasis on the following areas: conformity, mass communication, propaganda, persuasion, self-justification, human aggression, prejudice, human attraction, and communication.

PSYC 2130 Life Span Psychology 3 cr.
3 Lec. hrs./week
 Pre-Req: ACT READ 19, ACT ENGL 18
 Co-Req: None

A course presenting a topical approach to human growth and development. The theories of Piaget, Kohlberg, Erikson, and others are covered, and emphasis is placed upon language, cognition, personality, social behavior, emotions, and physical development across the life span. Contemporary neuroscience contributions to the study of development will also be explored.

Quality in Long Term Services

QLTS 1110 Communication in LTSS** 1 cr.
1 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

This course is designed to introduce the learner to the fundamentals of communication. The learner will gain knowledge of the different types of communication including verbal, nonverbal, written, and active listening. This includes recognizing the key elements of the communication process and applying the techniques needed to put them into practice in the field. The ability to use clear and effective communication is important to build trusting and productive relationships with the individual supported, their families, co-workers, and community members. The learner will have the opportunity to apply these new skills in the various Long Term Services and Support service settings.

QLTS 1120 Professionalism & Ethics in LTSS** 1 cr.
1 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

This course stresses the importance of working in a professional, ethical manner in support situations while maintaining confidentiality and respecting individual and family rights. The importance of a professional orientation will be explained including strategies for supporting individuals while preserving their dignity/independence, identifying appropriate versus inappropriate professional performance, and when to seek guidance from a supervisor. The learner will establish ways to apply ethical guidelines to daily practice in decision-making, inform individuals and their families of rights based on a balance of choice and an individual's best interest, and communicate confidential information following laws and regulations by setting. A compliance update on protected health information (PHI) under HIPAA will be provided. The learner will have the opportunity to apply these new skills in the various Long Term Services and Support service settings.

QLTS 1130 Empowerment & Advocacy in LTSS** 1 cr.
1 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

This course outlines personalized empowerment techniques and advocacy strategies to assist with the needs and rights of individuals and their families in support situations. Various practical methods will be outlined to enhance the ability of the individual to lead a self-determining life by applying services needed to obtain their goals. These characteristics may include wanting more responsibility, creating self-direction, making informed choices, and taking calculated risks. The learner will be able to provide information and appropriate supports to the individual to help build self-esteem, learn assertiveness, and improve decision-making. The learner will be an effective advocate for the individual, learn about the challenges faced by the individual, and help to overcome these challenges by understanding the rights of the individual. The ability to identify actions and decisions needed when barriers are present such as discrimination, oppression, stigma, etc. will be discussed. Federal, state, and local laws will be identified along with employer-provided protections and when it is appropriate to partner with or refer an individual to an advocacy agency. The learner will have the opportunity to apply these new skills in the various Long Term Services and Support service settings.

QLTS 1140 Safety Competency in LTSS** 1 cr.
1 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

This course covers material to ensure the safety of an individual, while balancing choice and appropriate levels of risk-taking. The primary responsibility of a direct service worker is to protect individuals from harm in various support situations. The learner will receive information about specific safety strategies to handle situations of abuse, neglect, exploitation, accident prevention, and other hazards. Techniques will be evaluated for avoiding unsafe situations and using appropriate procedures will be examined to help ensure safety during every day and emergency circumstances. Universal precautions, first aid, and infection control will be promoted. The learner will have the opportunity to apply these new skills in the various Long Term Services and Support service settings.

QLTS 1150 Educ., Training, & Self-Development in LTSS** . 1 cr.
1 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

This course is about the importance of obtaining and maintaining the necessary industry credentials and seeking opportunities to improve necessary work practices through further training. The learner will be introduced to the overall need for further education to improve their skills, experience personal growth, and explore opportunities for career pathways in industry settings. Focus will be put on the positive impact of sharing, collaborating, and applying newly acquired knowledge, strategies, and techniques with individuals supported, co-workers, and community members. The concept of a personalized development plan will be introduced to help guide the matching of the learner's current and future abilities to potential career and college success in and related to Long Term Services and Support service settings. This is a capstone course that is designed to demonstrate the accumulated knowledge, skills, and abilities of the learner. Demonstration is required regarding how the learner's knowledge, skills, abilities, and intellectual behaviors can be applied directly to improve the quality of support for the individual.

** This Course is not designed for transfer to a 4-year college or university.

QLTS 1160 Health & Wellness in LTSS 1 cr.**
1 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

The DSW plays a vital role in helping an individual achieve and maintain good physical, emotional, and spiritual health, which is essential for positive well-being. This course is designed to promote the need for a healthy lifestyle. Focus will be directed on various techniques to assist in personal care (grooming and hygiene) activities, encourage healthy choices to help prevent accidents and illness, and provide appropriate level of support to individuals taking an active role in decisions affecting their wellness. Common strategies will be discussed to properly assist with medical appointments, document and report treatment provided within the organization's policies and regulations, and identify the signs and symptoms of common health problems, and taking appropriate action within the scope of training. The ability to recognize and demonstrate universal measures and precautions related to infection control procedures will be addressed. The learner will have the opportunity to apply these new skills in the various Long Term Services and Support service settings.

QLTS 1210 Person-Centered Practices in LTSS 2 cr.**
2 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

The purpose of this course is for the learner to develop the necessary skills for the planning, providing, and organizing of services personalized to the specific needs of an individual with a disability or an older adult. The learner will understand the process for identifying the needs, wants, and preferences of the individual to help facilitate support plans based on these findings. The learner will apply approaches to guide the individual towards independent decision-making, achievement of goals, improved interactions within the community, and self-advocacy of quality services. The learner will have the opportunity to apply these new skills in the various Long Term Services and Support service settings.

QLTS 1220 Evaluation & Observation in LTSS 2 cr.**
2 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

This course provides the learner with a background in the core knowledge required to effectively evaluate and observe individuals while applying industry and employer-specific standards. Acceptable observation, monitoring, data collection, documentation, and evaluating techniques will be identified and discussed to promote appropriate decision-making. The learner will gain the basic skills needed to closely track an individual's physical and emotional health for baseline measures and monitor for significant changes. A variety of methods will be introduced to gather information formally and informally based on specific scenarios to guide appropriate levels of services, promote efficacy of those services, and determine if support goals have been met. The learner will have the opportunity to apply these new skills in the various Long Term Services and Support service settings.

QLTS 1230 Community Inclusion & Networking in LTSS .. 2 cr.**
2 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

The purpose of this course is for the learner to develop the skills needed to help an individual become a part of the community through valued roles and relationships, and to assist them with major transitions that occur in community life. The ability to coordinate a community inclusion action plan to identify personalized community preferences and goals will be explained. Coordinating and facilitating activities with the individual will be discussed and include friendship and peer interactions, communication with family, community outings, and social functions. Techniques will be shared on how to gather resources for the individual to reach their vocational, educational, and career goals. The learner will be given methods to help the individual learn to network within informal support groups, identify job opportunities along with training and retention efforts, and promote the right to live in the community of choice using natural supports. The learner will have the opportunity to apply these new skills in the various Long Term Services and Support service settings.

QLTS 1240 Community Living Skills & Supports in LTSS 2 cr.**
2 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

This course is an overview of the learner's role in helping an individual manage the important aspects of personal, financial, and household management necessary on a daily basis to pursue an independent, community-based lifestyle. The underlying theory behind providing critical support to enable an individual to live on his or her own or as self-sufficiently as possible will be examined. Various methods of support will be explored to help create a comfortable living environment for the individual, including day-to-day tasks (laundry, meal prep, cleaning, budgeting), needed equipment (assistive, rehabilitative, adaptive), and mobility (transportation, activities). Strategies will be presented for the individual to recognize the importance of building and maintaining strong relationships with friends, family, and the local community. Recognizing the need for a personalized support plan appropriate to the individual and to the ability to make recommendations based on identified needs, goals, and preferences will be reinforced. The learner will have the opportunity to apply these new skills in the various Long Term Services and Support service settings.

QLTS 1250 Cultural Competency in LTSS 2 cr.**
2 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

This course introduces the learner to the importance and benefits of cultural awareness, knowledge, and sensitivity in the workplace. Main topics to be examined include what culture is, how it develops and changes over time, and its power of influence. Aspects of an individual's particular culture as it relates to services provided will be explored such as the role of the family, language, religion, gender roles, and ideologies. Human tendencies towards cultural biases, prejudices, and stereotypes will be explained and addressed. The learner will have the opportunity to apply these new skills in the various Long Term Services and Support service settings.

*** This Course is not designed for transfer to a 4-year college or university.*

QLTS 1260 Crisis Prevention & Intervention in LTSS 2 cr.**
2 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

This course examines the concept of crisis theory and the importance of prevention along with the application of several models for intervention. Crisis will be defined, risk and behaviors that can lead to a crisis will be identified, and effective strategies to prevent or intervene in a crisis will be introduced. Application of the crisis concept will address triggers typical in LTSS settings, predictable patterns for crisis response, and interventions that can be modeled to focus on those patterns. Implications for populations at risk such as the elderly, the disabled, and other marginalized groups will be explored. Awareness for how the learner's role and attitude can affect a crisis situation and the ability to collaborate with a support team during a crisis will be discussed. The learner will have the opportunity to apply these new skills in the various Long Term Services and Support service settings.

Radiologic Technology

A student must be formally admitted to the Radiologic Technology program before taking any RADT courses.

RADT 1110 Radiographic Image Critique 1 cr.**
 1 Lec. hr./week
 Pre-Req: Admitted to RADT program
 Co-Req: RADT 1470, RADT 2330

This course provides an evaluation of radiographic image criteria. Topics will include identification of anatomical structures, accurate positioning, and technical factors on images in each unit of instruction. An emphasis will be placed on problem solving to determine the appropriate changes needed to obtain optimal image quality.

RADT 1220 Radiology Biology and Protection 2 cr.**
2 Lec. hrs./week
 Pre-Req: Admitted to RADT program
 Co-Req: RADT 2210, RADT 2335, RADT 2360

This course is a study of the impact of radiation exposure on biological systems, methods for measuring and monitoring radiation, and the responsibilities of the radiographer to protect personnel, patients, and the public from excessive exposure. Quantities and units of radiation are discussed in reference to x-ray equipment, radiation protection, and detection devices.

RADT 1250 Radiographic Digital Imaging 2 cr.**
2 Lec. hrs./week
 Pre-Req: Admitted to RADT program
 Co-Req: RADT 2340, RADT 2370

This course is an introduction to the principles and techniques of digital radiography. Topics include digital image acquisition, display, and archiving.

RADT 1260 Radiographic Practicum I 2 cr.**
16 Clin. hrs./week
 Pre-Req: Admitted to RADT program
 Co-Req: RADT 1390, RADT 1340, RADT 1380

This introduction course is designed for students to participate in radiographic examinations under approved supervision in the clinical setting. Experience in a variety of procedures will assist students in applying theory and developing specified levels of competence. Students will be engaged with the proper use of radiographic equipment, along with the development of skills in positioning, patient care, interpersonal communications, image analysis, and radiation safety practices. Competence at this introductory level will be evaluated and documented for a selected category of exams.

RADT 1315 Introduction to Radiography 3 cr.**
2 Lec. hrs./ 4 Lab hrs./week
 Pre-Req: Admitted to RADT program
 Co-Req: RADT 1330, RADT 1385, RADT 2250

This course is a study of the legal and ethical aspects of the radiologic technology profession as well as an introduction to basic patient care techniques for various patient populations. An overall view of professional demands is also presented.

RADT 1330 Radiographic Procedures I 3 cr.**
2 Lec. hrs./ 2 Lab hrs./week
 Pre-Req: Admitted to the RADT program
 Co-Req: RADT 1315, RADT 1385, RADT 2250

This course is an introduction to the basic principles of positioning as applied to radiographic imaging. Topics include general procedural considerations, anatomical landmarks, and factor selection for each unit of instruction or radiographic study covered in the course.

RADT 1340 Radiographic Procedures II 3 cr.**
2 Lec. hrs./ 2 Lab hrs./week
 Pre-Req: Admitted to the RADT program
 Co-Req: RADT 1390, RADT 1260, RADT 1380

This course provides a continuation of Radiographic Procedures I concerning the principles of positioning as applied to radiographic imaging. Topics include general procedural considerations, anatomical landmarks, and factor selection for each unit of instruction or radiographic study covered in the course.

RADT 1380 Principles of Radiation Physics ** 3 cr.
2 Lec. hrs./ 2 Lab hrs./week
 Pre-Req: Admitted to the RADT program
 Co-Req: RADT 1390, RADT 1260, RADT 1340

This course is an in-depth study of concepts of radiation physics. Emphasis will be placed on the x-ray tube, circuitry, production and emission, as well as photon interaction with matter.

RADT 1385 Radiographic Equipment Operations 3 cr.**
2 Lec. hrs./ 2 Lab hrs./week
 Pre-Req: Admitted to the RADT program
 Co-Req: RADT 1315, RADT 1330, RADT 2250

This is an introductory course that discusses the role of radiographic equipment operation. It will provide the basic material necessary to identify the necessity of radiation protection, digital imaging supplies, equipment, and principles of radiation production.

RADT 1390 Principles of Image Acquisition 3 cr.**
3 Lec. hrs./week
 Pre-Req: Admitted to the RADT program
 Co-Req: RADT 1260, RADT 1340, RADT 1380

This course is a study of factors impacting the creation and recording of the radiographic image. Topics include basic principles of radiographic techniques, image production, and exposure.

RADT 1470 Radiographic Practicum II 4 cr.**
 32 Clin. hrs./week
 Pre-Req: Admitted to the RADT program
 Co-Req: RADT 2330, RADT 1110

This course is a continuation of Radiographic Practicum I and is designed for students to participate in radiographic examinations under approved supervision in the clinical setting. Experience in a variety of procedures will assist students in applying theory and developing specific levels of competence. Students will build upon their foundation and continue the proper use of radiographic equipment, along with the development of skills in positioning, patient care, interpersonal communications, image analysis, and radiation safety practices. Competence at this continued level will be evaluated and documented for a selected category of exams.

** This Course is not designed for transfer to a 4-year college or university.

RADT 2195 Radiographic Seminar** 1cr.
 1 Lec. hrs./week
 Pre-Req: Admitted to RADT program
 Co-Req: RADT 2380, RADT 2385

This is an advanced level course designed to study and discuss radiographic principles, techniques, and methods. The knowledge of the profession is enhanced through group discussion, research, and writing. An emphasis will be placed on the synthesis of skills and information needed to exercise independent judgment in the performance of medical imaging procedures.

RADT 2210 Radiographic Pathology** 2 cr.
 2 Lec. hrs./week
 Pre-Req: Admitted to the RADT program
 Co-Req: RADT 1220, RADT 2335, RADT 2360

This course introduces the concepts related to disease, signs and symptoms, and etiological considerations for several body systems. Emphasis is on radiographic appearance of disease and impact on exposure selection.

RADT 2250 Advanced Patient Care** 2 cr.
 2 Lec. hrs./week
 Pre-Req: Admitted to the RADT program
 Co-Req: RADT 1315, RADT 1330, RADT 1385

This course is a study of various aspects of patient care during advanced radiographic procedures. Adaptation to patient populations and conditions, as well as critical thinking, will be emphasized.

RADT 2330 Radiographic Procedures III** 3 cr.
 2 Lec. hrs./ 2 Lab hrs./week
 Pre-Req: Admitted to the RADT program
 Co-Req: RADT 1470, RADT 1110

This course is a continuation of Radiographic Procedures II concerning the principles of positioning as applied to radiographic imaging. Topics include general procedural considerations, anatomical landmarks, and factor selection for each unit of instruction or radiographic study covered in the course.

RADT 2335 Radiographic Procedures IV** 3 cr.
 2 Lec. hrs./ 2 Lab hrs./week
 Pre-Req: Admitted to the RADT program
 Co-Req: RADT 2360, RADT 1220, RADT 2210

This course provides an introduction to advanced procedures and speciality imaging areas. Topics include myelography, CT, MRI, radiation therapy, ultrasound, and interventional radiography.

RADT 2340 Radiographic Procedures V** 3 cr.
 2 Lec. hrs./ 2 Lab hrs./week
 Pre-Req: Admitted to the RADT program
 Co-Req: RADT 1250, RADT 2370

This is an advanced course focused on modifying standard radiographic and fluoroscopic exams. It will include recognition of certain pathological factors or special patient conditions that necessitate adapting standard exam protocols.

RADT 2360 Radiographic Practicum III** 3 cr.
 approx. 24 Clin. hrs./week
 Pre-Req: Admitted to the RADT program
 Co-Req: RADT 2335, RADT 1220, RADT 2210

This course is a continuation of Radiographic Practicum II and is designed for students to participate in radiographic examinations under approved supervision in the clinical setting. Experience in a variety of procedures will assist students in applying theory and developing specified levels of competence. Students will continue the progressive use of radiographic equipment, along with enhanced development of skills in positioning, patient care, interpersonal communications, image analysis, and radiation safety practices. In addition, improvement of critical thinking and problem solving skills for non-routine situations will be highlighted. Competence at this progressive level will be evaluated and documented for a selected category of exams.

RADT 2370 Radiographic Practicum IV** 3 cr.
 approx. 24 Clin. hrs./week
 Pre-Req: Admitted to the RADT program
 Co-Req: RADT 2340, RADT 1250

This course is a continuation of Radiographic Practicum III and is designed for students to participate in radiographic examinations under approved supervision in the clinical setting. Experience in a variety of procedures will assist students in applying theory and developing specified levels of competence. Students will continue the progressive use of radiographic equipment, along with enhanced development of skills in positioning, patient care, interpersonal communications, image analysis, and radiation safety practices. In addition, improvement of critical thinking and problem solving skills for non-routine situations will be highlighted. Competence at this progressive level will be evaluated and documented for a selected category of exams.

RADT 2380 Radiographic Practicum V** 3 cr.
 24 Clin. hrs./week
 Pre-Req: Admitted to the RADT program
 Co-Req: RADT 2385, RADT 2195

This course is a continuation of Radiographic Practicum IV and is designed for students to participate in radiographic examinations under approved supervision in the clinical setting. Experience in a variety of procedures will assist students in applying theory and developing specific levels of competence. Students will demonstrate advanced use of radiographic equipment, along with the display of professional level skills in positioning, patient care, interpersonal communications, image analysis, and radiation safety practices. Advanced improvement of critical thinking and problem solving skills for non-routine situations will be exhibited along with exposure to special exams. Competence at this advanced level will be evaluated and documented for a selected category of exams.

RADT 2385 Radiographic Capstone** 3 cr.
 2 Lec. hrs./ 2 Lab hrs./week
 Pre-Req: Admitted to the RADT program
 Co-Req: RADT 2380, RADT 2195

This course serves as a culminating experience in which students are expected to apply knowledge gained from their education in Radiological Sciences. This course is designed to provide a final demonstration of knowledge while preparing students to meet the goal of passing the registry. The purpose of this capstone course is to facilitate the integration and synthesis of content through mock testing, soft skills training and critical thinking; it is also a turning point for the student from education to professional practice.

** This Course is not designed for transfer to a 4-year college or university.

Reading

READ 0010 Lab for HUM 1010** 3 cr.

..... 3 Lec. hrs./week

Pre-Req: Placement by testing

Co-Req: HUM 1010

Co-requisite reading lab for students with reading ACT scores below 19 who enroll in HUM 1010. Completion satisfies Tennessee Board of Regents learning support competencies.

READ 0030 Lab for COL 1030** 3 cr.

..... 3 Lec. hrs./week

Pre-Req: Placement by testing

Co-Req: COL 1030

Co-requisite reading lab for students with reading ACT scores below 19 who enroll in COL 1030. Completion satisfies Tennessee Board of Regents learning support competencies.

Respiratory Care

A student must be formally admitted to the Respiratory Care program before taking any RESP courses.

RESP 1220 Introduction to Clinical Practice** 2 cr.

..... 8 Clin. hrs./week

Pre-Req: None

Co-Req: RESP 1310, 1420

Introduction to Clinical Practice covers the basic respiratory therapy procedures encountered in the student's first clinical practice. Topics include basic life support, introduction to the clinical affiliate, medical gas therapy, bedside patient assessment and aerosol therapy. Laboratory experience precedes in-hospital care.

RESP 1225 Cardiopulmonary Pharmacology** 2 cr.

..... 2 Lec. hrs./week

Pre-Req: None

Co-Req: RESP 1320, 1410

Cardiopulmonary Pharmacology studies the different classes of drugs that affect the cardiopulmonary system. Topics include routes of administration, drug calculations, indications, modes of action, adverse reactions and assessment of effectiveness.

RESP 1310 Cardiopulmonary Pathophysiology** 3 cr.

..... 3 Lec. hrs./week

Pre-Req: None

Co-Req: RESP 1220, 1420

Cardiopulmonary Pathophysiology studies common diseases and disorders affecting the Cardiopulmonary system including the etiology, pathophysiology, presentation and treatment.

RESP 1320 Cardiopulmonary Physiology** 3 cr.

..... 3 Lec. hrs./week

Pre-Req: None

Co-Req: RESP 1225, 1410

Cardiopulmonary Physiology provides an in-depth study of the physiology of the cardiopulmonary system. Topics include the mechanics of breathing, ventilation/perfusion relationships, gas transport mechanisms and neurologic control of ventilation. Maintenance of acid/base balance and the interpretation of arterial blood gases are also discussed.

RESP 1410 Fundamentals of Respiratory Care 1** 4 cr.

..... 3 Lec. hrs./2 Lab hrs./week

Pre-Req: None

Co-Req: RESP 1320, 1225

Fundamentals of Respiratory Care 1 introduces the student to the Respiratory Care profession. Topics covered include professional organizations, licensure, terminology, medical gas therapy, equipment cleaning, isolation techniques and basic patient assessment.

RESP 1420 Fundamentals of Respiratory Care 2** 4 cr.

..... 3 Lec. hrs./2 Lab hrs./week

Pre-Req: See above

Co-Req: RESP 1310, 1220

Fundamentals of Respiratory Care 2 is a continuation of RESP 1410, Fundamentals of Respiratory Care 1. Topics covered in this course include basic Respiratory Care modalities such as hyperinflation and airway clearance therapies and airway management.

RESP 2339 Introduction to Clinical 2** 3 cr.

..... 24 Clin. hrs./week

Pre-Req: None

Co-Req: RESP 2440, 2442

Introduction to Clinical 2 is an application of topics presented in previous and current Respiratory Care courses. Competence is to be obtained in arterial blood sampling and airway care.

RESP 2440 Mechanical Ventilation** 4 cr.

..... 3 Lec. hrs./2 Lab hrs./week

Pre-Req: None

Co-Req: RESP 2339, 2442

Mechanical Ventilation discusses the indications for and techniques of mechanical ventilation including initiation and modification of settings.

RESP 2442 Cardiopulmonary Diagnostic Testing** 4 cr.

..... 3 Lec. hrs./2 Lab hrs./week

Pre-Req: None

Co-Req: RESP 2339, 2440

Cardiopulmonary Diagnostic Testing includes invasive and non-invasive cardiopulmonary testing procedures to include: pulmonary function testing, polysomnography, cardiac and pulmonary exercise testing, hemodynamic monitoring from arterial lines and pulmonary artery catheters, bronchoscopy and chest tube placement.

RESP 2444 Critical Care Practice 1** 4 cr.

..... 24 Clin. hrs./week

Pre-Req: None

Co-Req: RESP 2445, 2455

Critical Care Practice 1 is a supervised clinical application of skills developed in previous and current Respiratory Care courses. Topics to include adult mechanical ventilation and airway management.

RESP 2445 Advanced Concepts of Mechanical Ventilation** 4 cr.

..... 3 Lec. hrs./2 Lab hrs./week

Pre-Req: None

Co-Req: RESP 2444, 2455

Advanced Concepts of Mechanical Ventilation will introduce the student to patient-ventilator systems, patient-ventilator management, equipment care and airway management. Topics will also include technologies utilized with modern mechanical ventilator systems.

RESP 2455 Pediatric Respiratory Care 4 cr.**
4 Lec. hrs./week
 Pre-Req: None
 Co-Req: RESP 2444, 2445

Pediatric Respiratory Care studies the etiology, pathophysiology, presentation and treatment of common neonatal and pediatric cardiopulmonary diseases and disorders. Various mechanical ventilation techniques will be discussed. Pediatric Advanced Life Support, PALS, training will be provided.

RESP 2456 Comprehensive Credentialing Preparation..... 4 cr.**
4 Lec. hrs./week
 Pre-Req: None
 Co-Req: RESP 2465

Comprehensive Credentialing Preparation will prepare the student to sit for and pass the National Board for Respiratory Care (NBRC) Therapist Multiple Choice (TMC) and Clinical Simulation Examinations.

RESP 2465 Critical Care Practice 2 4 cr.**
 24 Clin. hrs./week
 Pre-Req: None
 Co-Req: RESP 2456

Critical Care Practice 2 is a supervised clinical application of skills developed in previous and current Respiratory Care courses. Topics to include non-adult mechanical ventilation techniques and assessment.

RESP 2690 Special Topics in Respiratory Care 4 cr.**
 24 Clin. hrs./week
 Pre-Req: None
 Co-Req: None

Special Topics in Respiratory Care is designed to enhance learning and competency development through study of topics of interest. Content may vary.

Service Learning

SLR 2999 Service Learning 1 cr.
TBA hrs./week
 Pre-Req: None
 Co-Req: None

This course places emphasis on meeting community needs and reflecting on that service experience. Practical experience activities are designed to help students make early career decisions, make the service relevant to the area of academic study, assist students in a competitive job market and university admissions processes, and promote ethical concern for society. This course may be taken a total of three times.

Social Work

SWRK 2010 Introduction to Social Work..... 3 cr.
3 Lec. hrs./week
 Pre-Req: ACT READ 19, ACT ENGL 18
 Co-Req: None

An introduction to the field of social work, its history and important theoretical and practical approaches in the context of social and ethnic diversity. Attention is paid to the strengths perspective as well as to the concept of social justice and the understanding of person in environment.

SWRK 2020/SOCI 2020 Cultural Diversity 3 cr.
3 Lec. hrs./week
 Pre-Req: ACT READ 19, ACT ENGL 18
 Co-Req: None

Focuses on the dynamics and consequences of discrimination, economic deprivation and oppression on people of color, women, gay and lesbian persons. Other populations at risk are examined and distinguished by age, ethnicity, culture, class, and physical or mental ability. Exploration of personal and professional beliefs, values, roles and norms of culturally different clients and the use of culture in formulating appropriate intervention.

Sociology

SOCI 1010 Introduction to Sociology 3 cr.
3 Lec. hrs./week
 Pre-Req: ACT READ 19, ACT ENGL 18
 Co-Req: None

Introduction to Sociology is an introduction to the scientific study of human society. This course provides a foundation of basic theories and research methods that influence the study of culture, socialization, stratification, deviance, and social institutions.

SOCI 1011/CRMJ 1010 Introduction to Criminal Justice 3 cr.
3 Lec. hrs. /week
 Pre-Req: None
 Co-Req: None

The course objective is for a student to examine policing, corrections, and the American court system, amongst other topics. The student gains an understanding of the complexity of the criminal justice processes, its lack of central coordination and, most significantly, how justice is administered in American society.

SOCI 1040 Social Problems 3 cr.
3 Lec. hrs./week
 Pre-Req: ACT READ 19, ACT ENGL 18
 Co-Req: None

The social problems course is designed to provide students with an understanding of major social problems by using the study of sociology to examine major contemporary social issues within social institutions, culture, inequality, socioeconomic, racial and ethnic groups, political and economic structures, and social policy. This course also explores the impact social problems have on different groups and discusses possible solutions.

SOCI 2020/SWRK 2020 Cultural Diversity 3 cr.
3 Lec. hrs./week
 Pre-Req: ACT READ 19, ACT ENGL 18
 Co-Req: None

Focuses on the dynamics and consequences of discrimination, economic deprivation and oppression on people of color, women, gay and lesbian persons. Other populations at risk are examined and distinguished by age, ethnicity, culture, class, and physical or mental ability. Exploration of personal and professional beliefs, values, roles and norms of culturally different clients and the use of culture in formulating appropriate intervention.

Spanish

SPAN 1010 Beginning Spanish I..... 3 cr.
3 Lec. hrs./week
 Pre-Req: ACT READ 19, ACT ENGL 18
 Co-Req: None

A study of pronunciation, phonetics, and basic grammar through the present tense. Emphasis on basic conversational sentences and listening comprehension. Some discussion of Spanish history and customs.

SPAN 1020 Beginning Spanish II 3 cr.
3 Lec. hrs./week
 Pre-Req: ACT READ 19, ACT ENGL 18; SPAN 1010 or two years of high school Spanish.
 Co-Req: None

The completion of basic grammar and verb tenses through the preterit tense. Continuation of reading and conversation. Some discussion of Spanish history and customs.

SPAN 2010 Intermediate Spanish I 3 cr.
3 Lec. hrs./week
 Pre-Req: ACT READ 19, ACT ENGL 18; SPAN 1020 or its equivalent.
 Co-Req: None

A study of the uses of the imperfect tense and the uses of present subjunctive; continuation of reading and conversation. Some discussion of Spanish literature, art, history and other culture aspects.

SPAN 2020 Intermediate Spanish II 3 cr.
3 Lec. hrs./week
 Pre-Req: ACT READ 19, ACT ENGL 18; SPAN 1020, SPAN 2010 or its equivalent.
 Co-Req: None

A study of the uses of present and past subjunctive, the uses of the present perfect, the uses of the conditional, and the uses of the future tense; continuation of reading and conversation. Some discussion of Spanish literature, art, history and other culture aspects.

SPAN 2110 Spanish for Healthcare 3 cr.
3 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

This course is designed for healthcare workers who would like to increase their competencies in Medical Spanish. The focus of the course is to provide an opportunity for participants to develop the basic language skills required to effectively work with Spanish-speaking patients. The course provides practice with Spanish vocabulary, interviews, and specialized basic terminology used in the medical field.

SPAN 2120 Spanish for Law Enforcement 3 cr.
3 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

This course covers basic conversational skills for typical, everyday situations that the professionals may encounter when dealing with Spanish Speakers. It provides practical vocabulary, everyday on-the-job situations, and cultural notes. It provides students with opportunities to apply, in a wide variety of practical contexts, the grammatical structures.

SPAN 2130 Spanish for Business 3 cr.
3 Lec. hrs./week
 Pre-Req: None
 Co-Req: None

This course covers basic conversational skills for typical, everyday situations that the professionals may encounter when dealing with Spanish Speakers. It provides practical vocabulary, everyday on-the-job situations, and cultural notes. It provides students with opportunities to apply, in a wide variety of practical contexts, the grammatical structures. Emphasis on oral and written business communications. Overview of cultural differences within the Hispanic world and between the U.S. and the Hispanic world, with emphasis on the business impact.

SPAN 2510 Spanish Conversation and Composition 3 cr.
3 Lec. hrs./week
 Pre-Req: SPAN 2020
 Co-Req: None

Intermediate level competency in comprehension, speaking, reading and writing Spanish required. This course will focus on the functional aspects of speaking Spanish to increase proficiency through sustained, topic-related conversations, with grammar and conceptual review. The course is primarily taught in a study-abroad setting through TnCIS. Location subject to change.

Theatre

THEA 1030 Introduction to Theatre 3 cr.
3 Lec. hrs./week
 Pre-Req: ACT READ 19, ACT ENGL 18
 Co-Req: None

Students will study the history, forms and functions of theatre and will develop skills for critically analyzing the mutual social, cultural and historical influences of theatre and its context.

Women's and Gender Studies

WGST 2010 Introduction to Women's and Gender Studies..... 3 cr.
3 Lec. hrs./week
 Pre-Req: ACT READ 19, ACT ENGL 18
 Co-Req: None

The course is an interdisciplinary approach to the study of gendered social identity and roles throughout history and the world. Theoretical perspectives and research from sociology, psychology, biology and anthropology are used to understand how gender shapes our lives on individual, cultural and societal levels. Areas of study emphasize the role of gender in social institutions including family, workplace, education, religion, media and politics

Course Offerings through TNeCampus and TnCIS

Jackson State offers some courses through the TNeCampus and TnCIS. These courses are not offered on-campus or through Jackson State's online course platform. More information about these courses can be found in the Course Description section. These courses are not part of any current Jackson State program, but may be taken for elective credit. Current courses offered through these methods are listed below.

via TnCIS

SPAN 2510 Spanish Conversation and Composition

Study Abroad

Curricular programming is at the heart of the Global Learning Program at Jackson State. Through the Tennessee Consortium for International Studies (TnCis), Jackson State offers credit-bearing courses in programs that will take you all over the world. Studying in another country and in a culture different from your own will open doors for your future, both personally and professionally. A cultural immersion experience will help you see and appreciate the world from a new perspective.

Prospective employers see JSCC credits from study on your transcript and view you as a person who is self-motivated, independent, open to new ideas, able to cope with diverse situations and one who exhibits a willingness to embrace challenges.

Students wanting to earn college credit through an international learning experience have ample opportunities at Jackson State. Through TnCis, Students from JSCC, as well as other colleges throughout Tennessee, are offered the opportunity to take general education courses while visiting other countries over the course of 3-4 weeks during the summer. TnCis offers more than 40 classes in 20 areas of study across four continents.

Who We Are

[Back to TOC](#)

Administrative, Professional & Support Staff

B

Beth Baligrosky, Financial Analyst. B.S., University of Wisconsin; M.B.A., University of Phoenix.

P. Eric Barnett, Maintenance Utility Worker.

Roselind Blackwell, Division Secretary. A.A.S.; Jackson State Community College.

John Brandt, Director of Financial Aid. B.S., Truman State University; M.B.A., William Woods University.

Jeannette Burton, Sponsored Programs Officer. A.S., Jackson State Community College; B.S., Union University.

Vicki Burton, HR Coordinator. B.S., Lambuth University; M.A., The University of Memphis; Ed.D., The University of Memphis.

C

Nikki Castles, Relational Advising Coach. B.S., B.A., Union University.

Jennifer Cherry, Director, Curriculum and Adjunct Services. A.S., Jackson State Community College; B.P.S., The University of Memphis; M.B.A., University of Tennessee at Martin.

C.H. Clark, Auto Mechanic and Grounds.

David Clark, JHub Specialist. A.A.S., Jackson State Community College.

Scott R. Cohen, Library Director. B.A., Valdosta State College; M.A., Florida State University; M.S.L.S., Florida State University.

Ruthea Coleman, Records Coordinator/Graduation Analyst. B.S., Tennessee State University; M.A., Miami University.

Helen Crouse, Cash Manager. A.S., Jackson State Community College; B.S., University of Tennessee at Martin.

Spencer Crouse, Grounds Keeper. A.A., Jackson State Community College; A.S., Jackson State Community College.

Lisa Crow, Executive Assistant to the Vice President of Financial and Administrative Affairs.

Vivian Cumberlander, Account Clerk II. A.S., Jackson State Community College.

D

Sonny Davis, Systems Administrator. A.A.S., Jackson State Community College; B.S., Lambuth University.

Tim Dellinger, Vice President for Financial and Administrative Affairs. A.S., Jackson State Community College; B.S.B.A., Union University; M.B.A., Union University.

E

Drake Eason, Technology Specialist. A.A.S., Jackson State Community College.

Robert Ellington, Maintenance Lead.

Joretta Ellison, Advising Coach. B.A., Union University.

F

Heather Freeman, Assistant to the President. A.S., Jackson State; CPS; B.P.S., The University of Memphis.

Paula Fuller, Recruitment Coordinator. A.S., Jackson State Community College; B.B.A., University of Memphis.

G

Jeff Gagnon, Custodian.

Laurie Graves, Custodian.

Denise Greenfield, Learning Center Specialist, Lexington. A.A.S., Jackson State Community College; B.P.S., The University of Memphis; CMA, CAP.

David Greenway, Grounds Manager. A.S., Jackson State Community College; B.S., Union University.

Glory Griffin, Secretary III. A.S., Jackson State Community College; B.B.A., University of Memphis; CAP, OM.

Lauren Grinder, Next Steps Advisor. B.A., Freed-Hardeman University.

Michelle Gurley, Scholarship Accounts Coordinator. A.S., Jackson State Community College; B.S., Lambuth University.

H

Peter Hanson, Assistant Vice President of Academic Affairs. B.S., University of Illinois at Urbana-Champaign; Ph.D., University of Wisconsin--Madison.

Victoria Harper, Financial Aid Assistant. A.A., Hinds Community College.

Kat Hart, Director of Admissions and Records. B.A., Dickinson College; M.Ed., Pennsylvania State University.

Berlie Hieagle, Custodian. A.A., Jackson State Community College.

Marietta (Rita) Hill, Testing Clerk. Business Management Certificate, Columbia State Community College.

Lynne Rouse Hines, Business Services Manager. A.S., Jackson State Community College; B.S., Union University; C.P.S.; Notary Public.

Sonya Horton, Learning Resource Center Clerk. B.S., University of North Alabama; M.A.; University of North Alabama.

Sandra Hunt, Custodian.

J

Eric Jackson, Groundskeeper.

Jennifer Jakubowski, Dept. Secretary, Health Sciences. A.S., SUNY Orange; B.S., SUNY Oneonta.

Beth Jenkins, Systems Analyst. B.S.B.A., East Carolina University; M.B.A., East Carolina University.

Kevin Johnson, Systems Administrator. A.A.S., Jackson State Community College; A+; B.P.S., The University of Memphis.

Kara Jones, First Steps Advisor. B.A., Freed-Hardeman University.

Veronica Jones, Coordinator of Academic Assistance Center. B.S., Lane College; B.B.A., Lambuth University.

K

Ellen Kirby, Accountant I. A.S., Jackson State Community College; B.S., Union University.

Anthony Kirgiss, Campus Police Officer. A.A., Clark College.

Adam Kuykendall, Financial Aid Officer. B.S., Bethel University; M.A.E., Union University.

L

Jeanne LaHaie, Dean of Humanities and Social Sciences. A.S., Community College of the Air Force; A.A., Kalamazoo Valley Community College; B.A., Western Michigan University; M.A., Western Michigan University; Ph.D., Western Michigan University.

Gretchen Lambert, Learning Center Specialist.

Shelbi Lansdell, Health Sciences Coordinator. A.S., Jackson State Community College; B.A., The University of Memphis.

Kelvin Lester, Women's Basketball Coach. B.S., Mississippi College; M.S., University of Phoenix.

Jennifer Lopes, Vice President of Academic Affairs. B.A., University of North Carolina at Chapel Hill; M.A., University of North Carolina at Chapel Hill; Ed.D., University of South Carolina.

Melissa Lyles, Executive Secretary to VP of Academic Affairs. A.S., Jackson State Community College.

M

Emily Marek, Receptionist/Mailroom/Facilities Scheduler. A.S., Jackson State Community College; B.I.S., University of Tennessee at Martin; M.A., Austin Peay State University.

Natalie Marek, Division Secretary of Nursing. A.S., Jackson State Community College.

Kristina Martin, Executive Assistant to the Vice President of Student Services. B.S.B., Murray State University.

Lisa Martinez, Admissions and Records Clerk. A.A.S., Jackson State Community College.

Steve Mayfield, Maintenance Manager.

Shannon Mayo, Director. B.S.S.W., University of Tennessee at Martin; M.S.Ed., University of Tennessee at Martin.

John McCommon, Director of Workforce Solutions. A.S., Jackson State Community College; B.S., Lambuth University.

Gwallon McFarland, Custodian.

Terri Messer, Compliance and Risk Officer/Title IX Coordinator. B.A., University of Tennessee at Martin; M.B.A., University of Tennessee at Martin.

Paul Morgan, Dean for Students. B.S., University of Utah; M.Ed., University of Virginia; Ph.D., James Madison University.

Beth Murley, Account Clerk II.

N

Dana Nails, Director of Information Technology. A.S., Jackson State Community College; B.S., Lambuth University; M.A.L.S. University of Memphis.

Amber Nelms, Director of Institutional Research and Accountability. A.A.S., Northeast Mississippi Community College; RT(R)(M)-ARRT; B.S.R.S., Florida Hospital College of Health Sciences; M.A., University of Mississippi; Ed.D., Delta State University.

O

Shannon O'Mayes, Dual Enrollment Coordinator. B.S., Bethel University; M.A., Bethel University.

P

Angela Parker, Division Secretary for Math and Natural Science. A.A.S., Jackson State Community College.

Aaron Patton, Chief of Police. B.S., Bethel University; TN POST Certified; General Department Instructor; Certified Training Officer.

Colin Perry, Network Systems Analyst. A.A.S., Jackson State Community College; B.S., Austin Peay State University.

John Phelps, Advising Coach. A.S., Jackson State Community College; B.S., Freed-Hardeman University; M.A.T., Freed-Hardeman University.

T. Jake Plunk, Custodian.

Donetta Poisson, First Steps Advisor. B.S., Georgia State University; M.S., University of Tennessee Knoxville; Ph.D., University of Tennessee Knoxville; Advising Certificate, Austin Peay State University.

R

Amanda Ramer, Learning Center Specialist, Lexington Center. B.S., Vanderbilt University; M.Ed., Freed-Hardeman University.

Jessica Reece, Director of Distance Education. A.A., Jackson State Community College; B.S., The University of Memphis; M.S., Bellevue University.

Shelia Reese, Senior Accountant. A.A.S., State Tech at Memphis; B.S., Union University; M.A.L.S., The University of Memphis.

Connor Reeves, Technology Specialist. A.A.S., Jackson State Community College.

Jan Rhodes, Director of Savannah-Hardin County Center. A.S., Jackson State Community College; B.A., Trevecca Nazarene University.

Oliver Reiger, First Steps Advisor. A.A.S., Jackson State Community College; B.S., Austin Peay State University.

Catherine Roberts, Completion Coordinator. B.A., University of Alabama.

Edwin Robling, Director of the TN Small Business Development Center.

Sylvia Rowe, Catalog & Reference Librarian. B.A., University of Tennessee at Martin; M.S., University of Tennessee at Martin; M.L.S., Texas Woman's University.

S

Linda Shirley, Manager, Technology Services. A.A.S., Jackson State Community College; B.P.S., The University of Memphis; Microsoft Certified Professional.

Will Shull, Director of Advising. B.A., Freed-Hardeman University; M.A., Middle Tennessee State University; M.Ed., Freed-Hardeman University; Community College Leadership Certificate, East Tennessee State University.

Jennibeth Simmons, Computer Operations Coordinator. B.S., University of Tennessee at Martin.

Ruth Slagle, Instruction Librarian. B.A., Asbury University; M.S.L.I.S., University of Illinois at Urbana-Champaign.

Sandy Stanfill, Director of Lexington-Henderson County Center. A.S., Jackson State Community College; B.P.S., The University of Memphis

Barbara Jeannette Stone, Technical Clerk. A.A., Jackson State Community College; B.S., Mississippi University for Women; B.A., Mississippi University for Women; M.P.S., Tennessee Tech University.

T

Christina Tall, Financial Aid Specialist. A.A., Jackson State Community College.

Patricia Tanski-Mego, ERP Manager, DBA. B.A. University of Alabama; M.S., Regis University.

Charles Zach Tarr, Technology Specialist. A.A.S., Jackson State Community College; A+ Certification.

Kathy Taylor, Director of Business Services. B.S., University of Tennessee at Martin.

Allison Todd, Information Research Analyst. B.A., The University of Memphis.

Lindsey Tritt, Director of Development and Community Relations. B.S., Bethel University; M.B.A., Bethel University; M.S., University of Tennessee at Martin.

Jimmy Turner, Campus Police. TN POST Certified.

William Preston Turner, Director, Physical Plant. B.S., University of Tennessee at Martin.

V

Jeff Vickers, Maintenance.

W

Cindy Werner, Advising Coach. A.S., Jackson State Community College; B.S., Trevecca Nazarene University.

Casey Williams, Custodial Supervisor.

Morris Williams, Custodian.

Stacey Williams, Administrative Secretary for Humanities and Social Science Division. A.S., Jackson State Community College.

Deborah Wilson, Learning Resource Assistant. A.S., Jackson State Community College.

Michael Winders, Head Baseball Coach. B.S., Lambuth University.

Alexander Wortham, Technology Specialist. A.A.S., Jackson State Community College.

Faculty

A

Nicholas Ashbaugh, Professor of Biology. B.S., M.S., Kent State University; Ph.D., Oklahoma State University.

B

Claude Bailey, Associate Professor of Biology. B.S., Union University; M.S., Tennessee Tech University.

Kimberly R. Benson, Program Director and Associate Professor of Radiologic Technology. A.A.S., Jackson State Community College; B.S., University of St. Francis; M.S., The University of Memphis; R.T. (R) - ARRT.

Joshua Britt, Associate Professor of Mathematics. A.S., JSCC; B.S., Lambuth University; M.S., University of Memphis.

Jenn Brown, Assistant Professor of Art. A.F.A., East Central College; B.F.A., Indiana University-Purdue University Indianapolis; M.F.A., Washington University in St. Louis.

Lauren Bryant, Associate Professor of Biology. B.S., Union University; M.S., The University of Memphis.

C

Randall Callahan, Assistant Professor of Computer Information Technology. B.S., Union University; M.S., The University of Memphis.

Tommy Cepparulo, Assistant Professor of Criminal Justice. A.S., Jackson State Community College; B.S., Union University; M.S., Ashford University.

Joan Chamberlain, Assistant Professor of Nursing. A.S.N., Roane State Community College; B.S.N., Regis University; M.S.N., Regis University; Registered Nurse.

Steve Cornelison, Associate Professor of Physical Education, Director of Athletics. A.S., Jackson State Community College; B.S., Austin Peay State University; M.S., Austin Peay State University.

Justin Curtis, Chair and Associate Professor of Mathematics. B.S., Bethel University; M.S., Murray State University.

D

Stacey Dunevant, Associate Professor of Computer Information Technology. A.S., Dyersburg State Community College, B.S., University of Tennessee at Martin; M.B.A., University of Tennessee at Martin, MCP.

E

Patricia Easley, Academic Coordinator of Clinical Education and Professor of Physical Therapist Assistant Program. A.A.S. Jackson State Community College; B.S., MSHSA, University of St. Francis; Ed.D., The University of Memphis; PTA.

Anna Esquivel, Chair of Languages and Literature, Global Learning Coordinator, Associate Professor of English. B.A., Christian Brothers University; M.A., The University of Memphis; Ph.D., The University of Memphis.

F

Audra Fisher, Instructor of Biology. B.S., University of Tennessee at Martin.

Emily Bates Fortner, Associate Professor of Sociology. B.S., Lambuth University; M.A., The University of Memphis.

E. Powell Franklin, Associate Professor of English. A.S., JSCC; B.A., Union University; M.Ed., Vanderbilt University.

Billy K. Fry, Associate Professor of Political Science and History. B.S., McMurry College; M.A., Midwestern State University.

G

Kevin Gallimore, Assistant Professor of Biology. B.S., University of Tennessee at Martin; M.A., Bethel University; M.S., Clemson University.

Billie Gateley, Associate Professor of Music. B.M.E., M.M.Ed., Arkansas State University.

Esther Gray, Assistant Professor of Music/Director of Innovation Vocal Ensemble. B.M., Indiana University Jacobs School of Music; M.M., Austin Peay State University.

H

Coltan Halter, Assistant Professor of Nursing. B.S.N., Union University; M.S.N., Union University; Registered Nurse.

Aaron Hamilton, Assistant Professor of Engineering Systems Technology. A.A., Jackson State Community College; B.S., Tennessee Technological University.

David Hart, Honors Program Coordinator and Associate Professor of English. B.A., The University of Memphis; M.A., The University of Memphis.

Kaitlyn Hatch, Assistant Professor of Nursing. A.A.S., Jackson State Community College; B.S.N., The University of Memphis; M.S.N., Austin Peay State University; Registered Nurse.

Marisol Hernandez-Soto, Assistant Professor of Spanish. B.A., University of Puerto Rico; M.A., University of South Florida.

Nancy Hickey, Associate Professor of Education. A.S., Dyersburg State Community College; B.S., University of Tennessee at Martin; M.S.Ed., University of Tennessee at Martin.

Belinda Higgins, Associate Professor of Nursing. B.S.N., The University of Tennessee at Martin; M.S.N., University of Phoenix; Registered Nurse.

I

Felicia Ingram, Director of Physical Therapist Assistant Program and Assistant Professor. B.S., University of Tennessee Health Science Center; M.S., Payne Theological Seminary; D.P.T., A.T. Still University; PT.

J

Roger James, Associate Professor of Engineering Systems Technology. A.A.S., Jackson State Community College; B.S.M.E., The University of Memphis; M.S., University of Tennessee at Knoxville.

Benjamin Jeter, Chair of Natural Sciences and Associate Professor of Biology. A.S., Jackson State Community College; B.S., Mississippi State University; M.S., New York Chiropractic College; M.S., Clemson University; Ed.D., The University of Southern Mississippi.

Jessica Johnson, Assistant Professor of Nursing. A.S.N., Jackson State Community College; B.S.N., University of Tennessee at Martin; M.S.N., Post University; Certified Critical Care Registered Nurse.

K

Joseph Kappel, Associate Professor of Chemistry. B.S., Louisiana State University; Ph.D., University of Minnesota.

Jason Keeton, Associate Professor of Biology. B.S., Mississippi State University; M.A.T., Mississippi State University.

Andrew L. Kelley, Professor of English. B.A., Rhodes College; M.A., University of Memphis; D.A., University of Michigan at Ann Arbor.

Kailey Kyle, Assistant Professor of Nursing. A.S.N., Jackson State Community College; B.S.N., University of Tennessee Knoxville; Registered Nurse.

L

Benjamin Lawrence, Assistant Professor of Engineering Systems Technology. B.S., Tennessee Technological University; B.S., University of Wyoming; M.S., The University of Memphis.

Jialing Li, Associate Professor of Mathematics. B.S., Capital Normal University; M.S., Syracuse University.

M

Barbara Manley, Associate Professor of Mathematics. B.S., Lambuth College; M.S., The University of Memphis.

Lisa Matlock, Associate Professor of Computer Information Technology. A.A.S., Jackson State Community College; B.S., Lambuth University; M.S., University of Memphis; A+, IC3.

James Mayo, Associate Professor of English. B.A., Middle Tennessee State University; M.A., University of Idaho.

Liz Thompson Mayo, Professor of English. B.A., Lambuth University; M.A., Ph.D., The University of Memphis.

Casey Meek, Instructor of Chemistry. B.S., Union University.

Vivian Minton, Associate Professor of Psychology. B.S., University of Tennessee at Martin; M.S., Murray State University.

Terry Mullins, Associate Professor of Accounting. B.S., The University of Tennessee of Martin; M.B.A., Memphis State University.

O

Peter P. O'Brien, MT(ASCP), CLS(NCA), Director and Associate Professor of Medical Laboratory Technician Program. B.S., University of Tennessee at Martin; B.S., University of Tennessee at Memphis; M.B.A., University of Tennessee at Martin.

Kenneth Oxford, Program Director and Assistant Professor of EMT/Paramedic. A.A.S., Jackson State Community College; B.S., Bethel University; CCPM, I/C.

P

Karen Perrin, Chair of Communications and Social Science, Associate Professor of Criminal Justice. A.A., Tulsa Community College; B.S., South University; M.S., South University.

Thomas L. Pigg, Dean of Business and Computer Information Technology and Professor of Computer Information Technology. A.S., Los Angeles Metro College; A.S., Jackson State Community College; B.S., Lambuth College; M.S., Memphis State University; Ed.D., The University of Memphis; MCSE, MCP+I, A+, Network +.

Tammy Prater, Chair of Humanities and Associate Professor of History. B.A., University of Tennessee at Martin; M.A., The University of Memphis.

Linda Pride, Professor of Mathematics. B.S., Union University; M.Ed., Memphis State University; E.D.S. Union University; Ed.D., Union University.

Tara Privette, Assistant Professor of Nursing. A.S.N., Union University; B.S.N., Union University; M.S.N., The University of Phoenix. Registered Nurse.

R

Anthony Rafalowski, Associate Professor of English. B.A., Duke University; M.A., Indiana University; M.A., Western Kentucky University.

Kim Rawson, Associate Professor of Communication. B.S., University of Wisconsin-Superior; M.A., University of Wisconsin-Stevens Point.

Jennifer Reaves, Associate Professor of Biology. A.S., San Jacinto College South; B.S., M.S., University of Houston.

Cassandra Revelle, Associate Professor of Nursing. B.S.N., Indiana State University; M.S.N., The University of Memphis; Registered Nurse.

Rebecca Rhea, Associate Professor of Speech. B.A., Freed-Hardeman University; M.A., Abilene Christian University.

Cindy Roberson, Associate Professor of Nursing. A.S.N., Jackson State Community College; B.S.N., University of Tennessee at Martin; M.S.N., University of South Alabama; Registered Nurse; Family Psychiatric Nurse Practitioner; Board Certified Advanced Practice Nurse.

S

Carla Simpson, MT(ASCP), CLS(NCA), Education Coordinator and Associate Professor of Medical Laboratory Technician Program. B.S., Murray State University; M.A.Ed., Bethel University.

Phillip "Branson" Smith, Assistant Professor of Radiologic Technology. A.A.S., Jackson State Community College; B.S., Bethel University; R.T. (R)-ARRT.

Wesley O. Smith, III, Associate Professor of STEM. A.S., Jackson State Community College; B.S.E., University of Tennessee at Martin; Ph.D., Auburn University.

Candyce Sweet, Associate Professor of English. B.A., The University of Memphis; M.A., The University of Memphis.

T

Chrystal Taylor, Assistant Professor of Health Science. A.A.S., Jackson State Community College; B.B.A., Lambuth University; M.A.L.S., The University of Memphis; Registered Nurse.

V

Sherry Vickers, Associate Professor of Nursing. B.S.N., University of Tennessee at Martin; M.S.N., Union University; Certified Nurse Educator; Registered Nurse.

W

Carrie Walker, Associate Professor of Agriculture. B.S., University of Tennessee at Martin; M.S., University of Tennessee at Martin.

Karin Wallace, Associate Professor of Radiologic Technology. A.A.S., Jackson State Community College; B.S., Bethel University; R.T. (R)-ARRT.

Mark E. Walls, Associate Professor of English. B.A., Mississippi State University; M.A., Louisiana State University.

Christie Ward, Program Director and Assistant Professor of Respiratory Care. A.A.S., Jackson State Community College; B.S., Bethel University; M.R.C., Youngstown State University; RRT, RRT.-NPS.

Kimberly Warren-Cox, Associate Professor of Communication. B.A., Delta State University; M.A., Northern Illinois University.

Kristi Watson, Assistant Professor of Biology. B.S., Lambuth University; M.S., University of Memphis.

Leslie D. West Sands, Dean, Division of Nursing, Program Director and Professor of Nursing. A.S.N., Columbia State Community College; B.S.N., Vanderbilt University; M.S.N., Vanderbilt University; Ph.D., University of Alabama at Birmingham; Family Nurse Practitioner; Clinical Nurse Specialist; Board Certified Advanced Practice Registered Nurse.

Amy White, Assistant Professor of PTA and PTA Lab Coordinator. A.A.S., Jackson State Community College; B.S., University of Tennessee at Knoxville; M.A.Ed., Bethel University; PTA.

Scott Woods, Associate Professor of Psychology. M.S., Abilene Christian University.

Y

Christy Young, Assistant Professor of Business. B.S.O.L., Union University; M.B.A., Union University; Ed.D., Union University.

Sara Youngerman, Dean of Math and Natural Science and Associate Professor of Agriculture. B.S., University of Tennessee at Martin; M.S., University of Tennessee at Knoxville.

Thomas Goff, B.S., R.T. (R), ARRT; Clinical Preceptor. A.A.S., Jackson State Community College; B.S., Bethel University.

Tina Metcalf, B.S., R.T.(R), ARRT, Assistant Clinical Preceptor. A.A.S., Jackson State Community College; B.S., Union University.

--West Tennessee Healthcare-North Campus

Kelly Berry, R.T. (R), ARRT, Assistant Clinical Preceptor. A.A.S., Jackson State Community College.

Robert "Trey" Hayes, R.T. (R) (CT), ARRT, Assistant Clinical Preceptor. A.A.S., Jackson State Community College.

Respiratory Care Program

--Jackson-Madison County General Hospital/West Tennessee Healthcare

Jorge M. Glass, M.D., Medical Advisor, Universidad Central Venezuela, Medico Cirujano; Board Certified-Critical Care Medicine and Pulmonary Medicine.

Herb Owrey, BSN, RRT-RPFT, Executive Director. A.S., Jackson State Community College; B.S.N., Union University.

Lyn Tisdale, RRT, Director. A.S., Jackson State Community College; B.S., Bethel University.

Scott Laster, RRT, Clinical Instructor/Education Coordinator. A.A.S., Jackson State Community College.

--Henry County Medical Center

Thomas Kocisko, RRT, Director. A.A.S., Jackson State Community College.

--Methodist Le Bonheur Germantown Hospital

Marla Kirk, RRT, Director, Respiratory Therapy. A.A.S., Columbia State Community College; B.S. Bethel University; M.B.A., Bethel University..

--West Tennessee Healthcare-Dyersburg

Pam Sumrow, RRT-NPS, Director. A.A.S., Jackson State Community College.

--Baptist Memorial Hospital - Union City

Jim Roberston, RRT, Director. A.S., Jackson State Community College.

--Baptist Memorial Hospital-Huntingdon

Dawn Michelle Garrett, RRT, Lead Therapist. A.S., California College for Health Sciences.

The Community Advisory Groups

Jackson State advisory committees are comprised of citizens representing various professions, businesses, and occupations in the service area of the college. The purpose of advisory committees is to assist in determining needs of the community for college services and to make appropriate recommendations.

Business

- Aaron Cooper
- Jennifer Howell
- Edwin Robling
- Lynn Luedecke
- Kevin Adelsberger

Computer Information Technology

- Colton Thatcher
- Stephen Thorpe
- Aimee Chandler
- John Byrum
- Tramaine Tall

- Jacoby Wright, RRT

Health-Related Technologies Area Hospital Affiliations

Jackson State offers six allied health programs: Emergency Medical Technology, Medical Laboratory Technician, Occupational Therapy Assistant, Physical Therapist Assistant, Radiologic Technology, and Respiratory Care. Area hospital affiliations include:

- Baptist Memorial Hospital – Covington: Medical Laboratory Technician
- Baptist Memorial Hospital – Huntingdon: Emergency Medical Technician, Physical Therapist Assistant; Respiratory Care
- Baptist Memorial Hospital – Tipton: Medical Laboratory Technician
- Baptist Memorial Hospital – Union City: Radiologic Technology; Emergency Medical Technician; Medical Laboratory Technician; Physical Therapist Assistant, Respiratory Care
- Functional Pathways; Physical Therapist Assistant
- Harbor Laman Ancillaries: Occupational Therapy Assistant
- HealthSouth Corporation: Occupational Therapy Assistant, Physical Therapist Assistant
- Henry County Medical Center: Medical Laboratory Technician; Radiologic Technology; Emergency Medical Technician; Physical Therapist Assistant, Respiratory Care
- Jackson-Madison County General Hospital: Emergency Medical Technician; Medical Laboratory Technician; Radiologic Technology; Physical Therapist Assistant; Occupational Therapy Assistant, Respiratory Care
- Magnolia Regional Medical Center - Corinth, MS : Physical Therapist Assistant, Radiologic Technology
- Maury Regional Hospital - Columbia: Physical Therapist Assistant, Medical Laboratory Technician
- NHC/OP, L.P.: Physical Therapist Assistant
- Tennessee Health Management: Occupational Therapy Assistant; Physical Therapist Assistant
- The Jackson Clinic: Medical Laboratory Technician
- West Tennessee Healthcare--Dyersburg: Radiologic Technology; Physical Therapist Assistant, Respiratory Care, Medical Laboratory Technician
- West Tennessee Healthcare North Campus: Physical Therapist Assistant, Medical Laboratory Technician; Radiologic Technology; Emergency
- West Tennessee Healthcare Volunteer-Martin: Medical Laboratory Technician

Area Emergency Medical Services include:

- AMR--Henry County, Paris
- City of Martin Fire/Rescue/EMS
- Crockett County EMS, Alamor
- Decatur County EMS, Parsons
- Gibson County EMS
- Hardeman County EMS, Bolivar
- Hardin County EMS, Savannah
- Haywood County EMS, Brownsville
- Henderson County EMS, Lexington
- Medical Center EMS: Benton, Chester, Madison, and McNairy Counties
- Weakley County EMS

Foundation Board of Trustees

The Foundation was formed in 1977 as a non-profit 501(c)(3) corporation to raise and administer funds to support the mission and enhance the growth and development of Jackson State. Foundation funding provides for scholarships, programs, capital improvements, equipment and facilities, and other projects for which institutional funds are either not available or are in short supply.

The Foundation is governed by a Board of Trustees that are elected and serve renewable 3-year terms. The Board of Trustees is comprised of individuals from various communities and backgrounds. A list of those currently serving may be found at www.jscc.edu/community-outreach/foundation.

The Student Handbook is a resource for you, providing guidance, expectations and information as you attend Jackson State Community College. It is a working document describing your rights and responsibilities as a Jackson State student, as well as general information about student life services and processes. In addition, you are held responsible for the rules and policies listed elsewhere in college publications or distributed and announced by authorized college officials.

Student Responsibilities

All Jackson State students are responsible for obtaining and/or referencing online a Jackson State Catalog and Handbook and being familiar with its contents. Students are responsible for following the policies, processes, and guidelines in the catalog and handbook as well as for knowing and complying with the dates when things are due, such as payment of fees, registration, and graduation proposals. It is the student's responsibility to know and comply with the dates by which action must be initiated, such as last day to add a course, last day to drop a course, and last day to withdraw from classes. Such information is in the catalog and on the web.

All students must know the graduation requirements for their major. If a student plans to transfer to a college or university, he/she needs to know the requirements for graduation for that school and select courses at Jackson State accordingly. The student is responsible for providing appropriate test scores and transcripts and for making and keeping appointments with advisors. The student is responsible for supplying current address and phone numbers to the Admissions and Records Office or correcting them on jWeb. The student also is responsible for confirming their intent to attend the classes for which they have pre-registered by paying fees or authorizing the application of financial aid or third-party resources toward payment of fees on or before the term's last day to pay, as published in the catalog. The student must learn to access their JSCC e-mail account and is responsible for communicating with instructors regarding progress and attendance. Everyone in the Jackson State community is expected to support safety at the college by reporting any suspicious activity or concerns, no matter how slight, to the JSCC Police Department at 731-225-5952.

There are many support resources available to the Jackson State student and they are responsible for making use of these.

Student Identification Card

You, as a student, are required to obtain and carry at all times a valid Jackson State identification card (ID). An ID card is to be obtained or, if you are a returning student, validated at the main campus or at an off-campus center upon payment of your fees EACH SEMESTER. The ID card features your name, signature, color photo, and other information necessary for proper use. You will be issued an ID after presenting one form of government-issued photo identification (e.g., driver's license, etc.) and your paid fee receipt. The ID card is used to:

- Identify you as a current Jackson State student.
- Allow you to check out materials from the library.
- Allow you to obtain your federal financial aid checks.

- Allow you to use the resources in the Academic Assistance Center.
- Allow you to purchase or sell books in the Bookstore.
- Allow you to process forms in the Admissions and Records Office.
- Allow you to gain admission to certain events sponsored by the college or student organizations.
- Allow you to obtain discounts from area businesses.

New student ID cards are made in the Student Assistance Center in the Student Center Building or at the Lexington or Savannah centers. ID cards can be validated in either of those locations or in the Business Office. A \$10 fee will be charged to replace all lost or inaccessible cards. The \$10 replacement fee must be paid in the Business Office and a receipt shown before a new ID card is produced. Any college official has the right to reclaim a student ID card for misuse or when deemed necessary, such as in cases of student conduct code violations. Failure to do so may result in disciplinary action.

Student Computer Access

You, as a Jackson State student, will be issued a user I.D. and password upon your enrollment each semester at the college. This user I.D. and password will be required to allow you access to computers designated for student use at Jackson State facilities. The same login and password is required for wireless access in the Student Center.

Emergency Messages

If a true emergency exists and a message needs to be delivered to a student at a Jackson State facility, the message should be directed to:

Jackson Campus:

- Monday through Friday, 8 a.m. to 4:30 p.m. Counseling and Career Services Office 731-425-2616
- Monday through Thursday, 4:30 p.m. to 9:00 p.m. JSCC Campus Police 731-225-5952
- Lexington-Henderson County Center: 731-968-5722
- Savannah-Hardin County Center: 731-925-5722

An effort will be made to deliver the message, but delivery cannot be guaranteed. Persons will not be directed or guided to the possible location of a student on campus in order to contact them in person.

Minors On Campus

Jackson State Community College is an institution of higher education, and provides an environment conducive to study, learning and work. Students, faculty and staff are not to leave minors unsupervised on campus. To protect the safety of the children, and the work and study environment of the campus community, if children on campus with their parents become disruptive, their parents will be asked to remove them. Children are not allowed in the classroom when class is in session.

Athletics

Intercollegiate athletics are an integral part of the total educational program at Jackson State. They offer the more gifted athletes opportunities to participate as competitors. Other Jackson State students are admitted as spectators to varsity athletic events on campus with your student ID card. Attendance at varsity athletic events on other campuses may be at a student charge, set by the host college. You are expected to observe conference rules and Jackson State rules while attending these events.

The athletic program of Jackson State is operated within the rules, regulations, and code of ethics of the National Junior College Athletic Association, of which it is a member, and the Tennessee Community College Athletic Association, of which it is a charter member. The purposes of the intercollegiate athletics program are:

- To have as a priority the intellectual, physical, social and emotional well-being of the student athlete at all times.
- To provide an opportunity for superior athletes to perform in competitive sports.
- To provide a place of interest for the development of student morale and enthusiasm for student athletes in the student body.
- To assist the student body in developing the highest level of sportsmanship traits which carry over to become citizenship traits.
- To provide an avenue for community identification with the institution.

Intramurals

The Jackson State Intramural Program is administered through the Office of Athletics and Student Activities. Jackson State's Intramural program allows students quality opportunities for participation, healthy competition and leadership in organized recreational activities. The aim of the program is to provide a variety of opportunities for the college community to participate and have fun with their peers in a recreational environment.

Participation does not require advanced skill level or previous sport experience. The overall goal is to provide a healthy environment of competition within a collegial environment. Activities include basketball, dodge ball, volleyball, and indoor soccer. Additional activities will be added as interests arise. For more information regarding participation, contact the Office of Athletics and Student Activities located in the Gymnasium.

Fitness Center Use

The Fitness Center, located in the Gymnasium, is available for use by students, staff, and faculty with a valid JSCC ID. The center offers a wide variety of workout options such as treadmills, elliptical trainers, fixed weight machines, and a large selection of free weights. Additionally, three TV monitors allow participants to enjoy programming as they work out. Hours of operation are posted each semester in the Student Center Building, each instructional building, and the Office of Athletics and Student Activities.

Use of Campus Property and Facilities

The Tennessee Board of Regents and Jackson State have special restrictions and regulations governing the following areas:

- Campus access by individuals who are not students, staff, guests and invitees.
- Use of campus facilities for assemblies, meetings and demonstrations.
- Distribution of any literature on campus by any individual or organization.
- Solicitations of funds for any purpose.
- Use of campus facilities for (a) political, religious and commercial purposes, and (b) use by non-affiliated organizations and individuals. Please contact the Jackson State Facilities Scheduler at 731-425-2627.
- Use of bulletin boards only by affiliated groups and individuals unless approval is given by the JSCC Printing Services Office in the Nelms Classroom Building.
- Placement of advertising signs, posters and other material on campus.

You may obtain additional information from the Director of the Physical Plant, 731-425-2619, or the Office of the Vice President for Academic Affairs, 731-425-2631. You also may access the Tennessee Board of Regents policies regarding use of campus property and facilities on the web at www.tbr.state.tn.us/policies_guidelines/student_policies/3-02-02-00.htm.

Smoking and Smokeless Tobacco Products

Smoking, including e-cigarettes and vapor emitting devices, and all smokeless tobacco, are prohibited on all JSCC campuses.

Student Rights

Student Rights and Freedoms Preamble

Academic institutions exist for the transmission of knowledge, the pursuit of truth, the development of students, and the general well-being of society. Free inquiry and free expression are indispensable to the attainment of these goals. As members of the academic community, students should be encouraged to develop the capacity for critical judgment and to engage in a sustained and independent search for truth. Institutional procedures for achieving these purposes may vary from campus to campus, but the minimal standards of academic freedom of students outlined below are essential to any community of scholars.

Freedom to teach and freedom to learn are inseparable facets of academic freedom. The freedom to learn depends upon appropriate opportunities and conditions in the classroom, on the campus, and in the larger community. Students should exercise their freedom with responsibility.

The responsibility to secure and to respect general conditions conducive to the freedom to learn is shared by all members of the academic community. Tennessee Board of Regents institutions have developed policies and procedures which provide and safeguard this freedom. The purpose of this statement is to enumerate the essential provisions for students' freedom to learn.

Freedom of Access to Higher Education

The admissions policies of each Tennessee Board of Regents Institution are a matter of institutional choice, provided that each institution makes clear the characteristics and expectations of students which it considers relevant to success in the institution's program. Under no circumstances should a student be barred from admission to a particular institution on the basis of race. Thus, within the limits of its facilities, each institution should be open to all students who are qualified according to its admissions standards. The facilities and services of a TBR institution should be open to all of its enrolled students.

In the Classroom

The professor in the classroom and in conference should encourage free discussion, inquiry, and expression. Student performance should be evaluated solely on an academic basis, not on opinions or conduct in matters unrelated to academic standards.

Protection of Freedom of Expression

Students should be free to take reasoned exception to the data or views offered in any course of study and to reserve judgment about matters of opinion, but they are responsible for learning the content of any course of study for which they are enrolled.

Protection Against Improper Academic Evaluation

Students should have protection through orderly procedures against prejudiced or capricious academic evaluation. At the same time, they are responsible for maintaining standards of academic performance established for each course in which they are enrolled.

Protection Against Improper Disclosure

Certain information about students is protected from public disclosure by Federal and state laws. Protection against improper disclosure is a serious professional obligation. Judgments of ability and character may be provided under appropriate circumstances.

Adapted from AAUP Statement of RIGHTS AND FREEDOMS OF STUDENTS. TBR Policy 3:02:04:00

Student Right-to-Know

Jackson State's crime statistics reported under the Student Right-To-Know and Campus Security Act are available for public viewing in the foyer of the Administration Building, and on the college's web site at <https://www.jsc.edu/about-jackson-state/administration/safety-and-security/student-right-to-know-campus-security-act.html>

Program completion rates can be obtained from the Jackson State Office of Institutional Research and Accountability in the Administration Building.

Participation rates, financial support and other information which comply with the Equity in Athletics Disclosure Act can be found in the Jackson State Athletic Director's office located in the Gym.

Release of Student Information

The following items of your student information are classified as directory information and may be released by the college without your consent:

- Name
- Address
- Telephone number
- Date and place of birth
- Major field of study
- Enrollment status (full-time, part-time)
- Participation in officially recognized activities and sports
- Weight and height of members of athletic teams
- Dates of attendance
- Degrees and academic awards (e.g. dean's list, honor roll, graduation honors)
- Most recent educational agency/institution attended
- College assigned student e-mail address
- Photographic, video, or electronic images

When registering for classes each semester, you may notify the Admissions and Records Office, in writing, that directory information for you may not be released. This notification is effective only for the one semester for which you are then registering.

Privacy Rights of Students

The education records of current and former Jackson State students are maintained as confidential records under The Family Educational Rights and Privacy Act (FERPA). This act gives students certain rights with respect to access of those records and release of personally identifiable information from those records. The college's policies and processes for those actions are set forth below.

Any violation of FERPA should be reported to the Director of Admissions and Records. Complaints concerning alleged failures by the college to comply with the requirements of FERPA may be filed with: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, S.W., Washington, DC 20202-4605.

Definitions

Education Records Education Records are those records, files, documents, and other materials which contain information directly related to a student and are maintained by Jackson State or by a person acting for the college. They do not include: (1) personal notes, (2) records available only to law enforcement personnel, (3) employment records, and (4) medical and psychiatric records (accessible by the student's physician).

Student: A student is any person who is or has been enrolled at Jackson State. Wherever "student" is used in reference to personal rights, an

eligible parent of a dependent student has similar rights. An “eligible” parent is one who has satisfied Section 152 of the Internal Revenue Code of 1954, and who presents proof of such to the Jackson State Director of Admissions and Records. Normally, this will be a written affirmation by the student and the parent confirming the student is a dependent for Federal Income Tax purposes.

Access To have access to an Education Record is to be allowed to see the original record. It implies the right to obtain copies of that record.

Release of Personally Identifiable Student Education Records

Jackson State shall not permit access to, or release of, any information in the Education Record of any student that is personally identifiable, other than Directory Information, to any party without the student’s written consent, except to:

- Jackson State officials and staff who have legitimate educational interests, including the support of honor societies and academic excellence.
- Officials of other schools in which the student seeks admission.
- Appropriate people concerned with a student’s application for, or receipt of, financial aid.
- Authorized representatives of the U.S. Comptroller General.
- Authorized representatives of the U.S. Attorney General.
- The U.S. Department of Education.
- State and local officials authorized by state statute.
- Organizations conducting studies for, or on behalf of, Jackson State to assist in meeting the college’s stated goals, when such information will be used only by such organizations and then destroyed when no longer needed for that purpose.
- Accrediting organizations to carry out their functions.
- The parent of a dependent student as defined in Section 152 of the Internal Revenue Code of 1954.
- The parent of a student who is not an eligible student as defined under FERPA.
- Appropriate officials in compliance with judicial order or subpoena, provided that the student is notified in advance of the compliance.
- Appropriate people in connection with an emergency, if such knowledge is necessary to protect the health or safety of a student or others.
- The alleged victim of a crime of violence or non-forcible sex offense.
- Persons requesting the final results of a disciplinary hearing in which the student is an alleged perpetrator of a crime of violence or non-forcible sex offense and the student committed a violation of the school’s rules or policies.
- The parent of a student under the age of 21 regarding the student’s violation of a federal, state, or local law, or institutional rule governing the use or possession of alcohol or a controlled substance.

Note: With the exception of Jackson State officials and staff who have been determined by the College to have legitimate educational interest, all individuals and agencies who have requested access to a student’s Education Record will be noted in an accompanying record. A request must be in writing stating the purpose for the request. This record also will indicate specifically the legitimate interest that the person or agency has in obtaining the information.

Procedures for Accessing Education Records

You, the student, shall ask the record custodian for access to your education record. You may ask for an explanation and/or a copy of the

given education record. Copies cost \$1 for the first page and 15 cents for each additional page.

After consultation with the custodian, errors may be corrected at that time by the custodian. Afterwards, if you believe the record’s content is correct, you should acknowledge with your signature and the date. If you believe the record’s content is inaccurate, you may submit a request for a formal hearing.

The request and the challenge must be presented in writing to the Director of Admissions and Records who will: (1) appoint an Appeals Record Committee consisting of three record custodians with one of the three designated as chair, and (2) designate a time and place for the committee’s first meeting. The Appeals Committee will meet with you within 45 days from the date of the request and allow you to present relevant evidence. A written decision will be given to you within 45 days after the hearing’s conclusion. You then may submit to the committee a written explanation to be inserted in the record. If the committee believes the statement is pertinent, the explanation will be inserted into the record.

Note: This procedure does not provide for a hearing to contest an academic grade.

Right of Access Does Not Include:

- Financial records of parents or any information therein.
- Confidential letters and statements of recommendation which were placed in the education record prior to January 1, 1975.
- Records to which access has been waived by a student. (This applies only if a student, upon request, is notified of the names of all persons making confidential recommendations and if such recommendations are used solely for the purpose they were intended.)
- Education records may be destroyed, except that you shall be granted access prior to destruction if such is requested.

Freedom of Speech and Expression

This policy reflects the commitment of the Board of Regents and the institutions it governs to freedom of speech and expression for all students and all faculty.

Definitions

- Constitutional time, place, and manner restrictions means restrictions on the time, place, and manner of free speech that do not violate the First Amendment to the United States Constitution or Article I, Section 19 of the Tennessee Constitution that are reasonable, content- and viewpoint-neutral, narrowly tailored to satisfy a significant institutional interest, and leave open ample alternative channels for the communication of the information or message to its intended audience
- Faculty or faculty member means any person, whether or not the person is compensated by a public institution of higher education, and regardless of political affiliation, who is tasked with providing scholarship, academic research, or teaching. For purposes of this part, the term “faculty” shall include tenured and non-tenured professors, adjunct professors, visiting professors, lecturers, graduate student instructors, and those in comparable positions, however titled. For pur-

poses of this part, the term "faculty" shall not include persons whose primary responsibilities are administrative or managerial.

- Free speech means speech, expression, or assemblies protected by the First Amendment to the United States Constitution or Article I, Section 19 of the Tennessee Constitution, verbal or written, including, but not limited to, all forms of peaceful assembly, protests, demonstrations, rallies, vigils, marches, public speaking, distribution of printed materials, carrying signs, displays, or circulating petitions. "Free speech" does not include the promotion, sale, or distribution of any product or service.

- Institution means an institution governed by the Tennessee Board of Regents.

- Student means:

- I. An individual currently enrolled in a course of study at the institution; and

- II. An organization that is comprised entirely of individuals currently enrolled in a course of study at the institution.

Policy

I. General Principles

A. Students have a fundamental constitutional right to free speech.

B. An institution shall be committed to giving students the broadest possible latitude to speak, write, listen, challenge, learn, and discuss any issue, subject to constitutional time, place, and manner restrictions.

C. An institution shall be committed to maintaining a campus as a marketplace of ideas for all students and all faculty in which the free exchange of ideas is not to be suppressed because the ideas put forth are thought by some or even by most members of the institution's community to be offensive, unwise, immoral, indecent, disagreeable, conservative, liberal, traditional, radical, or wrong-headed.

D. It is for an institution's individual students and faculty to make judgments about ideas for themselves, and to act on those judgments not by seeking to suppress free speech, but by openly and vigorously contesting the ideas that they oppose.

E. It is not the proper role of an institution to attempt to shield individuals from free speech, including ideas and opinions they find offensive, unwise, immoral, indecent, disagreeable, conservative, liberal, traditional, radical, or wrong-headed.

F. Although an institution should greatly value civility and mutual respect, concerns about civility and mutual respect shall never be used by an institution as a justification for closing off the discussion

of ideas, however offensive, unwise, immoral, indecent, disagreeable, conservative, liberal, traditional, radical, or wrong-headed those ideas may be to some students or faculty.

G. Although all students and all faculty are free to state their own views about and contest the views expressed on campus, and to state their own views about and contest speakers who are invited to express their views on the institution's campus, they may not substantially obstruct or otherwise substantially interfere with the freedom of others to express views they reject or even loathe. To this end, an institution has a responsibility to promote a lively and fearless freedom of debate and deliberation and protect that freedom.

H. Through shared governance with its faculty, an institution may determine for itself on academic grounds who may teach, what may be taught, how it may be taught and graded, and who may be admitted to the institution as a student.

I. An institution shall be committed to providing an atmosphere that is most conducive to speculation, experimentation, and creation by all students and all faculty, who shall always remain free to inquire, to study and to evaluate, and to gain new understanding.

J. The primary responsibility of faculty is to engage an honest, courageous, and persistent effort to search out and communicate the truth that lies in the areas of their competence.

K. Although faculty are free in the classroom to discuss subjects within areas of their competence, faculty shall be cautious in expressing personal views in the classroom and shall be careful not to introduce controversial matters that have no relationship to the subject taught, and especially matters in which they have no special competence or training and in which, therefore, faculty's views cannot claim the authority accorded statements they make about subjects within areas of their competence; provided, that no faculty will face adverse employment action for classroom speech, unless it is not reasonably germane to the subject matter of the class as broadly construed, and comprises a substantial portion of classroom instruction.

L. An institution shall maintain the generally accessible, open, outdoor areas of its campus as traditional public forums for free speech by students. This does not mean that those areas must be equally available to non-students.

M. An institution shall not confine students' free speech to certain areas of the campus, sometimes known as "free speech zones," or otherwise create policies implying that students' free speech is restricted to particular areas of campus.

N. An institution shall not deny student activity fee funding to a student organization based on the viewpoints that the student organization advocates.

O. An institution shall not establish permitting requirements that prohibit spontaneous outdoor assemblies or outdoor distribution of literature, although an institution may maintain a policy that grants members of the college or university community the right to reserve certain outdoor spaces in advance.

P. An institution shall not charge students security fees based on the content of their speech, the content of the speech of guest speakers invited by students, or the anticipated reaction or opposition of listeners to speech.

Q. An institution shall allow all students and all faculty to invite guest speakers to campus to engage in free speech regardless of the views of guest speakers.

R. An institution shall not dis-invite a speaker invited by a student, student organization, or faculty member because the speaker's anticipated speech may be considered offensive, unwise, immoral, indecent, disagreeable, conservative, liberal, traditional, radical, or wrong-headed by students, faculty, administrators, government officials, or members of the public.

S. Students do not have the right to disrupt previously scheduled or reserved activities occurring in a traditional public forum.

T. An institution is not required to fund costs associated with student speech or expression.

II. Publication of Policy

A. This policy shall be:

1. Published annually in the institution's student handbook and faculty handbook, whether paper or electronic;
2. Made available to students and faculty by way of a prominent notice on the institution's internet site other than through the electronic publication of the policy in the student handbook and faculty handbook;
3. Sent annually to students and employees to their institutionally-provided email address; and
4. Addressed by the institution in orientation programs for new students and new faculty.

III. Institution Policies

A. Institutions may adopt institution policies that include measures that do not violate the First Amendment to the United States Constitution or Article I, Section 19 of the Tennessee Constitution such as:

1. Constitutional time, place, and manner restrictions on assemblies, speech and expression;

2. Reasonable and viewpoint-neutral restrictions in nonpublic forums;

3. Restricting the use of the institution's property to protect the free speech rights of students and faculty and preserve the use of the property for the advancement of the institution's mission;

4. Prohibiting or limiting speech, expression, or assemblies that are not protected by the First Amendment to the United States Constitution or Article I, Section 19 of the Tennessee Constitution; or

5. Content restrictions on speech that are reasonably related to a legitimate pedagogical purpose, such as classroom rules enacted by faculty.

B. No later than March 30, 2018, all institutions shall adopt a policy on student-on-student harassment defining the term consistent with and no more expansively than the following definition:

1. Student on student harassment means unwelcome conduct directed toward a person that is discriminatory on a basis prohibited by federal, state, or local law and that is so severe, pervasive, and objectively offensive that it effectively bars the victim's access to an educational opportunity or benefit.

C. Each institution shall consult the TBR Office of General Counsel when drafting its policies on this subject and obtain its approval prior to implementing such policies.

Sources: Statutes: T.C.A. § 49-7-24 The Campus Free Speech Protection Act NEW policy approved at Board Meeting; Dec. 14, 2017.

Campus Sex Crimes Prevention Act

The federal Campus Sex Crimes Prevention Act and the Tennessee College and University Campus Sex Crimes Prevention Act of 2002 require that whenever a sex offender becomes employed, enrolls as a student or volunteers at an institution of higher education in the state of Tennessee, he or she must complete or update the Tennessee Bureau of Investigation (TBI) sexual offender registration/monitoring form and deliver it to TBI headquarters in Nashville. As defined in section 40-39-102 of the Tennessee Code, a "sexual offender" means a person who is, or has been, convicted in this state of committing a sexual offense or who is, or has been, convicted in another state or another country, or who is or has been convicted in a federal or military court, of committing an act which would have constituted a sexual offense if it had been committed in this state. A "sexual offense" means the commission of acts including but not limited to aggravated and statutory rape, sexual battery, sexual exploitation of a minor, aggravated prostitution, and kidnapping.

Both acts designate certain information concerning a registered sexual offender as public information and therefore amend and supersede the Family Educational Rights and Privacy Act (FERPA) and other federal and state laws that previously prohibited the disclosure of such

personal information. Since the laws require the publication of information pertaining to sexual offenders employed, enrolled or volunteering at an educational institution, said publication does not constitute grounds for a grievance or complaint under institutional or Tennessee Board of Regents policies or procedures.

In compliance with the federal Campus Sex Crimes Prevention Act and the Tennessee College and University Campus Sex Crimes Prevention Act of 2002, members of the campus community may obtain the most recent information received from the Tennessee Bureau of Investigation (TBI) concerning sex offenders employed, enrolled or volunteering at this institution through the JSCC Police Department at 731-424-3520, ext. 50384 or 731-225-5952 or 731-425-2627. Information also is available on the TBI's web site listing of sex offenders located on the internet at <http://www.jsc.edu/sexual-offenders-registration>.

General Regulations on Student Conduct and Disciplinary Sanctions

Institutional Policy Statement

Students enrolled in postsecondary educational institutions are citizens of their civic communities as well as the academic community. As such they are expected to conduct themselves as law-abiding members of each community at all times. Admission to an institution of postsecondary education carries with it special privileges and imposes special responsibilities apart from those rights and duties enjoyed by non-students. In recognition of the special relationship that exists between the institution and the academic community which it seeks to serve, the Tennessee Board of Regents ("TBR" or "the Board") has authorized the presidents of the institutions and directors of the colleges of applied technology under its jurisdiction to take such action as may be necessary to maintain campus conditions and preserve the integrity of the institution and its educational environment.

Pursuant to this authorization and in fulfillment of its duties to provide a secure and stimulating atmosphere in which individual and academic pursuits may flourish, the TBR has developed the following regulations, which are intended to govern student conduct on the several campuses under its jurisdiction. Each institution under the jurisdiction of the TBR is directed to implement policies subject to, and consistent with, these policies, subject to prior review and approval by the TBR offices of General Counsel and Academic Affairs. Following are Jackson State Community College's student discipline, traffic and parking policies to comply with TBR's system-wide student discipline, traffic and parking rules. In addition, students are subject to all federal, state and local laws and ordinances. If a student's violation of such laws or ordinances also adversely affects the institution's pursuit of its educational objectives, the institutions may enforce their own regulations regardless of the status or outcome of any external proceedings instituted by other civil or criminal authorities.

For the purpose of these regulations, a "student" shall mean any person who is admitted and/or registered for study at a TBR institution for

any academic period. This shall include any period of time following admission and/or registration, but preceding the start of classes for any academic period. It will also include any period which follows the end of an academic period through the last day for registration for the succeeding academic period, and during any period while the student is under suspension from the institution. Finally, "student" shall also include any person subject to a period of suspension or removal from campus as a sanction which results from a finding of a violation of the regulations governing student conduct. Students are responsible for compliance with the Rules of Student Conduct and with similar institutional policies at all times

Disciplinary action may be taken against a student for violation of the regulations which occur on institutionally owned, leased or otherwise controlled property, while participating in international or distance learning programs, and off campus, when the conduct impairs, interferes with, or obstructs any institutional activity or the mission, processes, and functions of the institution. Institutions may enforce their own regulations regardless of the status or outcome of any external proceedings instituted in any other forum, including any civil or criminal proceeding.

These regulations, and related material incorporated herein by reference, are applicable to student organizations as well as individual students. Student organizations are subject to discipline for the conduct and actions of individual members of the organization while acting in their capacity as members of, or while attending or participating in any activity of, the organization.

Confidentiality of Discipline Process. Subject to the exceptions provided pursuant to the Family Educational Rights and Privacy Act of 1974 (FERPA), 20 U.S.C. 1232g and/or the Tennessee Open Records Act, T.C.A. § 10-7-504(a)(4), a student's disciplinary files are considered "educational records" and are confidential within the meaning of those Acts.

This policy is promulgated pursuant to, and in compliance with, TBR Rule 0240-02-03-.01, Institution Policy Statement. To the extent that a conflict exists between this policy and TBR rule, policy and/or applicable law(s), the TBR rule, policy and/or law will control. History – Adopted by TBR: 12/8/11. Effective: 1/29/12.

Disciplinary Offenses

Institutional disciplinary measures shall be imposed, through appropriate due process procedures, for conduct which adversely affects the institution's pursuit of its educational objectives, which violates or shows a disregard for the rights of other members of the academic community, or which endangers property or persons on property owned or controlled by an institution.

Jackson State has determined that individual or organizational misconduct, which is subject to disciplinary sanction, shall include, but not be limited to, the following examples:

(a) **Threatening or Disruptive Conduct.** Threatening or Disruptive Conduct, or attempted conduct, which poses a direct threat to the safety of others or where the student's behavior is materially and substantially disruptive of the institution's learning environment.

- In determining whether a student with a disability should be involuntarily withdrawn or suspended for threatening or disruptive conduct, the institution shall consider the nature, duration, severity, and probability of the threat posed or the disruption caused by a student with a disability, relying on the most current medical evidence or the best available objective evidence.
- The institutions shall also determine whether reasonable modifications of its policies, practices, or procedures could sufficiently mitigate the risk.
- Absent exigent circumstances creating an imminent risk of harm, the assessment will be made prior to a decision to involuntarily withdraw or suspend based on the threat he or she poses to others. If exigent circumstances warrant the immediate removal of a student with a disability from the institution, the student will receive, at a minimum, notice and initial opportunity to present evidence immediately after being placed on involuntary withdrawal and the opportunity for full due process within 30 days of the removal.

(b) *Hazing*. Hazing, as defined in T.C.A. § 49-7-123(a)(1), means any intentional or reckless act, on or off the property, of any higher education institution by an individual acting alone, or with others, which is directed against any other person(s) that endangers the mental or physical health or safety of that person(s), or which induces or coerces a person(s) to endanger such person(s) mental or physical health or safety. Hazing does not include customary athletic events or similar contests or competitions, and is limited to those actions taken and situations created in connection with initiation into or affiliation with any organization;

(c) *Disorderly Conduct*. Any individual or group behavior which is abusive, obscene, lewd, indecent, violent, excessively noisy, disorderly, or which unreasonably disturbs institutional functions, operations, classrooms, other groups or individuals;

(d) *Obstruction of or Interference with institutional activities or facilities*. Any intentional interference with or obstruction of any institutional, program, event, or facility including the following:

1. Any unauthorized occupancy of facilities owned or controlled by an institution or blockage of access to or from such facilities,
2. Interference with the right of any institution member or other authorized person to gain access
3. Any obstruction or delay of a campus security officer, public safety officer, police officer, firefighter, EMT, or any official of the institution, or failure to comply with any emergency directive issued by such person in the performance of his or her duty;

(e) *Misuse of or Damage to Property*. Any act of misuse, vandalism, malicious or unwarranted damage or destruction, defacing, disfiguring or unauthorized use of property belonging to another including, but not limited to, any personal property, fire alarms, fire equipment, elevators, telephones, institution keys, library materials and/or safety devices;

(f) *Theft, Misappropriation, or Unauthorized Sale of Property*;

(g) *Misuse of Documents or Identification Cards*. Any forgery, alteration of or unauthorized use of institutional documents, forms, records or identification cards, including the giving of any false information, or withholding of necessary information, in connection with a student's admission, enrollment or status in the institution;

(h) *Firearms and Other Dangerous Weapons*. Any possession of or use of firearms, dangerous weapons of any kind, or replica/toy guns, e.g. BB guns, pellet guns, paintball guns, water guns, cap guns, toy knives or other items that simulate firearms or dangerous weapons;

(i) *Explosives, Fireworks, and Flammable Materials*. The unauthorized possession, ignition or detonation of any object or article which

would cause damage by fire or other means to persons or property or possession of any substance which could be considered to be and used as fireworks;

(j) *Alcoholic Beverages*. The use and/or possession of alcoholic beverages on institution owned or controlled property. This offense includes the violation of any local ordinance, state, or federal law concerning alcoholic beverages, on or off institution owned or controlled property, where an affiliated group or organization has alcoholic beverages present and available for consumption;

(k) *Drugs*. The unlawful possession or use of any drug or controlled substance (including, but not limited to, any stimulant, depressant, narcotic or hallucinogenic drug, or marijuana), sale or distribution of any such drug or controlled substance. This offense includes the violation of any local ordinance, state, or federal law concerning the unlawful possession or use of drugs, on or off institution owned or controlled property;

(l) *Drug Paraphernalia*. The use or possession of equipment, products or materials that are used or intended for use in manufacturing, growing, using or distributing any drug or controlled substance. This offense includes the violation of any local ordinance, state, or federal law concerning the unlawful possession of drug paraphernalia, on or off institution owned or controlled property;

(m) *Public Intoxication*. Appearing on institution owned or controlled property or at an institutional sponsored event while under the influence of a controlled substance or of any other intoxicating substance;

(n) *Gambling*. Unlawful gambling in any form;

(o) *Financial Irresponsibility*. Failure to meet financial responsibilities to the institution promptly including, but not limited to, knowingly passing a worthless check or money order in payment to the institution;

(p) *Unacceptable Conduct in Disciplinary Proceedings*. Any conduct at any stage of an institutional disciplinary proceeding or investigation that is contemptuous, disrespectful, threatening, or disorderly, including false complaints, testimony or other evidence, and attempts to influence the impartiality of a member of a judicial body, verbal or physical harassment or intimidation of a judicial board member, complainant, respondent or witness;

(q) *Failure to Cooperate with Institutional Officials*. Failure to comply with directions of institutional officials acting in the performance of their duties;

(r) *Violation of General Rules and Regulations*. Any violation of the general rules and regulations of the institution as published in an official institutional publication, including the intentional failure to perform any required action or the intentional performance of any prohibited action;

(s) *Attempts, Aiding and Abetting*. Any attempt to commit any of the offenses listed under this section or the aiding or abetting of the commission of any of the offenses listed under this section (an attempt to commit an offense is defined as the intention to commit the offense coupled with the taking of some action toward its commission). Being present during the planning or commission of any offense listed under this section will be considered as aiding and abetting. Students who anticipate or observe an offense must remove themselves from the situation and are required to report the offense to the institution;

(t) *Violations of State or Federal Laws*. Any violation of state or federal laws or regulations proscribing conduct or establishing offenses, which laws and regulations are incorporated herein by reference;

(u) *Violation of Imposed Disciplinary Sanctions*. Intentional or unintentional violation of a disciplinary sanction officially imposed by an institution official or a constituted body of the institution;

(v) *Sexual Misconduct*. An offense including acts of sexual assault, domestic violence, dating violence and or/stalking as defined in the JSCC Campus Violence Policy and Procedures. All matters involving allegations of sexual misconduct will be governed by the procedures set forth in Campus Violence Policy and Procedures.

(w) *Harassment or Retaliation.* Any act by an individual or group against another person or group in violation of TBR policies, as well as federal and/or state laws prohibiting discrimination, including, but not limited to, TBR policies 5:01:02:00,(F), 5:01:02:00, 2:02:10:01 and TBR Guideline P-080;

(x) *Academic Misconduct.* Plagiarism, cheating, fabrication. For purposes of this section the following definitions apply:

1. *Plagiarism.* The adoption or reproduction of ideas, words, statements, images, or works of another person as one's own without proper attribution

2. *Cheating.* Using or attempting to use unauthorized materials, information, or aids in any academic exercise or test/examination. The term academic exercise includes all forms of work submitted for credit or hours,

3. *Fabrication.* Unauthorized falsification or invention of any information or citation in an academic exercise.

(y) *Unauthorized Duplication or Possession of Keys.* Making, causing to be made or the possession of any key for an institutional facility without proper authorization;

(z) *Litter.* Dispersing litter in any form onto the grounds or facilities of the campus;

(aa) *Pornography.* Public display of literature, films, pictures or other materials which an average person applying contemporary community standards would find, (1) taken as a whole, appeals to the prurient interest, (2) depicts or describes sexual conduct in a patently offensive way, and (3) taken as a whole, lacks serious literary, artistic, political or scientific value;

(bb) *Abuse of Computer Resources and Facilities.* Misusing and/or abusing campus computer resources including, but not limited to the following:

- Use of another person's identification to gain access to institutional computer resources,
- Use of institutional computer resources and facilities to violate copyright laws, including, but not limited to, the act of unauthorized distribution of copyrighted materials using institutional information technology systems,
- Unauthorized access to a computer or network file, including but not limited to, altering, using, reading, copying, or deleting the file,
- Unauthorized transfer of a computer or network file,
- Use of computing resources and facilities to send abusive or obscene correspondence,
- Use of computing resources and facilities in a manner that interferes with normal operation of the institutional computing system,
- Use of computing resources and facilities to interfere with the work of another student, faculty member, or institutional official,
- Violation of any published information technology resources policy,
- Unauthorized peer-to-peer file sharing;

(cc) *Unauthorized Access to Institutional Facilities and/or Grounds.* Any unauthorized access and/or occupancy of institutional facilities and grounds is prohibited, including, but not limited to, gaining access to facilities and grounds that are closed to the public, being present in areas of campus that are open to limited guests only, being present in academic buildings after hours without permission, and being present in buildings when the student has no legitimate reason to be present;

(dd) *Providing False Information.* Giving any false information to, or withholding necessary information from, any institutional official acting in the performance of his/her duties in connection with a student's admission, enrollment, or status in the institution;

(ee) *Unauthorized Surveillance.* Making or causing to be made unauthorized video or photographic images of a person in a location in which that person has a reasonable expectation of privacy, without

the prior effective consent of the individual, or in the case of a minor, without the prior effective consent of the minor's parent or guardian. This includes, but is not limited to, taking video or photographic images in shower/locker rooms, men's or women's restrooms, and storing, sharing, and/or distributing of such unauthorized images by any means;

(ff) *Smoking Violations.* Violation of any TBR and/or institutional smoking or other tobacco use rules or policies.

(gg) *Student on student harassment* means unwelcome conduct directed toward a person that is discriminatory on a basis prohibited by federal, state, or local law and that is so severe, pervasive, and objectively offensive that it effectively bars the victim's access to an educational opportunity or benefit.

Disciplinary action may be taken against a student for violations of the foregoing regulations which occur at or in association with enrollment at an institution governed by the TBR for any academic period. Each student shall be responsible for his/her conduct from the time of application for admission through the actual awarding of a degree including periods prior to or between semesters. Conduct occurring while a student is registered or enrolled at the institution, but not discovered until after the awarding of a degree is actionable under these provisions and may result in the retroactive application of a disciplinary sanction. Should a student withdraw from the institution with disciplinary action or academic misconduct action pending, the student's record may be encumbered by the appropriate institutional office until the proceedings have been concluded.

This policy is promulgated pursuant to, and in compliance with, TBR Rule 0240-02-03-.02, Disciplinary Offenses. To the extent that a conflict exists between this policy and TBR rule, policy and/or applicable law(s), the TBR rule, policy and/or law will control. History – Adopted by TBR: 12/8/11. Effective: 1/29/12.

Academic and Classroom Misconduct

The instructor has the primary responsibility for maintenance of academic integrity and controlling classroom behavior, and can order the temporary removal or exclusion from the classroom of any student engaged in disruptive conduct or conduct that violates the general rules and regulations of the institution for each class session during which the conduct occurs. Extended or permanent exclusion from the classroom, beyond the session in which the conduct occurred, or further disciplinary action will be enacted through Jackson State's Disciplinary Procedures set forth below.

The following remedies are available for faculty where it is determined that a student has engaged in academic misconduct:

- (1.) Review and correction by student – no action
- (2.) Oral reprimand with emphasis on counseling toward prevention of further occurrences and a requirement that work be repeated.
- (3.) Assignment of a reduced score/"F"/zero (0) for the specific assignment. (subject to grade appeal process only)
- (4.) Assignment of reduced/failing final course grade. (Subject to review pursuant to "Jackson State Procedures for Academic Misconduct" below)

[a] Assignment of an “F” for the course for academic misconduct must be accompanied by an articulable basis/evidence to support the finding. Such evidence may include, but not be limited to; documentary or physical evidence, personal observation or testimony. Prior cheating or plagiarism in other courses is not reasonable evidence.

(5.) A student found responsible for academic misconduct may be subject to additional disciplinary actions enacted through the Jackson State Disciplinary Procedures.

(6.) Additionally, a student who receives more than one “F” for academic misconduct may also be subject to additional disciplinary actions enacted through the Jackson State Disciplinary Procedures.

Courses may not be dropped pending the final resolution of an allegation of academic misconduct.

Disruptive behavior in the classroom may be defined as, but not limited to, behavior that obstructs or disrupts the learning environment (e.g., offensive language, harassment of students and professors, repeated outbursts from a student which disrupt the flow of instruction or prevent concentration on the subject taught, failure to cooperate in maintaining classroom decorum, etc.), text messaging, and the continued use of any electronic or other noise or light emitting device which disturbs others (e.g., disturbing noises from beepers, cell phones, smart phones, laptop computers, games, etc.).

This policy is promulgated pursuant to, and in compliance with, TBR Rule 0240-02-03-.03 Academic and Classroom Misconduct. To the extent that a conflict exists between this policy and TBR rule, policy and/or applicable law(s), the TBR rule, policy and/or law will control. History – Adopted by TBR: 12/8/11. Effective: 1/29/12.

Computer Misuse

The objectives of this policy include:

To articulate the rights and responsibilities of persons using information technology resources owned, leased, or administered by Jackson State Community College (JSCC); To protect the interests of users and the TBR; and to facilitate the efficient operation of TBR information technology systems.

Definitions

- “Information technology resources” or “IT resources” include computers and computer time, data processing or storage functions, computer systems and services, servers, networks, printers and other input/output and connecting devices, and related computer records, programs, software, and documentation.
- “JSCC” shall mean Jackson State Community College.
- “Personal or private for-profit use” shall mean a use of JSCC information technology resources which has a primary objective financial gain of the user. Activities by a student which are typical of the student job search process (e.g. use of campus e-mail to contact potential employers or posting of one’s resume on the Institution’s website, if allowed under Institutional policies and procedures) are not to be considered personal or private for-profit use.
- “Public record” means all documents, papers, letters, maps, books, photographs, microfilms, electronic data processing files and output, films, sound recordings, or other material, regardless of physical form or characteristics made or received pursuant to law or

ordinance or in connection with the transaction of official business by any governmental agency. (Tennessee Code Annotated, Title 10, Chapter 7, Section 301(6).)

Supplementary Institutional Policies and Regulations

Jackson State Community College is authorized and encouraged to develop additional institution-specific policies and regulations relating to the use of information technology resources, provided such policies and regulations are consistent with Federal and State law and with this and other policies of the Tennessee Board of Regents. In particular, Jackson State Community College may develop policies and regulations regarding installation of non-standard software (including shareware, freeware, or software developed or purchased by the user) onto TBR IT resources.

Jackson State Institutional Computer Resource and Facilities Usage Guidelines

- 1.) Computer facilities shall be used for educational and administrative purposes.
- 2.) Computer facilities at Jackson State Community College (JSCC) are available to all students, faculty, and staff upon request. Users have the responsibility of protecting their accounts through the proper use of passwords but the fact that an account is unprotected does not imply permission for an unauthorized person to use it. Accounts are to be used only for the purpose for which they have been established. A user shall not attempt to learn the password of any other user and may not attempt to alter or destroy the files belonging to others.
- 3.) JSCC computing resources are the property of JSCC and users should be aware that computing resources may be monitored. Normally computing resources are only monitored at the request of a supervisor and/or administration.
- 4.) All computer software and/or documents developed by students, faculty, staff, or others on college time and/or equipment are the property of JSCC. Computing documents may be examined or disclosed by the college if there is reason to suspect violation of college policies.
- 5.) An individual may not access or copy the program(s) or data belonging to other individual(s) or to JSCC without permission.
- 6.) Equipment, programs, and data provided by JSCC may not be taken to other sites without written permission from the Office of Information Technology.
- 7.) Purchase of all computer hardware or software by any department must be coordinated with the Office of Information Technology.
- 8.) The computer labs are open to all JSCC faculty, students and staff on a first-come first-serve basis during open periods. Students in scheduled classes have first priority to use the equipment during the assigned lab periods.
- 9.) A user may not monopolize any available resources to the extent of denying others fair use. Any non-productive use of computer, i.e., game-playing, chat, etc. will be restricted.

10.) An individual may not tamper with or change any switch setting on any devices without approval from the Office of Information Technology. A user may not unplug a JSCC computer system from the network, and/or connect their personal computer or any other devices to the network.

11.) Using JSCC information technology systems or devices for conducting private or personal for-profit use is prohibited.

12.) Computer resources must not be used for any unlawful purposes. It is NOT acceptable to transmit or receive threatening, obscene, or harassing materials.

13.) An individual shall not load software on to any computer without permission from the Office of Information Technology. A copy of the software license and proof of purchase for any software application must be kept in the Office of Information Technology. Use of unlicensed software is prohibited.

14.) Users are not allowed to load or use any software on JSCC computers that wastes bandwidth or server space. Examples of this type of software include “Weather Bug”, screen savers that update the view with the day, view from web cameras, listening to radio stations, downloading music, chat room software, or e-mail toolbars such as Hot bar or emoticons.

15.) Users shall not under any circumstances openly display or save offensive or pornographic material on JSCC computers.

16.) The unauthorized use or distribution of computer software, music videos, movies, or other copyrighted material violates federal laws and the State Computer Crimes Act. The making of copies or distributing software, music, videos, movies, or other copyrighted material is subject to federal copyright laws.

17.) The disciplinary measures listed below (not an all inclusive list) are examples from the Tennessee Board of Regents Code of Conduct:

- a. Revoking of the individual’s right to use the computer, either on a temporary or permanent basis.
- b. Probation, suspension or expulsion.
- c. Financial assessment for computer services.
- d. Legal prosecution.

Note: In the event that other college regulations are violated, additional penalties may be imposed. Unauthorized use of the computer by an individual other than a member of the college community may be adjudged a felony, and the individual may be liable to legal prosecution.

Conformance with State Policies

This policy is intended to be fully consistent with the State of Tennessee Internet Acceptable Use Policy and the State of Tennessee Electronic Mail Acceptable Use Policy, as they currently exist or as they may be amended in the future, as well as with any other applicable policies regarding information technology systems which may be promulgated in the future by the State of Tennessee Department of Finance Office of Information Resources (OIR). To the extent that a discrepancy exists between this policy and State policy, State policy shall take precedence.

Applicability

This policy shall apply to all persons and organizations using the information technology facilities and resources owned, leased or administered by Jackson State Community College, including all persons employed (either as full-time, part-time or temporary employees or as independent contractors) by Jackson State Community College and its constituent Institutions, and to all students enrolled at Jackson State Community College. Those provisions contained herein which apply solely to employees and independent contractors are so identified individually. Unless so identified, provisions contained herein apply equally to all persons and organizations covered by this policy.

User Responsibilities

The following lists of user responsibilities are intended to be illustrative, and not exhaustive. Subject to conformance with Federal and State of Tennessee law and with State of Tennessee and Tennessee Board of Regents policies, Jackson State Community College is authorized to supplement the user responsibilities contained herein.

Access

- Users shall obtain proper authorization before using JSCC information technology resources.
- Users shall not use JSCC information technology resources for purposes beyond those for which they are authorized.
- Users shall not share access privileges (account numbers and passwords) with persons who are not authorized to use them.
- Users shall not use JSCC information technology resources in an attempt to access or to actually access computers external to the JSCC system when that access is not authorized by the computer’s owner (no “hacking” allowed).

Respect for others

- A user shall not attempt to obstruct usage or deny access to other users.
- Users shall not transmit or distribute material that would be in violation of existing JSCC policies or guidelines using JSCC information technology resources.
- Users shall respect the privacy of other users, and specifically shall not read, delete, copy, or modify another user’s data, information, files, e-mail or programs (collectively, “electronic files”) without the other user’s permission. Users should note that there should be no expectation of privacy in electronic files stored on the resident memory of a computer available for general public access, and such files are subject to unannounced deletion.
- Users shall not intentionally introduce any program or data intended to disrupt normal operations (e.g. a computer “virus” or “worm”) into JSCC information technology resources.
- Forgery or attempted forgery of e-mail messages is prohibited.
- Sending or attempts to send unsolicited junk mail or chain letters is prohibited.
- Flooding or attempts to flood a user’s mailbox is prohibited.

Respect for State-owned property

- A user shall not intentionally, recklessly, or negligently misuse, damage or vandalize JSCC information technology resources.
- A user shall not attempt to modify JSCC information technology resources without authorization.
- A user shall not circumvent or attempt to circumvent normal resource limits, logon procedures, or security regulations.
- A user shall not use JSCC information technology resources for purposes other than those for which they were intended or authorized.
- A user shall not use JSCC information technology resources for any private or personal for-profit activity.
- Except for those not-for-profit business activities which are directly related to an employee's job responsibilities or which are directly related to an organization which is affiliated with the Institution, a user shall not use JSCC information technology resources for any not-for-profit business activities, unless authorized by the President or Director (or his/her designee).
- Users shall at all times endeavor to use JSCC information technology resources in an efficient and productive manner, and shall specifically avoid excessive game playing, printing excessive copies of documents, files, data, or programs; or attempting to crash or tie-up computer resources.

Additional Responsibilities of Employees and Independent Contractors

- Users who are employees and independent contractors shall not make use of JSCC information technology resources for purposes which do not conform to the purpose, goals, and mission of JSCC and to the user's job duties and responsibilities.
- Users shall not use JSCC information technology resources for solicitation for religious or political causes.

Digital/Electronic Signatures and Transactions

Jackson State Community College must comply with the Tennessee Uniform Electronic Transactions Act (T.C.A. §47-10-101 et seq.) This Act permits the use of electronic signatures and electronic transactions under certain circumstances.

1) In order to be legally enforceable, an electronic signature must meet the following two criteria:

A) An electronic signature must be attributable (or traceable) to a person who has the intent to sign the record or contract with the use of adequate security and authentication measures that are contained in the method of capturing the electronic transaction (e.g., the use of personal identification number or personal log-in identification username and password) (T.C.A. §47-10-109) (If Public Key Infrastructure technology ("PKI") is to be used in the creation of the digital signature, contact TBR Chief Information Officer prior to implementation.)

B) The recipient of the transaction must be able to print or store the electronic record of the transaction at the time of receipt. (T.C.A. §47-10-109)

2) The use of electronic/digital signatures in compliance with state and federal laws is permitted.

No Unlawful Uses Permitted

Users shall not engage in unlawful uses of the information technology system resources of JSCC. Unlawful activities are violative of this policy and may also subject persons engaging in these activities to civil and / or criminal penalties. This list of unlawful activities is illustrative and not intended to be exhaustive.

Obscene materials

The distribution and display of obscene materials is prohibited by the laws of Tennessee (see Tenn. Code Ann. § 39-17-902). Obscene materials are defined under Tennessee law (see T.C.A. § 39-17-901(10)) as those materials which:

- The average person applying contemporary community standards would find that the work, taken as a whole, appeals to the prurient interest;
- The average person applying contemporary community standards would find that the work depicts or describes, in a patently offensive way, sexual conduct; and
- The work, taken as a whole, lacks serious literary, artistic, political, or scientific value.

Federal law (18 U.S.C. 2252) prohibits the distribution across state lines of child pornography.

Defamation

Defamation is a civil tort which occurs when one, without privilege, publishes a false and defamatory statement which damages the reputation of another.

Violation of Copyright

Federal law gives the holder of copyright five exclusive rights, including the right to exclude others from reproducing the copyrighted work. Sanctions for violation of copyright can be very substantial. Beyond the threat of legally imposed sanctions, violation of copyright is an unethical appropriation of the fruits of another's labor.

Pursuant to the Digital Millennium Copyright Act of 1998, the JSCC designated agent for receipt of complaints of copyright infringement occurring with the use of JSCC information technology resources is the Director of Library Resources. The JSCC agent shall develop and maintain a policy regarding receipt and disposition of complaints of copyright infringement. Jackson State Community College is authorized to designate agents to serve their specific campus, however the Chief Information Officer for Information Technology shall be promptly informed of all complaints received by such Institutional agents.

Gambling

Gambling, including that performed with the aid of the Internet, is prohibited under Tennessee state law (see Tenn. Code Ann. § 39-17-502).

World Wide Web Home Pages

The principles of use articulated above are generally applicable to World Wide Web home pages. For example, use of JSCC information technology resources to post a web page for personal or private for-profit use; illegal content in web pages stored on JSCC IT resources; and obscene content; incorporation of copyrighted material, without either permission of the copyright holder or under a lawful exemption, all are prohibited.

In addition to the principles of use outlined, users may not incorporate into web pages or other electronic documents the trademarks or logos of others without express, written permission. Persons who are not employees of JSCC may not make use of JSCC trademarks or logos without express, written permission. JSCC is authorized to develop policies and regulations regarding use of Institutional trademarks on the Institution's web site by employees. Jackson State Community College's President is authorized to designate persons (e.g. campus webmaster) who may approve a proposed use of the Institution's trademarks and logos by employees on Institutional web pages.

Advertising

Use of JSCC information technology resources to promote or advertise activities or entities which are not related to JSCC is prohibited, unless such use is consistent with the mission of JSCC and results in substantial benefit to JSCC. The President of JSCC is authorized to determine whether a given use is consistent with the mission of the Institution and results in substantial benefit to the Institution, consistent with other JSCC and TBR Policies (in particular, TBR Policy 3:02:02:00). Sale of advertising in web-based versions of Institution-affiliated student publications is specifically permitted.

JSCC Monitoring and Inspection of Electronic Records

Electronic records sent, received, or stored on computers owned, leased, or administered by JSCC is the property of Jackson State Community College. As the property of the JSCC, the content of such records, including electronic mail, is subject to inspection by JSCC personnel. While JSCC does not routinely do so, JSCC is able and reserves the right to monitor and/ or log all network activity of users without notice, including all e-mail and Internet communications. Users should have no reasonable expectation of privacy in the use of these resources.

Disclosure of electronic records

Pursuant to the Tennessee Code Annotated, Title 10, Chapter 7, and subject to exemptions contained therein, electronic files (including e-mail correspondence) which are 1) generated or received by JSCC employees and 2) either owned or controlled by the State or 3) maintained using JSCC IT resources may be subject to public inspection upon request by a citizen of the State of Tennessee. JSCC personnel receiving such a request for public inspection should refer the request to the President of JSCC (or to the President's designee). JSCC may charge reasonable fees for making copies of such records, pursuant to T.C.A. § 10-7-506.

While disclosure under T.C.A. Title 10, Chapter 7 applies to employees, disclosure of the electronic records of all users which are maintained using JSCC IT resources may be made pursuant to a valid subpoena or court order, when otherwise required by federal, state or local law, or when authorized by the President of Jackson State Community College.

Retention of electronic records

Electronic records needed to support JSCC functions must be retained, managed, and made accessible in record-keeping or filing systems in accordance with established records disposition authorizations approved by the Public Records Commission and in accordance with TBR Guideline G-070, "Disposal of Records". Each employee of JSCC, with the assistance of his or her supervisor as needed, is responsible for ascertaining the disposition requirements for those electronic records in his or her custody. The system administrator is not responsible for meeting the record retention requirements established under T.C.A. Title 10, Chapter 7, and JSCC, as owner of electronic records stored on JSCC computers, reserves the right to periodically purge electronic records, including e-mail messages. Users who are either required to retain an electronic record, or who otherwise wish to maintain an electronic record should either:

- Print and store a paper copy of the record in the relevant subject matter file; or
- Electronically store the record on a storage medium or in an electronic storage location not subject to unannounced deletion.

Violation of This Policy

Reporting allegations of violations: Persons who have reason to suspect a violation of this policy, or who have direct knowledge of behavior in violation of this policy should report that allegation of violation to Jackson State's President or his/her designee.

Disciplinary procedures: Allegations of violation of this policy shall be referred by the designee of the President (typically, the Senior IT Officer) to the appropriate person(s) for disciplinary action. If a student, the policy violation will be referred to the judicial officer of the institution under TBR Policy 3:02:00:01. If an employee, the policy violation will be referred to the immediate supervisor. If there is a policy violation, which the designee believes rises to the level of a serious violation of this or any other JSCC/TBR policy; the designee is authorized to temporarily revoke access privileges. In those cases, the revocation of access must be reviewed by the appropriate disciplinary authority for review and final determination of access privileges. In such cases the authorization of the designee carries with it the authorization to make subjective judgments, such as whether material or statements violate JSCC/TBR Policy.

Sanctions: Persons violating this policy are subject to revocation or suspension of access privileges to JSCC IT resources. Additionally other penalties, as outlined in TBR Policy 3:02:00:01, may be imposed upon student users. Sanctions for violation of this policy by employees may extend to termination of employment. Violations of law may be referred for criminal or civil action.

Appeals: Sanctions imposed upon students at Jackson State Community College and imposed at the discretion of the IT Director

(or other designee of the President) may be appealed to the Vice President for Student Services. Other sanctions may be appealed under established Institution procedure.

TBR/NetTN Policy and Procedures for Copyright Infringement Notices and the Digital Millennium Copyright Act (DMCA)

The Tennessee Board of Regents and the Tennessee Cooperative Network (TBR/NetTN) take seriously all complaints regarding copyright infringements. Copyright infringements are made when material is copied without the permission of the person holding the copyright and stored on a TBR/NetTN server for the purpose of providing that information to others. Copyright infringement does not occur merely by listing a URL to a server where the copyrighted material resides. See <http://lweb.loc.gov/copyright/> for more information regarding the copyright law. The following procedures will be followed in order to resolve copyright infringement complaints on TBR/NetTN servers.

For TBR/NetTN to be on notice of the presence of infringing material, the DMCA <http://lweb.loc.gov/copyright/legislation/dmca.pdf> states that notification must be provided to us with the following information:

- Identification of what is being infringed.
- Where the infringements are located
- Who is complaining
- How he or she may be contacted, including phone number, fax number and e-mail address
- A statement of good faith belief that the material is infringing
- A statement made under threat of perjury that the information provided is accurate and the complaint is authorized by the copyright holder
- A signature of the copyright holder or an authorized representative

Initial correspondence may be sent via e-mail to DMCA@tbr.edu. A letter or fax containing this information and the signature of the copyright holder must be sent to:

- Tennessee Board of Regents
Attn: Information Systems/DMCA
1 Bridgestone Park
Nashville, TN 37214
(615) 366-4443 (615) 366-3979 (fax)

Upon receipt of this information TBR/NetTN will contact the user who is infringing on the copyright and inform them that they must remove or block access to the infringing material.

The user may respond with a counter-notice which includes:

- A statement, that the user has a good faith belief that access to the material should not be removed or blocked due to a result of a mistake or misidentification.
- Listing the user's contact information.
- Consenting to jurisdiction in federal court.

TBR/NetTN will give this counter-notice to the original complaining party, and allow access to the infringing material within 10-14 days unless we receive notice that a lawsuit has been filed over the material.

TBR/NetTN users who repeatedly infringe upon copyrights will have their network access terminated and may face other sanctions or discipline as determined by TBR/NetTN institutional policies, the TBR/NetTN Acceptable Use Policy and/or the State of Tennessee Acceptable Use Policy.

Disciplinary Sanctions

Upon determination that a Jackson State student or organization has violated any of the institution's rules, policies or disciplinary offenses set forth in these regulations, the following are appropriate sanctions which may be imposed, either singly or in combination, by the appropriate institution officials.

Definition of Sanctions

Restitution. Restitution may be required in situations which involve destruction, damage, or loss of property, or un-reimbursed medical expenses resulting from physical injury. When restitution is required, the student or student organization is obligated by the appropriate judicial authority to compensate a party or parties for a loss suffered as a result of disciplinary violation(s). Any such payment in restitution shall be limited to actual cost of repair, replacement or financial loss;

Warning. The appropriate institutional official may notify the student or student organization that continuation or repetition of specified conduct may be cause for other disciplinary action;

Reprimand. A written or verbal reprimand or censure may be given to any student or student organization whose conduct violates any part of these regulations and provides notice that any further violation(s) may result in more serious penalties;

Service to the Institution or Community. A student, or student organization, may be required to donate a specified number of service hours to the institution performing reasonable tasks for an appropriate institution office, official(s), or the local community. The service required shall be commensurate to the offense (e.g., service for maintenance staff for defacing institutional property);

Specified Educational/Counseling Program. A student or student organization may be required to participate in specified educational or counseling program(s) relevant to the offense, or to prepare a project or report concerning a relevant topic;

Apology. A student or student organization may be required to apologize to an affected party, either verbally or in writing, for the behavior related to a disciplinary offense;

Fines. Penalties in the form of fines may be imposed against a student or student organization whenever the appropriate institutional authority deems appropriate. The sanction of fines may be imposed in addition to other forms of disciplinary sanctions. Failure to pay fines may result in further disciplinary action;

Restriction. A restriction upon a student's or student organization's privileges for a period of time may be imposed. This restriction may include, for example, denial of the ability to represent the institution at any event, ability to participate in institution or TBR sponsored travel, use of facilities, parking privileges, participation in extracurricular activities or restriction of organizational privileges;

Probation. Continued enrollment of a student or recognition of a student organization on probation may be conditioned upon adherence to these regulations. Any student or organization placed on probation will be notified in writing of the terms and length of the probation. Probation may include restrictions upon extracurricular activities, or any other appropriate special condition(s). Any conduct in further violation of these regulations while on probationary status or the failure to comply with the terms of the probationary period may result in the imposition of further disciplinary action;

Suspension. Suspension is the separation of a student or student organization from the institution for a specified period of time. Suspension may be accompanied by special conditions for readmission or recognition;

Expulsion. Expulsion entails a permanent separation from the institution. The imposition of this sanction is a permanent bar to the student's admission, or a student organization's recognition to the institution. A student or organization that has been expelled may not enter institution property or facilities without obtaining prior approval from an appropriate campus official with knowledge of the expulsion directive;

Revocation of Admission, Degree, or Credential;

Assignment of a Failing Course Grade;

Any alternate sanction deemed necessary and appropriate to address the misconduct at issue;

Interim Suspension. As a general rule, the status of a student or student organization accused of violation of these regulations should not be altered until a final determination has been made in regard to the charges. However, interim suspension, pending the completion of disciplinary procedures, may be imposed upon a finding by the appropriate institutional official that the continued presence of the accused on campus constitutes an immediate threat to the physical safety and well-being of the accused, any other member of the institution its guests, property, or substantial disruption of classroom or other campus activities. In any case of interim suspension, the student, or student organization, shall be given an opportunity at the time of the decision, or as soon thereafter as reasonably possible, to contest the suspension.

The president of Jackson State is authorized, at his/her discretion, to intervene in order to negotiate a mutually acceptable resolution to any disciplinary proceeding, or, subsequently, to convert any sanction imposed to a lesser sanction, or to rescind any previous sanction, in appropriate cases.

This policy is promulgated pursuant to, and in compliance with, TBR Rule 0240-02-03-.04 Disciplinary Sanctions. To the extent that a conflict exists between this policy and TBR rule, policy and/or applicable law(s), the TBR rule, policy and/or law will control. History – Adopted by TBR: 12/8/11. Effective: 1/29/12.

Disciplinary Procedures

Institutions governed by the TBR, in the implementation of TBR regulations pertaining to discipline and conduct of students, shall insure the constitutional rights of students by affording a system of constitutionally and legally sound procedures which provide the protection of due process of law. In furtherance of this mandate, Jackson State has established the following policies assuring that each student accused of a disciplinary offense or academic misconduct will receive due process. These policies shall be communicated to faculty, staff and students through the college's official catalog and student handbook, on the college's website, and through other avenues available to make the information easily accessible.

Jackson State Institutional Procedures

(a) Upon receipt of a complaint regarding a student or organization, the Dean for Students will initiate an investigation into the facts of the case, including interviews with the accused, other persons involved and witnesses.

(b) The Dean for Students will make a decision based on the facts of the case, and issue a written determination to the accused, including sanctions if applicable, and informing the student or organization of their right to an appeal through a Student Disciplinary Committee hearing or through a TUAPA hearing if the possibility of suspension or expulsion, or revocation of a student organization's registration, are possible.

(c) TUAPA: All cases which may result in: (a) suspension or expulsion of a student, or student organization, from the institution, for disciplinary reasons or (b) revocation of registration of a student organization, are subject to the contested case provisions of the Tennessee Uniform Administrative Procedures Act (TUAPA), T.C.A. § 4-5-301 et seq., and shall be processed in accord with the Uniform Contested Case procedures adopted by the Board of Regents unless the student or organization, after receiving written notice, waives those procedures and elects to have the case disposed of in accord with institutional procedures or waives all right to contest the case under any procedure.

Hearing before the Student Disciplinary Committee; comprised of One (1) faculty member elected by Faculty Council; one (1) administrator, one (1) Student Services staff member and one (1) faculty member elected by administrators in Academic Affairs, Student Services and Financial and Administrative Affairs (deans and above); one (1) student selected by the student facing disciplinary action; and two (2) students selected by the Student Government Association. The Officers include a Chair and Secretary elected from the membership of the committee

(a) A student or organization accused of committing a disciplinary offense may request a hearing before the Student Disciplinary Committee, in writing, by submitting it to the Dean for Students within five (5) business days of the initial decision. When such a hearing is initiated, the following procedures shall apply:

- (i) The accused student or organization shall be informed in writing of the date, time and place of the hearing not less than ten (10) days prior to the day of the hearing and shall be advised of the following rights:

- (I) The right to present their case;
- (II) The right to be accompanied by an advisor;
- (III) The right to call witnesses in their behalf;
- (IV) The right to confront witnesses against them.
- (ii) The Chairperson of the Student Disciplinary Committee shall preside at the hearing.
- (iii) The Dean for Students shall present the results of the investigation and make a recommendation to the Committee. Witnesses and/or statements from witnesses may be entered as evidence.
- (iv) The accused shall have an opportunity to present their case in exercising any of the rights cited above.
- (v) Members of the Committee shall have an opportunity to ask questions.
- (vi) After all presentations and examinations of witnesses, the Committee shall retire to discuss the case and render a decision.
- (vii) The decision shall be announced by the presiding officer of the hearing and provided in writing to the student or organization representative(s) within 5 days after the conclusion of the hearing. A written record of the proceedings and determination shall be maintained in the office of the Dean for Students.
- (viii) The student or organization representative(s) shall be advised of their right to appeal the decision of the Student Disciplinary Committee in writing to the Vice President for Student Services or designee within five (5) working days of the Committee's decision.
- (ix) The Vice President for Student Services or designee will issue a written decision to the student or organization in writing within three (3) working days.

(b.) The Vice President of Student Services' decision may be appealed, in writing, within five (5) working days of the decision, to the President of the College.

(c) The President will issue a written decision to the student or organization within three (3) working days.

All matters involving allegations of impermissible discrimination, harassment, or retaliation, including, but not limited to allegations of sexual violence, will be governed by the procedures outlined in TBR Guideline P-080 Subject: Discrimination and Harassment – Complaint and Investigation Procedure and/or an institutional policy that reflects the requirements of that Guideline.

Jackson State Procedures for Academic Misconduct:

When an instructor determines that a student has engaged in academic misconduct, prompting them to assign an "F" for the course, the following steps must be followed:

1. The faculty member shall arrange for a conference with the student(s) within seven (7) working days of the offense to discuss the issues and potential courses of action. At the conference, the student shall be notified by the faculty member of the charge and supporting evidence. For an incident which occurs during, or as part of, a final examination, the instructor must notify the student by certified mail or return receipt email.
2. After meeting with the student(s), the faculty member shall complete the "Academic Misconduct Report Form" that identifies the student(s) responsible, the nature of the offense, the action taken,

and the recommendation as to whether or not further disciplinary sanctions should be imposed through Jackson State's student disciplinary process. This form shall be submitted to the Academic Integrity Committee, through the appropriate Academic Dean's office, within two (2) working days of having met with the student(s). The Academic Dean's office shall provide a copy to the Dean of Students and send a copy to the student(s) via certified mail. The certified mailing shall include written notice that the student(s) have the right to due process by submitting a hearing request to the Academic Integrity Committee through the appropriate Academic Dean's office.

The Academic Integrity Committee is a committee whose membership is appointed by the President. It is comprised of:

1. Academic Dean (that is responsible for supervision of the course) --Chair of the Committee with no voting rights except in the case of a tie.
2. Three (3) Faculty members, not including the one who assigned the grade
3. Two (2) students, one of which will be the SGA President or their designee OR Two (2) staff members not holding faculty appointments. Use of student representatives will be at the discretion of the Vice President for Academic Affairs.

A student accused of academic misconduct may submit a written request for a hearing to the Academic Integrity Committee through the office of the Academic Dean supervising the course in question within five (5) working days of having received the instructor's "Academic Misconduct Report Form." When such a hearing is initiated, the following procedures shall apply:

1. The student shall be informed in writing of the date, time and place of the hearing not less than ten (10) days prior to the day of the hearing and shall be advised of the following rights:
 - i. The right to present their case;
 - ii. The right to be accompanied by an advisor;
 - iii. The right to call witnesses in their behalf;
 - iv. The right to confront witnesses against them.

The Chairperson of the Academic Integrity Committee shall preside at the hearing.

- There must be at least four (4) members of the committee present, including the chairperson, to constitute a quorum and to hear cases, unless the student charged with academic misconduct knowingly waives the right to a quorum.

The instructor who submitted the "Academic Misconduct Report Form" shall present their evidence and reasoning for their decision to the Committee. Witnesses and/or statements from witnesses may be entered as evidence.

The student accused of academic misconduct shall have an opportunity to present their case in exercising any of the rights cited above.

Members of the Committee shall have an opportunity to ask questions.

After all presentations and examinations of witnesses, the Committee shall retire to discuss the case and render a decision.

- The Committee's decision(s) shall be by majority vote.

The decision shall be announced by the Chairperson of the Committee and issued in writing to the student and to the instructor involved within 5 days after the conclusion of the hearing. A written record of the proceedings and determination shall be maintained in the office of the Vice President for Academic Affairs and the Dean of Students.

The student may appeal the decision of the Committee, in writing, to the Vice President of Academic Affairs within five (5) working days of the Academic Integrity Committee's decision.

The Vice President of Academic Affairs will issue a written decision to the student within three (3) working days.

The Vice President of Academic Affairs' decision may be appealed, in writing, within five (5) working days of the decision, to the President of the College.

The President will issue a written decision to the student or organization within three (3) working days.

An instructor cannot be required to change an assigned grade, but the institution may amend the student's grade on their academic transcript, based on the Academic Integrity Committee's decision or an ensuing appeal, and a note of explanation be placed in the student's file.

Jackson State Procedures for Interim Suspension Hearings:

Within one working day of receipt of a written complaint, the Dean of Students will investigate and, where appropriate, notify the accused by verbal, electronic, written, and/or other device that they are being suspended on an interim basis and describing their rights and procedures. Interim suspension will only occur when it is deemed that the continued presence of the accused on campus constitutes an immediate threat to the physical safety and well-being of the accused, any other member of the institution, its guests, property, or substantial disruption of classroom or other campus activities.

Hearing Before the Interim Suspension Committee:

1. A student may challenge an interim suspension in writing to the Dean of Students within two (2) business days of receipt of notice of the interim suspension. Failure to request a hearing on the interim suspension within two (2) business days of receipt of notice serves as a waiver of the right to a hearing.

2. A student's challenge will be heard by the Interim Suspension Committee, comprised of the Dean for Students, the Vice President for Student Services or designee, and the Director of Environmental Health and Safety. The following procedures shall apply:

i. The accused student shall be informed verbally, electronically, and/or in writing of the date, time and place of the hearing not less one (1) full day prior to the day of the hearing and shall be advised of the following rights:

- (I) The right to present their case;
- (II) The right to be accompanied by an advisor;
- (II) The right to call witnesses in their behalf;
- (IV) The right to confront witnesses against them.

ii. The Vice President for Student Services, or designee, shall preside at the hearing.

iii. Witnesses and/or statements from witnesses may be entered as evidence. Evidence presented shall be limited to that which is relevant to the basis asserted for imposition of the interim suspension.

iv. The accused shall have an opportunity to present their case in exercising any of the rights cited above. Evidence presented shall be limited to that which is relevant to the basis asserted for imposition of the interim suspension.

v. Members of the Committee shall have an opportunity to ask questions.

vi. After all presentations and examinations of witnesses, the Committee shall retire to discuss the case and render a decision that day.

vii. The decision shall be announced by the presiding officer of the hearing and provided in writing to the student. A written record of the proceedings and determination shall be retained in the office of the Dean of Students.

1. The student shall be advised of their right to appeal the decision to the President.

2. The student may appeal the decision of the Committee, in writing, to the President within one (1) working day of the Interim Suspension Committee's decision.

viii. The President will issue a written decision to the student within one (1) working day.

ix. Whether or not the interim suspension is affirmed, the Dean for Students will complete an investigation, and initiate the disciplinary process as described in this section.

The President of the College is authorized, at his or her discretion, to intervene in order to negotiate a mutually acceptable resolution to any disciplinary proceeding, or, subsequently, to convert any finding or sanction imposed to a lesser finding or sanction, or to rescind any previous finding or sanction, in appropriate cases.

This policy is promulgated pursuant to, and in compliance with, TBR Rule 0240-02-03-.06 Disciplinary Procedures and Due Process. To the extent that a conflict exists between this policy and TBR rule, policy and/or applicable law(s), the TBR rule, policy and/or law will control. History – Adopted by TBR: 12/8/11. Effective: 1/29/12.

Threats and Violence Prevention Policy

Jackson State is committed to providing every employee, student and visitor an environment that is safe, secure and free of threats and violence. In support of this policy, Jackson State is intolerant of language or behavior that is unsafe, threatening or violent. In accordance with federal and state laws, Jackson State also prohibits the possession of any weapon by any student or visitor on college premises, except law enforcement officers in performance of their duties or faculty/staff that have proper credentials and are within state and TBR policies. Definitions used in this policy:

Crime of Violence: Including, but not limited to: any degree of murder, voluntary manslaughter, aggravated rape, rape, mayhem, especially aggravated robbery, aggravated robbery, robbery, burglary, assault, aggravated assault, physical or verbal threats and battery.

Weapon: Includes an explosive or an explosive weapon, a device principally designed, made or adapted for delivering or shooting an explosive weapon, a machine gun, a short-barrel rifle or shotgun, a handgun, a firearm silencer, a switchblade knife or any other type of knife (excluding pocket knives with blades of 3 inches or less), or knuckles, or any other implement for infliction of bodily injury, serious bodily injury or death which has no common lawful purpose. All firearms and percussion weapons are to be included in this definition.

On the Worksite: Includes all property owned or occupied by Jackson State (including Jackson State job sites) or in a Jackson State vehicle.

Possession: Includes, but is not limited to, the presence of a weapon on the employee, student or visitor in his/her motor vehicle, lunch box, locker, tool kit, bag, purse, cabinets, office, etc.

Any verbal, physical, written or electronically transmitted conduct that is inconsistent with this policy will be subject to administrative disciplinary sanctions and/or prosecution or other appropriate action under the law.

Furthermore, it is the policy of Jackson State to maintain a work environment that is free from acts of violence, threats and other potentially violent behavior. Acts of violence or threats of violence will not be tolerated and are especially prohibited in any manner or form on or off Jackson State property, if they are a direct result of the employment relationship.

Purpose

Jackson State recognizes that violence and related crises in the workplace are a pervasive and growing concern. Jackson State is, therefore, committed to providing a safe environment for its students, employees and visitors.

Scope

This policy applies to all individuals on properties and locations operated for, and controlled by, Jackson State.

Reporting

All members of Jackson State share an interest in promoting a safe and healthy environment that is free from intimidation and fear for personal safety. To foster this ideal, employees, students and visitors are encouraged to report incidents of threats, aggression and other prohibited behaviors and acts of any individual(s) on properties through the campus police office. Campus police officers may be reached at 731-225-5952, or 731-425-2627.

Compliance

All persons covered by this policy must conduct themselves in accordance with this policy as set forth above. Jackson State will not tolerate

any conduct which violates the letter and/or spirit of this policy. Any employee who violates this policy will be subject to appropriate administrative and disciplinary action, up to and including termination.

Communication

Jackson State has the responsibility to communicate its position on workplace violence to all employees and others covered by this policy and will take appropriate steps to do so.

Employees who are terminated due to documented instances of workplace violence, or who voluntarily resign while a workplace violence charge is being investigated are subject to a true representation of the facts in future employment referrals.

Sexual Misconduct

Jackson State Community College's "Campus Violence Policies and Procedures" are intended to help us prevent and/or address misconduct such as rape, dating violence, domestic violence and stalking--both on and off campus. These policies, campus procedures for reporting incidents, and support for victims/survivors are found on the college's website at <https://www.jssc.edu/about-jackson-state/administration/safety-and-security/sexual-misconduct/>.

Policy on Drug-Free Campus

This statement is being distributed to all Jackson State employees, including faculty, and students in compliance with the provisions of the Drug Free Workplace Act of 1988 (41 U.S.C. 701, et. seq.) and the Drug Free Schools and Communities Act Amendments of 1989 (20 U.S.C. 3171, et. seq.).

Policy

It is the policy of Jackson State that the unlawful manufacture, distribution, possession, use or abuse of alcohol and illicit drugs on the Jackson State campus, on property owned or controlled by Jackson State, or as part of any activity of Jackson State is strictly prohibited. All employees and students are subject to applicable federal, state and local laws related to this matter. Additionally, any violation of this policy will result in disciplinary actions as set forth in the JSCC Student Handbook.

Legal Sanctions

Various federal, state and local statutes make it unlawful to manufacture, distribute, dispense, deliver, sell or possess with intent to manufacture, distribute, dispense, deliver or sell, controlled substances. The penalty imposed depends upon many factors which include the type and amount of controlled substance involved, the number of prior offenses, if any, whether death or serious bodily injury resulted from the use of such substance, and whether any other crimes were committed in connection with the use of the controlled substance. Possible maximum penalties for a first-time violation include imprisonment for any period of time up to a term of life imprisonment, a fine of up to \$4,000,000, supervised release, any combination of the above, or all three. These sanctions are doubled when the offense involves either:

1) distribution or possession at or near a school or college campus, or
 2) distribution to persons under 21 years of age. Repeat offenders may be punished to a greater extent as provided by statute. Further, a civil penalty of up to \$10,000 may be assessed for simple possession of “personal use amounts” of certain specified substances under federal law. Under state law, the offense of possession or casual exchange is punishable as a Class A misdemeanor; if there is an exchange between a minor and an adult at least two years the minor’s senior, and the adult knew that the person was a minor, the offense is classified a felony as provided in T.C.A. 39-17-417. (21 U.S.C. 801, et. seq.; T.C.A. 39-17-417).

It is unlawful for any person under the age of twenty-one (21) to buy, possess, transport (unless in the course of his employment), or consume alcoholic beverages, wine, or beer, such offenses being classified Class A misdemeanors punishable by imprisonment for not more than 11 months, 29 days, or a fine of not more than \$2,500, or both. (T.C.A. 1-3-113, 57-5-301). It is further an offense to provide alcoholic beverages to any person under the age of twenty-one (21), such offense being classified a Class A misdemeanor. (T.C.A. 39-15-404). The offense of public intoxication is a Class C misdemeanor punishable by imprisonment of not more than 30 days or a fine of not more than \$50, or both. (T.C.A. 39-17-310)

Sanctions

Jackson State will impose the appropriate sanction(s) on any student or employee who fails to comply with the terms of this policy.

Possible disciplinary sanctions for failure to comply with the terms of this policy may include one or more of the following:

- Expulsion
- Suspension
- Mandatory participation in, and satisfactory completion of a drug/ alcohol abuse program or rehabilitation program
- Referral for prosecution
- Probation
- Warning
- Reprimand

As a condition of employment, each employee, including student employees, must abide by the terms of this policy, and must notify his/her department head/supervisor of any criminal drug statute conviction for a violation occurring in the workplace no later than five days after such conviction. A conviction includes a finding of guilt, a plea of nolo contendere, or imposition of a sentence by any state or federal judicial body. Possible disciplinary sanctions for failure to comply with this policy, including failure to notify of conviction, may include one or more of the following:

- Termination
- Suspension
- Mandatory participation in, and satisfactory completion of a drug/ alcohol abuse program, or rehabilitation program

- Recommendation for professional counseling
- Referral for prosecution
- Letter of warning
- Probation

Health Risks Associated with the Use of Illicit Drugs and the Abuse of Alcohol

There are many health risks associated with the use of illicit drugs and the abuse of alcohol including organ damage; impairment of brain activity, digestion, and blood circulation; impairment of physiological processes and mental functioning; and physical and psychological dependence. Such use during pregnancy may cause spontaneous abortion, various birth defects or fetal alcohol syndrome. Additionally, the illicit use of drugs increases the risk of contracting hepatitis, AIDS, and other infections. If used excessively, the use of alcohol or drugs singly or in certain combinations may cause death.

Available Drug and Alcohol Counseling, Treatment, Rehabilitation Programs

Students who wish to contact drug and alcohol counseling, treatment and rehabilitation programs may obtain information on such programs from the college’s counselor at 731-424-3520 ext. 50260.

Following is a list of some area alcohol and drug treatment centers. Jackson State does not endorse any treatment providers, nor does the college provide financial support for students’ treatment programs.

JSCC Suicide Prevention Plan

Jackson State Community College is committed to and cares about all students. Support services are available for any person at Jackson State who is experiencing feelings of being overwhelmed, hopelessness, depression, thinking about dying by suicide, or is otherwise in need of assistance.

For immediate help, contact the National Suicide Lifeline Number 1-800-273-TALK(8255) or Text "TN" to 741741 or the Trevor Lifeline at 1-866-488-7386. Veterans may also wish to contact the Veterans Crisis Line at 1-800-273-8255 (press 1) or Text 838255.

Jackson State publishes our "Suicide Prevention Plan and Protocol" on our website at <https://www.jsc.edu/about-jackson-state/student-services/counseling/suicide-prevention.html>. It includes warning signs, how to prevent a suicide attempt, the college's response, and area resources for support.

Harassment – Sexual, Racial and Other

Tennessee Board of Regents Guideline P-080 relates to the orderly resolution of charges of sexual, racial, or other forms of harassment at Jackson State and other institutions of the Tennessee Board of Regents. The procedures set forth in the guideline may be utilized by any employee, applicant for employment, or student who believes he or she has been subjected to sexual, racial or other forms of harassment. The following excerpt defines these types of harassment.

Sexual harassment and racial harassment have been held to constitute a form of discrimination prohibited by Title VII of the Civil Rights Act of 1964, as amended, and Title IX of the Educational Amendments of 1972. Other types of harassment are prohibited by applicable law. An institution or school may be held liable pursuant to Title VII and/or lose federal funds pursuant to Title IX for failure to properly investigate and remedy claims of sexual or racial harassment.

Generally, sexual harassment may be defined as unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature when one of the following criteria is met:

- Submission to such conduct is made either explicitly or implicitly a term or condition of the individual's employment or of the individual's status in a program, course, or activity.
- Submission to or rejection of such conduct by an individual is used as a basis for employment decisions, a criterion for evaluation, or a basis for academic or other decisions affecting such individual; or such conduct has the purpose or effect of unreasonably interfering with an individual's work performance or educational experience or creating an intimidating, hostile, or offensive work or educational environment.

Whether the alleged conduct constitutes sexual harassment depends upon the record as a whole and the totality of the circumstances, such as the nature of sexual advances in the context within which the alleged incident occurred.

Generally, racial harassment is defined as any person's conduct which unreasonably interferes with an employee's or student's status or

performance by creating an intimidating, hostile, or offensive working or educational environment. Harassment on the basis of race, color, or national origin, includes offensive or demeaning treatment of an individual, where such treatment is based typically on prejudiced stereotypes of a group to which that individual may belong.

It includes, but is not limited to, objectionable epithets, threatened or actual physical harm or abuse, or other intimidating or insulting conduct directed against the individual because of their race, color, or national origin. Title VII requires employers to take prompt action to prevent bigots from expressing their opinions in a way which abuses or offends their co-workers.

Generally, harassment on the basis of religion, handicap, or other protected status includes any conduct which has the purpose or has the reasonably foreseeable effect of interfering with an individual's academic efforts, employment, or participation in institutionally sponsored activities. Such harassment also includes any activity which creates an intimidating, hostile, or demeaning environment.

Student on student harassment means unwelcome conduct directed toward a person that is discriminatory on a basis prohibited by federal, state, or local law and that is so severe, pervasive, and objectively offensive that it effectively bars the victim's access to an educational opportunity or benefit.

Guideline P-080 describes procedures intended to protect the rights of the aggrieved party as well as the party against whom an allegation of harassment is lodged, as required by state and federal laws. Each charge must be properly investigated and, when warranted, appropriate disciplinary action must be taken against the individual charged. The Office of General Counsel always will be consulted prior to investigation.

The designated Equal Employment Opportunity/Affirmative Action Officer for Jackson State, the Director of Human Resources, is responsible for receiving harassment complaints from applicants, employees, and students. The office is located in the Human Resources office, Administration Building, (731) 425-2621.

The complete text of Guideline P-080 is available online at www.tbr.edu, in the Human Resources Office, in the offices of the President, the vice presidents, and the library. You are encouraged to become familiar with the guideline and to ask questions if necessary to gain a thorough understanding of it.

Americans with Disabilities Act Policy and Grievance Procedure

Policy

Jackson State has adopted a policy of nondiscrimination on the basis of disability in the admission and access to academic programs, procedures and activities. The College has adopted an internal grievance procedure providing for prompt and equitable resolution of complaints alleging any action prohibited by the U.S. Department of Justice regulations implementing Title II of the Americans with Disabilities Act.

Title II states, in part, that “no otherwise qualified disabled individual shall, solely by reason of such disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination” in programs or activities sponsored by Jackson State.

Procedure

In the event a person has a complaint related to ADA, they first must attempt to resolve the situation with the College employee involved.

If those efforts are unsuccessful, a documented complaint, briefly describing the alleged violation of the regulations, must be filed with the ADA Compliance Officer, the Dean for Students, within 30 days after the violation. Complaints should be directed to: ADA Compliance Officer, Student Union Building, Jackson State Community College, 2046 North Parkway, Jackson, Tennessee 38301-3797.

Upon such filing of a complaint, an appropriate investigation shall follow by the Compliance Officer and others designated by the College for such purpose. These rules provide for informal, but thorough, investigations allowing all interested persons and their representatives, if any, to submit related evidence. A written determination of the complaint’s validity and a description of the resolution shall be issued by the ADA Compliance Officer and a copy forwarded to the complainant no later than 90 days after its filing.

The ADA Compliance Officer shall maintain the files and records of Jackson State relating to complaints filed.

The complainant can request a reconsideration of the case if they are dissatisfied with the resolution. The request for reconsideration should be made to the Vice President of Student Services within 30 days of the issuing of the written determination.

A written response to that request for reconsideration will be issued and a copy forwarded to the complainant no later than 30 days after the request’s filing. The President of the college holds the final authority for appeals. An appeal of that reconsideration must be filed with the President within 30 days of the issuing of the written determination.

A person’s right to a prompt and equitable resolution of the complaint filed thereunder shall not be impaired by the person’s pursuit of other remedies, such as the filing of an ADA complaint with the responsible federal department or agency. Use of this grievance procedure is not a prerequisite to the pursuit of other remedies.

These rules shall be construed to protect the substantive rights of interested persons to meet appropriate due process standards and to assure that Jackson State complies with the ADA in implementing the program.

Traffic and Parking Regulations

Registration

All motor vehicles operated on Jackson State’s main or satellite campuses by faculty, staff, and students must be registered with the college.

Students that attend classes on Jackson State campuses that are registered through another institution should obtain a parking tag during their registration for classes or display a current parking decal/tag for their institution.

Employees of permanent vendor services (i.e., bookstore, café) may be issued an employee parking tag. Student workers will be issued a student parking tag.

Registration of all motor vehicles should be done during the first week of the first semester of employment or enrollment. Employee and student parking tags may be obtained during the semester Monday through Friday from the jHub Student Assistance Center in the Student Center Building and from the Lexington and Savannah centers.

Temporary and permanently disabled students and employees with a state-issued disability placard for disabled parking should clearly display the placard when parking in a handicapped space. In addition, an official Jackson State tag must be displayed. To obtain a state-issued disability placard for disabled parking, students and employees must contact the Tennessee Department of Transportation (TDOT) Driver’s License and Testing Center or the County Courthouse Title and License office.

No vehicle will be considered officially registered unless a current Jackson State parking tag is displayed. The tag must be clearly visible.

Faculty, staff, or students who change cars may secure a replacement tag by presenting the number of the original tag at the jHub Student Assistance Center. The updated vehicle information will be logged and the patron can transfer the original tag to the new car. All violations against an old tag or previously used tag will be charged to the person to whom it was originally issued.

Each student, faculty, or staff member intending to drive/park one or more vehicles on campus must register each vehicle. Failure to comply with this regulation may result in disciplinary action.

Visitor and temporary parking permits may be obtained from the office of Business Services in the Administration Building, Lexington or Savannah campuses. Temporary permits shall be secured to drive an unregistered vehicle in an emergency situation.

All Contractors must check in with the Physical Plant Department prior to beginning work on campus. Upon notification, Physical Plant will obtain a temporary parking permit from the Business Office or notify the Campus Police of Contractors presence including expected length of time on campus.

Registration must include name of registrant, student/employee identification number, license plate number, and state of plate issue, and year, make, color, and model of vehicle.

Changes in license plates must be reported to the jHub within five (5) days of such changes. Failure to do so may be grounds for revocation of parking privileges.

Illegible and/or damaged tags must be replaced. Failure to replace a damaged tag within five (5) days of notification will result in a ticket. Damaged tags will be replaced at no cost to the student or employee.

The acceptance of a parking tag by any person shall constitute the acceptance of the responsibility to ensure that no vehicle owned or registered in his or her name is parked or operated in violation of these policies.

Parking

Students should park in parking spaces or areas appropriately designated. Students are not to park:

- In reserved spaces marked “employee only.”
- In reserved spaces indicating disabled parking unless that student displays a state-issued disability placard and JSCC tag on their vehicle.
- In reserved spaces marked for visitors or prospective students.
- In these prohibited areas: loading zones, sidewalks, campus streets, grassy areas, and within 15 feet of fire hydrants.

Enforcement of parking in reserved parking spaces or designated employee lots will be enforced from 8 a.m. to 5 p.m.

Vehicles may be towed at the owner’s expense and citations will be issued for the following violations:

- Blocking a fire hydrant
- Blocking the roadway, walkway, driveways, or other access ways
- Parking in a fire lane
- Stolen, abandoned, or unregistered vehicle (no tag, switched tag, etc.)
- Parking in a disability reserved space
- Blocking a disability access ramp
- Parking in “Service Vehicle Only” space
- Information about location and retrieval of the vehicle may be obtained by contacting the Campus Police Department, located in the Student Center Building, Room 160, between 8 a.m. and 4:30 p.m. Monday through Friday, 731-425-2627 or 731-225-5952, and paying the cost of the tow.

Citations for violations must be paid promptly and within the semester issued. Fines may be paid in the Business Services Office. The violator’s copy of the citation must be presented at the time of payment.

Traffic citations not paid by the last day of final exam week each semester prohibit release of the student violator’s grade report and official transcript. The student may not register for the ensuing semester and, in cases where a student has registered early, he/she may be withdrawn from the College.

Violations and Fines

- Parked in disabled area \$50.00*
- Parking in designated employee or visitor area \$25.00
- Parked within 15 ft. of a fire hydrant \$50.00
- Reckless Driving/Speeding \$50.00
Tennessee Code Annotated 55-10-205 dictates that you may be charged with reckless driving if there is probable cause to believe that you are driving “in

willful or wanton disregard for the safety of persons or property.” Driving 30mph over the posted speed limit is considered a reckless driving charge under Tennessee law. Posted speed limit on the campuses of Jackson State is 15 mph.

- No parking tag \$25.00
- Parking on grass \$25.00
- Parked in loading zone \$25.00
- Double parked \$25.00
Parallel parking alongside another car so that all or part of your vehicle is in the street blocking the normal flow of traffic.
- Improper/reverse parking \$25.00
Reverse parking is the parking in a diagonal parking spot facing against the flow of traffic upon exit. Improper parking is occupying more than one parking space at one time or not completely being in a parking spot impeding the flow of traffic.
- Impeding traffic \$25.00
Tennessee Code Annotated section 55-8-154(a), which provides: “No person shall drive a motor vehicle at such a slow speed as to impede the normal and reasonable movement of traffic, except when reduced speed is necessary for safe operation or compliance with law.”

**The fine for disabled/handicapped parking violations is established by statute and will be adjusted to comply with state law.*

Appeals

Citations issued to students may be appealed, in writing, to the Student Government Association (SGA) within fifteen (15) working days of the issuance of the citation.

The SGA Senate hears student traffic and parking appeals at their bi-weekly senate meetings during the fall and spring semesters and at monthly meetings during summer terms.

- The SGA President shall chair the meeting with no voting rights.
- Voting shall be conducted only when quorum is present. A quorum is defined as a simple majority of the SGA Senate.
- The SGA Senate is comprised of the vice president, secretary, three (3) sophomore senators, three (3) freshman senators and one (1) SGA representative of each officially registered student organization for the academic year.
- SGA Senate shall make a recommendation to the Director of Student Life, no more than two (2) business days following the review for each parking ticket heard, using the Traffic and Parking Ticket Recommendation Form.
- The Director of Student Life shall review the recommendation and either concur with or deny the recommendation.
- The Director of Student Life shall sign in agreement or overriding the SGA’s recommendation and forward copies of the decision to the student and Business Services Office. The notification shall be mailed and/or emailed at the student’s request within two business days of the final decision.
- Students who disagree with the final decision of their appeal to the Senate and Director of Student Life shall have the opportunity to appeal to the Vice President for Student Services in writing and within five (5) business days of receiving the final decision. They shall be notified by mail and/or email per the student’s request within two business days of the final decision.

Appeals submitted while classes are not in session shall be heard by the Director of Student Life no more than fifteen (15) business days from the date of issue on the ticket. The student shall be notified by mail and/or email per the student's request within two business days of the final decision. That decision can be appealed to the Vice President for Student Services following the procedures listed above.

Visitors and employees may appeal traffic citations, in writing or in person with a copy of the citation, to the Campus Police Department in the Student Center Building within fifteen (15) working days of receiving the citation. The Campus Police Chief will make a decision on the validity of the citation after hearing and/or reading the appeal and will make a final determination within five (5) working days.

All decisions regarding traffic citations for visitors and employees may be appealed in writing to the Vice President for Student Services within two (2) business days of the previous determination.

- The Vice President for Student Services will obtain information from the Director of Environmental Health and Safety, regarding the previous appeal decision.
- The Vice President for Student Services will issue a decision, in writing, to the visitor or employee and Business Services Office, within five (5) working days of receipt of the appeal.

Accidents

All motor vehicle accidents involving injury to persons, equipment, cars, etc., must be reported immediately to the Campus Police Department at ext. 50244 or the Campus Police Officer on duty at (731) 225-5952.

This policy is promulgated pursuant to, and in compliance with, TBR Rule 0240-02-03-.05 Traffic and Parking. To the extent that a conflict exists between this policy and TBR rule, policy and/or applicable law(s), the TBR rule, policy and/or law will control. History – Adopted by TBR: 12/8/11. Effective: 1/29/12. Adopted by TBR: 3/28/14. Effective: 11/15/15.

Delinquent Library Material(s)/Billing

Students are responsible for returning library materials by the date due. If the materials are lost or damaged, charges will be imposed, consisting of the current replacement cost and a processing fee. In addition, a hold is placed on the student's file until either all fees are paid or the materials are returned. Students with this hold cannot register for the next semester, receive grades, or have transcripts forwarded to other institutions.

At the end of the semester, all delinquent library accounts are forwarded to the Business Office. If the student does not pay the fees when due, the Business Office charges additional late fees, which can reach a maximum of \$50.00. Failure to pay the Business Office will result in the bill being referred to a collection agency/credit bureau for collection of all fees.

Upon receipt of the Business Office billing, if the materials are returned undamaged before replacement materials are purchased, the replacement cost can be waived with approval from the Library Director. However, the processing fee of \$20.00 still must be paid.

Student Grievance Policy and Procedures

Policy

It is the policy of Jackson State to provide an orderly due process for students who believe that they have been subjected to unfair treatment by other students or by college employees. You may pursue the grievance process if you believe you have been unjustly subjected to threats or other conditions which may result in physical harm and/or emotional distress.

Procedures

You may file a grievance/complaint which relates to the following:

- Grades – See Grade Appeal Procedure.
- Discrimination/Harassment based on Disability – Students who believe that they have been subjected to discrimination or harassment because of a disability should contact the Dean of Students, Student Union Building, (731) 424-3520 ext. 50354.
- Sexual Discrimination/Harassment See Policy/Guidelines on Sexual and Racial Harassment. Students who believe that they have been subjected to sexual discrimination or harassment should contact the college's Affirmative Action Officer, Administration Building, (731) 425-2621.
- Racial Discrimination/Harassment – See Policy Guidelines on Sexual and Racial Harassment. Students who believe that they have been subjected to racial discrimination/harassment should contact the college's Affirmative Action Officer, Administration Building, (731) 425-2621.
- Complaints Relating to Other Students – See General Regulations on Student Conduct and Disciplinary Sanctions. Students wishing to file a complaint (grievance) against another student should contact the Dean for Students, Student Union, (731) 424-3520 ext. 50354.
- Complaints Relating to College Employees – A student wishing to file a complaint (grievance) against a college employee should use the administrative channels of communication in the order which follows: (1) director/dean of the unit providing the service; (2) appropriate vice president; (3) president of the college. The written complaint/grievance should be submitted to the appropriate college official within 15 working days of the incident and should include the name and address of the complainant and nature of the incident on which the complaint/grievance is based. Upon receipt, the appropriate college official(s) will investigate the validity of the complaint/grievance and, within 30 working days, render to the complainant a written determination of the complaint's validity and resolution. Additional information concerning filing a complaint (grievance) may be obtained from the Affirmative Action Officer, Administration Building, (731) 425-2621.

- Complaints Related to Accreditation or regarding Violations of State Law – Students or prospective students who wish to file a complaint related to accreditation or regarding violations of state law not resolved at the institution may submit a Student Complaint Form to the Tennessee Board of Regents at 1 Bridgestone Park, Nashville Tennessee 37214, or by going on line and filing out the form electronically at <http://www.tbr.edu/contact/StudentComplaintForm.aspx> . Under Tennessee’s open records law, all or parts of complaints will generally be available for review upon request from a member of the public. Complaints regarding accreditation can also be made by contacting the Commission of Colleges of the Southern Association of Colleges and Schools, 1866 South Lane, Decatur Georgia 30333 www.sacs.org .
- Complaints of fraud, waste or abuse may be made by email at reportfraud@tbr.edu or by calling the Tennessee Comptroller’s Hotline for Fraud, Waste and Abuse at 1-800-232-5454.

Student Activities

Jackson State’s student activities are intended to encourage the development of Jackson State students in areas identified by students and officially recognized student organizations and student groups through fees received from students through club involvement, on needs surveys, by campus data and national trends. The activities are developed with the purpose of promoting out-of-class learning opportunities, encouraging additional interaction with faculty, and fostering an environment of respect, individuality, diversity, and fun.

Student Activity Fee

The \$4 you pay each semester in Student Activity Fees goes to support the college’s student activities programming and the events and activities sponsored by Student Government Association, officially recognized clubs and organizations and student groups. Officially recognized organizations shall receive funding based upon the event or activity and compliance in the previous semester as outlined in this handbook.

The student activities are funded through the Activity Fee Allocation Committee, comprised by a diverse cross-section of current Jackson State students, faculty and staff. The Committee reviews Budget Request Forms submitted by student groups and officially recognized organizations develops the calendar of student activities each semester and members are expected to carry out event planning and to participate. Students interested in participating on the Activity Fee Allocation Committee should contact the Office of Athletics and Student Activities, in the Gymnasium Building (731) 425-2649.

Current College Organizations and Events

There are many other student organizations offering opportunities for you to get involved at Jackson State. These are some of the groups and events that reach out to our students each year, or are in the process of becoming official organizations:

Student Government Association (SGA)

- Art Club
- Biology Club
- Black Student Association
- Physical Therapist Assistant Club
- Phi Theta Kappa (National Honor Society)
- Spanish Club
- Student Nurses Association
- Veterans’ Club

Any additional information can be found on the JSCC website under Student Services link or Club Information Sheets can be found outside the SGA Office.

A Student Leadership Retreat for representatives of each officially recognized student club and organization and SGA is held during each fall semester to develop participants’ leadership and teamwork skills. Involvement in campus clubs and activities will help you grow as an individual; connect with other students, faculty and community leaders; foster your creativity; and provide memories to last a lifetime.

Organization Policies

Jackson State is committed to the principle that students should be encouraged to participate in worthwhile campus activities. The experience is enriched by participation in educational, social, cultural, physical, and professional programs.

Policies Governing Student Clubs and Organizations

In order for approved activities to be as fulfilling as possible and to provide for equitable and uniform administration, policies set forth by Tennessee Board of Regents Policy 3:01:01:00 and the following will apply to all officially recognized student clubs and organizations and activities they sponsor:

- A student organization may conduct its activities on the campus of Jackson State or at its off-campus centers only when Clubs are officially recognized by JSCC. The only exception to this policy is organizational meetings held with the permission of the Director of Student Life.
- Any organizational meetings must comply with all facilities usage policies described in TBR Policy 3:02:02:00.
- Organizations also are responsible and liable for the conduct and actions of all guests.
- Violations of this policy will be referred to the Director of Student Life for possible disciplinary action
- On- and off campus dances sponsored by a student organization will require the presence of an organization advisor and a minimum of two security guards.

Annual Registration of Organizations

In accordance with TBR Policy 3:01:01:00, each student club and organization must complete an Annual Registration Form each fall semester. All proposed activities listed by the club must be accompanied by a Budget Request Form for each activity. To obtain a copy of this form please contact the Director of Student Life or visit the Student Life website.

The Annual Registration Form and all other information outlined in the TBR Policy 3:01:01:00 must be submitted to the Director of Student Life by the end of the fifth Wednesday of the fall semester.

Annual renewal of registration of an active organization shall be dependent upon the organization's demonstration of compliance with policies and guidelines set by TBR and Jackson State.

An organization must:

- (a) Have minimum of eight (8) charter members is required for groups to maintain recognition by the Student Government Association and the college.
- (b) Submit an annual report of activities to the Student Life Office by the Friday of the third week in April of each year.
- (c) Submit an annual financial to the Student Life Office by the Friday of the third week in April of each year.
- (d) Must assist in at least one campus-wide activity sponsored by another organization or a JSCC department/division that has been properly approved by the Student Service Office.
- (e) Must sponsor at least one campus-wide activity of their own each semester that has been properly approved by the Student Life Office.
- (f) Must send at least one representative to the Annual Student Leadership Retreat.
- (g) Must have an SGA Representative attend each regularly scheduled SGA meeting. Expectations of SGA Club Representatives can be found in the SGA Constitution, Article VII.
- (h) Submit, to the Student Life Office, within seven days of enactment, a copy of each organization's constitution and bylaws and all subsequent amendments thereto.

Financial Responsibility

Officially registered clubs and organizations will be eligible for funding through the Activity Fee Allocation Committee provided the appropriate College requirements have been properly met. Clubs shall follow TBR Policies, as well as, the following JSCC policies:

- No organization may solicit funds from any outside person, business, or organization without written approval.
- Organizations must maintain financial accounts through an agency account in the college's Business Office.

Funding requests for club and organization sponsored events and activities must be submitted according to college policies, available in the Student Life Office.

Advisor Responsibility

Each organization must have a full time faculty or staff advisor who is employed full-time by the college. Exceptions to full-time status may be made by the Student Life Office.

Administratively, student organizations are under the general supervision of the Student Life Office. Advisors shall help the officers develop a strategic plan for service to the College and the Jackson community.

Club advisors shall follow TBR Guidelines S-030.

Should the advisor resign from the college or the organization, the group will have two weeks to identify a new advisor before losing related privileges. Extensions will be granted by the Student Life Office only when evidence is presented that a concerted effort to identify a new advisor has failed.

Procedure and Policies for Becoming a Recognized Student Organization

In order to become officially registered as a student organization, a group must abide by the policies set forth by JSCC and TBR Guidelines and Policies.

Students interested in forming an officially recognized organization must complete a Student Group Interest Form. This form is available from the Student Life Office or online on the Student Life website. A constitution and bylaws must be submitted with the Student Group Interest form. The Student Life Office shall examine each application and reject those not submitted in proper form.

One copy of the foregoing documents and information must be submitted to the Student Life Office to review and make recommendations concerning proposed organizations. Preliminary approval recommendations regarding registration of a proposed organization will be made by the Student Life Office. Sponsors may be required to clarify any materials or information provided in the registration process, to resubmit the application or request with non-conforming materials or provisions deleted, or to appear at a hearing for the purpose of obtaining additional information and testimony concerning the purposes, aims or proposed activities of the organization.

Approval by the College is necessary before the organization can be officially registered.

Disciplinary Action Against a Student Organization

Student organizations are expected to adhere to the same requirements outlined in the General Regulations on Student Conduct and Disciplinary Sanctions found in this handbook.

The investigation of violations, imposition of sanctions, and appeal of imposed sanctions shall be the same as outlined in the General Regulations on Student Conduct and Disciplinary Procedures.

Student Government Association

The Student Government Association (SGA) is the chief student governing body of Jackson State. SGA is responsible for representing the collective needs, ideas, and concerns affecting students. The SGA facilitates communication with administration and faculty to address campus improvement. In addition, SGA works to promote school spirit, cultivate student leadership, secure student enrichment programming and encourage student participation. All registered students are SGA members. Each spring term, general campus elections are conducted to elect the President, Vice President, Secretary/Treasurer and Sophomore Senators. Freshman Senators are elected each fall term. For more details, contact the Student Life Office. A copy of the current SGA Constitution and/or Candidacy Petition can be obtained in the following locations:

- Student Life Office located in the Student Center
- Student Government Office in the Student Center
- Student Government Association website.

Divisive Concepts and Freedom of Expression

This notice is intended to comply with the Tennessee Higher Education Freedom of Expression and Transparency Act (the “Act”) and to reflect the Board of Regents’ and institutional commitment to freedom of speech and academic freedom.

I. Definitions

A. Divisive Concept means a concept that:

1. One (1) race or sex is inherently superior or inferior to another race or sex;
2. An individual, by virtue of the individual's race or sex, is inherently privileged, racist, sexist, or oppressive, whether consciously or subconsciously;
3. An individual should be discriminated against or receive adverse treatment because of the individual's race or sex;
4. An individual's moral character is determined by the individual's race or sex;
5. An individual, by virtue of the individual's race or sex, bears responsibility for actions committed in the past by other members of the same race or sex;
6. An individual should feel discomfort, guilt, anguish, or another form of psychological distress solely because of the individual's race or sex;
7. A meritocracy is inherently racist or sexist, or designed by a particular race or sex to oppress another race or sex;
8. This state or the United States is fundamentally or irredeemably racist or sexist;
9. Promotes or advocates the violent overthrow of the United States government;

10. Promotes division between, or resentment of, a race, sex, religion, creed, nonviolent political affiliation, social class, or class of people;

11. Ascribes character traits, values, moral or ethical codes, privileges, or beliefs to a race or sex, or to an individual because of the individual's race or sex;

12. The rule of law does not exist, but instead is a series of power relationships and struggles among racial or other groups;

13. All Americans are not created equal and are not endowed by their Creator with certain unalienable rights, including, life, liberty, and the pursuit of happiness;

14. Governments should deny to any person within the government's jurisdiction the equal protection of the law;

15. Includes race or sex stereotyping; or

16. Includes race or sex scapegoating.

B. Faculty means any person, whether or not the person is compensated by the institution, and regardless of political affiliation, who is tasked with providing scholarship, academic research, or teaching. "Faculty" includes tenured and non-tenured professors, adjunct professors, visiting professors, lecturers, graduate student instructors, and those in comparable positions, however titled. "Faculty" does not include persons whose primary responsibilities are administrative or managerial.

C. Race or sex scapegoating means assigning fault, blame, or bias to a race or sex, or to members of a race or sex, because of their race or sex, and includes any claim that, consciously or subconsciously, and by virtue of a person's race or sex, members of a race are inherently racist or inclined to oppress others, or that members of a sex are inherently sexist or inclined to oppress others.

D. Race or sex stereotyping means ascribing character traits, values, moral and ethical codes, privileges, status, or beliefs to a race or sex, or to an individual because of the individual's race or sex.

II. Freedom of Speech, Freedom of Expression, and Academic Freedom

A. Nothing in this notice or the Act shall be interpreted to:

1. Infringe on freedom of speech protected by the First Amendment to the United States Constitution, the Tennessee Constitution, or the Tennessee Campus Free Speech Protection Act, as explained in [Freedom of Speech and Expression : 1.03.02.60 | policies.tbr.edu](https://policies.tbr.edu/1.03.02.60);
2. Infringe on the rights of academic freedom of faculty and other instructors as protected by the First Amendment to the United States Constitution, the Tennessee Constitution, or the Tennessee Campus Free Speech Protection Act, as explained in [Freedom of Speech and Expression : 1.03.02.60 | policies.tbr.edu](https://policies.tbr.edu/1.03.02.60);
3. Require an employee to:
 - a. Violate any federal or state law, rule, or regulation; or
 - b. Fail to comply with any applicable academic accreditation requirement;

4. Prohibit an institution from training students or employees on the non-discrimination requirements of federal or state law; or
5. Prohibit an institution from promoting diversity, equity, and inclusion, provided that those efforts are consistent with State law.

III. Prohibited Activity

- A. Neither the institution nor any employee shall penalize, discriminate against, or engage in any adverse treatment due to a student's or employee's refusal to support, believe, endorse, embrace, confess, act upon, or otherwise assent to one or more divisive concepts.
- B. Neither the institution nor any employee shall require a student or employee to endorse a specific ideology or political viewpoint to be eligible for hiring, tenure, promotion, or graduation.
- C. Neither the institution nor any employee shall ask the ideological or political viewpoint of an applicant for admission, student, job applicant, job candidate, or candidate for promotion or tenure. This Section shall not be construed to prohibit classroom instruction or discussion, to prohibit any other teaching or pedagogical activity, to interfere with academic freedom, or to violate the Campus Free Speech Protection Act, as explained in [Freedom of Speech and Expression : 1.03.02.60 | policies.tbr.edu](#).

IV. Investigation and Resolution of Complaints

- A. A student or employee who believes that the institution or an employee has engaged in Prohibited Activity may file a complaint by submitting a complaint to [Submitting a Comment, Complaint or Request | Tennessee Board of Regents \(tbr.edu\)](#).
